## Agricultural Statistics

Annual statistics were collected each year of crops acreages and livestock numbers from 1847. The spatial units used by the census enumerators were as follows:

The database holds agricultural data for each year from 1847 to 1871 thereafter data is decennial by which time information was no longer collected for baronies.

## Baronies of Ireland 1821-1891

Baronies are sub-division of counties their administrative boundaries being fixed by the Act 6 Geo. IV., c 99. Their origins pre-date this act, they were used in the assessments of local taxation under the Grand Juries. Over time many were split into smaller units and a few were amalgamated. Townlands and parishes - smaller units - were detached from one barony and allocated to an adjoining one at various intervals. This the size of many baronies changed, albeit not substantially. Furthermore, reclamation of sea and loughs expanded the land mass of Ireland, consequently between 1851 and 1861 Ireland increased its size by 9,433 acres. The census Commissioners used Barony units for organising the census data from 1821 to 1891. These notes are to guide the user through these changes. From the census of 1871 to 1891 the number of subjects enumerated at this level decreased

In addition, city and large town data are also included in many of the barony tables. These are :  
The list of cities and towns is as follows:

Dublin City  
Kilkenny City  
Drogheda Town\*  
Cork City  
Limerick City  
Waterford City  
Belfast Town/City (Co. Antrim part)\*\*  
Belfast Town/City (Co. Down part)  
Carrickfergus  
Galway Town

There are particular problems with two towns, Belfast and Drogheda. Both span county boundaries For some variables values for the whole town have been used and for other variables the values have been presented according to the county in which part of the town is located. To explain in more detail the notes below should be of help.

### Town/city of Belfast

Town of Belfast spans counties Antrim and Down

1821 Population figures for the town of Belfast are available but they are included in the total barony figures in which it is located and therefore are not included in order to prevent double counting when aggregated. For users interested Belfast population statistics for 1821 and 1831 see notes on population.

1831 Only data for occupations at county level.

1841 The Belfast town data are presented in two ways:

A (i) Belfast town (part of):

(a) Knockbreda parish, (part of) } within the municipal boundary.

(b) Shankill parish, (part of) }

(ii) Belfast town (part of):

(b) Shankill parish, (part of) } without the municipal boundary.

- B (i) Belfast town (part of, 1296 acres) in county Antrim.  
 (ii) Belfast town (part of, 576 acres) in county Down.

C Belfast town, whole (aggregating the statistics of counties Antrim and Down, area of 1872 acres).

We have used either B or C in the database as appropriate.

- 1851 Same as 1841  
 1861 Area of the town expanded to 5637 acres. Figures exclude Merchant and Royal Navy seamen.  
 1871 Belfast Municipal Borough, area expanded to 5991 acres.  
 1881 Same as 1871  
 1891 Same as 1871

### **City of Dublin/Suburbs of Dublin.**

The census year of 1861 presents for the first time statistics for the suburbs of Dublin. They are :

Castleknock suburb  
 Coolock suburb  
 Dublin suburb  
 Rathdown suburb  
 Uppercross suburb

These areas were formerly part of the Baronies in County Dublin of the same name, which by 1861 were reduced in size as a consequence of a portion on the periphery of Dublin being designated Dublin suburbs.

Statistics at this level occurs for a limited number of variables, and so it is important to check.

By 1871 a new survey of county Dublin had taken place. The Baronies area units were changed and Dublin suburbs had vanished being subsummed in the City of Dublin

### **County of the Town/Town of Drogheda**

County of the Town of Drogheda has boundaries adjacent to counties Louth and Meath

- 1821 composed of (a) St Mary parish  
 (b) St Peter parish  
 (c) Ballymakenny parish (part of) remainder in the barony of

Ferrard, Louth county

1831 As 1821

### Town of Drogheda

- 1841 composed of (a) St Mary parish (part of, area - 184 acres) remainder in the barony of Drogheda, County Meath  
 (b) St Peter parish (part of, area - 288 acres) remainder in the barony of Drogheda, County Louth

The part of the parish of Ballymakenny and the rural portions of the parishes of St Mary and St Peter, which hitherto formed part of the county of the town of Drogheda are now included in the returns of the adjoining counties. A footnote indicates that the remainder of the municipal town of Drogheda is in the parish of Tullyallen, barony of Ferrard, county of Louth, though no statistical data is included for this part of the town with the rest of Drogheda Town figures.

- 1851 composed of (a) St Mary parish (part of, area - 184 acres) remainder in the barony of Drogheda, County Meath  
 (b) St Peter parish (part of, area - 288 acres) remainder in the barony of Drogheda, County Louth  
 (c) Tullyallen parish(part of, area - 25 acres) remainder in the barony of Ferrard, County Louth
- 1861 composed of (a) St Mary parish (part of, area - 145 acres) remainder in the barony of Drogheda, County Meath  
 (b) St Peter parish (part of, area - 270 acres) remainder in the barony of Drogheda, County Louth  
 (c) Tullyallen parish(part of, area - 26 acres) remainder in the barony of Ferrard, County Louth, and in the Barfony of Slane Upper, County Meath.
- 1871 Called County of the Town of Drogheda A new survey of County Louth and the County of the Town of Drogheda was done since the previous census, hence modification in the size of the town. Now measures 453 acres
- 1881 Same as 1871
- 1891 Same as 1871

## NOTES ON ELECTORAL DIVISIONS

Electoral divisions were sub-divisions of Poor Law Unions. the Poor Law Relief (Ireland) Act provided for the dividing of unions into Electoral Divisions. In 1846 there were 2,049 Electoral Divisions, though this number was increased to 3,404 in 1850, and by 1851 further subdivision increased the total number to 3,439 Electoral Divisions. As some Poor Law Unions spanned county boundaries, so too did a number of Electoral Divisions.

Only a small number of variables over a very limited period of time have been included at Electoral Division level. Their inclusion reflects the importance of the Great Famine in nineteenth century Irish history. The variables are:

AGRICULTURAL STATISTICS - crops data exist at Electoral Division only for the years of 1847, 1848, 1849, 1850, 1851. Each year is unique in some aspect, and therefore the user needs to be very careful in using the data. The enumerators classed the data for 1847-1850 according to the Counties and Poor Law Unions in which the Electoral District was located. The 1851 data presented according to the Poor Law Unions in which the electoral district was located

**GUIDE TO ELECTORAL DIVISION NAMES, CODES AND DATES WHEN THEY EXISTED**

The presentation of the Agricultural Statistics at Electoral Division level changes over time (1847-1851). The arrangement of data for the first year (1847) is the simplest with place name and crop acreages only. For 1848, 1849 and 1850 the electoral divisions are presented under the county and Poor Law Union in which they were located. Thus, where an Electoral Division straddled county boundaries the data are deaggregated into the part of the Electoral Division which applied to the county in which it was located. For example, Edmondstown Electoral Division, in the Poor Law Union of Castlereagh spanned two counties, part in County Mayo and part in County Roscommon, and so it has two codes. When aggregated these constitute values for the entire Electoral Division.

As already pointed out in 1851 the census presentation was in a different format, data appear for the entire Electoral Division as one unit, thus a third code had to be created, related to the county in which the larger area was located.

The coding scheme is a development of the county code to which has been added a Poor Law Union code followed by an Electoral Division code. Hence, using the Electoral Division of Edmondstown as an example, the codes are as follows:-

The Electoral Division of Edmondstown is in the Poor Law Union of Castlereagh and Counties of Mayo and Roscommon.

1850

COUNTY ROSCOMMON CODE = CC04  
 POOR LAW UNION CODE FOR CO. ROSCOMMON PORTION OF CASTLEREAGH = CC04PL05.  
 ELECTORAL DIVISION CODE FOR CO. ROSCOMMON PORTION =  
 CC04PL05E20

COUNTY MAYO CODE = CC03  
 POOR LAW UNION CODE FOR CO. MAYO PORTION OF CASTLEREAGH = CC03PL05  
 ELECTORAL DIVISION CODE FOR CO. MAYO PORTION =  
 CC03PL05E05

1851

Since a larger portion of Edmondstown is located in County Mayo the 1851 code is based on a Co. Mayo code = CC03PL05 with the unique identifier of E06. Thus, the entire code is CC03PL05E06. There are many Electoral Divisions which span county boundaries and therefore require a code specific to the 1851 data. It is important therefore to refer to the code book and check both codes and years.

The table below is a guide through this minefield.

Where there are blanks it indicates that the Electoral District did not exist in that year or years

## Agriculture: Crops (Electoral Division)

### Special points about the presentation of the Crop data at Electoral Division level for each year and the Ingres table structures.

#### Introduction

We have checked the database figures against those in the census. Despite that values being keyed in twice into a verification programme some errors have slipped through. Aggregate values at the county level have been used as a test of accuracy, except for the year 1851. We have discovered when searching for errors cases of printers' errors and arithmetic mistakes by clerks, nevertheless we realize that some errors may have slipped through our net. The year 1851 has proved impossible for us to check using this method because of the change in the presentation of the data. As all data were inputted by using a software package specially designed for the task and employing a double keying varification technique we are fairly confident that the error level is small.

#### Crops - 1847

Data were not presented according to the holding size, unlike subsequent years. Area in statute acres, population in 1841, and Poor Law valuation for each electoral division is given. (See table below)

#### Additional Notes

##### Union of Dingle Electoral Divisions.

Union of Dingle was not created until 1848. For 1847 the Electoral Divisions of this union were attached to the Union of Tralee.

##### Electoral Division of Athlone

Electoral Division of Athlone is in the County of Roscommon in the Agricultural Statistics of 1847, 1848, 1849. In 1850 its size was altered and part was allocated to County Roscommon and part to

County Westmeath. For the 1851 statistics the two parts were aggregated to form one unit in County Roscommon.

**Crops - 1848**

From 1848 the data were subdivided according to holding size

- (i) Holdings not exceeding 1 acre
- (ii) Holdings above 1 acre and not exceeding 5 acres
- (iii) Holdings above 5 acre and not exceeding 15 acres
- (iv) Holdings above 15 acre and not exceeding 30 acres
- (v) Holdings above 30 acres

### **Additional Notes**

#### Electoral division of Munsterconnaught

Electoral Division of Munsterconnaught (in the Poor Law Union of Oldcastle) is listed as being in County Meath in the Agricultural Statistics of 1850. However, in the aggregate figures of 1850 Munsterconnaught data have been included into the County Cavan figures. In 1851 Agricultural Statistics the Munsterconnaught data are listed in County Cavan.

#### Electoral Division of Athlone

Electoral Division of Athlone is in the County of Roscommon in the Agricultural Statistics of 1847, 1848, 1849. In 1850 its size was altered and part was allocated to County Roscommon and part to County Westmeath. For the 1851 statistics the two parts were aggregated to form one unit in County Roscommon.

#### Granard Union

The aggregation of oat acreage of the Electoral Divisions in the Poor Law Union of Granard there is an error of 100 (7240 acres instead of 7140 acres).

#### County Wicklow

(a) The database aggregation for acreage of oats in the county of Wexford does not correspond to that in the agricultural statistics - 87304 in database, 78304 in Agri. Statistics. After numerous checks we have come to the conclusion that there either a computational or printer's error.

(b) There is an aggregational error in the acreage of flax in the Electoral Division of Adamstown in the Poor Law Union of New Ross. It should be 528 instead of 428 acres.

## Crops - 1849

The presentation of the 1849 crop data are similar to those of 1848 with the following exceptions.

(i) Some crops of which there was a small acreage have been amalgamated (See above table).

(ii) Areas which were excluded in 1848 because of the Famine crisis have been included. Also note that for comparative purposes the unions which failed to submit statistics in 1848 have been omitted in the summary tables of the Prefatory Remarks.

### Additional Notes

#### Electoral Division of Athlone

Electoral Division of Athlone is in the Co. of Roscommon in the Agricultural Statistics of 1847, 1848 and 1849. In 1850 its size was altered, part was allocated to Co. Roscommon and part to Co. Westmeath. For 1851 statistics the two parts were aggregated to form one unit in Co. Roscommon.

#### Co. Clare

There is an error in the total value of wheat acreage, it is given as 13044 acres, but should read 13405 acres.

#### Co. Dublin

There is a difference of 150 acres oats between the census aggregate for the county and the database aggregation.

#### Co. Cork

The aggregate acreage of Meadow & Clover in the Poor Law Union of Fermoy as presented in the table of Electoral Districts for that union is 10505 acres, while the acreage given in the General Union Table for Fermoy is 10370 acres.

## Crops - 1850

The range of crop data presented is the same as for 1849. During 1849 boundary changes were being implemented so that by 1850 in many areas major alterations had occurred. In some Poor Law Unions a numbers of its existing Electoral divisions disappeared, being transferred to another Union, or alternatively vanish altogether being subsumed into another Electoral Division. This major revision in the Electoral Divisions increases the complexity of using the dataset.

#### Electoral Division of Athlone

Electoral Division of Athlone is in the County of Roscommon in the Agricultural Statistics of 1847, 1848, 1849. In 1850 its size was altered and part was allocated to County Roscommon and part to County Westmeath. For the 1851 statistics the two parts were aggregated to form one unit in County Roscommon.

#### Electoral Division of Munsterconnaught.

Electoral Division of Munsterconnaught is listed as bing in County Meath though in the aggregate figures data from this electoral division has been added into County Cavan data.

**Crops - 1851**

The presentation of the crops data for the year 1851 is different to any of the preceding years.

- (a) The range of crops is expanded. ( See above table)
- (b) The number of holding sizes is expanded.
- (i) Holdings not exceeding 1 acre
  - (ii) Holdings above 1 acre and not exceeding 5 acres
  - (iii) Holdings above 5 acres and not exceeding 15 acres
  - (iv) Holdings above 15 acres and not exceeding 30 acres
  - (v) Holdings above 30 acres and not exceeding 50 acres
  - (vi) Holdings above 50 acres and not exceeding 100 acres
  - (vii) Holdings above 100 acres and not exceeding 200 acres
  - (viii) Holdings above 200 acres and not exceeding 500 acres
  - (ix) Holdings above 500 acres
- (c) The presentation of the Electoral Divisions is different,. There is no county allegiance in this crop data, thus where an Electoral Division spans two or more county boundaries there is no way to deaggregate the crops acreages and apportion to the relevant county as in previous years. The only recourse we had, therefore, was to allot a spatial code representing the county in which the larger portion of the electoral division was located. (See notes later in this document on 'GUIDE TO ELECTORAL DIVISION NAMES, CODES AND DATES WHEN THEY EXISTED') Unfortunately area, valuation and population values were not presented alongside the crops data, instead they were placed in a separate table at the end of each Poor Law Union and furthermore where electoral divisions were divided by county boundaries these values were also split. For this reason we have not attached these data.

Electoral Division of Athlone

Electoral Division of Athlone is in the County of Roscommon in the Agricultural Statistics of 1847, 1848, 1849. In 1850 its size was altered and part was allocated to County Roscommon and part to County Westmeath. For the 1851 statistics the two parts were aggregated to form one unit in County Roscommon.

Electoral Division of Munsterconnaught.

Electoral Division of Munsterconnaught is included in the County Cavan data.

## Notes on Poor Law Unions 1841-1911 (Ireland)

Various themes are available in the database at the spatial level of the Poor Law Union, ranging from population and housing numbers to acreages of crops and stock numbers. First, comments and notes about Poor Law unions. The Irish Poor Law was passed in 1838 and over the subsequent years the union network was set in place. Initially there were many changes, splitting of unions and reorganisation of boundaries, and so to aid with these modification over time the following notes have been prepared.

Poor Law data are presented in two ways:

1. Some data are presented for the entire union.
2. Other data are presented related to the county. Since some poor law unions straddle one or more county boundaries data will only be presented for the portion of the union in that county. For the remainder of the union one has to go to the county or counties in which the rest of the union is located. This method of presentation is used in the Censuses and a knowledge of the county allegiance is necessary for the data relating to crops at electoral division level (See notes on Electoral Divisions). Thus if data are presented attached to its county it is necessary to aggregate the various segments to make up the entire union.

For example, part of the Union of Lisburn is in County Antrim, the remainder is in County Down, thus where data are presented according to counties the figures for the County Antrim segment have to be added to the County Down segment to give data for the entire union. To accommodate the two ways Poor Law Union data have been presented two coding schemes have been devised. Where data pertains to the entire union the codes are presented in table: POOR\_LAW\_ID. Where data relates to the unions as defined by the county codes have been created to tag unions to the part of the county the data applies. To guide the user through the county/unions see TABLE: POOR\_LAW\_COUNTY\_ID

Using the Poor Law Union of Lisburn the area of which straddles two counties the coding would be as follows:

when data relate to the entire union the code is PLU100.

When data relate to County Antrim that portion of the union is coded UC01PL08, and the County Down portion is coded UC05PL05.

The network of unions started with 130. By 1848 one additional union was created, Dingle, formed from the union of Tralee. By 1850 a further 24 unions were added, carved out of several existing unions which were considered to be too large for administration during the famine crisis. Initially 24 new unions were created - Belmullet, Killala, Dromore West, Newport, Oughterard, Skull, Castleton, Clonakilty, Tulla, Killadysert, Corrofin, Ballyvaughan, Portumna, Mountbellew, Glennamaddy, Strokestown, Claremorris, Tobercurry, Glin, Croom, Millstreet, Mitchelstown, Bawnboy and Ballymahon. To this number were added

a further 8 unions, Borrisokane, Donaghmore, Castlecomer, Kilmacthomas, Tomastown, Urlington, Youghal, Castletown[devlin].

From 1851 onwards the number of unions remained fairly stable, modifications being minor. The following table will help in unravelling the changes over the period 1841-1911. Population (collected from the census) and Agricultural Statistics have been collected at this spatial level. Since the census data are collected every tenth year and the agricultural statistics annually the latter had many more boundary changes in the early years of the data collection (1847-1850). Furthermore since all the unions of the Poor Law were not fully operational by the time of the 1841 census data for this census at that spatial level are found in the 1851, printed next to the 1851 census information, thus aiding comparison.

**Table showing changes which occurred in Poor Law Boundaries between 1841 and 1911**
