2nd QUARTER 1997

LONG HAUL SAMPLE

SAMPLING INTERVAL 1 in 25

<u>ARRIVAL</u>	<u>DEPARTURE</u>
732 WEDNESDAY 18th JUNE (approx 15.00)  QUEEN ELIZABETH II at Southampton.	733 SATURDAY 12th APRIL (approx 15.00)  QUEEN ELIZABETH II from Southampton.

ONS,  
1 Drummond Gate,  
London SW1V 2QQ.

# **INTERNATIONAL PASSENGER SURVEY**

## **CHANNEL TUNNEL SAMPLING**

**2ND QUARTER 1997**

CHERITON-COQUELLES : FREIGHT SHUTTLES

ROUTE 51

2nd QUARTER 1997

Shuttle times are given in 'Concession time' = French time, which is one hour ahead of UK time this quarter.

SAMPLING INTERVALS : Depend on passenger volume.  
See Freight Contact Sheet.

DATE	DEPART CHERITON	DEPART COQUELLES

808 SUNDAY 29th JUNE	15.39 17.39	16.39 18.39

# Thursday 29th May

- 1). At Cheriton, the train crew 'signs on' approx 45 mins before the train departs. Leave with the train crew. Stay with the crew until you complete two 'out and backs'.
- 2). Concession times shown above are estimates and subject to change by Eurotunnel at short notice/on the day. Check with the office for the latest info before your shift.
- 3). Shift times of shuttles are always coded AM/PM/NIGHT (Q98) based on the Concession time (not UK time) the train arrives/departs Cheriton.

AM shifts	=	07.00 - 13.59	] Concession time
PM shifts	=	14.00 - 21.59	
NIGHT shifts	=	22.00 - 06.59	

CHERITON-COQUELLES : SINGLE-DECK VEHICLE SHUTTLES

ROUTE 52

2nd QUARTER 1997

Shuttle times are given in 'Concession time' = French time, which is one hour ahead of UK time this quarter.

IF THERE IS NO SINGLE-DECK SHUTTLE AT THE START OF A SHIFT, WAIT FOR ONE RATHER THAN SAMPLING A DOUBLE-DECK SHUTTLE.

SAMPLING INTERVALS : DEPEND ON PASSENGER VOLUME

# **INTERNATIONAL PASSENGER SURVEY**

## **CHANNEL TUNNEL SAMPLING**

**1ST QUARTER 1997**

CHERITON-COQUELLES : FREIGHT SHUTTLES

ROUTE 51

1st QUARTER 1997

Shuttle times are given in 'Concession time' = French time, which is one hour ahead of UK time this quarter.

SAMPLING INTERVALS : Depend on passenger volume.  
See Freight Contact Sheet.

DATE	DEPART CHERITON	DEPART COQUELLES
801 SUNDAY 12th JANUARY	15.39 17.39	16.39 18.39
802 THURSDAY 23rd JANUARY	07.09 11.09	10.09 12.09
803 MONDAY 3rd FEBRUARY	14.09 16.09	15.09 17.09
804 FRIDAY 14th FEBRUARY	18.09 20.09	19.09 21.09
805 SATURDAY 22nd FEBRUARY	08.21 10.21	09.21 11.21
806 WEDNESDAY 5th MARCH	15.09 17.09	16.09 18.09
807 FRIDAY 14th MARCH	21.39 *00.09	22.39 *01.48
808 TUESDAY 25th MARCH	06.58 09.09	08.09 10.39

\* Saturday 15th March

- 1). At Cheriton, the train crew 'signs on' approx 45 mins before the train departs. Leave with the train crew. Stay with the crew until you complete two 'out and backs'.
- 2). Concession times shown above are estimates and subject to change by Eurotunnel at short notice/on the day. Check with the office for the latest info before your shift.
- 3). Shift times of shuttles are always coded AM/PM/NIGHT (Q98) based on the Concession time (not UK time) the train arrives/departs Cheriton.

AM shifts	=	07.00 - 13.59	] Concession time
PM shifts	=	14.00 - 21.59	
NIGHT shifts	=	22.00 - 06.59	

**CHERITON-COQUELLES : SINGLE-DECK VEHICLE SHUTTLES**

**ROUTE 52**

**1st QUARTER 1997**

Shuttle times are given in 'Concession time' = French time, which is one hour ahead of UK time this quarter.

IF THERE IS NO SINGLE-DECK SHUTTLE AT THE START OF A SHIFT, WAIT FOR ONE RATHER THAN SAMPLING A DOUBLE-DECK SHUTTLE.

SAMPLING INTERVALS : DEPEND ON PASSENGER VOLUME

# A NOTE ON CHANGES TO THE IPS QUESTIONNAIRE IN 1997

## 1. Summary of main changes

The following are the main changes for the 1997 survey. Interviewer instructions are given in the next sections.

### Items not on the 1997 survey

- Question on frequency of visit
- English language course question
- Question on other European countries visited
- Travel Trends

### New questions on the 1997 survey

- Expenditure trailer
- Questions to long stay visitors
- Distance travelled by UK vehicle drivers

### Changes to questions

- New countries for 'states of residence'  
USA  
France  
Germany  
Italy
- Migrant questions reinstated on main sea and Eurostar questionnaires
- Cosmetic changes to employee trailers

### Other

- Changes to coding frames resulting from Local Government Reform

## **2. Items not on the 1997 survey**

- 2.1 The question on frequency of visit will be dropped. This affects foreign residents on departure.
- 2.2 The English language course question will be dropped. This affects foreign residents (who are nationals of non-English speaking countries) on departure.
- 2.3 The question on other European countries visited will be dropped. This affects non-European residents on departure.
- 2.4 The Travel Trends trailer will be dropped. This affects all flows on the sea and tunnel and departures only at selected residual airports.

### 3. Details of new items

#### 3.1 Expenditure Trailer

Comprehensive instructions are attached. We will be carrying out the Expenditure Trailer on foreign departures at a sub-sample of 1 in 10 at all sites except:

- QE2
- Freight Shuttle
- Harwich foot/ coach departures

The first two of these are by client request. The trailer and instructions are essentially a repeat of the 1992/93 Expenditure Trailer with a few minor changes.

## 3.2 Q16a (Air/sea/tunnel arrivals and departures) Long Stay Visitors

### Overview

The IPS currently collects information on migration into and out of the UK. The definition of a migrant is either a foreign resident whose intended length of stay in the UK is 12 months or longer or a UK resident whose intended length of stay abroad is 12 months or longer.

**We will still collect migrant information in 1997 with no changes whatsoever in definitions.**

Our migration client has asked us to collect information for 'long stay visitors' who have an intended length of stay of more than 6 months but less than one year. This will help in reconciling IPS data with the Home Office definition of a visitor. (The Home Office defines a visitor as someone who will stay in the UK for up to 6 months). It will also assist in comparisons of UK migration figures with those of other European countries, who use different definitions.

On long stay visitors' **first** departure from or first arrival in the UK within their overall visit they will be asked some of the additional questions we currently ask of migrants. They will not be asked the equivalent of the migrant money section.

### Interviewer Instructions

All UK residents leaving the UK and foreign residents arriving in the UK with reasons for visit 01-92 or 95-98 are asked Q16, their intended length of stay abroad or in the UK. There is now a supplementary question at Q16a, to be asked of all contacts with intended length of stay of less than a year. (Note that this supplementary question will not for the moment be asked of respondents who have completed a Student or Employee trailer).

If the contact has temporary admission, it is the contact's intention, not the formal permit, that is relevant to the IPS.

**As before, if the initial answer is in the range 6-11 months, ask if the stay could extend to 12 months and, if so, ring code 7 at question 16 and proceed with all the migration questions (Qs 17 to 28).**

If the initial answer is over 6 months but under a year and the contact replies that the stay will not extend to 12 months, ring code 1 at Q16 and establish whether this is the first arrival/ departure within the overall visit to the UK/ abroad (see further discussion below). If it is then ring code 1 at Q16a and proceed with questions 17a to 24a **on side 3** of the schedule.

If the contact is unsure how long he will stay, first ask whether his stay could extend to 12 months. If he says it will not, follow this by asking whether it could extend to over 6 months. If he replies that it could, code as 1 at Q16 and again establish whether this is the first arrival/departure within the overall visit to the UK/ abroad. If it is ring code 2 'DK, possibly more than 6 months' at Q16a and proceed with questions 17a to 24a on side 3 of the schedule.

### *Overall visits*

We are interested in the number of people who stay in the UK or go abroad for more than 6 but under 12 months, not in the number of visits to the UK/ abroad they make in this period. For this reason, we only want to capture the first arrival/ departure at Q16a. For example consider a French student who comes to the UK for under a year to improve her English. She arrives for the first time in September, intending to stay until July of the following year. At this point she would be coded 1 at Q16a and asked questions 17a to 24a. She goes home at Christmas and returns in January. At this point she is intending to stay a further 6 and a half months, but as this is not her first arrival within the overall visit, we record '3' at Q16a and do not ask Qs 17a to 24a.

Similar patterns may be found among contract workers.

### *Qs 17a to 24a*

The instructions for these questions are the same as for Qs 17 to 24 with a one exception:

#### *Q 17a (Arrivals)*

If the contact will be living in more than one town during the period they intend to remain in the UK, record the town in which they will spend most time. If they intend to spend equal times in each, record the first they will live in. If the town is not yet known ask for any details known so far by the contact.

### 3.3 Q81/81a/81b (Sea and Shuttle arrivals) Distance travelled abroad by UK vehicle drivers

#### Overview

The Department of Transport wants to know how many kilometres UK vehicles travel abroad. This is the mirror image of a question we asked on the 1995 survey, where we wanted to know the number of kilometres foreign vehicles travelled in the UK. Department of Transport household-based surveys ask respondents to estimate the total vehicle kilometres that they drive annually. In order to estimate mileage driven solely in Great Britain it is necessary to know how much of this total was driven abroad. Q81 will provide an estimate of this figure.

#### Eligibility

Q81 must only be asked of UK (resident) vehicle - drivers. If we asked the question of all UK resident arrival contacts travelling with a vehicle, vehicles containing groups of two or more passengers would have a greater chance of selection than those with one passenger. If we only interview the driver, each vehicle has the same probability of selection.

Note that drivers of lorries and coaches are **ineligible** for this question. This is shown on the schedule at Q81.

Some vehicles will have more than one driver, so 'driver' will be defined as the person who drove, or will drive or is driving the vehicle onto the ferry/ Shuttle.

At quayside sites drivers are easily identified. On board ferries and possibly on the Shuttle you will have to ask UK resident contacts who are travelling with a vehicle (other than a lorry or coach) on board:

'Did you drive your vehicle onto the ferry/Shuttle?'

If they didn't, ring 'Y' (UK - not vehicle driver) at question 81 and go to question 94. If they did drive the vehicle, ask questions 81a and if necessary 81b.

The DoT is not interested in UK residents driving foreign hired cars. The question is concerned with vehicles which would not have gone abroad if their drivers had not driven them there. Contacts are unlikely to drive foreign hired cars onto the shuttle or ferry, but they could have driven one during their visit, if say their own vehicle had broken down. Note that the Shuttle operates 'Le Swap' where contacts drive a hired UK vehicle onto the Shuttle and swap it for a left-hand drive car at Coquelles. Although these contacts will be driving a UK registered car when interviewed, we are not interested in their mileage driven abroad as this will almost exclusively be in a foreign vehicle.

Note that a UK resident contact could be a foreign national driving a car with foreign number plates. If they are resident in the UK (and the car is not a hired vehicle) they are eligible for

the trailer. According to the DoT, such a car would have to be registered in the UK and so counts as a UK vehicle.

### Interviewer Instructions

**Q81** This determines whether or not the contact is eligible for the UK vehicle driver question. You should ring the appropriate code.

**Q81a** At question 81a our client wants to know how many kilometres UK owned vehicles have travelled abroad since their departure date. We require the final answer in kilometres, however most UK residents think in terms of miles and you should ask for miles in the first instance. **Please ensure that you always record whether the figure at question 81a is in miles or kilometres.** The CADI program will contain a conversion from miles to kilometres.

Contacts do not have to have driven all the miles recorded themselves so they may have to confer with their co-drivers(s). At quayside sites contacts may simply look at their trip metres in order to answer this question.

Please stress the phrase 'in this vehicle' - a contact could have driven in a hired car or a car belonging to a friend. An alternative phrase for use on board ferries could be 'the vehicle you are travelling with'.

If contacts do not know how far they have driven they are routed to question 81b.

**Q81b** As a proxy for the distance driven, contacts are asked for the name of the furthest place from the port that they travelled to while abroad. The distance of this place from the port will be estimated in the office. If contacts have toured around you should record some indication of the route taken. Please ask and record whether the port of arrival on the continent was the same as the port of departure from the continent and note if they were not the same. While some of the channel ports are close together, on the pilot a contact interviewed at Le Havre noted when probed that he had arrived on the continent in Bilbao. This would cause a considerable error in our estimate of mileage if not recorded. Please also remember to stress 'this vehicle' when asking this question.

Record place names as specifically as possible; 'Provence' or 'the Alps' would be too vague - we need to know where in Provence or the Alps the contact went. Please bear in mind what is behind this question and probe accordingly.

## 4. Changes to questions

### 4.1 Q7a/7b (Air/sea/tunnel departures) States of residence

State or province is required for a selection of foreign countries each year. The British Tourist Authority (BTA) use this to help with marketing.

If the contact has moved homes within the last 12 months, code where they are living now.

If the contact currently has two homes, code the one they spend most time in.

If the contact does not know the state/province, record the nearest big town.

The countries for the 1997 survey are:

USA (Frame A4), France (Frame A(M)5) , Germany (Frame A(M)6), Italy (Frame A(M)7). Ask for:

USA	-	State
France	-	Department (Département)
Germany	-	Land
Italy	-	Region (Regione)

These have all been included in previous survey years. **The only change is that in 1997 we will not distinguish between the former East and former West Berlin.**

### 4.2 Migrant questionnaire

The migrant questions were placed on a separate questionnaire for sea and Eurostar for one year only in 1996. This was done so that the Travel Trends trailer could be printed on the main questionnaire. As the trailer is not being run in 1997, the migrant questions have been reinstated on the main sea and Eurostar questionnaires.

### 4.3 New employee trailers

In the second quarter of 1996 we added some 'main IPS' questions to the 'short' employee trailers. I have received the comment that new interviewers are (understandably) having some difficulties tying up the instructions with the trailers, in particular in identifying which side of the trailer is the 'short' side and which side is the 'long' side. Both sides now appear to be about the same length. On version (6) of the trailers I have labelled the 'short side' (the side without the debit/credit questions) and the 'long side' (the side with the debit/credit questions).

## 5. Other

### 5.1 Local Government Reform

A number of changes in local government structure were implemented in April 1996. These will be reflected in coding changes at question 6 (county of residence) and question 60 (towns visited) for 1997. The attached map is for your information and shows the changes for Wales. The details of the following description of the changes are for your information. We are not expecting you to become experts on UK local government geography! Please read the instructions on how to handle the changes.

The changes are as follows:

#### ENGLAND

##### Cleveland

Cleveland has ceased to be a county. It has been divided into 4 unitary authorities. For the purposes of the IPS we are grouping these together, both at question 6 and 60. The former county of Cleveland will now be called 'Tees Valley Area' on the IPS. It will appear on the coding frame under its former and current name.

##### Avon

Avon has ceased to be a county. It has been divided into 4 unitary authorities:

Unitary Authority	Where it goes on the IPS
City and County of Bristol	Separate code at questions 6 and 60
Bath and N.E. Somerset (Old districts of Bath, Wandsdyke)	Somerset
Woodspring	Somerset
South Gloucestershire (Old districts of Kingswood, Northavon)	Gloucestershire

Please note that all the towns which formerly has separate codes in Avon at question 60 (Bath, Clevedon, Chipping Sodbury and Weston-super-Mare) still have separate codes - they are now codes in Somerset or Gloucestershire. (The exception is Bristol - which is now being treated as a separate county).

## Humberside

Humberside has ceased to be a county. It has been divided into 4 unitary authorities:

Unitary Authority	Where it goes on the IPS
City of Hull	Separate code at questions 6 and 60
East Riding of Yorkshire (Old districts of Beverley, East Yorkshire, Holderness, Boothferry (Goole))	Separate code at questions 6 and 60 called 'East Riding of Yorkshire'
North Lincolnshire (Old districts of Glandford, Scunthorpe, Boothferry (Isle of Axholme))	Lincolnshire
North East Lincolnshire (Old districts of Great Grimsby, Cleethorpes)	Lincolnshire

Again please note that the same towns as before (Bridlington, Hull, Kingston-upon-Hull) have separate codes. These have moved into new 'counties'.

## WALES

The most extensive changes have occurred in Wales. The present 8 counties have been split into 22 unitary authorities. We will further sub-divide some of the some of the new unitary authorities at Q60 to assist the BTA.

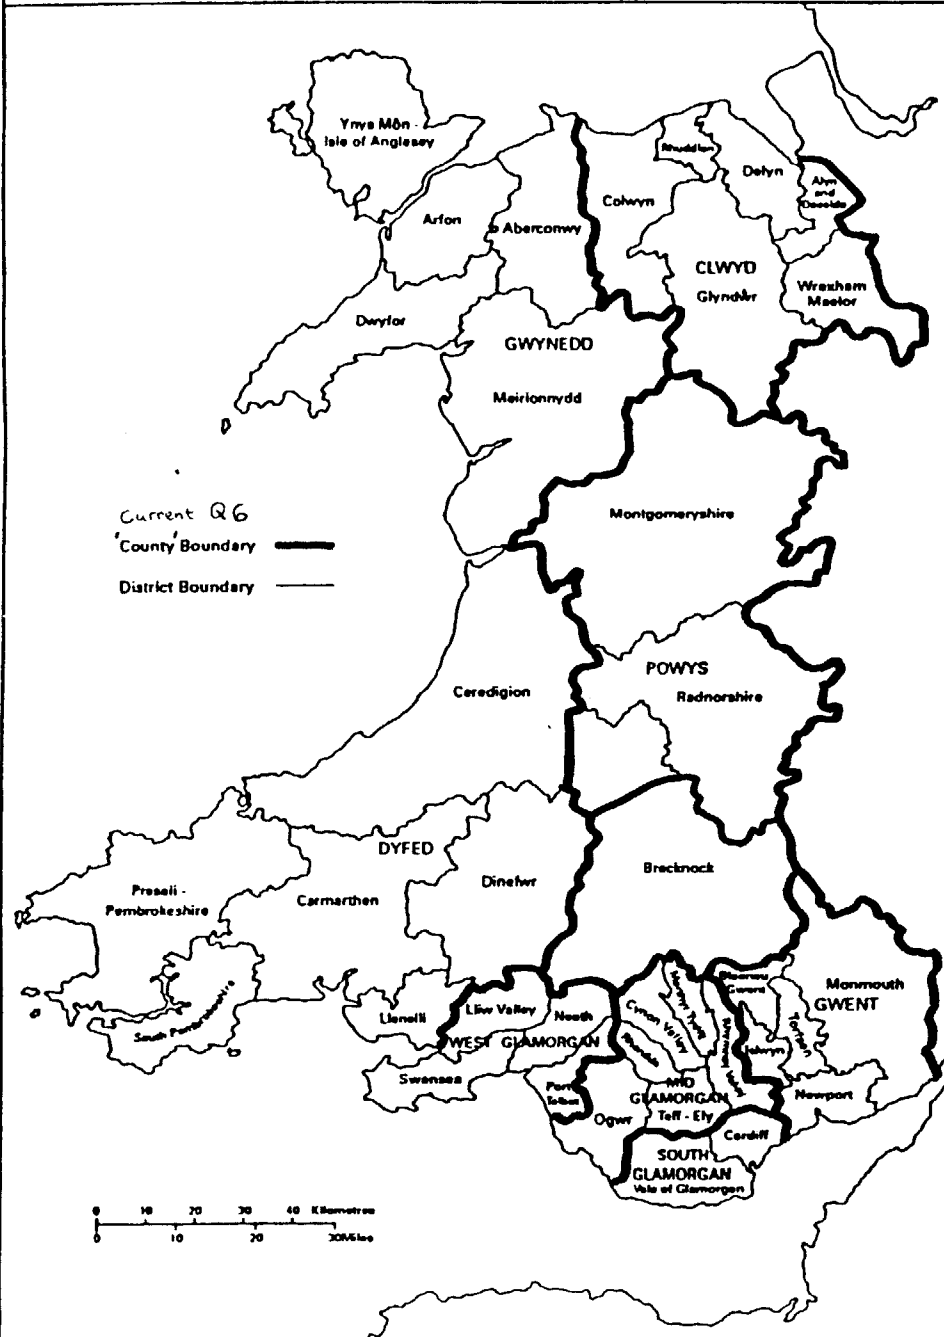

### Interviewer Instructions

**As so many changes are taking place in local government it is vital that you ask and record both the town/village and the county at both questions 6 and 60.**

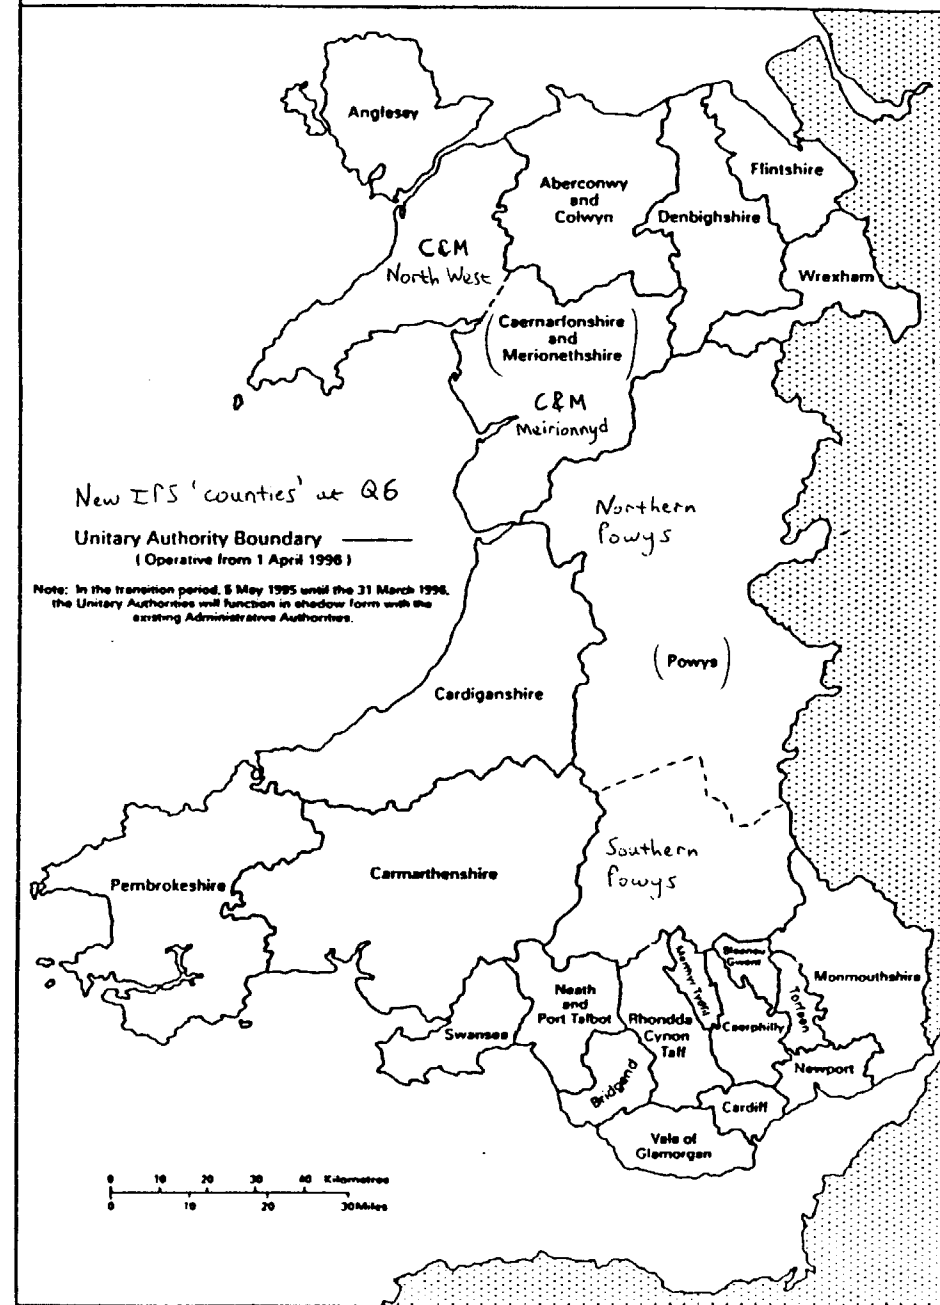

For any town in the former Avon or Humberside or **in Wales** you should look up the town on the CADI coding frame. If the town does not appear on the CADI coding frame you should mark it as a coding query 3 on the CADI, write the name of the town and the county you have been given by the respondent in the box on the CADI and **send it in as a query**. You should not attempt to directly code any county in Wales or in the former Avon or Humberside yourself. This will give us some extra work in the office, but we will be extending the CADI coding frames early in the year to include towns which the coders look up frequently. The overall numbers of IPS contacts visiting or living in Wales, Avon and Humberside are not large - so this should not be too problematic either for interviewers or coders.

Note that as a result of the changes in Local Government we will have to extend the range of codes on the CADI. County of residence (Q6) will move from a 2-digit to a 3-digit code and town code (Q60) from a 3-digit to a 5-digit code.

# Present Structure of Counties and Districts

# WALES: UNITARY AUTHORITIES

# INSTRUCTIONS FOR 1997 EXPENDITURE TRAILER

## 1. Background and purpose

The 1997 Expenditure Trailer will produce information which will be used by a number of our clients. The Expenditure Trailer's sponsor is our main ONS client.

Part of our ONS client's task is to produce measures of how well the UK economy is doing. This involves estimating the amount of consumers' spending each year by UK residents both in the UK and abroad. A great deal of information is collected by means of the Family Expenditure Survey. This, however, does not cover individuals living in institutions nor is it sufficiently reliable at picking up expenditure on larger items like televisions or furniture. To collect data on this sort of expenditure the ONS approaches retailers. Expenditure by individuals in institutions is included in retail sales figures. However, expenditure by foreign residents is, of course, also included. The two sources of data - surveys of individuals and retailers - therefore should provide a figure for consumers' expenditure in the UK by both UK and foreign residents. In order to estimate consumers' expenditure by UK residents the ONS need to subtract expenditure by foreign residents in the UK (identified by IPS core expenditure totals).

Unfortunately data from retailers do not include expenditure on certain items - meals and accommodation, is one example - while IPS totals do. This means that simply deducting total foreign consumers' expenditure from total consumers' expenditure in the UK takes off too great a sum. The ONS needs to know what *proportion* of total expenditure by foreign residents was on meals and accommodation, say, so that they can adjust the amount they deduct from total consumers' expenditure. This is exactly what the Expenditure Trailer enables them to do. Total expenditure by foreign residents can be estimated from core IPS data; the Trailer is used to estimate the proportion of expenditure on many of the 13 items covered by the questionnaire.

Once adjusted expenditure by foreign residents has been subtracted from total consumers' expenditure in the UK, expenditure by UK residents abroad, provided by IPS, can be added to give total consumers' expenditure by UK residents.

More detailed expenditure information, as collected on the trailer, is also needed for tourism policy customers. The Department of National Heritage and the British Tourist Authority are concerned with attracting foreign visitors and their money into the UK. Ministers and officials at DNH are particularly interested in what makes different types of tourist part with their money and what they spend it on. They can then better target promotional campaigns (eg. to target retailers to be more tourist-friendly, given that around 25% of inbound tourism expenditure is spent in shops). They also use it to assess the economic impact of tourism, in making estimates of the importance of tourism to various sectors of the economy and in particular to estimate the employment generated by tourism spending.

## 2. Eligibility

One in every 10 questionnaires should be marked 'Expenditure Trailer subsample' at question 61 on the main IPS departure schedules. They should also be marked at the top of page 1 to ensure that they are not missed by the interviewer. The practical rules for sub-sampling are covered in a separate note.

Contacts who reach question 61 on the IPS routing must be screened for eligibility at question 62.

The criteria for eligibility are:

1. Foreign residents departing from the UK in the Expenditure Trailer subsample.
2. Reason for visit in the range 01-90. (Even though we ask the ordinary IPS expenditure questions of reasons for visit 92 (work - directly employed from the UK) and 95 (airline crew deadheading and positioning) these are not eligible for the trailer).
3. The expenditure section has been completed and the contact has made some foreign source expenditure. (If the expenditure section has been completed except for a query to a coder, please complete the expenditure trailer).
4. Length of stay is one calendar month or less. The reason for this is that it has been found that contacts' ability to recall in detail what they have spent falls off noticeably when the period they have to think back over is longer. For this reason time spent in the Irish Republic after initially arriving in the UK should be included in the length of stay when deciding whether or not a contact is eligible.

For example; if your contact arrived in the UK six weeks ago and then spent three weeks in the Irish Republic before returning to the UK they would be ineligible despite having only spent three weeks in the UK.

**If in doubt about eligibility ask the trailer questions.**

If the contact is routed to question 62 but is ineligible please ring the reason for ineligibility at question 62.

Please note that there is an error in the routing on the sea departure schedule. Contacts with nil nights in the UK are **eligible** for the trailer. This will be corrected on the quarter 2 schedule - meanwhile please remember to include them!

### 3. Expenditure to be included

The expenditure to be accounted for on the trailer should be the same as that covered by the main questionnaire expenditure section; ie

1. Expenditure coded in the box at Q51 plus 'before and after' expenditure coded in the box at Q54. Expenditure on marketed packages, ie the sum coded in the box at Q48, is not included on the Trailer questionnaire.
2. Joint expenditure if joint expenditure was collected on the main questionnaire.
3. Foreign source money. Where mixed source money was used you may find it easier to account for all expenditure (ie mixed source) during the interview. Subsequently you will have to calculate the proportion of each item of expenditure and of the Trailer total that is foreign source.

Please note that normal IPS rules for exclusions and inclusions apply. Some of these rules are noted in the following instructions.

Under each sub-heading of expenditure there is a specific question to be asked of each contact. Each question provides examples of the type of expenditure to be recorded at the sub-heading. These examples are not exhaustive; fuller lists are given in the **annex** which should help you allot expenditure to the right category. In addition you are provided with a **showcard** which can be used to show the contact the main categories and some of the more likely items to be included in them. This may be useful with contacts who have poor spoken English but can read English.

### 4. Introduction

The trailer questions should be asked after towns. There are two reasons for this. First, if the Trailer is asked before towns it is very easy for towns to get forgotten. Second, knowing something about where a contact has stayed before you ask the Trailer can be useful; for example, it can tell you that a contact has travelled within the UK.

Experience of asking the Expenditure Trailer in previous years indicates that once a contact has agreed to co-operate they will usually participate reasonably enthusiastically. Introduce the trailer questions by saying:

"Now I would like you to break down your spending into a few main categories."

This will be sufficient for most contacts although a few may need more explanation.

## 5. How to handle the trailer

Always note the clicker number or the number you have given the schedule for sampling purposes at the time of interview.

If the contact's initial response suggests that they feel they won't recall their expenditure in sufficient detail to be able to complete the trailer, tell them you have a list of items you would like to go through which will help them remember.

If your contact is a passenger with very low expenditure, a same-day transit for example, you may well have found out about every item on which they have spent money in the course of the core IPS questionnaire. Do not then probe every item on the trailer questionnaire, since this could jeopardise rapport, but simply transfer across the items of expenditure you have already identified.

If, on the other hand, a contact with a higher level of expenditure provides a detailed breakdown of that expenditure on the core questionnaire, it will not damage rapport to go through the trailer item by item with them and they may well recall items of expenditure that they had previously overlooked. Introduce the trailer by saying:

"I would like to go through your expenditure in a little more detail".

If an answer is given in terms of the cost of a specified item, for example, "£50 on petrol", check by asking "Did you spend anything else on travel within the UK?" and prompt with the other categories before going on to the next question.

If you become aware that the contact is combining items from two or more categories try and tease out the separate costs. During the course of the interview you may have to jot down something under the wrong heading. This does not matter as long as you allocate it to the right heading later. Occasionally you may be unable to reallocate expenditure to its correct heading. If this happens make it clear that reallocation is needed or, alternatively, leave the item in Miscellaneous T13. Remember that your first task is to account for expenditure; allocation is secondary and can be carried out after the interview.

Some contacts may give you expenditure in more than one currency. When this happens be alert to the possibility that the contact may confuse currencies.

## 6. Priority to the main IPS interview

Naturally we expect you to get the best information you can but as a last resort a rough estimate is better than nothing and you should not push for total accuracy at the risk of jeopardising the rest of the IPS interview. Our experience in previous years has been that participation in the Trailer does not lead contacts to refuse to complete the main IPS interview. On the main stage survey, however, lack of time may mean that if the Trailer is asked the main IPS interview will not be completed. If you think this is likely to happen give priority to completing the core interview.

At airports you should not, of course, attempt the trailer if your contact's flight goes into last call.

## 7. Individual questions

Before starting the trailer record the expenditure total from Q51 and Q54 at T14.

Do not include expenditure on marketed packages coded in the box at Q48. The reason for this is that the cost of a package includes the cost of transport and usually commission for the travel agent who sold it. Both these elements have to be removed in order to find out how much of the cost of the package was accounted for by accommodation. This is done by our client at the coding stage. The amount paid for accommodation as part of packages will be taken into account when Trailer sub-totals are analysed.

### Entry point to the trailer

Use information from the main IPS to decide whether you should enter the Trailer at T1, T2 or T3.

- start at T1 if contact is on a **package tour**
- start at T2 if the contact is on an **internal tour** of the UK - defined as accommodation and anything else for which the contact is unable to provide a separate cost.
- start at T3 with other contacts, that is all those not on package tours or internal tours. Contacts spending no nights in the UK are immediately routed to T4.

### Package tours T1a, T1b and T1c

The cost of the package will have been collected on the main questionnaire at Q48. We ask for details of meals included in the package so that the cost of the different elements - transport, accommodation, meals - can be apportioned.

Where contacts' meal arrangements vary, code the predominant arrangement. So, for example, if a contact had two weeks half board plus two nights bed and breakfast, code 2 - breakfast and one other meal each day. If you cannot easily establish the main arrangement ring code 5 - other; it is not then necessary to specify the arrangement.

Our ONS client is only interested in differentiating between transport and travel agents' commission on the one hand and meals and accommodation on the other since both the latter categories are allocated by them to the category 'Catering'. Other clients, however, use Expenditure Trailer results and they need data on meals in order to allocate the cost of a package to expenditure categories such as meals and accommodation. Since the contacts cannot do this for themselves, the amount to be allocated will be imputed using responses from similar contacts not on package tours. Consequently questions on meals are being asked of all contacts except those staying nil nights or with free accommodation or on internal tours of the UK.

Note that we also ask whether a hired car was included in the package price so that the cost of this can also be estimated.

As there has been an increase in the number of visitors on packages including short courses, our Consumer Expenditure client has asked us to identify them. You should note down information on what the course was, how long it lasted and if possible the name of the institution where it was held. This information will be used by the coders or client in the imputation of short course fees.

## **Internal tours T2**

Many contacts now buy a long-haul ticket to Britain and then buy an internal tour of the UK. These contacts are able to tell us how much their fare to the UK cost so they are not considered to be on package tours. Nevertheless they have to be treated in a special way because they will be unable to split the cost of their accommodation from their travel costs in the UK. Moreover, their tour may well include items that belong under T11 Entertainment such as visits to the theatre or to historic houses. Please write the cost of the tour, which you should have found out about in the course of the core IPS expenditure section, in the box at T2 and then provide as much detail as possible about what was included, writing on the other side of the questionnaire if necessary. For example we need the number of nights on the internal tour, the predominant meal pattern and details of travel as well as details of any 'extras' such as visits to historic houses or to the theatre. Coders will then estimate the costs of the various elements of the tour and allocate them to the correct headings.

Remember to exclude Britrail packages as on the core IPS interview.

In addition to passengers on conventional internal tours of the UK, include under this heading passengers on other sorts of accommodation-plus-something-else deals, for example students who have bought courses with inclusive accommodation; coach tours with accommodation; treatment at health farms involving overnight accommodation. In the case of students who have bought courses with inclusive accommodation you should note down information on what the course was, how long it lasted and if possible the name of the institution where it was held. This information will be used by the coders in the imputation of short course fees.

You should consider whether the contact also has any spending under T3.

## **Accommodation T3**

Do not include the cost of package tours or internal tours under T3a. Should a contact mention a package tour or an internal tour of the UK here for the first time you would have to go back and ask T1 or T2 as appropriate. Occasionally contacts on package tours may mention additional expenditure on accommodation at T13 (for example on a side trip to London or Stratford) and this should be transferred to T3a. Similarly business persons on day trips or same-day transit passengers may have paid for a day hotel room and this also should be transferred to T3a although passengers with no nights in the UK are initially routed round the question. You may already know of this additional expenditure on accommodation from Q52 of the core IPS questionnaire.

Only record the cost of overnight accommodation and associated meals at T3a and record the cost of meals and drinks out at T4, 5 and 6. Contacts staying in a hotel on a bed and breakfast basis or with half board will not usually be able to separate the cost of meals from the cost of accommodation, but even if they were able to separate them but this would not matter to our ONS client who, as noted above, categorises both accommodation and meals as 'Catering'.

### **Meals with accommodation T3b**

Where contacts' meal arrangements vary, code the predominant arrangement. So, for example, if a contact had two weeks half board plus two nights bed and breakfast, code 2 - breakfast and one other meal each day. If you cannot easily establish the main arrangement ring code 5 - other; it is not then necessary to specify the arrangement.

### **Eating and drinking out T4, T5 and T6**

#### ***T4***

This refers to meals out (**including drinks with meals**) paid for separately, ie not included in the cost of accommodation. Include all snacks, take-aways, soft drinks and ice creams unless they were bought as part of grocery shopping (which is included in T9).

#### ***T5a***

Check whether or not any of the meals at T4 included alcohol and if so ask T5b.

#### ***T5b***

It is sometimes difficult for contacts to separate their expenditure on meals from their expenditure on alcohol and yet it is important from our client's point of view that they do separate the two. The reason for this is that they have no information about what proportion of expenditure by foreign visitors on meals out is accounted for by alcohol. It is important also that you stress alcohol - soft drinks and mineral water are not relevant here. If the contact is unable to give you the cost of the alcohol but provides information on the drinks included record this. It will be used in imputing an amount at T5b.

#### ***T6***

This question asks about expenditure on alcohol in pubs, bars and hotels apart from that bought as part of a meal.

### **Travel T7**

#### ***T7a***

Our ONS client wishes to distinguish between expenditure on taxis and hired cars and other travel expenditure in the UK. If the contact says he or she had a car as part of a fly/drive package please make a note of this. The cost of the car hire will be estimated. (If petrol was included in the price of a car-hire make a note of how much was included and leave the amount spent on this item uncoded). Note this as a query in the CADI. (This does not apply where cars are picked up filled with petrol and dropped off refilled).

### ***T7b***

Remember to exclude travel to and from the UK as well as UK rail fares paid in advance. If the contact mentions a coach trip under this heading, record the cost and what was included and reallocate the expenditure if necessary (for example, guided coach tours and sightseeing trips stay under T7b while coach trips with overnight accommodation go to T2). If a contact has bought petrol but is unsure of the cost try and get an estimate of the amount of fuel involved and leave the amount spent on this item uncoded. Note this as a query in the CADI.

When asking T7a and T7b bear in mind information you already have on towns visited from Q60. You should if necessary probe specifically about the contact's trips to Edinburgh or Stratford for example.

### **Clothes T8 and Groceries T9**

These two categories are self-explanatory. Our clients are happy for expenditure on alcohol in off-licences and supermarkets to be included at T9 because they already know the amount of alcohol purchased in these outlets from other sources.

### **Other shopping T10**

#### ***T10a***

As well as the specified items include here expensive items such as a car or a yacht to be retained in the UK - and add a note of explanation. Medicines should be included under T10a. Contacts may describe as souvenirs items which should be allocated elsewhere, T-shirts for example (to T8), or speciality foods (T9).

#### ***T10b***

Check for expenditure on newspapers as part of a hotel bill and transfer it to T10b.

### **Entertainments T11**

A contact might include the cost of a guide book in the entrance fee to a historic building so we would like you to check and transfer the cost to T10b. Contacts may also include the cost of refreshments under this heading. When this occurs and the contact cannot separate the costs leave the total cost in this section. Expenditure on participant sport (eg golfing fees) should be included here as should guided tours of museums and art galleries and guided walking tours. (Note that the last two items are not on the questionnaire.)

Contacts might have got their hotel to book theatre seats or a guided tour of a gallery for them and paid for these as part of their hotel bill. If this happens remember to transfer the relevant expenditure to T11.

## **Service/Advice T12**

Apart from (b) and (c) these items occur rarely but when they do occur they can involve high expenditure. Separate totals are required for each component.

Medical treatment not covered by insurance should go into 12a. Treatment covered by insurance should be noted and left uncoded. It should be noted as a query in the CADI. The reason for this is that insurance payments are conceptually not included in Consumer Expenditure but in a different part of the National Accounts -Trade in Services.

Be sure to check whether or not hairdressing and beauty care or telephone charges and the cost of faxing have been included in a hotel bill and if they have transfer them to T12b or c.

Laundry and dry cleaning paid for on a hotel bill should be transferred to T12d

In a change from 1992/93, you are asked to separate out short course fees, under T12e.

### Miscellaneous T13

Any other items should be recorded here. Some should be transferred to other appropriate sections after the interview is completed. Look at the annex if you are unsure of the correct section. Gifts of money to friends and relatives in recognition of being allowed to stay with them should be recorded here rather than at T4. If the annex does not tell you where to transfer an item leave it at T13. Some of these items may be reallocated at the office coding stage.

Remember to ask contacts if they have included all tips and then allocate them to the headings covering the goods and services involved. Tips to restaurant staff in hotels covered at T2 or T3 should be allocated to those sections. Tips at T1 should be allocated to T3. Tips to restaurant staff after meals out should be allocated to T4.

### Reconciliation T14

When you have finished asking the trailer, carefully add up the amounts under each category and compare them with the total from the main expenditure questions already noted at T14. Do not include the amount spent on alcohol as part of meals in your total. Do include amounts recorded under T13 'Miscellaneous'. When contacts quote different currencies or complicated expenditures, for example, so much per night or percentages, you will not be able to make this comparison and you should ring code 'A' (different currencies/too complex).

If you can work out the totals during the interview and find a difference of more than 10% of the IPS total, and this difference is more than £50, point this out to the contact, ask which total is more likely to be correct and record this at T15. Check why the other total is incorrect and, where applicable amend the trailer component totals.

If you find that the discrepancy has arisen through an error on the trailer you should make a note to this effect on the back of the trailer and explain what you have changed. Even if you have now reconciled the two totals it is very important that you leave your initial answers to T14 and T15 unchanged. The responses will be used for a methodology exercise - the results could be very biased if you alter the responses.

Make a note of the reason for any mistake in the main expenditure questions at the end of the trailer questions **BUT DO NOT ALTER THE MAIN IPS EXPENDITURE QUESTIONS**. The trailer will run for only one year and we do not want it to alter the consistency of trends based on IPS results.

When trailer interviews are too complicated for you to reconcile totals with the contact, complete your calculations including currency conversions after completing the core IPS interview. At this point complete T16 'Outcome'.

## **T16 Outcome**

Code 1 'Complete' when all relevant information up to and including T13 was asked for and, if possible, coded. Code 2 'Partially complete' when at least one piece of relevant information up to and including T13 was not obtained. Code 3 'Refused' when contacts refuse to complete any of the Trailer. Code 4 'Not asked' if you decide not to ask the Trailer for reasons other than the contacts refusal. Two examples would be that the contact's English was not good enough to complete the Trailer or that you thought that completing the Trailer would jeopardise response to the core IPS questionnaire.

Whenever you code anything other than 'Completed' please give reasons for your code on the other side of the Trailer questionnaire.

## **IPS/Trailer Link**

As the Trailer questionnaire is a free-standing sheet we need to be able to link it to the main IPS questionnaire should the two become separated. When you have completed the core IPS interview please fill in the box at the bottom of the Trailer giving details of:

the clicker number of the main questionnaire;

the date the interview was completed;

your interviewer number;

the route or site at which you are working.

These four pieces of information will link each Trailer to its corresponding main IPS questionnaire. Please fill in the trailer link box even if your contact was ineligible for the trailer. Interviewers working on boats and quayside will not have a clicker number on their questionnaires; we would like you to fill in the number you have written on the questionnaire for sub-sampling purposes in the clicker number box.

## 8. Additional points

### Rounding

Round answers to the nearest whole number.

$$£3.25 = £3$$

$$£3.75 = £4$$

If the answer is £X.50 (in a change of rule from the 'Interviewers' Instructions') round to the nearest even number.

$$£2.50 = £2$$

$$£3.50 = £4$$

$$£0.50 = £0$$

*November 21st 1996*

## ANNEX TO EXPENDITURE TRAILER INSTRUCTIONS

Items to be included in each section:

Include	Exclude and transfer to section shown in brackets
<p><b>ACCOMMODATION T3a</b></p> <p>Expenditure on accommodation in:            hotels (including tips for staff)            hostels            holiday camps            bed and breakfast            inns etc            camping sites</p> <p>Tips paid by contacts on packages (T1) to their hotel staff</p> <p>Rent on flats rented for the visit only and:            electricity/gas charges            linen hire</p> <p>'Own' property - rent, council tax, mortgage interest            (nb. foreign source money only)</p> <p>Hire of boats with accommodation aboard -            payment of mooring fees when sleeping on board</p>	<p>Meals which can be separated (T4)</p> <p>Gifts to friends and relatives in recognition of being allowed to stay (cash gifts T13: other gifts appropriate section)</p> <p>Overnight sleepers when paid for simply as part of a journey and not part of a longer tour (T7b)</p> <p>Payment for domestic help (T12d)</p> <p>Repayments of capital (Exclude)</p> <p>Repairs and improvements to own property (T12d)</p> <p>Conference fees (T12d)            Short course fees (T12e)</p> <p>Cost of package tours identified by package question on main questionnaire (Exclude)</p>

<b>Include</b>	<b>Exclude or transfer</b>
<p data-bbox="220 257 686 324"><b>EATING AND DRINKING OUT</b> T4/5/6</p> <p data-bbox="220 369 782 481">Meals/drinks from places where there is a service in preparing and serving refreshments, such as:</p> <ul style="list-style-type: none"> <li data-bbox="316 515 399 548">hotels</li> <li data-bbox="316 555 462 589">restaurants</li> <li data-bbox="316 593 534 627">cafes/snack bars</li> <li data-bbox="316 631 430 665">canteens</li> <li data-bbox="316 669 383 703">pubs</li> <li data-bbox="316 707 726 741">mobile hot-dog/ice-cream vans</li> <li data-bbox="316 745 534 779">buffets on trains</li> </ul> <p data-bbox="220 817 494 851">Take-aways such as:</p> <ul style="list-style-type: none"> <li data-bbox="316 891 510 925">Fish and chips</li> <li data-bbox="316 929 399 963">pizzas</li> <li data-bbox="316 967 406 1001">curries</li> <li data-bbox="316 1005 470 1039">sandwiches</li> </ul> <p data-bbox="220 1043 510 1077">even if eaten at home</p> <p data-bbox="220 1115 782 1187">Alcohol purchased in hotels not as part of a meal should appear at T6.</p>	<p data-bbox="813 369 1316 436">Purchases of groceries and drinks for self-catering (T9)</p> <p data-bbox="813 817 1324 929">Do not expect contacts to separate out purchases of ready-to-eat snacks from supermarkets</p>

Expenditure on meals and drinks should be separated as far as possible from costs of entertainment such as day trips and visits to the theatre. However, this can not be done where the contact has paid an all-in price (for example, an evening excursion including a show, a meal and transport in the ticket). Nor can it be done if the meals taken in the establishment providing accommodation were part of a 'package'. In these cases the whole cost should be attributed to entertainment (T11) or accommodation (eg. T3a/T3b) respectively.

Include	Exclude or transfer
<p><b>TRAVEL WITHIN THE UK T7a</b></p> <p>Taxi fares (including tips)  Hire car rental  Note car hire as part of fly-drive</p> <p><b>TRAVEL WITHIN THE UK T7b</b></p> <p>Rail, air and ferry fares for <u>internal</u> journeys if bought in the UK</p> <p>Fares on buses, underground</p> <p>Travelcards (not bought in advance)</p> <p>Coach fares where independent of accommodation</p> <p>Bicycle hire</p> <p>Petrol for hired car</p> <p>Own car: petrol, oil, spare parts, servicing</p>	<p>Pleasure day trips on boats (T11)</p> <p>If a sightseeing tour by coach included admission to a historical house, meals etc. note precisely what was included and mark as coding query.</p> <p>Purchase of motor vehicle being kept in UK (T10a)</p>

Include	Exclude or transfer
<p><b>CLOTHES T8</b></p> <p>Expenditure on clothing (including t-shirts), hats, shoes, gloves, dress/suit material, wools and knitting materials</p>	<p>Floor covering, bedding, jewellery (T10a)</p>

- fish and chips
- pizzas
- curries
- beefburgers
- sandwiches - even if you ate them  
at home

### CLOTHES (T8)

Expenditure on clothing including:

- hats, shoes, gloves dress/suit  
materials
- wool and knitting materials
- t-shirts

### OTHER SHOPPING (T10a)

CDs, records, tapes, cassettes

Jewellery

Electrical goods, hi-fi, electronic  
calculators, videos

Cameras, lenses, films

Household goods:

- china
- glass
- cutlery
- furniture
- furnishing  
materials
- refrigerators

Souvenirs

**OTHER SHOPPING (T10b)**

Books, newspapers, magazines

Maps, guide books

Postcards

Theatre programmes

**ENTERTAINMENT (T11)**

Admission to:

- Museums
- historic houses
- exhibitions
- public monuments

Tickets for:

- theatres
- cinemas
- ballet
- opera
- pop concerts
- other shows

Admission to (night) clubs or discos

Payments at fun fares

Trips in pleasure boats

Hire of pleasure boat (without accommodation)

**MEDICAL SERVICES (T12a)**

VOLKSWAGEN CARAVELLE  
VOLKSWAGEN SHARON

## CHANGES TO CODING FRAMES FOR 1997

**A1 & A1(2)** - Eritrea was 4771, but now 4840 from Jan 1997.

**A2 & A3** - Towns & Counties changed during 1996 as follows:

Amended codes: Holsworthy (Devon) 350 (not Cornwall 349)  
Kirkcolm (Dumfries) 610 (not 615)

	<b>Town</b>	<b>County</b>
Additional: Gourock	810	65
Irvine	670	65
Kyle of Lochalsh	640	64
Loch Lomond	800	65
Loch Ness	640	64
Mallaig	640	64

From Jan 1997, all county/unitary authority codes and town codes are new. All county codes have 3 digits, and all town codes 5 digits. English counties start from 000 (and include the London Boroughs), Welsh counties from 300, and Scottish counties from 500. The first 3 digits of each town code relate to the county, with the exception of London (Borough codes 066-098, town code 77777) and Northern Ireland (600, and all towns 99993).

At question 7, the 'states/provinces' coding frames for 1996 were:

**A4** USA, **A5** Australia, **A6** South Africa, **A7** Netherlands.

For 1997, the coding frames are:

**A4** USA, **A5** France, **A6** Germany, **A7** Italy.

*Input on 96.* **B & B3** - New airport codes during 1996 were:

✓ Norilsk	NSK	30939	(Russia - Middle Siberia)
✓ Punta Cana	PUJ	73390	(Dominican Republic)
✓ Nagoya	NGO	62025	(Japan, formerly 62029 with Hiroshima, etc)
✓ Sanford	SFB	81601	(Florida, USA)
✓ Husavik	HZK	02090	(Iceland)
✓ Uralsk	URA	31590	(Kazakh)
✓ Monchengladbach	MGL	08079	(Germany)
✓ Abu Simbel	ABS	35590	(Egypt)

C1 & C7 - New airline codes/additional airlines during 1996 were:

ADC Airlines	ADK	40299	(Nigeria dump)
Air Baltic	BT	31799	(Latvia dump) #
Alaska Airlines	AS/ASA	81099	(USA dump)
Carnival Airlines	KW/CAA	81099	(USA dump)
Cityflyer Express	FD	01040	(UK) *
Deutsche BA	DI/BAG	08010	(Germany dump)
Georgia Air	GEA	30399	(Czech Rep. dump)
Helenair	2Y/HCL	71299	(St.Lucia dump)
Impulse Airlines	VQ	50099	(Australia dump)
Maersk Air	VB/MSK	01039	(UK)
Metavia Airways	OW	42099	(South Africa dump)
Phoenix Airways	2Q/LKZ	42099	(South Africa dump)
Sempati Air	SG/SSR	65599	(Indonesia dump)
Shanghai Airlines	SF/CSH	68099	(China dump)
Venus Airlines	V4/VER	22099	(Greece dump)
British Mediterranean Airways	KJ/LAJ	01041	(UK, formerly 01099)
Laker Airlines	7Z/LBH	81099	(USA dump)
MK Airlines	7G/MKA	01099	(UK dump)
Hemus Air	DU/HMS	30099	(Bulgaria dump)
Easy Jet Airlines	EZY	01099	(UK dump)
Nouvelair Tunise	BJ/LBT	35499	(Tunisia dump)
Simmons Airlines	MQ	81099	(USA dump)
World Airlines	W2	01099	(UK dump)
Zimbabwe Express	Z7	43099	(Zimbabwe dump)
Air Moldova	9U/MLD	31999	(Moldavia dump)
Air Salzburg	MOZ	21099	(Austria dump)
Air South	WV/KKB	81099	(USA dump)
Challengair	CHG	05099	(Belgium dump)
Comair (Delta Connection)	OH/COM	81099	(US dump)
Comair (South Africa)	MN/CAW	42099	(S.Africa dump)
Compagnie Corse Mediterranee	XK/CCM	07099	(France dump)
Debonair Airways	2G/DEB	01099	(UK dump)
Edelweiss Air	EDW	26099	(Swiss dump)
Futura International Air	FH/FUA	25099	(Spain dump)
Jet Airways (India)	9W/JAI	61099	(India dump)
Kibris Turkish Airlines	YK/KYV	16099	(Turkey dump)
Kras Air	7B/KJC	30999	(Russia dump)
Kuwait Air Force	KAF	55299	(Kuwait dump)
Lone Star Airlines	AD/LSS	81099	(USA dump)
Myflug	MYA	02099	(Iceland dump)
Nordic East Airways	N7/ELN	20099	(Sweden dump)
Sun Air (South Africa)	BV/SSN	42099	(S.Africa dump)

Transwede Leisure	TWE	20099	(Sweden dump)
Moldavian Airlines	2M/MDV	31999	(Moldavia dump)
South West Airlines	WN/SWA	81099	(USA dump)
United Express	DH/BLR	81099	(USA dump)
(Atlantic Coast Airlines)			
Air Saint-Pierre	PJ/SPM	83099	(St Pierre dump)
China Northern Airlines	CJ/CBF	68099	(China dump)
Gulf Stream International	3M	81099	(USA dump)
Skywest (Delta Connection)	SKW	81099	(USA dump)
Skywest Aviation	YT	50099	(Australia dump)
Western Pacific	W7/KMR	81099	(USA dump)
LAB Flying Services	JF/LAB	81099	(USA dump)
Canadian Regional Airlines	KI/CDR	80099	(Canada dump)
IFOR (United Nations)		88888	

All input on 96 dylabun  
7/1/97

# Air Baltic incorrectly given on 1996 coding frame as 26099.

\* Cityflyer Express given Irish Republic code 02103 in error at beginning 1996. Amended code to 01040.

C3 - NO NEW CODES for sampled UK airports.

D - NO NEW CODES for Seaports.

E/F - NO NEW CODES for Shipping lines or Sea routes.

G - New code introduced in 1996 for UK regional airports was:

Military Airfield = 43

NB: For interviewers, 99 is still "Dont Know airport", but coders use the redefinition "DK/not on list".

## COUNTRY CODES - ALPHABETICAL ORDER

( ) Airports in parentheses are not included in the sample for this year.

Notes Definition of extra codes for Heathrow and Gatwick.

Heathrow Transits

At the Heathrow Interchange, passengers in transit between Domestic and International Terminals are coded 61, 62, 63, or 64 according to which LHR International Terminal No.1, 2, 3, 4 they are departing from/arriving at.

Port Health LHR 3/4

Port Health codes describe the type of shift and not the type of contact.

ORD - Codes 9 and 12 should be used at the Port Health channel for **ordinary arrival shifts**.

MFS - Codes 8 and 11 should be used at the Port Health channel for **migration filter shifts which include the other channels too**.

ONLY - Codes 44 and 45 should be used for **Port Health Only shifts**.

Migration Filter

Codes 10 and 13 refer to all passengers entering through channels **other** than PH during migration filter shifts at Heathrow Terminals 3 & 4 respectively.

Codes 14-17 at Heathrow Terminals 1 & 2 and Gatwick Nth & Sth apply to **all** passengers on migration filter shifts.

Codes 8-17 and 44-45 apply to minimums and non-respondents as well as to respondents.

Codes 1-5 and 7 should **not** be used on PH channels or on the arrivals of a migration filter shift unless specifically instructed.

## SHIPPING LINES AND SEA / CHANNEL TUNNEL ROUTES

Q71 (5 digits)

Q96 (2 digits)

Short & long-haul shipping / Channel Tunnel (Q71)	Code
Britanny Ferries (incl. Truckline) . . . . .	07052
Color Line . . . . .	18052
Eurolink Ferries . . . . .	01057
Hoverspeed . . . . .	01053
P&O North Sea Ferries (Norland & Norseas) . . . . .	01052
P&O North Sea Ferries (Norstar & Norsun) . . . . .	11052
P&O European Ferries . . . . .	01055
Regie V M Transport (Ramsgate-Ostend Line) . . . . .	05051
Sally Line . . . . .	01056
Scandinavian Seaways . . . . .	12051
Stena Line (excl. Koningen Beatrix) . . . . .	01051
Stena Line - Harwich (Koningen Beatrix) . . . . .	11051
SeaFrance (Manet,Cezanne,Renoir) . . . . .	07053
CTC (Long Haul) . . . . .	30201
Cunard (Long Haul) . . . . .	01001
P & O (Long Haul) . . . . .	01002
Eurotunnel . . . . .	01070
Eurostar . . . . .	01080

## Sea route (Q96)

DOVER - Calais . . . . .	01
HOVER/SEACAT Dover - Calais . . . . .	14
SEACAT Folkestone - Boulogne . . . . .	17
NEWHAVEN - Dieppe . . . . .	18
RAMSGATE - Dunkirk Ferry . . . . .	20
RAMSGATE - Ostend Ferry . . . . .	21
JETFOIL Ramsgate - Ostend . . . . .	23
PORTSMOUTH - France . . . . .	24
POOLE - Cherbourg . . . . .	25
PLYMOUTH - France/Spain . . . . .	26
PORTSMOUTH - Bilbao . . . . .	27
HARWICH - Hook of Holland . . . . .	28
HARWICH - Germany/Scandinavia . . . . .	30
NEWCASTLE - Scandinavia . . . . .	37
HULL - Belgium/Netherlands . . . . .	39
LONG HAUL - Africa . . . . .	43
LONG HAUL - Asia/Oceania . . . . .	44
LONG HAUL - N/S America . . . . .	45

## Channel tunnel route (Q96)

TUNNEL: Freight shuttle . . . . .	51
TUNNEL: Single deck shuttle . . . . .	52
TUNNEL: Double deck shuttle . . . . .	53
TUNNEL: Waterloo Trains . . . . .	71
TUNNEL: Ashford Trains . . . . .	75

RANDOM START CARD

	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
SUN	16	59	73	60	1	89	38	10	97	45	90	22
MON	88	9	55	23	94	37	21	71	52	48	67	18
TUE	29	77	31	92	46	26	82	69	4	72	13	76
WED	57	15	68	34	79	39	86	24	40	61	2	95
THU	42	70	19	56	6	84	28	51	63	35	99	47
FRI	44	27	96	7	83	43	30	75	58	64	62	11
SAT	74	93	8	78	41	32	65	50	36	25	17	81

Notes: These random numbers are for use on all sea routes and at residual airports.

Set the clicker at the number given for the month and day of week according with your shift date. The first selection is the first number after that which is divisible by the sample interval.

Example: Thursday in September - random start = 63

Interval = 10	First selection = 70	Second selection = 80
Interval = 20	First selection = 80	Second selection = 100
Interval = 25	First selection = 75	Second selection = 100
Interval = 33	First selection = 67	Second selection = 100

**For crossings,** continue the count on the return journey - do not reset the clicker. Team leaders must make a note on the Daily Return of the clicker numbers at the end of the outward count.

**At quaysides,** use separate clicker counts for Departures and Arrivals. Continue the count across all Departures and likewise across all Arrivals.
