## Introduction

The presentation of the CAPI questionnaire follows a consistent structure which is shown by the following example.

*If dismissed*

**Dground<sup>^</sup>**

On what grounds was [HE / SHE] dismissed?

1. Shortage of work/need for redundancies,
2. Change in job specification/requirements,
3. Disobedience/refusal to do as instructed/including health/safety aspects,
4. Dishonesty/theft/malicious damage,
5. Violence/threats,
6. (undisclosed) criminal record/security risk,
7. Attendance record/unjustified absences,
8. Insufficient quality of work/not developed necessary skills,
9. Other reasons (please specify)
10. *Other vague answer (not codeable 1-9)*
97. *Other specific answer (not codeable 1-10)*

The first line *If dismissed* is a brief description of the routing for the question. Where there is no italicised comment preceding the variable name then the routing is the same as the preceding question(s).

The variable name appears in bold (e.g. **Dground**). When the name is followed by <sup>^</sup> this signifies that the question can have more than one answer (i.e. a multiple response).

Where a piece of text appear in brackets, for example [name of organisation], this indicates that a textfill has been used. A textfill is an insert to a question that is based on an answer given in a previous question.

The other format that a textfill can take on occurs where there are two parts to the routing instruction as shown in **Cform**.

*If no vacancies in past 12 months / If vacancies*

**Cform\***

This card shows a list of recruitment channels which we refer to as 'formal'. [In the 12 months before your last vacancy / In the last 12 months], which of these channels did this establishment make use of to notify one or more vacancies?

Where there is a '/' this indicates that there are two ways in which the question could be asked. If there were no vacancies in the past 12 months, the respondent will be asked, 'In the 12 months before your last vacancy, which of these channels did this establishment make use of to notify one or more vacancies?', whereas a workplace with vacancies will be routed through the question following the '/'.

Codes that were added at the coding and editing stage (after interviews were returned to the office) are shown in italics in the code frame for the original question. In cases of open questions, the entire code frame appears in italics.

Note that additions to the questionnaire in wave 6 appear in blue shading.
