DOCUMENTATION OF THE BLAISE QUESTIONNAIRE

Notes:

1. This is a documentation of the Blaise program. Not all variables that appear here are on the SPSS file. (Those that are not are marked with a '\$'). Similarly, not all derived variables that are on the SPSS file are mentioned here. See also separate documentation of derived variables.
2. Unless otherwise specified, 'Don't Know' is code 8 for single column questions, code 98 for two column questions, and so on.
3. Unless otherwise specified, 'Refusal/Not answered' is code 9 for single column questions, code 99 for two column questions, and so on. Where there is an explicit 'Refusal' code (usually code 7 or 97), then code 9 (or 99 and so on) is reserved for 'Not answered' only.
4. Sections in brackets and italics were textfilled as appropriate on the interviewer's computer.
5. Routeing instructions appear above the questions. A routeing instruction should be considered to stay in force until the next routeing instruction.
