DOCUMENTATION OF
THE BLAISE QUESTIONNAIRE

Notes:

1. This is a documentation of the Blaise program. Not all variables that appear here are on the SPSS file. (Those that are not are marked with a '$'). Similarly, not all derived variables that are on the SPSS file are mentioned here. See also separate documentation of derived variables.
2. Unless otherwise specified, 'Don't Know' is code 8 for single column questions, code 98 for two column questions, and so on.
3. Unless otherwise specified, 'Refusal/Not answered' is code 9 for single column questions, code 99 for two column questions, and so on. Where there is an explicit 'Refusal' code (usually code 7 or 97), then code 9 (or 99 and so on) is reserved for 'Not answered' only.
4. Sections in brackets and italics were textfilled as appropriate on the interviewers' computers.
5. Routeing instructions appear above the questions. A routeing instruction should be considered to stay in force until the next routeing instruction.
6. '(NOT ON SCREEN)' means that the question did not appear on the interviewers' or editors' screens. '(EDIT ONLY)' means it appeared on screen for the editors but not the interviewers. Individual codes marked 'EDIT ONLY' were used by the editors to reclassify 'other' answers.

Drugs

Q673   [HerCrime] *
        CARD H1
        I'd like to ask you some questions about illegal drug use in Britain.
        First, thinking about the drug **heroin**, how much do you agree or disagree
        that...
        ... heroin is a cause of crime and violence?

Q674   [HeroinOK] *
        CARD H1 AGAIN
        (How much do you agree or disagree that ...)
        heroin isn't nearly as damaging to users as some people think?

Q675   [HerLegAd] *
        CARD H1 AGAIN
        (How much do you agree or disagree that ...)
        if you legalise heroin many more people will become addicts?

Q676   [HerUsePr] *
        CARD H1 AGAIN
        (How much do you agree or disagree that ...)
        people should **not** be prosecuted for possessing small amounts of heroin for
        their own use?

Q677   [HerSelPr] *
        CARD H1 AGAIN
        (How much do you agree or disagree that ...)
        people who **sell** heroin should always be prosecuted?

* [HerCrime] to [HerSelPr]

SPARE 2322-34

To the selected respondent:

Thank you very much for agreeing to take part in this important study - the seventeenth in this annual series. The study consists of this self-completion questionnaire, and the interview you have already completed. The results of the survey are published in a book each autumn; some of the questions are also being asked in nearly forty other countries, as part of an international survey.

Completing the questionnaire:

The questions inside cover a wide range of subjects, but most can be answered simply by placing a tick (✓) in one or more of the boxes. No special knowledge is required: we are confident that everyone will be able to take part, not just those with strong views or particular viewpoints. The questionnaire should not take very long to complete, and we hope you will find it interesting and enjoyable. **Only you should fill it in, and not anyone else at your address**. The answers you give will be treated as confidential and anonymous.

Returning the questionnaire:

Your interviewer will arrange with you the most convenient way of returning the questionnaire. If the interviewer has arranged to call back for it, please fill it in and keep it safely until then. If not, please complete it and post it back in the pre-paid, addressed envelope, AS SOON AS YOU POSSIBLY CAN.

THANK YOU AGAIN FOR YOUR HELP.

The National Centre for Social Research is an independent social research institute registered as a charitable trust. Its projects are funded by government departments, local authorities, universities and foundations to provide information on social issues in Britain. The British Social Attitudes survey series is funded through contributions from various grant-giving bodies and government departments. Please contact us if you would like further information.

SPARE 2322-34

To the selected respondent:

Thank you very much for agreeing to take part in this important study - the seventeenth in this annual series. The study consists of this self-completion questionnaire, and the interview you have already completed. The results of the survey are published in a book each autumn; some of the questions are also being asked in nearly forty other countries, as part of an international survey.

Completing the questionnaire:

The questions inside cover a wide range of subjects, but most can be answered simply by placing a tick (✓) in one or more of the boxes. No special knowledge is required: we are confident that everyone will be able to take part, not just those with strong views or particular viewpoints. The questionnaire should not take very long to complete, and we hope you will find it interesting and enjoyable. **Only you should fill it in, and not anyone else at your address**. The answers you give will be treated as confidential and anonymous.

Returning the questionnaire:

Your interviewer will arrange with you the most convenient way of returning the questionnaire. If the interviewer has arranged to call back for it, please fill it in and keep it safely until then. If not, please complete it and post it back in the pre-paid, addressed envelope, AS SOON AS YOU POSSIBLY CAN.

THANK YOU AGAIN FOR YOUR HELP.

SPARE 2022-34

To the selected respondent:

Thank you very much for agreeing to take part in this important study - the seventeenth in this annual series. The study consists of this self-completion questionnaire, and the interview you have already completed. The results of the survey are published in a book each autumn; some of the questions are also being asked in nearly forty other countries, as part of an international survey.

__Completing the questionnaire:__

The questions inside cover a wide range of subjects, but most can be answered simply by placing a tick (✓) in one or more of the boxes. No special knowledge is required: we are confident that everyone will be able to take part, not just those with strong views or particular viewpoints. The questionnaire should not take very long to complete, and we hope you will find it interesting and enjoyable. **Only you should fill it in, and not anyone else at your address**. The answers you give will be treated as confidential and anonymous.

__Returning the questionnaire:__

Your interviewer will arrange with you the most convenient way of returning the questionnaire. If the interviewer has arranged to call back for it, please fill it in and keep it safely until then. If not, please complete it and post it back in the pre-paid, addressed envelope, AS SOON AS YOU POSSIBLY CAN.

THANK YOU AGAIN FOR YOUR HELP.

The National Centre for Social Research is an independent social research institute registered as a charitable trust. Its projects are funded by government departments, local authorities, universities and foundations to provide information on social issues in Britain. The British Social Attitudes survey series is funded through contributions from various grant-giving bodies and government departments. Please contact us if you would like further information.

In the first part of this questionnaire, we would like to ask you about your family and friends. For example, about how often you see or visit them, and when you turn to them for help or advice.

1. First your brothers and sisters. How many brothers or sisters aged 18 and older do you have? (We mean brothers and sisters who are still alive. Please include step-brothers/sisters, half-brothers/sisters and adopted brothers/sisters.)
