

# The Electoral Commission / The Hansard Society, 2003

## An audit of political engagement - supporting notes

### Technical details

- MORI interviewed a representative sample of 2,040 people aged 16+ across the UK, 1,976 of which were aged 18+ (topline results are based on 18+ sample/data file is based on 16+ sample).
- Interviews were conducted face-to-face, in home, between 11-17 December 2003 in Great Britain and between 6-15 December 2003 in Northern Ireland.
- The results of this survey have been weighted to the know profile in the UK.
- Where questions were only asked in certain countries this is indicated in the data file and the percentage is given as a percentage of the total UK sample.
- Quotas used were age, sex and working status.
- Where results do not sum to 100, this may be due to multiple responses, computer rounding or the exclusion of don't knows/not stated.
- The survey was conducted for The Electoral Commission and was used as the basis for the Commission's first annual Audit of political engagement published in March 2004.

2004

**Audit of political engagement  
The Electoral Commission/The Hansard Society**

**MORI survey – Topline results  
FINAL – 2 February 2004**

- Topline results are based on 1,976 adults aged 18+ across the UK.
- Interviews in Great Britain were conducted face-to-face, in home, between 11-17 December 2003.
- Interviews in Northern Ireland were conducted face-to-face, in-home between 6-15 December 2003.
- Results are based on all respondents unless otherwise stated.
- Data are weighted to the profile of the population.
- An asterisk (\*) indicates a finding of less than 0.5% but greater than zero.
- Where percentages do not add up to exactly 100% this may be due to computer rounding, the exclusion of “don’t knows” or to multiple answers.
