

Study Number 5407
Health and Social Consequences of the Foot and Mouth Disease Epidemic in North Cumbria, 2001
Mort, M.

The panel respondents for the study were divided into six population groups. The data list for the diary and interviews has been colour-coded accordingly for clarity, using the depositor's original colours:

Group 1: Farmers	Group 2: Rural Business	Group 3: Agricultural related occupations	Group 4: Frontline Workers	Group 5: Community	Group 6: Animal / Human Health Professionals
