FAQs: Calendar Quarters

What are the new calendar quarters in relation to the seasonal quarters?

The table below shows which months the new LFS CQs will cover.

Seasonal Quarters	Calendar Quarters (CQs) from May 2006
Winter (December to February)	Q1 = January to March (JM)
Spring (March to May)	Q2 = April to June (AJ)
Summer (June to August)	Q3 = July to September (JS)
Autumn (September to November)	Q4 = October to December (OD)

Why switch to CQs?

It is a Eurostat requirement that all countries in the EU have a Labour Force Survey based on calendar quarters.

What has ONS done to assess the impact of the move to CQs?

There will be an article in the June 2006 issue of LMT that discusses the impact of the move. A web version of the article will be available from 17 May 2006. Here is a link to the article and more information about the move:-

<http://www.statistics.gov.uk/statbase/Product.asp?vlnk=14365>

Will the tables published each month in the Labour Market First Release be changed as a result of the move to CQs?

The tables in the LMS First Release will be affected by the move to CQs and will continue to be published as normal. The Regional Releases will also be affected where the LFS (not seasonally adjusted) tables will show CQs in the May 2006 issue onwards.

How will quarterly specific questions be affected?

Quarterly specific questions, i.e. questions that are not asked in every quarter on the current seasonal quarters basis will only have values from two-thirds of respondents when produced for CQs backseries 1997- 2005. An example of this is, if a question is only asked in autumn (Sep – Nov), with the move to CQs, it will be asked in Oct – Dec (Q4). This means it will only have information for people who responded in Oct and Nov. However, from 2006 onwards all quarterly specific questions will have full information based on all respondents. It is suggested that a health warning be applied to tables produced from quarterly specific variables where CQs prior to 2006 are used. Users may consider using percentages rather than levels for these periods, as they will be affected to a lesser degree.

I currently use the Historical Quarterly Supplement (HQS) on the ONS website which is based on seasonal quarters. What do I use after May 2006?

ONS will produce a CQ version of the HQS which will replace the current seasonal quarter version. This will be available on the ONS website from mid-May 2006. Initially, it will have CQ data back to 1997.
