1 SUMMARY

This note summarises the structure of the data relating to assets held in Version 2005-06 of the FRS database. This note is intended to help users produce retrievals accessing the assets data.

2 QUESTIONNAIRE

In the questionnaire each person is asked to identify assets received from a series of lists. After each list the interviewer asks a series of detailed questions about each asset. Some assets refer only to adults and some only to children. A variable ADCH determines whether or not the asset is held by an adult, child, or by both.

3 ANALYSIS DATABASE

The details recorded about each type of asset have been organised into a standard tabular form. Each asset received occupies a row of the ASSETS table. The variables have been rationalised so that the same type of information about each asset is held in the same column or field, even if the original question was different.

Key Fields

FRS V2005-06 DATABASE TECHNICAL NOTE

1 **SUMMARY**

This note summarises the structure of the data relating to benefits held in Version 2005-06 of the FRS database. This note is intended to help users accessing the benefits data.

2 **QUESTIONNAIRE**

In the questionnaire each adult is asked to identify benefits received from a series of lists. After each list the interviewer asks a series of detailed questions about each benefit. This pattern is followed generally but there are a number of exceptions. For example only a woman is asked about Maternity Benefit and as there can only be one woman in a benefit unit there is only one 'slot' for the answers. Additionally some types of benefit are not included in the lists but are asked about separately (e.g. Housing Benefit).

3 **ANALYSIS DATABASE**

The details recorded about each type of benefit have been organised into a standard tabular form. Each benefit received occupies a row of the BENEFIT table. The variables have been rationalised so that the same information about each benefit is held in the same column of field, even if the original question was different. Table 1 shows the relationship between the yes/no question asking about receipt of a certain benefit on the ADULT table and the corresponding benefit key value on the BENEFITS table.

Key Fields

Each row in the benefit table is uniquely defined by the following key fields:-

SERNUM	Unique serial number for the household
BENUNIT	The benefit unit number within the household
PERSON	The person number within the household
BENEFIT	The benefit key value is a code identifying the type of benefit received (e.g. 19 = Income Support)

Table 1 also lists the code allocated to each benefit type.

N.B. National Centre for Social Research, the contractors responsible for carrying out the fieldwork, have a "BenType Codeframe" within their programs, which uses codes to identify Benefit Types. Although this was originally the same as our Benefit Key Value, they have since diverged; Benefit Key Value should, therefore, be used in all instances.

Data Fields

The following data fields exist for each row in the benefit table. Each benefit will not record information in all fields. A more complete description of the routing for variables associated with each benefit is given in the spreadsheet [FRS 2005_06 Benefits Map.xls](#)

Note that, except where otherwise stated, the Data Field has the same name as the question within the questionnaire (Rule 1). Exceptions to this rule have their Data Field name changed to be consistent (e.g. the question GOVAMT would produce an answer in the variable BENAMT).

BANKSTMT	Asks whether a bank statement can be consulted (Yes/No).
BENAMT	<p><u>In the database</u> the variable holds the weekly amount of benefit last received for <u>all</u> benefits. However, <u>on the questionnaire</u> other variable names are used for certain benefits. These exceptions are:</p> <p>GOVAMT (for total amount DWP is paying directly for services as defined in GOVPAY),</p> <p>PRGAMT (for Government Training, as answered to question TRAIN),</p> <p>SFGRAMT (Community Care grant from Social Fund),</p> <p>BTWAMT (for Back to Work Bonus (received)),</p> <p>ACCRUAMT (for Back to Work Bonus (accrued)),</p> <p>EXBENAMT1, 2 and 3 (Extended Housing Benefit/Council Tax Benefit/Combined),</p> <p>LOANAMT (Social Fund Loan: Budgeting or Social Fund Loan Crisis),</p>

	WIDPAMT (Widow's payment – lump sum)
	WINFAMT (for Winter Fuel Payment)
	WTCAMT and WTCLPAY (Working Tax Credit - regular payment and Working Tax Credit – lump sum)
	CTCAMT and CTCLPAY (Child Tax Credit - regular payment and Child Tax Credit – lump sum)
	REPAYAMT (Social Fund Loan: Repayment from JSA or IS/PC)
	The amount has been converted to a weekly value, apart from Lump Sums (for benefits 31-35, 60 and 61) and Grants. (Float 0..997.00)
BENAMTDK	If the answer to BENAMT above is "DON'T KNOW", is it because the benefit is paid in combination with another, and that a separate amount cannot be established (Yes/No)?
BENLETTR	Whether a benefit letter was consulted (Yes/No)?
BENPD	On the <u>database</u> , holds the period covered by the original answer to the BENAMT question for <u>all</u> benefits. So, for example, BENAMT will always hold a weekly equivalent amount if the corresponding value of BENPD represents a period (i.e. in range 1-52). However, on the <u>questionnaire</u> other variable names are used for certain benefits. These exceptions are: GOVPD (DWP direct payments for Income Support and Job Seekers Allowance customers) PRGPD (Govt. Training Allowance recipients.) (Period code answer - Symbolic 1..97) EXBENPD (Extended Housing Benefit and/or Council Tax) WTCPD (Working Tax Credit) CTCPD (Child Tax Credit)
BOOKCARD	Is asked of those respondents who state that a benefit they receive is paid by order book, whether it is to hand, so that it could be consulted (1=Yes, consulted now, 2=consulted later, 3=respondent unwilling, 4=unable to find it, 5 =other reason for not consulting it).
CCTC	Does this include a Child Care Tax Credit to help pay for child care expenses (Yes/No)?
COMBAMT	Holds the combined total value of benefits when the values of individual benefits are not known.
COMBBK	Are there any other benefits paid using the same benefit book (Yes/No)?
COMBPD	Period code for COMBAMT

HOWBEN	How is the benefit paid? (1= Order book, 2=Direct to bank/building society account, 3=Giro cheque, 4=Benefit Payment Card, 5=other).
NOTUSAMT	The amount usually received converted to a weekly period if different from the amount last received. (Question producing this is BUSAMT in the questionnaire) (Float 0..997.00). This question is only asked if the respondent states that the amount given in BENAMT is not usual (USUAL=2).
NOTUSPD	The original period the usual amount covered before being converted to a weekly amount. (Question producing this is BUSAMT in the questionnaire) (Period code answer - Symbolic 1..52) This question is only asked if the respondent states that the amount given in BENAMT is not usual (USUAL=2). If the answer to USUAL is YES the BENAMT and BENPDP responses are copied across to the above two fields so that they always hold the usual amounts to simplify retrievals
NUMWEEKS	This holds the number of weeks in the last 12 months that the benefit has been received. (Integer 0..52). It is only asked when the question PRES is also asked about. In the questionnaire there are different variable names for certain benefits. The exceptions are: JSAWEEKS (for Jobseeker's Allowance, Integer 0-97) ISWEEKS (for Income Support or Pension Credit, Integer 0-97) OTHWEEKS (for "Other State or NI benefits", receipt only in the last 6 months, Integer 0-26)
ORDBKNO	The code on the front of the Order Book.
PRES	Respondents who respond positively to questions BEN7Q1 – BEN7Q6 are asked additionally if the benefit is currently being received, as are respondents who state that they are claiming "Other NI or State Benefits" where the question is OTHPRES. (These are yes/no answers.) NOTE. For BEN1Q, BEN2Q, and BEN3Q, the first question is whether the benefit is currently being received, so there is no need for an additional PRES question. Also please note that the BEN4Q questions are whether these benefits have been received in the last 12 months. BEN5Q questions are whether these benefits have been received in the last 6 months.
USUAL	For some NI Retirement Pension, Widow's Pension, Widowed Mothers Allowance, Jobseeker's Allowance and Income Support, the interviewee is asked if the amount last received was the usual amount (yes, no or no such thing as a usual amount)
