Section A

Background information

The purpose of Section A is to collect information about how often, on average, a person has spent money on each of the 16 activities listed in the last 12 months. If a person has never gambled on the activity then the respondent should have ticked the category 'Not in the last 12 months'. The category descriptions given for each activity are very detailed and may not cover all types of gambling. Therefore, at activity 17, we ask respondents to write in what other types of gambling they have done and provide details. It is likely that some of these answers will need to be backcoded to other activities or that some are not viewed as gambling activities and need to be deleted

Section A also controls the routing through the rest of the questionnaire. Therefore the coding and edit instructions for Section A focus on the backcoding of other activities and the treatment of routing errors and consistency checks.

Coding of other types of gambling entered at A1: Activity 17 (col. nos 1045-1046)

Entry at A1 Q17	Treatment
Irish Lottery	Backcode to activity 14 (Betting on any other event or sport), change code at activity 17 to 09.
Raffles	Delete and recode 'not in last 12 months' (09)
Tombolas	Delete and recode 'not in last 12 months' (09)
Premium bonds	Delete and recode 'not in last 12 months' (09)
Buying stocks or shares	Delete and recode 'not in last 12 months' (09)
'100' club	Backcode to activity 3 (tickets for other lottery), change code at activity 17 to 09.
Sweepstake	Backcode to activity 16 (Private betting), change code at activity 17 to 09.
'Bonus Ball'	Backcode to activity 16 (Private betting), change code at activity 17 to 09.
Anything where lottery specifically mentioned i.e. charity lottery	Backcode to activity 3, change code at activity 17 to 09.
Any type of betting with friends or others, i.e. betting on private golf matches, private wagers etc	Backcode to activity 16 (Private betting), change code at activity 17 to 09.
T.V. Quiz	List and retain at activity 17

Backcoding information given at activity 17 to other activities:

The information and codes given at activity 17 need to be transferred to the appropriate category. Where there is a conflict between the code (i.e. frequency of undertaking the activity) given at activity 17 and the category it is being backcoded to, the code that is numerically **lowest** should be retained.

For example, if a respondent wrote in “Irish Lottery” at activity 17 and ticked that they played this once a week, this information, in full, needs to be backcoded to activity 14. The frequency code kept at activity 14 should be the code that is numerically lowest (i.e. the activity that has been done most often).

All other activities should be listed and referred to the researcher.

Consistency checks

There are a number of consistency issues between Section A and Section B. These are highlighted below. The column numbers for the relevant questions are given in brackets. These checks have been built into the edit program and will show an error message, should they occur.

- If A2 (1061) = 2 then each individual code for A1 activities 1-17 should be 09. If not, then A2 should be changed to = 1.
- Alternatively, if A2 (1061) = 1 then at least one individual code at A1, activities 1-17 should be in the range 01 – 08. If not, the A2 should be changed to = 2. Please note that if you make this change, you will need to look at the routing and completion of section b and c carefully.
- If a respondent has stated that they have done any activities in the last 7 days at B2, then they should have also reported doing this activity in the last 12 months at A1. Items to check are:

Activity 1: National Lottery

If B2, activity 1 (1072) = 1 then A1, activity 1 (1013 –1014) should be between 01-08.

Activity 2: Scratchcards

If B2, activity 2 (1102) = 1 then A1, activity 2 (1015 –1016) should be between 01-08.

Activity 3: Other lottery

If B2, activity 3 (1140) = 1 then A1, activity 3 (1017 –1018) should be between 01-08.

Activity 4: Football pools

If B2, activity 4 (1170) = 1 then A1, activity 4 (1019 –1020) should be between 01-08.

Activity 5: Bingo

If B2, activity 5 (1206) = 1 then A1, activity 5 (1021 –1022) should be between 01-08.

Activity 6: Fruit/slot machines

If B2, activity 6 (1248) = 1 then A1, activity 6 (1023 –1024) should be between 01-08.

Activity 7: Virtual gaming machines

If B2, activity 7 (1294) = 1 then A1, activity 7 (1025 –1026) should be between 01-08.

Activity 8: Table games

If B2, activity 8, (1310) = 1 then A1, activity 8 (1027 –1028) should be between 01-08.

Activity 9: On-line gambling

If B2, activity 9 (1340) = 1 then A1, activity 9 (1029 –1030) should be between 01-08.

Activity 10: On-line betting

If B2, activity 10, (1375) = 1 then A1, activity 10 (1031 –1032) should be between 01-08.

Activity 11: Betting exchange

If B2, activity 11 (1400) = 1 then A1, activity 11 (1033 –1034) should be between 01-08.

Activity 12: Betting on horse races

If B2, activity 12 (1421) = 1 then A1, activity 12 (1035 –1036) should be between 01-08.

Activity 13: Betting on dog races

If B2, activity 13 (1457) = 1 then A1, activity 13 (1037 –1038) should be between 01-08.

Activity 14: Betting on other events

If B2, activity 14 (1487) = 1 then A1, activity 14 (1039 –1040) should be between 01-08.

Activity 15: Spread-betting

If B2, activity 15 (1509) = 1 then A1, activity 15 (1041 –1042) should be between 01-08.

Activity 16: Private betting

If B2, activity 16 (1528) = 1 then A1, activity 16, (1043 –1045) should be between 01-08.

Activity 17: Other gambling

If B2, activity 17 (1584) = 1 then A1 activity 17, (1046 –1047) should be between 01-08.

Action for edit:

If this is not the case, and a 09 code has been given at A1 instead, a new code at A1, for the appropriate activity, should be created to deal with this. The coding at A1 should be changed to 10 “activity done in last 12 months, frequency not given”. Please note, this new code 10 should only be used if the respondent has said they have done the activity in the last 7 days at B2 but stated that they have not undertaken the activity in the last 12 months (code 09) at A1.

If there are any other inconsistencies, then tab and refer to researcher.

Routing between Section A, Section B and Section D

If a respondent has not done any activity in the last 12 months then they should not answer section B or C and go straight to section D. However, there may be a few routing errors. The table below gives some scenarios and actions for the edit.

Problem	Edit
A1, Activities 1-17 (col. nos 1013 – 1047), all individual activity codes are 09 (not done in last 12 months) and A2 = 2 (not gambled in last 12 months), but codes have been given at Section B and/or Section C (i.e. respondent has mistakenly completed these sections)	<ul style="list-style-type: none"> Check codes at section B: <p>If B2, activities 1-17, part a, all = 2 (activity not done in last 7 days) then delete all information at Section b and Section c. Section B

Background information

At Section B, we are interested in whether the respondent has done each activity in the last 7 days. The number of activities and the activities descriptions are identical to Section A.

Section B should only be completed if a person has reporting doing at least one of the 17 activities in the last 12 months. Therefore, we expect fewer people to complete this section, as people who have not gambled in the last 12 months should be routed straight to section D.

This section is much more detailed as we also want to know how or where someone has done the activity and whether they won or lost money.

Specific rules for each activity

Activity 1 (Col. Nos 1072 - 1101)

Column Nos	Problem	Edit
Part a (1072)	Missing	Check part b,c d/e. If information coded at these parts, then code 1. If no information coded in parts b, c d/e then check A1, activity 1. If A1, activity 1 = 09 then code 2. Otherwise code 9.
Part b (1073-1084)	Open code	Backcode any mention of shop, petrol station, post office, supermarket, newsagent etc to 01.
Part c (1087)	Multi coded	If d answered only (col. nos 1088, 1089 – 1094) then code 1. If e answered only (col. nos 1095, 1096 - 1101) then code 2, If both d and e answered, code 8. If neither d or e answered, code 8.
Part d (1088)	Multi coded	Priority code numerically highest code.
Part e (1095)	Multi coded	Priority code numerically highest code.

Activity 2 (Col. Nos 1102 - 1129)

Column Nos	Problem	Edit
Part a (1102)	Missing	Check part b,c d/e. If information coded at these parts, then code 1. If no information coded in parts b, c d/e then check A1, activity 2. If A1, activity 2 = 09 then code 2. Otherwise code 9.
Part b (1103-1112)	Open code	Backcode any mention of corner shop, post office, newsagent etc to 01.
Part c (1115)	Multi coded	If d answered only (col. nos 1116, 1117 – 1122) then code 1. If e answered only (col. nos 1123, 1124 -1129) then code 2. If both d and e answered, code 8. If neither d or e answered, code 8.
Part d (1116)	Multi coded	Priority code numerically highest code
Part e (1123)	Multi coded	Priority code numerically highest code

Activity 3 (Col. Nos 1140 - 1169)

Column Nos	Problem	Edit
Part a (1140)	Missing	Check part b,c d/e. If information coded at these parts, then code 1. If no information coded in parts b, c d/e then check A1, activity 3. If A1, activity 3 = 09 then code 2. Otherwise code 9.
Part b (1141 – 1152)	Open code	Backcode any mention of shop, garage, petrol station, post office, supermarket, newsagent etc to 01. Create new code, direct debit/standing order = 07.
Part c (1155)	Multi coded	If d answered only (col. nos 1156, 1157 – 1162) then code 1. If e answered only (col. nos 1163, 1164 -1169) then code 2, If both d and e answered, code 8. If neither d or e answered, code 8.
Part d (1156)	Multi coded	Priority code numerically highest code.
Part e (1163)	Multi coded	Priority code numerically highest code.

Activity 4 (Col. Nos 1170 - 1205)

Column Nos	Problem	Edit
Part a (1140)	Missing	Check part b,c d/e. If information coded at these parts, then code 1. If no information coded in parts b, c d/e then check A1, activity 4. If A1, activity 4 = 09 then code 2. Otherwise code 9.
Part c (1191)	Multi coded	If d answered only (col. nos 1192, 1193– 1198) then code 1. If e answered only (col. nos 1199, 1200-1205) then code 2, If both d and e answered, code 8. If neither d or e answered, code 8.
Part d (1192)	Multi coded	Priority code numerically highest code.
Part e (1199)	Multi coded	Priority code numerically highest code.

Activity 5 (Col. Nos 1207 – 1237)

Column Nos	Problem	Edit
Part a (1207)	Missing	Check part b,c d/e. If information coded at these parts, then code 1. If no information coded in parts b, c d/e then check A1, activity 5. If A1, activity 5 = 09 then code 2. Otherwise code 9.
Part b (1207 – 1220)	Open code	Backcode any mention of sports club, village hall etc to 03.
Part c (1223)	Multi coded	If d answered only (col. nos 1224, 1225 -1230) then code 1. If e answered only (col. nos 1231, 1232 – 1237) then code 2, If both d and e answered, code 8. If neither d or e answered, code 8.
Part d (1224)	Multi coded	Priority code numerically highest code.
Part e (1231)	Multi coded	Priority code numerically highest code.

Activity 6 (Col. Nos 1248 - 1293)

Column Nos	Problem	Edit
Part a (1248)	Missing	Check part b,c d/e. If information coded at these parts, then code 1. If no information coded in parts b, c d/e then check A1, activity 6. If A1, activity 6 = 09 then code 2. Otherwise code 9.

B3: consistency check

If all 1072, 1102, 1140, 1170, 1206, 1248, 1294, 1310, 1340, 1375, 1400, 1421, 1457, 1487, 1509, 1528, 1584 **all** = 2 then B2 cannot = 2.

If this occurs, please tab and refer to researcher.

If blank, key 9.

Specific problems

Column Nos (question no)	Problem	Edit
1694 (E1)	Coded 2 or 3 but E1b (1695) answered	Delete codes at 1695 (E1b)
1696 (E2a)	Coded 2 but E2b answered (1997-1722)	Delete code at 1697-1722 (E2b)
1727 (E4a)	Coded 2 but answered E4b (1728-1755) and/or E5 (1756 – 1757)	Delete code at 1728-1755 (E4b) and/or or E5 (1756 – 1757)
1769 (E7a)	Coded 2 but answered E7b (1770)	Delete code at 1770 (E7b)
1772 (E9a)	Coded 2 but answered 1773-1774 (E9b)	Delete answer at 1773-1774 (E9b)
1773-1774 (E9b)	Half units given	Round half units up. (i.e. if 2.5 or 2 ½ then round to 3)
1783 (E13)	Other qualification given	Any mention of BA, Bsc etc should be back coded to 05. Any mention of MA, Msc, PhD etc should be backcoded to 06.

Consistency checks

The following consistency checks will be contained within the edit program.

- 1) At E3 (1723-1725) the age given should not be greater than the age given at E11 (1776 – 1778). If this occurs, please check and code E3 (1723-1725) as 8.
- 2) If E3 (1726) = 1(i.e. I have never gambled) then all of the following should be true:
 - A1, activity 1 (1013 –1014) should be 09.
 - A1, activity 2 (1015 –1016) should be 09.
 - A1, activity 3 (1017 –1018) should be 09.
 - A1, activity 4 1019 -1020 should be 09.
 - A1, activity 5 1021 -1022 should be 09.
 - A1, activity 6 1023 -1024 should be 09.
 - A1, activity 7 1025 -1026 should be 09.
 - A1, activity 8 1027 -1028 should be 09.
 - A1, activity 9 1029 -1030 should be 09.
 - A1, activity 10 1031 -1032 should be 09.
 - A1, activity 11 1033 -1034 should be 09.
 - A1, activity 12 1035 -1036 should be 09.
 - A1, activity 13 1037 -1038 should be 09.
 - A1, activity 14 1039 -1040 should be 09.
 - A1, activity 15 1041 -1042 should be 09.
 - A1, activity 16 1043 -1045 should be 09.
 - A1, activity 17 1046 -1047 should be 09.

If this is not so, i.e. any code between 01-08 is given at the above questions, then E3 (1726) should be coded as 8.
(I.e. they can't say they have never gambled if they have said that they gambled in the last year at A1).
