STRUCTURE OF THE QUESTIONNAIRE SPECIFICATION

All questions in the specification are laid out using the same format.

Example of question layout

Some questions (for instance USUWRKM) have a main group routed to them, but subsets of this group are asked variations of the question. In such cases the main routing is at the foot of the question as usual, and the subsets are listed separately above it, with the individual aspect of the routing indented slightly from the left of the page.

The appearance of brackets in the specification usually denotes a form of text substitution (alternative question wording depending upon the respondent's earlier answers); carried out either by the BLAISE computer package or else by the interviewer, during the questionnaire. Square brackets are used in instances in which information is automatically inserted into a question by the computer package. Round brackets () are used in instances in which the interviewer may or may not wish to add something in order to assist the flow of the interview.

Up until the end of 2005 the LFS was run on seasonal quarters i.e. March to May, June to August, September to November, and December to February. From 2006 the LFS has been run on CALENDAR quarters i.e. January to March, April to June, July to September, and October to December.

The timings of quarterly-specific questions have also changed as follows:

Seasonal Quarter	now asked in ...	Calendar Quarter
December to February (Q4)		January to March (Q1)
March to May (Q1)		April to June (Q2)
June to August (Q2)		July to September (Q3)
September to November (Q3)		October to December (Q4)

The most noticeable change is that the Eurostat Ad Hoc Module will now appear in Q1 (January to March).

Below is a summary of the terms appearing in this right hand column, and elsewhere in the questionnaire.

Frequency

AJ (or other)	Question asked in the AJ (or other) Quarter ONLY
EQ	Question asked every quarter

2008 Questionnaire Changes

Table 1 provides a list of changes that were made to the LFS questionnaire in the JM08 quarter. Further information on these variables can be found in Volume 3 of the LFS User Guide and a copy of the questionnaire can be found in Volume 2. Please contact me if you would like to receive hard copies of these volumes.

Table 1. Changes made to the LFS questionnaire during JM08.

Section	2008 version of LFS variable	2007 version of LFS variable	Nature of change
Nationality, citizenship, identity and ethnicity.	CameYr		Amended question wording.
	ContUK		New question
	CameYr2		Amended question wording.

ILO unemployment	Wnleft		Age filter in flowchart modified.
	Wnleft2		Age filter in flowchart modified.

Adlearn7/Adlear7n

Shortfalls were noted in Adlearn7 whereby some respondents who had attained educational qualifications over the last 12 months were omitted from the results. This variable has now been reformatted and is titled Adlear7n. Data for JD07 has also been reformatted to ensure continuity.

Cured8

The cured (current education received) derived variable has been updated to include changes that were made to the learning variables in 2008.

Durun

The Durun (duration of unemployment) derived variable has been updated to include changes that were made to government training scheme variables in 2008.

Durun2

The Durun (duration of unemployment) derived variable has been updated to include changes that were made to government training scheme variables in 2008.

Travel to Work.

Due to an error in the Blaise programme, 12 variables which should have been included in the enhanced sample were included in the main sample only. SVS has therefore included these variables for 2008. These variables are **Drivl, DRFP, Dityp, Trleave, TRefEmp, TRefT(1-10), TDifEMP, TrdSame, TDifT(1-6), TrvTme, TrvMth and TrvDrv.**

In 2008, 2009, 2012 etc these questions will be asked in waves 1 and 5, all quarters, for the main sample. For the enhanced sample they will be asked in waves 1 to 4 all quarters.

In 2010, 2011, 2013 etc the questions will be asked in October – December quarter for the main sample (waves 1 and 5 only).

National Identity and Welsh Language data.

As they are not expected to change over the period of participation in the survey the National Identity and Welsh Language questions are asked only at the first contact with each household, regardless of at which wave the first contact is made. This information is automatically rotated into every subsequent interview with that household.

In Jan-Mar08 these questions were asked only of households in Wave One of the survey. Households with which we made first contact at waves two to five (quarterly LFS sample) or waves two to four (boost sample), were not asked these questions. For these households this information is not available for Jan-Mar08. Also, because of the risks inherent in modifying the questionnaire at such a fundamental level, and the resources required to do so, it will not be practical to collect this information at future waves.

Weighting variable

The weighting variable is called PWT07.
