## Local Authority District Codes (wLADISTC)

The local authority districts within the database are aggregated if their population falls below 120,000. This aggregation is on the same basis as that for the Census Sample of Anonymised (Individual) Records, and the codes used are the same as those given in Marsh, C. and Teague, A. 'Samples of anonymised records from the 1991 Census', *Population Trends*, 69, 17-26, 1992. Note that, for wLADISTC, only codes up to 278 are relevant.
