**ASK ALWAYS:**

### **MxIntro1**

The next question asks about whether you have mixed socially with other groups of people in different areas of your life. By 'mixing socially' we mean mixing with people on a personal level by having informal conversations with them at, for example, the shops, your work or a child's school, as well as meeting up with people to socialise. But don't include situations where you've interacted with people solely for work or business, for example just to buy something.
