Introduction

The data is supplied in fixed field ASCII format in three files (*Acc*.DAT containing attendant circumstances records, *Veh*.DAT vehicles and *Cas*.DAT casualties).

The 13 character string from columns 1 to 13 inclusive gives a unique index number for each accident. Casualties are linked to vehicles by "VEHREF".

This data guide lists the value labels and for each variable and the character positions

Please call David Wilson (020 7944 6381) if you need any further details or if you find any problems with the data.
