The aim is to obtain legal marital status, irrespective of any de facto arrangement. The only qualification to this aim is that you should not probe the answer 'separated'. Should a respondent query the term, explain that it covers any person whose spouse is living elsewhere because of estrangement (whether the separation is legal or not). Ignore temporary absences, e.g. on oil rig.
A person whose spouse has been working away from home for over 6 months, e.g. on a contract overseas or in the armed forces, should still be coded as married and living with husband/wife if the separation is not permanent.

CODE RELATIONSHIP OF EACH HOUSEHOLD MEMBER TO THE OTHERS - X is Y'S...
YOU MAY WISH TO INTRODUCE THIS SECTION. ONE POSSIBLE INTRODUCTION IS:
'There are a lot of changes taking place in the make-up of households/families and this
section is to help find out what those changes are. I'd like you to tell me the relationship of
each member of the household to every other member'.
This section must be asked for all households consisting of more than one person. Please
ask in every case. You should not make assumptions about any relationship.
Treat relatives of cohabiting members of the household as though the cohabiting couple
were married, unless the couple are a same sex couple.
Half-brothers/sisters should be coded with step-brothers/sisters.
Ask respondent to give code number rather than the relationship.
See interviewer instructions for further details.

Fit the actigraph and suggest to the respondent that it is worn for the remainder of the day to allow (child’s name) to get used to it. Remember to note down the Actigraph serial number before you fit the actigraph.
Demonstrate and explain:
- The monitor is worn on the waist using the elastic belt provided.
- Attach the belt snugly around the waist so that the monitor rests on the right side of the body, above the right hip.
- (child’s name) should wear the monitor over a thin layer of clothing.
- Keep the monitor fastened on the belt to reduce the risk of losing it.
- The monitor should be put on (child’s name) when he/she wakes up and taken off before he/she goes to bed on each day.
- Please remove the monitor before (child’s name) showers, bathes or goes swimming, as if it is wet it may be damaged. (If he/she forgets to take the monitor off before bathing or swimming, he/she will not be harmed.)

Now I'd like to ask you some more questions about some of the things you have done in the last seven days, that is since from last (day / date) up until yesterday, that involve exposure to sunlight.
Exposure to sunlight could mean working outdoors, doing some kind of physical activity outside or sunbathing.
Unless otherwise stated, please continue to think of the last seven days only when answering these questions.

If you have any queries about how to complete the diary please contact a member of the NDNS Team at NatCen on freephone 0800 652 4572 between 8.30am-5.30pm.
PLEASE READ THROUGH THESE PAGES BEFORE STARTING YOUR DIARY

We would like you to keep this diary of **everything you eat and drink** over 4 days. Please include all food consumed at home and outside the home e.g. work, college or restaurants. It is very important that you do not change what you normally eat and drink just because you are keeping this record. Please keep to your usual food habits.

**Day and Date**
Please write down the day and date at the top of the page each time you start a new day of recording.

**Time Slots**
Please note the time of each eating occasion into the space provided. For easy use each day is divided into sections, from the first thing in the morning to late evening and through the night.

**Where and with whom?**
Please tell us what **room or part of the house** you were in when you ate, e.g. kitchen, living room, and tell us **whether you ate at a table or not** and **whether you were watching television**. If you ate at your work canteen, a restaurant, fast food chain or your car, write that location down.
We would also like to know **who you share your meals with**, e.g. whether you eat alone, with your partner, children, colleagues, or friends.

**What do you eat?**
Please describe the food you eat in as much detail as possible. Be as specific as you can. Pages 16 - 21 will help with the sort of detail we need, like **cooking methods** (fried, grilled, baked etc) and any **additions** (fats, sugar/sweeteners, sauces, pepper etc).

- **Homemade dishes**
  If you have eaten any **homemade dishes** e.g. chicken casserole, please record the name of the recipe, ingredients with amounts (including water or other fluids) for the whole recipe, the number of people the recipe serves, and the cooking method. Write this down in the recipe section at the end of the record day. Record how much of the whole recipe you have eaten in the portion size column (see examples on pages 4 - 15).

- **Take-aways and eating out**
  If you have eaten **take-aways** or **made up dishes not prepared at home** such as at a restaurant or a friend’s house, please record as much detail about the ingredients as you can e.g. vegetable curry containing chickpeas, aubergine, onion and tomato.

**Brand name**
Please note the **brand name** (if known). Most packed foods will list a brand name, e.g. Bird’s eye, Hovis, or Supermarket own brands.

- **Labels/Wrappers**
Labels are an important source of information for us. It helps us a great deal if you enclose, in the plastic bag provided, labels from all **ready meals**, labels from **foods of lesser known brands** and also from any **supplements** you take.
**Portion sizes**
Examples for how to describe the **quantity** or **portion size** you had of a particular food or drink are shown on pages 16 - 21.

For foods, quantity can be described using:
- **household measures**, e.g. one teaspoon (tsp) of sugar, two thick slices of bread, 4 tablespoons (tbsp) of peas, ½ cup of gravy. Be careful when describing amounts in spoons that you are referring to the correct spoon size. Compare the spoons you use with the life size pictures at the back of this diary.
- **weights from labels**, e.g. 4oz steak, 420g tin of baked beans, 125g pot of yoghurt
- **number of items**, e.g. 4 fish fingers, 2 pieces of chicken nuggets, 1 regular size jam filled doughnut
- **picture examples** for specific foods on pages 22-24.

For drinks, quantity can be described using:
- the **size of glass, cup etc** (e.g. large glass) or the **volume** (e.g. 300ml). Examples of typical drinks containers are on pages 26-27.
- **volumes from labels** (e.g. 330ml can of fizzy drink).

We would like to know the **amount that was actually eaten** which means taking **leftovers** into account. You can do this in two ways:
1. Record what was served and make notes of what was not eaten e.g. 3 tbsp of peas, only 2 tbsp eaten; 1 large sausage roll, ate only ½
2. Only record the amount actually eaten i.e. 2 tbsp of peas, ½ a large sausage roll

**Was it a typical day?**
After each day of recording you will be prompted to tell us whether this was a typical day or whether there were any reasons why you ate and drank more or less than usual.

**Supplements**
At the end of each recording day there is a section for providing information about any supplements you took. Brand name, full name of supplement, strength and the amount taken should be recorded.

**When to fill in the diary**
Please record your eating **as you go**, not from memory at the end of the day. Use written notes on a pad if you forget to take your diary with you. Each diary day covers a 24hr period, so please include any food or drinks that you may have had during the night. Remember to include foods and drinks between meals (snacks) including water.

Overleaf you can see 2 example days that have been filled in by different people. These examples show you how we would like you to record your food and drink, for example a ready meal and a homemade dish. Your instruction booklet contains further examples such as how to describe food eaten in a restaurant.

Use the pictures to help you indicate the size of the portion you have eaten. Write on the food record the picture number and size A, B or C nearest to your own helping.

Remember that the pictures are much smaller than life size. The actual size of the dinner plate is 10 inches (25cm), the side plate, 7 inches (18cm), and the bowl, 6.3 inches (16cm).

The tables on pages 16-21 also give examples of foods that you might eat and how much information is required about them.

1. Breakfast cereals

A  B  C
2. Rice

3. Spaghetti

4. Chips
5. Broccoli/ cauliflower

6. Stew / curry

7. Battered fish
8. Quiche / Pie

9. Cheese

10. Sponge cake

How to fill in your diary

It is very important that you do not change what you normally eat or drink just because you are keeping a diary. Try to write down what you are eating or drinking as soon as you can and not leave it until the end of the day. Record food and drink eaten at home and away from home, such as at school or at a friend’s house.

Whenever you have something to eat or drink write down:

When:

Each day is divided into time slots from first thing in the morning until late at night until the following morning. Find the appropriate time slot and record the exact time when you eat or drink something in the “time” column.

Where:  This could be

Home
- Bedroom
- At table
- Watching television
Away
- Street
- Car/Bus
- Café/ Restaurant (specify Mac Donalds, Pizza Hut etc.)
School
- School canteen
- Classroom
- Playground
**With Whom:** This could be
- Alone
- With family
- With friends

**What:**
Describe your food and drink giving as much detail as you can. Include any *extras* like sugar and milk in your tea or cereal, butter or other spreads on your bread and sauces such as ketchup and mayonnaise. **Do not forget to include drinking water.**

If you know how the food was cooked (eg. roast, baked, boiled, fried), please record this. If you're unsure about how the food was cooked, please ask the person who prepared the food if possible.

On pages 12 - 17 you will find help with the sort of detail that is useful.

If you have eaten any *homemade dishes* eg. a stew or sponge cake, please make sure the ingredients and cooking method are recorded in the space provided. You may need to ask the person who prepared the dish to help you with this. If another person at home is also keeping a diary and has recorded the recipes for the same dishes as you in their diary (the ADULT diary), you do NOT need to record these recipes again, just write in your diary “see adult diary”. If you have eaten any *take-aways* or any made up dishes not prepared at home such as at a friend's house or in a restaurant, please record as much detail as you can about what was in the dish eg. vegetable curry containing chickpeas, aubergine, onion and tomato.

**Brand:**
Please make a note of the *brand name* (eg. Heinz, Walkers, Hovis) if you know it. Most packaged foods will list a brand name.
Amount eaten:
You can write S (small), M (medium) or L (large) portion, or specify packet (eg. Crisps, Yogurt), or number of individual items (eg. biscuits), or slices (eg. cake, pizza, ham), or teaspoons (eg. sugar), or tablespoons (ketchup, peas). Be careful when describing amounts in spoons. Compare the spoon you are using with the life size spoons at the back of this diary so that you use the correct name.
For drinks you can write glass (tell us the size of the glass or volume using page 18 as a guide), cup or mug. You can also write the weight or volume from the labels on the packaging.
On pages 12 - 18 you will find help with describing how much you had to eat or drink.

We would like to know the amount that you actually ate, so you need to think about how much you leftover. You can do this in 2 ways:
1. Record how much you were served and then how much you ate e.g. 3 tablespoons of peas, only 2 tablespoons eaten; 1 large sausage roll, ate only half
2. Only record how much you actually ate i.e. 2 tablespoons of peas; half a large sausage roll

Food labels/wrappers:
Please keep the labels or packaging from snacks, sweets, bought sandwiches and ready meals and put them in the plastic bag provided.

Was it a typical day?
After each day of recording you will be prompted to tell us whether this was a usual day (tick yes, usual) or whether there were any reasons why you ate and drank more or less than usual, e.g. I did eat less because I was sick; I drank a lot because I did sports.

Supplements
At the end of each recording day you need to tell us about any supplements you took. If you didn’t take any just tick NO. If yes, then please tell us the name of the supplement (e.g. vitamin C), brand (e.g. Boots), strength (it will tell you on the label – e.g. 50 mg) and how many you took (e.g. 1 tablet).

If you have any queries about how to complete the diary please contact a member of the NDNS team on freephone 0800 652 4572 between 8.30am and 5.30pm.

On pages 4-11 of the diary we have filled in a two whole days to show you what to do.

If you have any queries about how to complete the diary please contact a member of the NDNS team on freephone 0800 652 4572 between 8.30am-5.30pm.
PLEASE READ THROUGH THESE PAGES BEFORE STARTING THE FOOD DIARY

We would like you to record in this diary everything your toddler eats and drinks, at meal times and in between, day and night for 4 days. Please include all food consumed at home and outside the home.

<table>
<thead>
<tr>
<th>Time spent in the care of other</th>
</tr>
</thead>
<tbody>
<tr>
<td>If your toddler spends time in the care of others during the recording period then we would very much appreciate if those carers (e.g. crèche staff, childminder, friend) would provide details of the food and drink consumed. For this purpose you have been given a pack to pass on to carers explaining about the study and asking for their support in gathering the required information.</td>
</tr>
</tbody>
</table>

Please provide the following information for each day of recording:

**Day and Date**
Please write down the day and date at the top each time you start a new day of recording.

**Time Slots**
Please note the time of each eating occasion into the space provided. For easy use each day is divided into sections, from first thing in the morning to late evening and through the night.

**Where and with whom?**
Please tell us what room or part of the house your toddler was in when eating, e.g. kitchen, living room, and tell us whether s/he ate at a table or not and whether they were watching television. If s/he ate outside the home please write that location down. We would also like to know who your toddler shared meals with, e.g. whether s/he ate alone, with parents, siblings, or friends.

**What does your toddler eat?**
Please describe the food your toddler ate in as much detail as possible. Include all meals and all snacks. Be as specific as you can. Pages 16 - 21 will help with the sort of detail we need, like cooking methods (fried, grilled, baked etc) and any additions (fats, sugar/sweeteners, sauces, pepper etc).

- **Recipes/Homemade dishes**
  If your toddler has eaten any homemade dishes e.g. chicken casserole, please record the name of the recipe, ingredients with amounts (including water or other fluids) for the whole recipe, the number of people the recipe is for, and the cooking method. Write this down in the recipe section for each food record day. Record how much of the whole recipe your toddler ate in the portion size column (see examples on pages 9 and 15).

- **Take-aways and eating out**
  If your toddler has eaten take-aways or made up dishes not prepared at home such as at a restaurant or a friend’s house, please record as much detail about the ingredients as you can e.g. spaghetti with mince, onion and tomato sauce.
Brand name
Please note the brand name (if known). Most packed foods will list a brand name, e.g. Bird’s eye, Hovis, or Supermarket own brands.

- **Labels/Wrappers**
  Labels are an important source of information. It helps us a great deal if you enclose, in the plastic bag provided, labels from all ready meals, from foods of lesser known brands and also from any supplements your toddler takes.

**Portion sizes**
Examples for how to describe the quantity or portion size your toddler had of a particular food or drink are shown on pages 16 - 21.

**For foods**, quantity can be described using:
- **household measure** e.g. one level teaspoon (teasp) of sugar, two thick slices of bread, 4 heaped tablespoons (tbsp) of peas, ½ cup of gravy. Be careful when describing amounts in spoons that you are referring to the correct spoon size. Compare the spoons you use with the life size photos at the back of this diary.
- **weights from labels** - use the weight marked on canned or packet foods, e.g. quarter of a 420g tin of baked beans, one 125g pot of yoghurt
- **number of items**, e.g. 2 fish fingers, 2 pieces of chicken nuggets, 1 regular size jam filled doughnut
- **fruit**, indicate whether the piece of fruit is small, medium or large
  For drinks, quantity can be described using:
  - the **size of glass, cup etc** (e.g. large) or the **volume** (e.g. 300ml).
  - **volumes from labels** (e.g. 330ml can of fizzy drink).

We would like to know the **amount that your toddler actually ate** which means taking leftovers into account. You can do this in two ways:
1. Record what was served and note what was not eaten e.g. 3 tbsp of peas, only 2 tbsp eaten; 1 weetabix, ate only ½
2. Only record the amount actually eaten i.e. 2 tbsp of peas; ½ weetabix

**Was it a typical day?**
After each day of recording you will be prompted to tell us whether this was a typical day or whether there were any reasons why your toddler consumed more or less than usual.

**Supplements**
At the end of each recording day there is a section for providing information about any supplements your toddler took. Brand name, full name of supplement, strength and the amount taken should be recorded.

**When to fill in the diary**
Please record your toddler’s eating as you go, not from memory at the end of the day. Use written notes on a pad if you forget to take the diary with you. Each diary day covers a 24hr period, so please include any food or drinks that your toddler may have had during the night. Remember to include foods and drinks between meals (snacks) including water.

Overleaf you can see 2 days that have already been filled in. These examples show you how we would like you to record your toddler’s food and drink, for example a meal from a jar and a homemade dish.

**It only takes a few minutes for each eating occasion!**
Thank you for your time – we really appreciate it!

Thank you for completing this diary.
Here are some questions for you to answer on your own.

We are interested in your honest answers.

**We will not tell anyone what your answers are.**

Look at the instructions on the next page and read what to do.

Ask the interviewer for help if you do not understand a question or are not sure what to do.

Thank you for taking part in this survey
How to answer these questions

- Please read each question carefully

- Most of the questions can be answered by putting a tick in the box next to the answer that applies to you, like this

Program Documentation

Nurse Schedule

This ‘paper version of the program’ has been created to indicate the wording and content of the nurse questionnaire.

PART 2: Nurse Schedule

• Instructions for the nurse are given in capital letters, and questions the nurse is to ask the respondent are given as normal text.
• Items which appear in the actual program but which have been excluded here for clarity include: Repetition of respondent’s name on each question; Checks on the accuracy of answer codes in relation to each other; Prompts for back-coding during the edit process.

NURSE: ---Read out to parent (if applicable):
(As I mentioned earlier) we would like to measure your/(child’s name)’s blood pressure. If you wish, I will write the results on your/(his/her) Measurement Record Card.
I will not, however, be able to tell you what the results mean. This has to be calculated using your/(his/her) age, sex and height. Also blood pressure can vary from day to day and throughout the day, so one high reading would not necessarily mean that you/(he/she) have/(has) high blood pressure.
However, if you would like us to, we will send your/(his/her) results to your/(his/her) GP who is better placed to interpret them.
In the unlikely event that (respondent’s name) should be found to have a high blood pressure for your/(his/her) age and height, we shall advise your/(his/her) GP (with your permission) that your/(his/her) blood pressure should be measured again.

IF RESPONDENT IS DIABETIC AND CONCERNED ABOUT FASTING, PRESS F9 FOR GUIDANCE ABOUT THE DIFFERENT MEASURES THAT A DIABETIC COULD TAKE AND STILL GIVE A FASTING BLOOD SAMPLE.
CODE BELOW WHETHER RESPONDENT WILLING TO GIVE A FASTING BLOOD SAMPLE.
Acceptable procedures according to medication:
---Respondents on oral hypoglycaemic medication should be able to fast without complications.
---Respondents on a combination of nighttime insulin and daytime tablets should also be able to fast unless they are known to have low blood sugar levels first thing in the morning. If they do have low blood sugar in the morning, they could still fast but should reduce their nighttime insulin by a small amount and have breakfast as soon as possible after the blood is taken.
---Respondents on insulin alone can also provide a fasting sample, but should be given special consideration. They should omit their morning insulin and should be seen as early in the day as possible.
In every case, diabetics should have breakfast as soon as possible after blood is taken.
Note that the option of providing a non-fasting sample is only open to diabetics and respondents under the age of 4. Blood should not be taken from respondents who are willing to provide a sample but are not prepared to fast.

CONSENT FORM FOR THE NATIONAL DIET AND NUTRITION SURVEY
CF (A1)

ADULT AGED 16+

Respondent’s name_________________________________________ (BLOCK LETTERS)

- I have received the information leaflets (version P2709/P8709) which explain the nature and purpose of the study. I have read and understood these leaflets.
- I am satisfied with any enquiries I have made regarding the study.
- I have been informed that the results will be kept confidential and presented in a way that protects my identity.
- I understand that I may withdraw my consent to any or all of the survey elements at any time without needing to give a reason.

I hereby consent to the following aspects of the study:

Please initial box if consent given

☐ The survey team sending my blood pressure measurement to my GP.
☐ The survey team sending my body mass index measurements to my GP.
☐ Taking PABA tablets to support the 24-hour urine collection.
☐ Laboratory analysis of my 24-hour urine collection, to help assess my diet.
☐ Storage of any remaining urine for tests in the future relating to nutrition and health, provided that the tests are approved by an NHS ethics committee. I understand that I can withdraw my consent to store my urine at any time, without giving any reason, by asking the investigators in writing for my urine to be removed from storage and destroyed. I understand that my data is being used in anonymised form only.

CONSENT FORM FOR THE NATIONAL DIET AND NUTRITION SURVEY

Children aged 4 to 15 years

Parent/Guardian Section

I agree for my child to participate in the above named survey and in doing so acknowledge that:

- I have received the information leaflets (version P2709/P8709) which explain the nature and purpose of the study. I have read and understood these leaflets.
- I am satisfied with any enquiries I have made regarding the study.
- I have been informed that the results will be kept confidential and presented in a way that protects my child’s identity.
- I understand that I may withdraw my consent to any or all of the survey elements at any time without needing to give a reason.
- I have been given written information about the Ametop gel and the nurse has explained the purpose and use of Ametop gel to me.

I hereby agree for my child to participate in the following aspects of the survey:

Please initial box if consent given

- Blood sample for tests related to nutrition and health. This blood sample will not be used for HIV or genetic testing. Please tick the appropriate box:
  - [ ] with Ametop gel
  - [ ] without Ametop gel

- I would like / would not like (delete as appropriate) to receive a written report of my child’s clinically relevant blood results*

- The NDNS team sending potentially clinically relevant blood results to his/her GP*.

- Storage of any remaining blood for tests in the future relating to nutrition and health, provided that the tests are approved by an NHS ethics committee. I understand that I can withdraw my consent to store my child’s blood at any time, without giving any reason, by asking the investigators in writing for his/her blood to be removed from storage and destroyed. I understand that my data is being used in anonymised form only.

*Please note that if you do not want to receive a report of your child’s blood results and do not want results to be passed on to his/her GP we need you to sign a disclaimer (page 8).

**CP952**

- 1x serum for creatinine, CRP, FLP

**HA952**

- 1x EDTA for A1c, RBC Folate, FBC - will be shared between departments so label primary tube with biochem barcode and haem barcode

Print patient biochem barcodes (screen 66)

Depending on volume split the whole blood in the following priority:

- **FBC**
  - Tip the 2.7ml primary EDTA tube upside down; the minimum volume required will take the blood level 1mm above the cap
  - If there is sufficient volume proceed to aliquoting whole blood for folate
  - Remember to send primary tube to Haem with a duplicate request form

- **Folate**
  - Take 2x ascorbic acid 2ml tubes from the bottom half of the -80°C Protect freezer and defrost. Each contains 1ml ascorbic acid – check it has not expired
  - Print more barcodes from the biochem barcode, these will contain the subject information
  - Label 2x defrosted 2ml ascorbic acid tubes with patient biochem barcodes
  - Invert the primary EDTA tube a few times to re-suspend the contents
  - Transfer exactly 100µl from primary EDTA tube into each tube containing 1ml ascorbic acid and invert to mix
  - Store in the -80°C Protect freezer
  - If there is sufficient volume proceed to aliquoting whole blood for A1c

- **A1c**
  - Label 1x 2ml secondary tube with patient biochem barcode and write A1c
  - Invert the primary EDTA tube a few times to re-suspend the contents
  - Transfer 0.5ml from primary EDTA tube into secondary tube
  - Place secondary tube in A1c skip in office

*Please use the remaining plasma to fill LH8 and LH9. Use the remaining serum to fill SE2, SE3 and SE4. It is anticipated that there will not always be sufficient plasma/serum to fill to the desirable volume. If plasma from either of the LiHep tubes is haemolysed use the clear plasma to fill priority tubes, and the haemolysed plasma to fill the remaining tubes. But always use LiHep plasma from LH N1 or LH N2 (trace metal monovettes) to fill LH5 and LH6. If you have to use LH N3 plasma for LH5 and LH6 then please make a note in the table above.
