Text for interviewer to read out at PreDWP

Thank you for your help with the survey so far. There is another way you can help us. The Department for Work and Pensions would like to add the records they already hold on your benefits, tax and employment to your answers to this survey. Adding everyone's records in this way will help us with further research to get a more accurate picture of people's living standards.

If you agree to help, we will need to pass your name and address to the Department for Work and Pensions. This is so they can find your records to add them to your answers. All information will be used for research and statistical purposes only. Your personal details will, of course, be kept completely confidential.

Information on screen for the interviewer at PreDWP

If required, give the respondent additional information as detailed on the information leaflet to help them understand the request. Ensure that the respondent understands the request so that their informed consent is taken.

Always leave the information leaflet (which includes further confidentiality assurances) with the household where the respondent has agreed to data linkage. Reason for needing personal details and confidentiality assurances are in the Helpscreen.
