Description
The following information and help messsages should on the screen until the all relationships between household members have been collected at
Relationship.

Information Only
There are a lot of changes taking place in the make-up of households/families and this section is to help find out what these changes are. I'd like you to tell me the relationship of each member of the household to every other member.

Help
This section must be asked for all households consisting of more than one person. Please ask in every case, you should not make assumptions about any relationship. Treat relatives of cohabiting members of the household as though the cohabiting couple were married, unless the couple are a same-sex couple. Ask respondent to give the number on the card rather than the relationship.

Information Only

The next questions are about all periods in or out of employment since you left full-time education, even if they only lasted for a month. Please do not tell me about each job you have had, just about each period of paid employment or periods doing things like looking after the family, being unemployed or being in education.

Help

We want to know about changes in employment status, not specific job changes, so two consecutive events should never have the same status code e.g. an '02' followed by an '02'.

One of the most important parts of our research is how people are getting by financially these days. We have found that we need to ask about a number of different types of income because otherwise our results could be misleading. Please think about ALL of the extra sources of income you receive, as well as any benefits or tax credits. If you are at all unsure about whether something would count, you can check with me. I'd like to remind you that anything you tell me is completely confidential.
