Other treatment procedures:

- Removed all records from households with **“10 or more occupants”** (using **ADULTH** and **DEPCHLDH**)
- On **JOB** table, top-coded all job records where **UGRSPAY** is **“greater than 10 times the mean”** to **“10 times the mean”** and set all other monetary values of treated records to zero; the income Derived Variables were then re-run prior to further anonymisation
- The **TRANSACT** has been removed so that the original tables can not be re-created.
- The **SERNUM** has been further anonymised following advice from ONS.
