Number Series measures quantitative reasoning. This ability involves reasoning with concepts that depend upon mathematical relationships. The task requires the Respondent to look at a series of numbers with a number missing from the series. The Respondent must determine the numerical pattern, and then provide the missing number in the series. Each participant was given up to six number series problems to solve.

Notes**Number Series Test of Quantitative Reasoning**

Number Series measures quantitative reasoning. This ability involves reasoning with concepts that depend upon mathematical relationships. The task requires the Respondent to look at a series of numbers with a number missing from the series. The Respondent must determine the numerical pattern, and then provide the missing number in the series. Each participant was given up to six number series problems to solve.

Notes
Number Series Test of Quantitative Reasoning
Number Series measures quantitative reasoning. This ability involves reasoning with concepts that depend upon mathematical relationships. The task requires the Respondent to look at a series of numbers with a number missing from the series. The Respondent must determine the numerical pattern, and then provide the missing number in the series. Each participant was given up to six number series problems to solve.

One of the most important parts of our research is how people are getting by financially these days. We have found that we need to ask about a number of different types of income, otherwise our results could be misleading. Please think about ALL of the extra sources of income you receive, as well as any benefits or tax credits. If you are at all unsure about whether something would count, you can check with me. I'd like to remind you that anything you tell me is completely confidential.

Maintenance arrangements are sometimes made by parents, if they do not live together, to help support any children. These can be regular payments made through Court Orders, through the Child Support Agency or just made privately between the parents without involving the CSA or Courts.

I'd now like to ask you some more details about the maintenance payments you receive. *If BENEFITS.BenSta = 4 | BENEFITS.BenFam = 3* / I'd now like to ask you about any maintenance payments you could receive for your children *(if BENEFITS.BenSta is not equal to 4 & BENEFITS.BenFam is not equal to 3)*.

Has the Child Support Agency, or CSA, made a calculation, instructing a previous partner to pay maintenance to you or any children?

I'd like to ask some questions about each person with whom you've had children. So that I don't ask the same set of questions twice, I need to record which children you had with each of your partners. We don't need your partner's name, but we'll use a code to identify which children have the same parent.

Interviewer Instruction

RECORD [FATHER/MOTHER] CODE FOR [CHILD].

RECORD WHICH CHILDREN HAVE THE SAME MOTHER FATHER/FATHER, USING CODES TO INDICATE WHICH CHILDREN HAVE THE SAME PARENT RATHER THAN RECORDING ACTUAL NAMES

SO, START WITH THE FIRST CHILD IN YOUR LIST AND CODE THEIR PARENT AS '1', AND CHECK WHICH OTHER CHILDREN HAVE THE SAME PARENT AND ALSO CODE THEM AS '1'. THEN FOR RESPONDENT'S SECOND EX-PARTNER CODE ALL THE CHILDREN THAT THEY HAD TOGETHER AS CODE '2', AND SO ON.
