UK Data Archive Study Number 703 - National Food Survey, 1982

THE SPATIAL STRUCTURE OF FOOD CONSUMPTION IN BRITAIN: A FEASIBILITY STUDY

WORKING PAPER

P.J. ATKINS

E.S.R.C. Award No. R000232218

Department of Geography, University of Durham, Durham DH1 3LE
June 1992

Introduction

The limited objectives of the research were as follows

1 To establish a food and nutrition database at Durham which will in future enable the testing of food-related hypotheses of significance to social theory

2 To explore the possibility of linking national-scale longitudinal data sets of relevance to food and consumption behaviour

The following data sets have been acquired

1 National Food Survey, Ministry of Agriculture, Fisheries and Food

1979	ESRC Data Archive study no 1931
1980	1932
1981	1883
1982	703
1983	2047
1984	2189
1985	2342
1986	2411
1987	2581
1988	2683
1989	2725

2 Diet in the Home, 1969 Social Surveys (Gallup Poll) Ltd ESRC Data Archive study no 2445

3 NEDO Eating Out Survey, 1974 Social Surveys (Gallup Poll) Ltd ESRC Data Archive study no 2454

4 Family Expenditure Survey, 1988 ESRC Data Archive study no 2683 FES 1979-87 and 1989 are on order

5 Access was gained to the Department of Employment's National Online Manpower Information System

6 Royal Society of Chemistry/Ministry of Agriculture's UK National Nutrient Databank

Overall this constitutes a substantial archive of data on various aspects of food purchase and consumption behaviour I would be very happy to discuss this data with any other interested researchers

National Food Survey

The Ministry of Agriculture's National Food Survey is an annual survey of the food consumption behaviour of a sample of approximately 7,700 households In each round, 52 local authority districts are chosen as the first level of a stratified sample, the second level of which is 800 postal sectors These data are used to characterize the household food expenditure and consumption patterns in each of the Standard Regions, and also

in London and the Metropolitan Districts It is these macro level statistics which are published (Ministry of Agriculture, Annual) The raw NFS data is available from the ESRC Data Archive and is held at Durham for 1979-89 Further, pre-1979, time-series data is in the files of the M A F F but is confidential and difficult of access The N F S started in a different form in 1940 (Baines, 1991) and the full series is a very significant resource

The National Food Survey is available at the Parliamentary Constituency level until 1983, and thereafter for local authority districts In the period 1979-89, 219 constituencies out of 650 and 156 districts out of 485 were sampled and data recorded in machine-readable form This affords the researcher a detailed picture of local diet, which can be analysed in three ways

a) Food purchases in 348 categories (value and quantity) can be studied against the following independent variables

- type of area (metropolitan/ non metropolitan,
- density of population),
- household composition,
- income,
- occupational status,
- energy expenditure category at work,
- social class,
- ownership of dwelling,
- welfare benefit status,
- season

b) The nutritional content of each household's food purchases can be calculated using the Royal Society of Chemistry's standard composition tables, which are available in machine readable form This can then be compared with the DHSS Recommended Daily Allowances to judge geographical variations in under/over nutrition

c) Using a simple geographical information system it is possible to produce computer maps of both raw and manipulated data

The contract work undertaken was as follows

1 The data were supplied by the Data Archive as flat files in SPSSX format on magnetic tapes The cost of documentation, tape and postage was very reasonable, with the M A F F 's royalty, at £50 per annum, the most significant item

2 The individual annual data files were copied to disc on the University of Durham's mainframe Amdahl 5860 computer An immediate problem encountered was the sheer volume of data Durham's normal resource limit of memory is 500 'pages' of disc space, with a major limit of 10,000 pages Each year of NFS data represents 3-4,000 pages and the full 1979-89 series therefore totalled 38,500 pages With a full archive back-up (hence a grand total of 77K pages, which equals 0 3Gb), this was very substantially beyond normal limits Durham's computing environment is due for a complete change in June 1992, with a change from MTS to UNIX

3 The data were read into the package program SPSSX, which has proved an invaluable tool of analysis Most time has been spent on data proving and investigation, without any substantive exploratory statistical analysis that is reserved for a later phase of the research Several puzzles arose over the meaning of sections in the codebook supplied by the Data Archive, but most of these were cleared up by reference to the staff of the NFS, who have been very helpful It seems that some recoded variables, which were created for some special analytical purposes in the past, have been retained in the codebook when their structure and relevance was no longer clear See Appendices 1 and 2 for further details

4 Mispunches can be identified fairly easily and a future task will be to clean the data where necessary Some problems in reading at least one variable in the raw data seem to have been encountered by the Data Archive's software The solution to this problem is less obvious

5 The NFS data will shortly be available in the form of a database which can be interrogated by SIR, a commercial relational database program which has been adopted by the M A F F Unfortunately the University of Durham has no plans to acquire SIR and research will therefore continue using SPSSX and dBase IV, neither of which is ideal, or the relational package INGRES

6 The structure of the NFS data is complex In Archive- generated record type 1 there is household information, in 1979 7277 cases x 57 variables This included region, area, family income, ownership of fridge/freezer, etc In record type 2, the level of the individual person, there were in 1979 28,055 cases x 10 variables, including basic information on age, sex, occupation, and activity In record type 3 in 1979 there was purchase data on 369,784 items x 8 variables Here type, quantity and cost of purchases were recorded Levels 2 and 3 nest into level 1 and SPSSX routines have to be written to relate the different levels

Other Data Sets

(a) Diet in the Home was a survey carried out in 1969 by Social Surveys (Gallup Poll) Ltd The aim was to list everything eaten at home during the survey day 75 questions were asked, ranging across a wide spectrum of foods and consumption behaviour The survey resembles those still used by market research companies, although there were no questions on quantities consumed

(b) The NEDO Eating Out Survey, 1974, conducted by Social Surveys (Gallup Poll) Ltd was an enquiry into the snacks, meals and drinks consumed away from home 69 questions were asked and a diary completed

(c) The Family Expenditure Survey is an annual survey of the income, payment and expenditure behaviour of a sample of 7,700 households Unfortunately access to data at the sub-regional is not possible The computer tapes will soon be loaded in Durham for 1979-89, and the years 1961-1978 (14 studies) are also available at the ESRC Data Archive The FES is a rich source of information about household structure, income, welfare benefit status, social class, occupational status, and expenditure on 64 food items (including meals out)

(d) The National Online Manpower Information System is a nationally networked computer database offering rapid access and integrated analysis for data from the Census of Employment, unemployment statistics, and the 1981 population census The data is available at a number of different geographical scales and can be manipulated, mapped and downloaded NOMIS is part of the Department of Geography, University of Durham, and I have become a registered user with a current Department of Employment 'notice' and the authority to 'download' data from NOMIS The ability to export data from NOMIS is essential for the next stage of my project It is possible to investigate NOMIS data on a number of 'geographies' and from my point of view the most important are the parliamentary constituencies and local authority districts for NFS data, and the standard regions for the FES Unfortunately the NOMIS parliamentary constituency boundaries are those current (the 1983 revision) and therefore of limited use for the 1979-83 NFS From 1984 onwards the NFS used local authority district boundaries and it is a relatively simple task to link NFS data with NOMIS variables on the same geographical frame, such as the Census of Employment by the 1980 Standard Industrial Classification, the 1981 Population Census, population by occupation in the 10% sample, the Small Area Statistics 1981, and certain unemployment data

(e) Nutritional Software After extensive enquiries about the available dietetic/nutrition computer programs on the market, it was decided that none suited the purposes of the project exactly Most interesting is the Royal Society of Chemistry/Ministry of Agriculture's UK National Nutrient Databank This is an updated, expanded and machine-readable form of the standard work by McCance & Widdowson on The composition of foods A year's licence for this databank has been purchased, but unfortunately the data is not yet available in the form accessible by database programs such as dBase IV It will therefore be necessary to write some software to enable the use of this data The objective will be to allow the translation of NFS data into maps of nutritional intake and therefore help to identify areas and groups of people within areas who may be at risk of malnutrition This work is still at a very early stage of development I have been informed that the Ministry of Agriculture's customised programmes, which perform a similar function for the regional level, are not available for public use

(f) Market research data There are a number of market research companies which have detailed purchasing behaviour databases with a spatial content, compiled through regularly updated panel surveys and questionnaires (British Library, 1989) Examples are the British Market Research Bureau's Target Group Index which is compiled from 24,000 questionnaires per year at 3,500 locations, asking questions on 3,000 brands of goods (including many in the food sector) Others include Nielsen Online, the Superpanel (Audits of Great Britain Ltd), and the Family Food Panel (Taylor Nelson Research)

Enquiries were made about the British Market Research Bureau's Target Group Index
Current data costs are

Food data	£12,250	
Lifestyle data	£2,100	
CHOICES, the computer software for analysing the data		£5,950

The T G I is also available in book form, at £500 for 34 volumes for 1987, or at an inspection fee of £1,000 to view the historic series of volumes which goes back to 1970

These costs were prohibitive in the context of the present project, but future research ought to take cognisance of market research data for the wealth of locationally-specific information it offers

Future work planned

This project has been limited in its scope to data acquisition and preliminary investigation As a result of the contract work undertaken, the present investigator is now convinced that there is a great deal of relevant and very valuable work possible in subsequent phases The following are some obvious research themes

(i) To model the NFS data statistically The aim here would be to investigate the explanatory power of the variables which are most frequently asserted as determining dietary behaviour The possibilities for this project are income, social class, employment status, household demographic structure, retail price variations in relation to overall cost of living, and other factors, eg ownership of a freezer, age of housewife, etc The expectation is that there will be an important residual regional and sub-regional pattern which will have to be explained by resort to other factors

(ii) To investigate temporal trends in the NFS data Changes through time and across space must be allowed for in the statistical analysis in order to prepare a static pooled model of the period 1979-89, but the objective in this part of the research will be rather to use that trend data to predict future patterns of food purchases and consumption Here, conclusions will be pitched at the scale of the standard region for technical reasons of statistical reliability associated with the NFS sampling strategy The conclusions could be enhanced by triangulation with the FES which is collected at that same regional level

(iii) To theorize the results from the analysis of the empirical data In Britain food consumption, diet and nutritional status have received insufficient attention in social theory Much of the growing literature on the spatial structures of social relations, for instance, relates to spatial divisions of labour and their consequences for changes in production relationships Far less attention has been devoted to geographical structures produced by and evidenced in the consumption process The demand side of the food system can tell us a great deal about the dynamic of social differentiation To this end I wish to analyse the changing household demand for food in time and space, revealing what one might call 'divisions of consumption'

(iv) Policy implications of future work

1 This work would provide policy makers with a valuable tool for calibrating their ideas Nationwide policies are expensive to implement this research could show the extent to which local/regional targeting is necessary/desirable Mrs Edwina Currie would no doubt have welcomed such detailed information when making her comments on the 'northern' diet

2 It should also be possible to use the detrended spatial model of food consumption to look at the regional health implications of diet This food-health link is coming to the top of the political agenda, as recognised by the government in their white paper *The Health of the Nation* published in June 1991, when they implicate the nation's diet in common diseases such as coronary heart disease, stroke and some cancers

3 In future I intend to delve further into the social theory of diet by extending the scope of the work to the whole of the EC I hope to establish contacts with continental colleagues working on food systems

APPENDICES

1 List of variables in the National Food Survey data sets (1979-89) deposited with the E S R C Data Archive

2 Variable limits

3 Parliamentary constituencies used in the National Food Survey sampling frame, 1979-1983, with map

4 Local Authority Districts used in the National Food Survey sampling frame, 1984-1989, with map

Appendix 1: List of NFS variables

Var	Columns	Var Name	Description
	1	BLOCK	1=first of three data blocks
	2-5	HOUSEHNO	Household identifier number
1	6-7	REGION	Standard region (Codebook Appendix B)
2	8-9	AREA	Constituency/Local Authority District (Codebook Appendix B)
3	10-11	CYCLE	Ten day sample periods (Codebook Appendix D)
4	12-13	SERIALNO	Serial no of household in constituency
5	14	SAMPLE	Type of area code (Codebook Section A)
6	15-16	HCOMP	Household composition (Codebook Section B)
7	17-18	INCGRAD	Gross weekly income of head of household, except that if the gross weekly income (earned or unearned) of the HOH is less than the lowest threshold (£56 in 1979, £120 in 1989), and the household contains one or more earners, one at least of whom has a weekly income over that threshold, then INCGRAD based on gross weekly income of the principal earner and CROSSOVER punched '1'. (Codebook Section A)
8	19	SOCCLASS	Registrar General's social class (Codebook Section B). Aggregated from OCCUPATN (Codebook Appendix A)
9	20-21	SEGROUP	Registrar General's socio-economic group (Codebook Section B). Aggregated from OCCUPATN (Codebook Appendix A)
10	22	OWNDW	Ownership of dwelling (Codebook Section A)
11	23	HWIFEAGE	Age of housewife (Codebook Section B)
12	24	HOHAGE	Age of head of household (Codebook Section B)
13	25	FRIDGE	Refrigerator and/or freezer, and/or microwave in household
14	26	PROFESSN	Socio-econ grouping [should be simple aggregation of SOCCLASS, but doesn't seem to match] (Codebook Section B)
15	27-28	INCELAS	Grouping of households for income elasticity calculations [code only allocated to households declaring a net family income; other households coded 0. So does not directly correspond to HCOMP because of item 0] (Codebook Section B)
16	29	FAMINC	Family income type (Codebook Section A)
17	30-31	INTVWDAT	Date (in month) of interview (1-31)(Codebook Section A)
18	32-33	PERSONS	Total number of persons in household (excluding visitors) during survey week (Codebook Section A)

19	34	TPDECINC	Persons in household with a declared family income [very different from EARNERS because in TPDECINC large numbers did not declare](Codebook Section B)
20	35	PREGNO	Number of pregnant women [in effect the number of households with pregnant woman/women](Codebook Section B)
21	36-37	MONTH	1(Jan)-12(Dec) [use in combination with INTVWDAT](Codebook Section A)
22	38	BENEFIT	Codebook Section A
23	39	CROSSOVR	Cross-over HOH (Codebook Section A)
24	40	OAP	Number of OAPs (Codebook Section B)
25	41-42	ADULTM	Number of adult males (Codebook Section B)
26	43-44	ADULTF	Number of adult females (Codebook Section B)
27	45	AGE6	Number of children aged 16-17 (Codebook Section B)
28	46	AGE5	Number of children aged 12-15 (Codebook Section B)
29	47	AGE4	Number of children aged 8-11 (Codebook Section B)
30	48	AGE3	Number of children aged 5-7 (Codebook Section B)
31	49	AGE2	Number of children aged 1-4 (Codebook Section B)
32	50	AGE1	Number of children aged <1 (Codebook Section B)
33	51	VISITORS	Number of visitors (Codebook Section A)
34	52-53	EARNERS	Number of earners in household. [very different from TPDECINC because in latter large numbers do not declare income.
35	54	HOHNO	Number of Heads of Household
36	55	HWIFENO	Number of housewives
37	56-57	HCOMPIG	Household composition x income groups (short). Codebook Section B.
38	58-59	HCOMPIGA	Household composition x income groups, full (A). Codebook Section B. Not clear why split into HCOMPIGA and HCOMPIGB.
39	60-61	HCOMPIGB	See HCOMPIGA. Codebook Section B.
42	62-63	SAMPIG1	Sample class x income groups. Not clear why split into SAMPIG1 and SAMPIG2. Codebook Section B.
43	64-65	SAMPIG2	See SAMPIG1. Codebook Section B.
44	66-67	SAMPHC1	Type of area x houshold composition. Not clear what this is, nor why it should be split into SAMPHC1 and SAMPHC2. Codebook Section B.
45	68-69	SAMPHC2	See SAMPHC1. Codebook Section B.
46	70-71	SAMPREG	Type of area x region. Codebook Section B.
47	72	SPARE	

48	73	SOECSEG	Socio-economic grouping. Not clear what this is. Does not correspond to SOCCLASS.
49	74	SOECHC	Household composition. Not clear. Does not correspond to HCOMP.
50	75-76	EMPLHOH	1979-82 spare, then 1983 onwards becomes employment status of HOH. Codebook?
51	77	SPARE	
53	78-82	EXPEND	Family expenditure in previous week (food only). Recall estimate requested at first survey meeting. Codebook Section B.
54	83-86	TOTFMINC	Total weekly net family income. Codebook Section B.
55	87-90	HOHOCCPN	Occupation of HOH, as listed in Codebook Appendix A.
55a	91	OCCACT	Activity level of males aged 18-64. Codebook Section B and Appendix A.
56	92-95	HOHINC	Gross weekly income of HOH or principal earner. Codebook Section B.
57	96-100	WKPURCH	Total purchase value for week. Accurate, diary-based figure. Codebook Section B.
59	101-102	YEAR	Codebook Section A.
61	103	FREEPUR	Families receiving free food. Codebook Sections B and C.
62	104-107	TOTNETBL	Total net balance. Codebook Section A and B.
	1	BLOCK	2=individual person data.
	2-5	HOUSEHNO	Household number.
	6-7	PERSONNO	Code number of each person in household.
1	8-10	AGE	Person's age in years.
2	11	SEX	
3	12	WORKCODE	Working code. Codebook Section A.
4	13-16	OCCUPATN	Occupation code. Codebook Appendix A.
4a	17	ACTIVITY	Activity level of males aged 18-64
5	18-19	NUTRCODE	Nutrient codes for each person (including visitors) based on sex and/or age and, in case of males 18-64, degree of activity.
6	20	VISITOR	
7	21-23	NETBAL	Net balance for each person.
	1	BLOCK	3=Purchase information.
	2-5	HOUSEHNO	Household number.
	6-8	PURCHNO	Code number of each purchase.
1	9	DAYSURV	Day of survey.
2	10	DAYWEEK	Day of week.
3	11-12	PURCHCOD	Purchase/free code. Codebook Section C.
4	13-15	FOODCODE	Code number of food types. Codebook

			Appendix C.
5	16-19	PURCHVAL	Value of each item.
6	20-23	PURCHQUN	Quantity (oz, except for fluid oz for coffee essences, veg juices, fruit juices, Veg & salad oils, ice cream; tenths of pints for milk & cream (powdered & condensed milk as milk equivalents); eggs in units). Codebook Section C.

THE NATIONAL FOOD SURVEY 1982

All the particulars you give on this form will be treated in STRICT CONFIDENCE
Please do not put your name or address on it

HOW TO USE THIS BOOKLET

1 There are two pages for each day
2 On the first of the two pages please write down all the items of food coming into the house on that day
3 On the second page please show what was eaten at each meal and who ate the meal

The interviewer will call again on –

DAY	DATE	TIME

Household scales or spring balance owned?	Yes	
	No	
Spring balance loaned?	Yes

NATIONAL FOOD SURVEY

1982

1. Basic data

The basic data are gathered from two documents:-

(i) family and personal details taken from the N.F.S. schedules;

(ii) details of purchased or free food taken from the N.F.S. log-books.

The question numbers and answers for each household are keyed to disc and then put on magnetic tape in the order as printed on the schedule (omitting both items if the question is unanswered), followed by the food code details from the log-book. All the information for all the households in one cycle is keyed on to one reel of magnetic tape.

2. Generated data

The computer program validates the punched data and indicates any inconsistencies (eg, wrong question numbers, food codes which are not in current use, abnormally large quantities, etc). For records which are totally acceptable, certain additional household and personal details are generated, and a permanent record is written to a magnetic disc file. (All records are eventually preserved on a special magnetic tape). The permanent record includes a fixed area containing details such as region, area, cycle number, total purchase value, etc., followed by two variable length areas. The first of these records, for each person and visitor, the age, sex, occupation code, whether working, nutrient code and net balance. The second contains all details from the left-hand pages of the log-books, in the same sequence, including the day of survey/day of week marker and, for each food acquisition, the food code, purchase/free code, quantity and purchase value.

3. Appendix A gives the classification of occupations.

4. Appendix B lists the parliamentary constituencies being surveyed in 1982.

5. Appendix C lists the food codes in current use in 1982.

6. Appendix D is the timetable for 1982.

Food Economics Unit
Professional Unit 'C'
PINNER

January 1982

NFS 1170

A. HOUSEHOLD AND PERSONAL DETAILS TAKEN FROM SCHEDULE

'A' to 'E' on schedule	**Serial Number of the log-book completed by the housewife** A. One digit code denoting the standard statistical region. B. One digit code denoting the area (constituency) within the region.) These two codes together denote the area (constituency) see Appendix B (computer codes are numbered from 1 consecutively). C. Two digit period code (the periods are successive 10 day sampling periods throughout the year). D. One digit "type-of-area" (sample class) code 1. Greater London 2. The Metropolitan districts and the Central Clydeside conurbation Non-Metropolitan districts 3. Polling districts in Wards with an electoral density of 7 or more electors per acre 4. Polling districts in Wards with an electoral density of 3 but fewer than 7 electors per acre 5. Polling districts in Wards with an electoral density of 0.5 but fewer than 3 electors per acre 6. Polling districts in Wards with an electoral density of fewer than 0.5 electors per acre E. Serial number of household in area (constituency) A distinguishing number (from 1 upwards) allocated to each household for each period/area group.
'F' on schedule	**Date of first interview** day, month and year (2 digits each day, month and year)

'A' continued

Question No on Schedule

Expenditure in previous week

1 Amount of money spent on food during preceding week, expressed in £'s to 2 decimal places. Don't know, etc, coded 999.

Computer code	
Owns fridge only	= 1
" freezer "	= 2

87-90	(4)	87	88	89	90
91-94	(5)	91	92	93	94
95-98	(6)	95	96	97	98
99-102	(7)	99	100	101	102

'A' continued

Notes: (a) A person is anyone who spends at least four nights in the household during the week of Survey and also has at least one meal a day from the household food supply on at least four days, except that if he/she is the head of the household, the "cross-over" head of household or the housewife, he or she is regarded as a person, in all cases.

(b) If the age is not given, coded as 99

(c) Whether working:

(F) Full-time worker = 1 or, if pregnant, 6
(P) Part-time worker = 2 " " " 7
(N) Non-worker = 0 " " " 5
(U) Unemployed temporarily = 3 " " " 8
(SH) Sick temporarily = 4 " " " 9

(d) Occupation. A four-digit NFS code derived from the Registrar-General's coding of occupation. An additional (5th) digit has been assigned to the occupation-code to indicate the degree of activity for males between the ages of 18 and 64 years. Details are given in Appendix A.

(e) Net balance. A net balace is a mathematical expression of the number of meals consumed from the household supplies. A person having all his meals at home during the week (including packed meals provided by the housewife) is said to have a total net balance of 1.00; when meals are obtained from elsewhere deductions are made from this total to give a "net balance" of meals eaten at home by that person. The scale of deductions used for this purpose is as follows:

	(per day)	
Breakfast	.03	
Dinner	.04	
Tea	.02)	These weights are interchangeable,
Supper	.05)	whichever meal is the larger; if only one evening meal is taken, the two weights are combined

(f) Visitor. A visitor is anyone who does not qualify as a person (see note (a) above) but has at least one meal from the household food supply during the week of Survey.

Question No on Schedule

103 Total persons. The total number of all persons (excluding visitors) in the household during the Survey week.

104 Total visitor lines. The total number of lines (starting with question Nos. 75, 79, 83, 87, 91, 95 and 99) on which visitors (as defined in note (f) above) are recorded.

105 Cross over HOH = 1 (see 106)

106 Income group of the head of the household (or principal earner).

'A' continued

Income groups are based on the gross weekly income of the head of household, except that if the gross weekly income (earned or unearned) of the head of household is less than £77 and the household contains one or more earners, one at least of whom has a weekly income of £77 or more, the income group is then based on the gross weekly income of the principal earner. In the latter case question 105 is punched "1". (See, however, the note below).

The income ranges are revised periodically and, in 1982, are:

BMRB Code			Computer code
1	(A1)	= £310 or more) with one or	1
2	(A2)	= £240 but less than £310) more earners	2
3	(B)	= £127 " " " £240) in the	3
4	(C)	= £77 " " " £127) household	4
5	(D)	= Less than £77)	5
6	(E1)	= £77 or more) with no earner	6
7	(E2)	= Less than £77) in the household	7
8	(OAP)	Pensioner households (ie households in which at least three-quarters of the total income is derived from N.I. retirement or similar pensions and/or supplementary pensions or allowances paid in supplementation or instead of such pensions.) Such households will include at least one person over retirement age.	OAP (1 person) 8 " (1 male & 1 female) 9 " (all others) 10 A1 + A2 11 All OAP 12

Question No on Schedule

107 Number of earners in the household.

108 Occupation of the head of the household (or principal earner).

This is a four-digit NFS code derived from the Registrars-General's coding of occupations. Details are given in Appendix A.

109 Total weekly net family income in £'s to one decimal place. "Not known" is punched '999'.

110 Family income type, showing the exactness of the information regarding the composition of the family income.

1 = each person's income given to investigator as net, actual
2 = each person's income given to investigator as net, estimated
3 = each person's income given to investigator as gross, actual
4 = each person's income given to investigator as gross, estimated
5 = mixed (ie, any combination of above)
6 = mixed (ie, any combination of codes 1 to 4, plus one imputed)
7 = one income only in the household imputed
8 = one or more earners temporarily sick or unemployed
9 = don't know (ie one or more incomes not given)

111 Gross weekly income of the head of household (or principal earner)

Expressed in £'s to one decimal place when income has been shown on the schedule as gross, actual or estimated, or net, actual (converted to gross). Where income has been shown as net, estimated, or where it is not possible to impute an income, 999 is punched.

'A' continued

Question No on schedule

112 **Head of household**

Question number on schedule (4, 9, 14 etc) denoting sex of person who is "head of household" and therefore identifying personal details of that person.

113 **Housewife**

Question number of schedule (4, 9, 14 etc) denoting sex of person who is the housewife and therefore identifying personal details of the housewife.

114 **Not used**

115 **Supplementary benefit**

1 = household in receipt of supplementary benefit.

Computer code:	
S.B. only	= 1
F.I.S. "	= 2
Both	= 3
Neither	= 4

116 **Family income supplement**

1 = household in receipt of FIS.

117 Freezer questionnaire (NFS 953)

Freezer questionnaire completed = 1

" " not completed = 2

118 **Not used**

B. HOUSEHOLD AND PERSONAL DETAILS GENERATED IN THE COMPUTER

1. Household composition code

1. 1 adult only
2. 1 adult, 1 or more children
3. 2 adults only
4. 2 adults, 1 child
5. 2 adults, 2 children
6. 2 adults, 3 children
7. 2 adults, 4 or more children
8. 3 adults only
9. 4 or more adults only
10. 3 or more adults, 1 or 2 children
11. 3 or more adults, 3 or more children
12. (8 + 9) 3 or more adults

Note: Young couples, where one or both are under 18 years, but not under 16 (against questions 112 and 113 on the schedule), will be treated as if they were both adults.

2. Registrars-General's social class

NFS Code

1 = Armed Forces, retired or not gainfully occupied, or no information

2 = I = Professional, etc, occupations

3 = II = Intermediate occupations

4 =III = Skilled occupations

5 = IV = Partly skilled occupations

6 = V = Unskilled occupations

The Registrars-General's social classes are defined in terms of occupation of the head of the household as shown in Appendix A.

'B' continued

3. Registrars-General's socio-economic group

This is based on the occupation of the head of the household or in certain cases (see question 106 above) that of the principal earner.

NFS Code

1 = Retired or not gainfully employed
2 = (1), (2), (12), Employers, managers and own-account workers (other than professional non-agricultural)
3 = (3) Professional workers, self-employed
4 = (4) " " , employees
5 = (5) Intermediate non-manual workers
6 = (6) Junior non-manual workers
7 = (7) Personal service workers
8 = (8) Foremen and supervisors, manual
9 = (9) Skilled manual workers
10 = (10) Semi-skilled manual workers
11 = (11) Unskilled manual workers
12 = (13), (14) Farmers, whether or not employing non-family labour
13 = (15) Agricultural workers
14 = (16) Members of armed forces
15 = (17) Occupation inadequately described/no information

The relationship between the Registrars-General's socio-economic groups and the occupation of the head of the household (or principal earner) is shown in Appendix A.

4. Age of housewife

1 = aged under 25 years
2 = " 25 to 34 years
3 = " 35 to 44 years
4 = " 45 to 54 years
5 = " 55 to 64 years
6 = " 65 to 74 years
7 = " 75 years and over
8 = age not known

5. Age of head of household

1 = aged under 25 years
2 = " 25 to 34 years
3 = " 35 to 44 years
4 = " 45 to 54 years
5 = " 55 to 64 years
6 = " 65 to 74 years
7 = " 75 years and over
8 = age not known

6. Socio-economic groupings ("Professional" or "non-professional" indicator)

1 = Registrars-General's social classes I and II ("Professional")
2 = " " " " III, IV or V ("non-professional")

'B' continued

7. Grouping of households for income elasticity calculations*

1 = 1 adult aged under 55 years
2 = 1 adult aged 55 years and over
3 = 2 adults, housewife aged under 55 years
4 = 2 adults, housewife aged 55 years and over
5 = 2 adults and 1 child
6 = 2 adults and 2 children
7 = 2 adults and 3 children
8 = 2 adults and 4 children
9 = 3 adults
10 = 4 adults
11 = 3 adults and 1 child
12 = 4 adults and 1 child

*Code is only allocated to households declaring a net family income; other households are given code zero.

8. Persons in household with a declared family income

9. Number of pregnant women

10. Month (NFS)
numbered from 1 to 12

11. Cross-over head of household (see Section A, question 105)

12. Number of:

OAPs
adult males
adult females
children aged 16-17
" " 12-15
" " 8-11
" " 5-7
" " 1-4
Infants

13. Household composition x income groups

Adults only	/ I/G A1 + A2	)
1 Adult + children	/	)
2 Adults + 1 child	/ I/G B	)
2 Adults + 2 children	/	) 28 groups
2 Adults + 3 children	/ I/G C	)
2 Adults + 4 or more children	/ I/G D + E2	)
3 or more adults + children	/	)

14. Household composition x income groups

In full (including combinations of groups)

Household composition	(11 groups - see 1 above)	) 110 groups
Income groups	(10 groups - see Section A, 106)	)

'B' continued

15. **Type of area x income groups**

In full (including combinations of groups)

Type of area	(6 groups - see Section A, D on page 1))	72 groups
Income groups	(12 groups - see Section A, 10b)	)

16. **Type of area x household composition**

In full (including combinations of groups)

Type of area	(6 groups - see Section A, 'D' on page 1))	72
Household composition	(12 groups - see 1 above)	) groups

17. **Type of area x region**

(including combinations of groups)

Type of area	(6 groups * - see Section A, 'D' on page 1))	57
Region	(11 groups - see Section A, 3)	) groups

* London analysed only for 1) South East
2) East Anglia

18. (a) Total expenditure for previous week

(b) " family income

(c) Occupation - head of household

(d) Income of head of household

(e) Expenditure during week

(g) **"Quantity free" indicator**

(h) Total net balance (see section A, questions 8, 13, 18 etc)

(i) **Nutrient codes for each person and visitor**

(This nutrient code is based on the sex and/or age of the individual and, in the case of male adults (aged 18-64), the degree of activity entailed in their occupation (see note (d), page 3;)used for classifying persons according to their nutrient requirements).

NFS code

1 = Infant (age under 1 year)
2 = Children, 1 year
3 = " , 2 years
4 = " , 3-4 years
5 = " , 5-6 years
6 = " , 7-8 years
7 = Males, 9, 10 and 11 years

/Note On the tabulations, nutrient codes 1 to 12 are further sub-divided so that details are given for each year of age/

'B' continued

18. (i) NFS code (cont'd)

8 = Males, 12, 13, and 14 years
9 = " , 15, 16, and 17 years
10 = Females, 9, 10 and 11 years
11 = " , 12, 13 and 14 years
12 = " , 15, 16 and 17 years
13 = Males, 18-34 years incl, sedentary
14 = " , " " " , moderately active
15 = " , " " " , very active
16 = " , 35-64 " " , sedentary
17 = " , " " " , moderately active
18 = " , " " " , very active
19 = " , 65-74 incl.
20 = " , 75 years and over
21 = Females, 18-54 years incl.(except pregnant)
22 = " , " " " pregnant
23 = " , 55-59 " "
24 = " , 60-74 " "
25 = " , 75 years and over

C. PURCHASE DETAILS TAKEN FROM LOG-BOOKS

Day of Survey/day of week A two digit code preceded by a minus sign: the first digit indicates the day of record keeping (eg first day of log will be 1) and the second digit indicates the day of the calendar week (eg Monday = 1, Sunday = 7).

Each item in the log-book is punched in the sequence

(a) pence, (b) food code number,
(c) quantity and (d) purchase/free code

Food codes

The food codes are listed in Appendix C to this note.

Quantity

Quantities are expressed in ounces, avoirdupois, with the following exceptions:-

(i) Fluid ounces: coffee essences, vegetable juices, fruit juices, vegetable and salad oils, ice-cream.

(ii) Tenths of pints: Milk and cream (powdered and condensed, as liquid equivalents). One-third pint of free school milk is coded as 0.3 pt, two-thirds of a pint as 0.6 pt, and so on, the coded amounts being increased by 10 per cent within the computer;

(iii) Units: Eggs.

Purchase/Free Code

This coding indicates whether the item was purchased or obtained free or at a reduced price:

1 = Ordinary purchase
(eg items obtained from friends and other non-retail sources for which a price - usually reduced - is paid, are coded 1).

2 = Free (eg from own garden, allotment; welfare foods).

3 = Free from employer.

4 = Free from own business, farm, market garden, etc.

5 = Reduced price food from employer.

6 = Free gifts (these must be home-produced).

7 = Withdrawn from stock (must be home-produced and consumed during the Survey week).

8 = Free gifts from shops or manufacturers as part of advertisement or sales promotion campaign.

'C' continued

Purchase/Free Code (cont'd)

9 = (a) Welfare milk where a recipient has a free entitlement (to ordinary grades), but elects to pay a quality premium (NFS 546).

Note : Codes 1, 5 and 9 are purchases, except for free welfare milk where code 9 merely records the quantity for which a premium was paid, together with the amount of premium.

CLASSIFICATION OF OCCUPATIONS

Registrar-General's Occupation Order (determines first two digits of NFS occupation code) (a)	RG's Unit Groups (b)	Predominant degree of skill (determines third digit of NFS occupation code)	Employment status (determines fourth digit of NFS occupation code)	NFS occupation code	Generated in Computer

(99) Retired or not gainfully occupied (Continued)	n.a.	5 retired and unoccupied persons where main source of income is not from State	5 not employed	9955	1	(0)	(0)
		6 unemployed or sick, receiving National Insurance benefit as main source of income	5 not employed	9965	1	(0)	(0)
		7 unemployed or sick, N.I. benefit <u>not</u> main source of income (e.g. paid while off sick etc.)	5 not employed	9975	1	(0)	(0)
		8 other non-earners (housewives, children etc.) including women in receipt of N.H.I. maternity allowances who are not working and not returning to work. This also includes children aged 0-15 who are visitors.	5 not employed	9985	1	(0)	(0)
	223	9 no information and visitors 16 years plus	5 not employed	9995	1	(0)	(0)

Notes: (a) As in Office of Population Censuses and Surveys "Classification of Occupations 1970"

(b) As in OPCS "Classification of Occupations 1970"
(Codings not used in N.F.S.)

(c) Codes used are: 1 sedentary
2 moderately active
3 very active

and are applied only to adult males between the ages of 18 and 64. They are used in connection with estimating nutrient requirements. Nutrient requirements of women are determined solely in accordance with their age and whether or not they are pregnant. Nutrient requirements of all persons over 9 but under 18 are determined in accordance with age and sex, and for each person under 9 in accordance with age alone

(d) The Social Classes are the predominant ones encountered in each of the occupation unit groups and are described as follows:-

			* Computer numbering:
Social Class	I	Professional etc occupations	2
	II	Intermediate occupations	3
	III	Skilled occupations	4
	IV	Partly skilled occupations	5
	V	Unskilled occupations	6
	(0)	Not gainfully occupied, or no information	1

(e) The Socio-economic Groups are the predominant ones encountered in each of the occupation unit groups and are described as follows:-

*NFS	Group 2	combines R.O's socio-economic groups (1), (2) and (12) and includes employers, managers and own account workers (other than professional non-agricultural).
	Group 3	= R.O. group (3) = Professional workers, self employed
	Group 4	= " " (4) = Professional workers, employees
	Group 5	= " " (5) = Intermediate, non-manual workers
	Group 6	= " " (6) = Junior non-manual workers
	Group 7	= " " (7) = Personal Service workers
	Group 8	= " " (8) = Foremen and supervisors, manual
	Group 9	= " " (9) = Skilled manual workers
	Group 10	= " " (10) = Semi-skilled manual workers
	Group 11	= " " (11) = Unskilled manual workers
	Group 12	= " " (13, 14) = Farmers, whether or not employing non-family labour.
	Group 13	= " " (15) = Agricultural workers
	Group 14	= " " (16) = Members of Armed Forces
	Group 15	= " " (17) = Occupation inadequately described
	Group 1	= " " (n.s.) = Not gainfully employed

* The computer tapes for 1972 and 1973 have been altered to conform with this numbering.

Food Code No	Description	Seasonal food(S) or convenience food(CC,CF,CO)(a)	Definition
	CEREALS: (cont'd)		
294	Frozen convenience cereal foods	CF	eg, frozen sponges (including those with ice-cream - eg "Arctic Roll") fruit-pies, eclairs, pastry, pizza, pancakes
299	Other cereal convenience foods (including canned) not specified elsewhere	CO	eg, cake and pudding mixes, custard powder, cornflour, instant puddings, macaroni cheese, pastry, canned pasta, sauce & casserole mixes, pizza, ravioli, cereal-based ready-meals eg, "Quick Lunch", "Knoodles", "Pastamenu", "Pot Rice"; instant/dessert whips (eg "Angel Delight"), blancmange
301	Other cereal foods		eg, pearl barley, semolina, macaroni, spaghetti, sago, tapioca
	BEVERAGES:		
304	Tea		includes tea bags but not instant tea (see code 336)
307	Coffee, bean and ground		includes coffee bags and sachets
308	Coffee, instant (including AFD)	CO	includes accelerated freeze-dried instant coffee - eg, Nestles "Gold Blend", Brooke Bond "Coffee Time"
309	Coffee, essences	CO	(quantities recorded in fluid ounces) includes 'Coffee Break'
312	Cocoa and drinking chocolate		
313	Branded food drinks		eg "Bournvita", "Horlicks" "Ovaltine", malted milk etc.
	MISCELLANEOUS:		
315	Baby foods, canned or bottled	CC	eg, Heinz or Gerber strained foods and junior meals in glass jars or cans (other infant foods are coded 291) (dried milk is coded 11)
318	Soups, canned	CC	includes broths and canned condensed soups (Note: baby food soups are coded 315)
319	Soups, dehydrated and powdered	CO	includes 'cup-a-soup'

Food Code No	Description	Seasonal food(S) or convenience food(CC,CF,CO)(a)	Definition
	MISCELLANEOUS: (cont'd)		
320	Accelerated freeze-dried foods (excluding coffee)		includes "Erin" AFD peas but excludes AFD instant coffee (see code 308) and any item, part of which is AFD
323	Spreads and dressings		eg, salad cream, cooking chocolate, sandwich spread, chocolate spread, instant icing, rum butter
327	Pickles and sauces		includes chutneys and continental sauces (but not sauce mixes - see code 299), mint sauce, Home-Pride "Cook in Mix"
328	Meat and yeast extracts		eg "Oxo", "Marmite", "Bovril", "Knorr", beef stock cubes, chicken stock cubes, "Vecon"
329	Table jelly squares and crystals		
332	Ice-cream, mousse	CO	
333	All frozen convenience foods not specified elsewhere	CF	includes frozen dairy desserts eg, Birds Eye, Findus, eg, "Dream Dessert"
334	Salt		includes sea salt
335	Artificial sweeteners (expenditure only)		eg, saccharine, "Hermesetas", "Saxine"
336	Miscellaneous (expenditure only)		eg, bones, vinegar, gravy salts, gravy mixes eg, "Bisto", forcemeat, mustard, pepper, made-up jellies, flavourings and colourings, gelatine, yeast, herbs, curry powders, spices, instant tea, "Nesquik", milk shake (syrup & powder)
339	Novel protein foods		eg, textured vegetable protein, eg, "Soya mince", Crosse & Blackwell "Mince Savour", Cadbury Schweppes "Soya Choice"

Notes:- 1. The "Major" codes shown in square brackets are the aggregates of the "supplementary codes" immediately preceeding - see "Definitions". These "major"codes are not used for coding food in housewives records, but estimates are produced for such major codes in the results.

(a) CC Canned convenience foods
CF Frozen " "
CO Other " "

Notes:- (cont'd)

ii. The following are excluded from the normal scope of the Survey:- lemonade, squashes, cordials, mineral waters, glucose drinks, vitamin concentrates, fish liver oils, sweets, chocolates, food bought specifically for pets and expenditure on meals purchased and eaten outside the home.

iii. Frozen convenience foods are included under one or other of food codes 88,127, 203, 204, 205, 208, 241, 294 and 333. Frozen, uncooked, white fish is given code number 110. All other frozen foods are included under the code number for the corresponding non-frozen item.

Pinner, Middlesex HA5 2DT

Annex
to Coding of
Foodstuffs

Codes used to record items which are outside the normal scope of the Survey

Code 340	Concentrated soft drinks	)
341	Unconcentrated soft drinks	) Usual method of recording
342	Low-calorie soft drinks	) Quantities in fluid ounces
343	-	) and price per pint
344	Total soft drinks	)
346	Mid-day meals by schoolchildren (a)	
347	Meals eaten outside the home (a)	

(a)

	Method of recording in log book:-				
	Box to left of code ("expenditure")	1st box to right of code ("quantity")	2nd box to right of code ("purchase/free" code)		
	Method of recording on computer print-out:-				
	"Purchase value"	"Purchase quantity"	"Quantity free"	"No. of purchasers"	"No. of purchases"
346	No. of mid-day school meals eaten by school children	No. of packed lunches taken from home, regardless where eaten (including week-ends and holidays)	No. of other lunches obtained outside the home (including week-ends and holidays)	No. of households recording code 346	No. of times code 346 is recorded
347	No. of meals on wheels	No. of mid-day meals obtained outside the home including meals on wheels and mid-day meals by school children	Total no. of meals obtained out by all persons	No. of households recording code 347	No. of times code 347 is recorded

Notes: Code 346 introduced 1972
" 347 " 1973
" 344 " 1975
