## DOCUMENTATION OF THE BLAISE QUESTIONNAIRE

### Notes:

1. This is an edited documentation of the Blaise program. Not all variables that appear here are on the SPSS file. Those that are not are marked with a '\$' after the question name. Similarly, not all derived variables that are on the SPSS file are mentioned here (though most are listed in footnotes). See also separate documentation of derived variables.
2. Unless otherwise specified, 'Don't Know' is code 8 (code 98 where there were more than 7 other answer options).
3. Unless otherwise specified, 'Refusal/Not answered' is code 9 (code 99 where there were more than 8 other answer options). Where there is an explicit 'Refusal' code (usually code 7 or 97), then code 9 (or 99) is reserved for 'Not answered' only.
4. Sections in brackets and italics were textfilled as appropriate on the interviewers' computers.
5. Routing instructions appear above the questions. A routing instruction should be considered to stay in force until the next routing instruction.
6. '(NOT ON SCREEN)' means that the question did not appear on the interviewers' or data editors' screens. '(EDIT ONLY)' means it appeared on screen for the editors but not the interviewers. Individual codes marked 'EDIT ONLY' were used by the editors to reclassify 'other' answers, but did not appear on screen for the interviewer or on showcards for respondents.
7. For some questions respondents could give an answer other than one of those listed in the codeframe (these are generally indicated in code frame by the instruction: (WRITE IN). Such answers were recorded verbatim and examined during the editing process to see whether any could be 'back-coded' to one of the existing answer categories. The original open text answers are not available on the SPSS file and have not been detailed within this documentation.
8. The format of the self-complete section of the survey changed in 2011. It was included within the Blaise program as a Computer Assisted Self Interview (CASI) instead of a pen and paper survey.

<sup>3</sup> Main sample weight. See also [WtRural], [Wtremote], [Wturban] for urban/rural analysis. The way [WtFactor] is calculated was improved from SSA 2005. Pre-2005, the weighting only corrected for over-sampling of rural areas and differential individual selection probabilities in households of different sizes. From 2005, a more sophisticated weighting scheme has been used which also takes account of non-response and ensures that the weighted data matches the sex-age profile of Scotland as a whole, based on mid-year estimates from the General Register Office for Scotland. Where comparing data from 2011 with data from pre-2005, there is a small chance that this change in the way the weights are calculated might impact on any differences found. For this reason, the dataset also includes a variable, [OldWt], which uses the old weighting scheme and can be used to double-check any changes over time.

<sup>4</sup> Some of the questions in the 'Attitudes to different groups of people living in Scotland today' and the 'Devolution and Independence' modules were asked in a randomised order, based on whether they had an odd or even serial number. This variable (OddEven) can be used to select the appropriate half of the sample for analysis.

15 Please note, this is different from MarStat5, MarSta2b and MarStat2 in previous years of SSA. The question was reworded to take proper account of civil partnerships in 2009. Although a category for civil partnerships was added to MarStat5 in 2006, the question did not take account of dissolved civil partnerships/being a surviving partner from a civil partnership prior to 2009.

## Computer Assisted Self-Interview

Q529 \$[CASI]<sup>54</sup>

INTERVIEWER: READ OUT TO ALL:

The next questions are for you to answer yourself using the computer. The computer is very easy to use.

Some of the questions are more personal and, this way, your answers will be completely confidential and I won't see them. When you have finished, the whole section will get automatically locked up inside the computer so that I can't look back at it. If you have any problems using it, just let me know and I can help.

INTERVIEWER NOTE: A FEW QUESTIONS AT THE END OF THE CASI SECTION DO NOT HAVE A 'CAN'T CHOOSE' OPTION. IF THE RESPONDENT DOES NOT WANT TO ANSWER THESE QUESTIONS, PLEASE SHOW THEM HOW TO USE CTRL-R TO REFUSE THEM.

- 1 Press 1 and <Enter> to continue.

<sup>54</sup> This year, for the first time on SSA, the format of the self-complete section of the survey has changed from a pen and paper version to a Computer Assisted Self-administered Interview (CASI). At [CASI] the interviewer handed the laptop to the respondent to complete this section by themselves. The respondents were guided through this section by instructions that appeared on screen; additionally the interviewer was on hand to offer any assistance as required.

Q531 \$[InPrac]

It is very important that you answer honestly and accurately so please take your time. Before you start I will show you how to enter your answers into the computer.

INTERVIEWER: Press 1 and Enter, then turn the screen to the respondent and let them enter their answers while you observe and help if necessary.

- 1 Press 1 and <Enter> to continue.

- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Disagree strongly
- 7 (Does not apply to me)
- 8 (Can't choose)
- 99 (Refusal)

Q535 \$[EndPrac]

That is the end of the practice questions. Now please answer the next set of questions by yourself.

If at any point you would like to change your answers you can go back to previous questions using the arrow keys. If you need any further help or explanations, or are not sure how to answer a question, do ask the interviewer.

Press <1> and <enter> to move on.

Le ‘teagasg cuid de chlann sa Ghàidhlig’, tha sinn a’ ciallachadh sgoil far a bheil a’ mhòr-chuid de na leasan sa Ghàidhlig. Mar eisimpleir, bhiodh clann a’ dèanamh matamataig no eachdraidh sa Ghàidhlig seach sa Bheurla.

**P7086**

## **Gsepch**

By 'teaching some children in Gaelic', we mean in a school where most of the lessons are in Gaelic. For example, children would be taught maths or history in Gaelic rather than in English.
