SCJS 2012/13 QUESTIONNAIRE AND USER NOTES

This document provides the full SCJS questionnaire, including all questions asked of respondents, as well as notes and instructions to guide the reader.

Chapter 5 of the 2012/13 Scottish Crime and Justice Survey Technical Report (available from the Scottish Government survey website and UK Data Service) provides a summary of the questionnaire content and information on the development of the questionnaire. The Technical Report also provides comprehensive details on the design and administration of the survey.

The SCJS questionnaire has a complex structure, but basically consists of three elements:

1. The main questionnaire (sections 1, 2, 4, 5 and 6) consists of a set of core modules asked of the whole sample, including demographics (section 6); and a set of full and quarter-sample modules (section 5), containing questions on a variety of topics;
2. A victim form (section 3) which collects details about the incidents a respondent may have experienced during the reference period (the 12 months prior to the month of interview). This victim form can be repeated up to five times; the number of victim forms completed depends on the number and nature of incidents respondents experienced;
3. A self-completion questionnaire covering sensitive issues (sections 7, 8, 9 and 10). All respondents were asked to complete a self-completion questionnaire but had the option to refuse this due to the sensitive nature of the questions.

Each of these elements and the sections they contain are presented in the table of contents after this introduction.

The following conventions are used in this document:

- The question label (and generally SPSS variable name) is shown to the left in BOLD CAPITALS;
- Question text for interviewers to read out to the respondent is shown in bold text;
- The routing / filtering instructions for the question are displayed above the question text in CAPITALS: a text description of the routing is provided followed by a question and code specification in brackets;
- Instructions to interviewers are written in CAPITALS;
- Instructions to CAPI scripters are written in RED BOLD CAPITALS and do not display on screen;
- Text substitutions in question (and sometimes code) text are denoted by the symbols < > with alternate substitutions separated by a /. (The specifications for text-substitutions are not shown in this document for simplicity.)

Commonly used notation includes:

- SHOW SCREEN or SHOW CARD are used to indicate that the interviewer should show the computer screen or a card to the respondent to allow them to select their response options;
- SINGLE CODE ONLY means that only one response option can be coded.
- MULTICODE OK allows more than one response option to be coded;
- RANDOMISE means that the response options are randomised each time they appear on screen;
- <INSERT DATE> refers to the start of the ‘reference period’ – the first day of the month 12 months prior to the month of interview (see section 5.1 of the Technical Report for further detail);
- Other (SPECIFY) within the code frame denotes that the respondents answer is recorded by the interviewer.

Notes to questionnaire users are shown in shaded grey boxes.

QDISATT Prison will always be the right place for serious and dangerous offenders but the courts have a range of community sentences available to deal with individuals for whom a prison sentence is not appropriate. Community sentences include having to carry out unpaid work in the community under supervision; having to report regularly to a social worker; electronic tagging; and drug treatment and testing orders.

Thinking about community sentences IN GENERAL, please tell me how much you agree or disagree with each of the following statements. How much do you agree or disagree that … READ OUT:

RANDOMISE ORDER.

QDISATT_03 Community sentencing is an effective way of dealing with low level non-violent crime
QDISATT_04 Learning new skills during community sentences stops low level offenders from committing more crimes
QDISATT_05 Community sentences do not punish low level offenders enough
QDISATT_07 Low level offenders who complete their community sentences have paid back to their community for the harm they have caused
QDISATT_08 Community sentences do not discourage people from offending

### 5.3.3: COMMUNITY PAYBACK ORDERS

**QPBACK**

I'm now going to ask about community payback orders. These are a new type of community sentence designed to punish offenders in a way that pays back to the community whilst making them address and change their offending behaviour. Offenders can be told to carry out unpaid work in the community under supervision or report regularly to a social worker. They can also involve additional requirements such as drug, alcohol or mental health treatment.

Before now, had you heard of community payback orders?

ASK ALL.

READ OUT: I am now going to ask you some questions about different kinds of problems or disputes you might have had in the past 3 years. These are problems that are not directly related to crime but to other issues you might have to deal with in your everyday life. Of course, everyone has problems in their lives from time to time which they deal with. We are particularly interested in problems or disputes you had that you found difficult to deal with or that you could not solve easily.

SHORT NAMES FOR ALL OF THE PROBLEMS BELOW ARE SHOWN AFTER CVJUS4 BELOW.

ASK ALL.

**CVJUS1**
SHOW SCREEN First, I'd like you to think about any problems or disputes you might have had concerning your home, family or living arrangements. In the past 3 years, that is since <INSERT DATE> have you had any of the following problems or disputes. Please only tell us about problems you would say caused you difficulty or could not be easily solved. MULTICODE OK.

RANDOMISE CODES BUT ALWAYS KEEP CODE 7 AFTER CODE 6.

1 Problems to do with neighbours, for example noise, boundary or parking disagreements.

6 Problems to do with child contact, residence or maintenance, for example, difficulties agreeing child support payments or agreeing contact with children following separation or divorce.

7 Other problems to do with divorce or separation, for example dividing your property or other possessions.

3 Problems to do with housing, for example applying for planning permission for your property, selling or buying property, problems with your landlord, being evicted or being behind with your rent or being faced with homelessness.

4 Immigration problems, for example becoming a UK citizen, disputes over your nationality, seeking asylum, being given the right to stay in the UK.

8 Problems to do with the education of your children, for example, securing your choice of school or additional support needs.

9 Problems to do with the behaviour of a partner, ex-partner or other person who is harassing you, that is serious enough for you to consider some legal protection for example seeking an interdict, exclusion order or non-harassment order.

### 10.2.3: OTHER INCIDENTS SINCE AGE 16

This section is asked if the respondent has experienced more than one incident of any type ever (MSSA_2EVER, codes 2 - 7). If the respondent only experienced a single incident ever (MSSA_2EVER, code 1) then the corresponding data from the questions in Section 9.2.2 are forced into the questions in this section. Edits will be made at the analysis stage so that the variables in this section reflect all incidents in the reference period.

Ask if ever experienced <assault type> except if don’t know or refused to say how many incidents experienced ever (MSSA_1, code 1, 2 or 3 AND MSSA_2EVER <> DK OR REF).

- **MSSA_7ANY**
  - Other than the most recent incident we have just been talking about, did the police come to know about <this other incident / these other incidents> when someone <forced you to have sexual intercourse> / <tried to force you to have sexual intercourse> / <forced you to take part in sexual activities other than sexual intercourse> / <tried to force you to take part in sexual activities other than sexual intercourse>, since you were aged 16?

  - **CAPI FORCE:** If MSSA_2EVER = code 1 (1 INCIDENT) AND:
    - MSSA_7 code 1 then force MSSA_7ANY to code 1 and do not ask.
    - MSSA_7 code 2 then force MSSA_7ANY to code 3 and do not ask.
    - MSSA_7 DK or REF then force MSSA_7ANY to DK or REF and do not ask.
