Welcome

Thank you for taking part in the 21st Century Evangelicals online research.

These surveys are designed by the Evangelical Alliance. The findings will appear in IDEA magazine and on our website.

This quarter's survey is about your personal health and wellbeing. It's possible some people could find some questions sensitive but we can reassure you that all answers are anonymous.

In any case if you'd really rather not answer a particular question you can always leave it blank.

People vary, but we estimate the survey shouldn't take longer than about 20 minutes, unless you choose to write a lot in open-ended comment boxes.

Assisted dying legislation

With a bill currently before Parliament assisted dying is an important topic about which we would like to know your views.

The question below has recently been asked in a general survey of the UK population.

20. Currently it is illegal for a doctor to help someone with a terminal illness to end their life, even if the person considers their suffering unbearable and they are of sound mind.

A proposed new law would allow terminally ill adults the option of assisted dying. This would mean being provided with life-ending medication, to take themselves, if two doctors thought they met all of the safeguards. They would need to be of sound mind, be terminally ill and have six months or less to live, and a High Court judge would have to be satisfied that they had made a voluntary, clear and settled decision to end their life, with time to consider all other options

Whether or not you would want the choice for yourself, do you support or oppose this proposal for assisted dying becoming law?

Strongly support Somewhat support Somewhat oppose Strongly oppose Don't know
