Appendix G – NS-SEC Classification 624

1. Overview and methodological summary

1.1 Background, aims and objectives

This document outlines the methodological and technical aspects used in the Active People Survey 5-10. The approach described in this document is predominately the same as the approach used for the previous Active People Surveys in order to provide statistically reliable measures comparable with the baseline data provided by APS1 and APS2.

The Active People Survey (APS) is being carried out for Sport England, the non-departmental public body sponsored by the Department for Culture, Media and Sport. Sport England takes a leading role in all aspects of sport and physical recreation which require administration, representation, or co-ordination in England and operates with the aim of establishing a world-leading community sport environment. They work with a range of Governing Bodies, Local Authorities, Higher and Further Education Institutions, Charities, Olympic Organisations and other funded partners to ensure that sporting opportunities are created in every community in the country, with the fundamental aim of increasing participation and improving performance at all levels of English sport.

The survey boasts the largest sample size ever established for a sport and recreational survey. It primarily allows analysis of how participation varies from place to place and between a range of different demographic groups in the population such as gender, ethnicity, social class, age and disability. A plethora of other important measures are also captured by the survey, including: the proportion of the adult population (aged 16 and over) taking part in at least 30 minutes of moderate intensity sport three times a week, current levels of club membership, how many people are currently in receipt of tuition and coaching, levels of involvement in organised sport/competition and also, overall satisfaction with levels of sporting provision in the country. The survey is also designed to measure a number of Sport England's key participation targets, including once a week participation in the different funded sports.

January 2012 saw the introduction of the 2012-17 Youth and Community Strategy, launched by Sport England to ensure as many people create a sporting habit for life, in particular, by increasing the numbers of 14-25 year olds playing sport. In the new 5 year strategy, £1 billion of funding will be spent over the five year period, to assist in the funding of the major National Governing Bodies of Sport (NGB's), investment in facilities - building on the success of the Places People Play scheme - local investment to ensure that impact is felt in the heart of local communities, and the School Games, to motivate and inspire millions of young people across the country to take part in competitive sport.

1.2 Scope and methodology

Active People Survey 5-10 was commissioned by Sport England in 2010. The first four waves of the survey had been conducted by IPSOS MORI. Following a competitive tender, TNS BMRB was awarded the contract to conduct the survey between 2010 and 2015.

In the Active People surveys 1 to 8, fieldwork was carried out for one year from mid-October. In Active People 9, it was decided to revise the fieldwork dates, in order to align the interview periods with the dates for Taking Part fieldwork, and with Sport England's financial year. In the first six months of APS9 (from October 2014 to March 2015) the start date for each month's fieldwork was brought forward by a few days each month, so that fieldwork for Month 6 ended on 31st March 2015. Thereafter survey months corresponded to calendar months.

The sample universe comprised all individuals aged 16+ living in England. In the final quarter of APS6, the scope of the survey was extended to include all individuals 14+. Although it has to be noted that the methodology used means that people who live in households that do not have a landline are omitted from the sample frame.

The study is designed to achieve a minimum of 500 interviews with adults aged 16+ in most of the Local Authorities (LAs) in England[1]. Each Local Authority is given the opportunity to boost their sample size. In APS5, five Local Authorities opted for this boost:

- Blackburn with Darwen (total of 1,000 interviews)
- Gateshead (1,000)
- Hounslow (1,000)
- Stoke-on-Trent (1,000)
- Liverpool (2,500)

In APS6, Blackburn with Darwen opted for the additional sample boost, once again opting for 1,000 interviews.

In APS7, no LAs opted for the boost[2].

In APS8, APS9, and APS10, Bury opted for the additional sample boost, opting for 2,250 interviews in APS 8, 2,000 in APS9, and 1,300 in APS10.

The table below summarises the fieldwork dates and interviews achieved throughout the project until Active People Survey 10 (APS10). In Active People 10, 163,108 interviews were achieved with adults aged 16+ within the fieldwork period which ran from 1st October 2015 to 30th September 2016. A further 1,350 interviews were achieved with respondents aged 14 or 15, bringing the total number of interviews obtained with those aged 14+ to 164,458.

1 The two exceptions are the City of London (APS5 and APS6 - 100 interviews, APS7 – 75 interviews) and the Isles of Scilly (APS5 and APS6 - 150 interviews, APS7 – 75 interviews).

2 From APS7 Quarter 4 the sample size in the Bury Local Authority was increased to monitor a new initiative which aims to boost the number of women participating in sport.

Survey year	Fieldwork dates	Number of interviews achieved with respondents aged 16+	Number of interviews achieved with those aged 14-15	Number of interviews achieved, including aged 14+
APS1	13th October 2005 to 16th October 2006	363,724	0	363,724
APS2	15th October 2007 to 14th October 2008	191,325	0	191,325
APS3	15th October 2008 to 14th October 2009	193,947	0	193,947
APS4	15th October 2009 to 14th October 2010	188,354	0	188,354
APS5	15th October 2010 to 14th October 2011	166,805	0	166,805
APS6	15th October 2011 to 14th October 2012	163,420[3]	511[4]	163,931
APS7	15th October 2012 to 14th October 2013	163,099	2,092	165,191
APS8	15th October 2013 to 14th October 2014	164,096	1,503	165,599
APS9	15th October 2014 to 30th September 2015	169,010	1,695	170,705
APS10	1st October 2015 to 30th September 2016	163,108	1,350	164,458

The survey was conducted by telephone using Random Digit Dialling (RDD) to generate a sample of telephone numbers. The RDD sample was drawn by selecting numbers from a database of randomly generated numbers in Great Britain. The database was constructed by using known, directory listed numbers from a recent point in time which, following a cleaning process, were used to identify exchange codes and working blocks of 100 telephone numbers. Samples of numbers were then generated by random selection of these final 3 digits of the telephone number.

In households with only one person aged 16 or over, this person was selected for interview. In households with more than one person aged 16 or over, one respondent was randomly selected from the eligible household members using the Rizzo[5] method where the CATI system randomly selects the eligible respondent.

This works as follows:

- Two adult households. CATI randomly selects either the screener respondent or the other adult.
- Three adult households. CATI randomly selects one of the three adults. If this is the screener respondent then this person is interviewed. If one of the other two adults is selected then the one with the 'next birthday' is the eligible respondent.
- Four adult households. CATI randomly selects one of the four adults. If this is the screener respondent then this person is interviewed. If one of the other three adults is selected then the one with the 'next birthday' is the eligible respondent.
- Etc.

3 This figure represents only interviews conducted on the main APS6 CATI survey. Additional interviews were conducted in an experimental face-to-face survey, details of which can be found in chapter 9.

4 14-15s were included in the final quarter of fieldwork only.

5 Rizzo, L. Brick, JM and Park, I (2004) "A minimally intrusive method of for sampling persons in random digit dial surveys" in Public Opinion Quarterly 68:2

In households with a child aged 14 or 15 identified during the 16+ interview, permission was sought with a parent to contact the child directly for an interview. In households with more than one child aged 14 or 15, the child with the *next* birthday was selected to participate.

The LA each respondent lived in was confirmed using the respondent's postcode and address, and in cases where this could not be verified, via the respondents telephone number.

Survey data was weighted to be representative of the 16+ population in each reporting geography (i.e. Local Authority, County Council, etc.). Data within each reporting geography were weighted by Age within Gender, Ethnicity (White / Non White), Socio-economic classification (NS SEC), Household size, and Working status within Gender. In addition to this from APS7, APS8 and APS10, the survey data were weighted to be representative of the 14+ population in each reporting geography. In APS9, survey data were weighted to be representative of the 14+ population as above, but separate weights were not calculated for the 16+ population.

1.3 Structure of the technical report

This report is divided into eight main chapters and an appendix.

- This first chapter introduces the report before providing an overview and methodological summary of the survey.
- Chapter 2, Questionnaire design and piloting, outlines how the Active People Survey was designed and developed.
- Chapter 3, Sampling and respondent selection, covers the sample size, sample frame, interview distribution and targets, household definition and respondent selection.
- Chapter 4 covers Fieldwork administration and includes a brief overview of the survey, fieldwork procedures, interviewer training and quality control, interviewer briefings, key elements of the survey, and an explanation of how respondents are matched to local authority.
- Chapter 5 covers sample management rules and response rate analysis.
- Chapter 6 provides an overview of data processing and data weighting.
- Chapter 7 covers the development work which was conducted across the survey, in APS5, 6 and 7, including the face-to-face survey that was conducted during the APS6 fieldwork year
- The Appendices cover the achieved sample size by local authority, a copy of the APS questionnaire and interviewer briefing manuals, the activities database list, an explanation of sample management rules and sample response analysis, and an overview of the NS-SEC Classification.

The report was written by the project team at TNS BMRB – Angela Charlton (Project Manager), Sam Sullivan (Associate Director), Luke Taylor (Senior Associate Director) and Gillian Prior (Project Director).

2. Questionnaire design and piloting

2.1 APS questionnaire

The APS questionnaire is designed to measure and track changes for a range of indicators. It was originally required to measure and track changes for the key indicators for the Comprehensive Performance Assessment[6] (CPA) and a wider set of indicators established as a priority within the Framework for Sport in England, Regional Plans, Whole Sport Plans and within Sport England's Delivery Plan.

Although the Key Performance Indicator (KPI) questions have remained unmodified since APS1, other areas of the questionnaire, including the sports and physical activities covered, have been modified to ensure the survey continues to collect relevant data for Sport England.

The initial objective of the APS5-9 questionnaire was to measure and track, as a minimum, the following objectives:

- To get 1 million people doing more sport by 2012-13
- Once a week sports participation rates for at least 33 of the 45 'funded sports' (published)
- To reduce post 16 drop off in 9 sports by 25% by 2012-13
- Once a week sports participation rates amongst 18-19 year olds for 9 sports
- National Indicator 8 (the sport measure for local government) or the successor 'local' measure of sports participation.

The new Sport England strategy introduced during APS6 meant there was less focus on measuring the 1 million target (3x30 minutes of moderate intensity exercise), with once a week participation becoming increasingly important. Active People was also used to start measuring participation amongst those aged 14-25 as the survey population was extended to cover 14 and 15 year olds in APS6 Quarter 4 (see chapters 7 and 9).

For the purposes of continuity and consistency, Ipsos MORI provided TNS BMRB with a copy of the electronic APS4 CATI script which formed the basis of the scripts used in APS5-9.

2.2 Questionnaire piloting and development for APS5

In order to ensure robust comparison with APS1 to APS4, the key questions for the measuring and tracking of key targets and indicators generally remained unmodified in APS5. There were two changes to the questionnaire that affected the KPI reporting:

6 CPA is the Audit Commission's assessment of the performance of local authorities. http://www.audit-commission.gov.uk/cpa/index.asp

- The modification of the volunteering questions (KPI2) to improve the accuracy of the participation data
- The removal of the question about satisfaction about local sport provision (KPI6).

There was also no requirement to report KPI1 in APS5 but this did not affect the questionnaire.

In addition to the changes above, the development and piloting covered the modification or addition of the following question areas:

- Receiving tuition – days in the last 4 weeks
- Changes in participation
- Likelihood to do more sport
- Demographics – education, sexual orientation, religion, life satisfaction and health

For APS5, there were 2 stages of questionnaire development – a cognitive pilot and a CATI pilot. Both are summarised in this section and a full report was provided to Sport England.

2.2.1 Cognitive interviewing

Cognitive interviewing formed the first phase of questionnaire testing for APS5. Like all cognitive interviewing and testing, explicit attention to the mental processes a respondent uses to answer survey questions was applied. These mental processes included:

- Comprehension – Do respondents understand the same things as we intended when we designed our questions?
- Judgements – What do respondents take into account when answering our questions? On what basis are they forming their judgements?
- Responses – Will the survey framework facilitate respondents to express their responses correctly?

In many ways, the cognitive testing implemented ties in closely with the techniques and processes used in qualitative interviewing, however the objective in this case is markedly different. The cognitive testing we undertook sought to understand the respondent thought process, and what is going through their mind when they are presented with a question. This contrasts considerably with qualitative interviewing, where we look to delve deeper into respondents' actual attitudes and behaviours.

TNS BMRB worked closely with Sport England to identify four new question areas for cognitive testing. These were:

- Instruction and coaching
- Change in participation and likelihood to do more sport
- Volunteering
- Type of illness / disability

These new areas were included in a short questionnaire devised by TNS BMRB and Sport England. The questionnaire included a short introductory section devised to collect the respondent's age and sex and the sports that they had participated in, both in the last 4 weeks, and last 12 months. A series of probes were also utilised in order to gather the following insights:

- Explore what was in the respondent's mind when they answered the questions and the extent to which their thought process correlated with that intended from the wording of the questions
- Examine the extent to which respondent's revealed their true experiences
- Identify whether or not respondents could comprehend and understand specific terms or definitions used
- Highlight any misunderstanding of question wording
- Underline any areas of sensitivity
- Pick up on any omissions.

The cognitive interviewing used a telephone based approach in TNS BMRB's Ealing telephone centre on two evenings during August 2010. The reason for this was that the short questionnaire length (10 minutes) was both more effective and efficient than executing a face to face equivalent as well as more closely replicating the way questions would be received in the main stage CATI survey.

TNS BMRB researchers accompanied the interviewer and listened into the interviews. Once each interview was completed, the researcher picked up the call to question the respondent using a series of pre-defined probes and also in order to clarify particular reactions or answers provided during the interview. Interviews were split into two stages, in order to administer re-working of questions between the stages.

A total of 31 interviews were conducted over the two stages of interviews, 15 at stage one on Monday 16th August 2010, and 16 at stage two, on Wednesday 18th August 2010. The sample was obtained after TNS BMRB gained agreement from the Department for Culture, Media and Sport (DCMS), to re-contact respondents who had recently participated and agreed to be recontacted by TNS BMRB in the 2010/2011 Taking Part survey[7]. The sample generated from Taking Part was also formed on the basis that the respondent had participated in sport and/or voluntary work connected to the sports sector in the last 12 months. This proved to be an efficient way of interviewing a suitable number of respondents eligible for questions about instruction, tuition and sports volunteering.

The cognitive testing yielded a number of significant and important findings with regards to the questions tested on Instruction and Coaching, Change in Participation and Likelihood to do more sport, Volunteering and Additional Demographics. These insights helped inform TNS BMRB and Sport England of the necessary question changes to be carried into the CATI Pilot. For a detailed analysis of the outcomes and learning's derived from this stage of Cognitive testing, please refer to the Active People Survey 5 TNS BMRB Pilot Report, compiled for Sport England in September 2010.

7 DCMS commissioned TNS BMRB to conduct the data collection for Taking Part: England's Survey of Leisure, Culture and Sport. It is a large scale face-to-face survey with an annual sample size of 10-14,000. Interviews are conducted in-home using CAPI technology.

2.2.2 CATI Pilot

Following on from and building upon findings of the cognitive interviewing, TNS BMRB ran a CATI pilot to test the full length questionnaire and CATI processes to be used for APS5.

Method

The CATI pilot ran from Tuesday 7th to Tuesday 14th September 2010 and comprised 789 telephone interviews amongst adults aged 16 or over in England. Interviewing resources were split between the three TNS BMRB telephone units in Ealing (13 interviewers), Wembley (19 interviewers) and Hull (14 interviewers) with interviews being conducted during both afternoon and evening shifts. Fieldwork was spread reasonably evenly between the three CATI sites, with Ealing and Wembley each accounting for 35% of total interviews and Hull accounting for 30%.

In order for the pilot to directly imitate the main stage survey, the full CATI script was employed for the pilot. This approach also ensured that all methods and procedures used in the main stage of the project could be tested thoroughly, including the adapted Rizzo selection method (using next birthday), and also the postcode and local authority coding at the end of the interview. A range of new questions were tested alongside the corresponding questions that they were intending to replace, with a split sample to allow a robust number of responses for each question in order to make accurate comparisons between the two.

Interviewer briefings

In preparation for the CATI pilot, 3 interviewer briefings were carried out – two in Ealing with the Hull telephone unit joining via conference call, and one large briefing at the Wembley telephone unit.

The briefing sessions adopted the following structure in each case. Initially, interviewers were provided with a detailed introduction to Sport England, their objectives, and the Active People Survey, exploring the surveys' purpose, aims and general content. The briefing then progressed with a thorough training session on the questionnaire and run through. This segment of the briefing included a run through of the CATI system itself, with specific questions and procedures, such as the adapted Rizzo Method, the use of the Sports Database, and local authority coding given particular attention. To supplement the information supplied at the briefing, interviewers were also provided with a detailed survey manual, containing extensive information on the project, providing supplementary and additional detail that it was simply not possible to communicate in a face to face briefing.

Timings

The average interview length for the CATI pilot was 18 minutes and 27 seconds. This average was based on all 789 respondents who completed the survey. This time is also based on the respondents that received all sections of the questionnaire, with a small variation on three questions. It should also be noted that – as already highlighted – a number of new questions were tested with this, and the removal of the DCMS Cultural questions had a marked impact on overall timings. The range of interview lengths was 30 minutes, with the shortest lasting just 4 minutes (a very inactive respondent), and the longest lasting 34 minutes (a very active respondent).

Survey introduction

The survey introduction used for the pilot study was virtually unchanged from the one currently used in the survey. The only minor change was the insertion of 'other organisations' into the explanation of who might use the results of the survey, as it was agreed that this gave a more accurate description of the survey's uses. The original introduction was as follows:

> *Good afternoon / evening. My name is [XXX YYY] calling from [XXXXXX] – the independent research organisation. We are carrying out a survey about people's leisure and recreational activities. This important study will be used by Local Authorities and your opinions may help to shape local services in the future.*
>
> *IF NECESSARY ADD:*
>
> *The interview takes about 15 minutes on average. I would like to assure you that all the information we collect will be kept in the strictest confidence, and used for research purposes only. It will not be possible to identify any particular individual or address in the results.*

This was then changed to the following for the pilot study:

> *Good afternoon / evening. My name is [XXX YYY] calling from TNS BMRB – the independent research organisation. We are carrying out a survey about people's leisure and recreational activities. This important study will be used by Local Authorities* ***and other organisations*** *and your opinions may help to shape local services in the future.*
>
> *IF NECESSARY ADD:*
>
> *The interview takes about 15 minutes on average. I would like to assure you that all the information we collect will be kept in the strictest confidence, and used for research purposes only. It will not be possible to identify any particular individual or address in the results.*

After the pilot study, interviewer feedback revealed that there was room for improvement with regards to this survey introduction. Suggested improvements were raised including the heightened personalisation of using 'your local authority', instead of 'local authorities', and also recommended that there was an extension of interviewer reassurances. Furthermore, interviewer feedback also raised awareness of the notion that the phrase **'and other organisations'** made some respondents feel that their data may be passed on and used by anyone. With this considered, and following a close consultation between TNS BMRB researchers and telephone unit management, the following introduction was proposed for the main stage survey:

> *Good afternoon/evening. My name is [XXX YYY] calling from TNS BMRB – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used by your Local Authority to help shape local services in the future. May I ask you a few questions?*
>
> *IF NECESSARY, USE THE FOLLWING REASSURANCES AS APPROPRIATE:*
>
> *This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.*
>
> *This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.*

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

Questionnaire review

A number of key findings were obtained from the CATI pilot with regards to the questions on Instruction and Coaching, Change in Participation and Likelihood to do more sport, Volunteering and Additional Demographics. As a result of these, changes were made to a number of questions for the main stage survey. For a detailed analysis of the outcomes and learnings from the CATI pilot, please refer to the Active People Survey 5 TNS BMRB Pilot Report, compiled for Sport England in September 2010.

2.2.3 Questionnaire changes following the CATI pilot

Following the cognitive testing and CATI piloting, the question made for the APS5 main stage questionnaire are shown in the table below.

Amendment	Question
Q6a -New	I would now like you to think about any cycling you may have done. Please include any casual cycling in your local area, any cycling in the countryside or on cycling routes, cycling to or from work or any competitive cycling. In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling? 1. Yes 2. No 3. Don't know (Base: All Respondents)
Q6b - New	On how many days in the last 4 weeks have you done any cycling? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT? ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 Don't know (Base: All those who have cycled in the last four weeks)
Fish (Question Amended)	Have you done any fishing in the last four weeks, that is since [^INSERT DATE^]? 1. Yes 2. No 3. Don't know (Base: All respondents that have done any sporting or recreational physical activity in the last four weeks and who have not selected a fishing code at Q10)

Amendment	Question
Fish1	Was this? 1. Sea fishing 2. Fishing – game / fly fishing 3. Fishing – coarse / freshwater 4. Fishing – wheelchair sports (Base: All who answer Yes at Fishing question)
Tuition	Which sports or recreational physical activities have you received tuition from an instructor or coach for in the last 12 months? DISPLAY Q10 DATABASE. DO NOT PROMPT. CODE ALL MENTIONED. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY WHEN EXHAUSTED TYPE NONE! PROMPT: WHAT ELSE? (Base: All those who have received tuition in the last 12 months)
Volunteering	During the last 4 weeks, that is since (^INSERT^), have you done any of the following activities on a voluntary basis without receiving any payment except to cover expenses? Please EXCLUDE any time spent solely supporting your own family members. READ OUT LIST. CODE ALL THAT APPLY. SCROLL THROUGH FULL LIST. 1. Coached an individual or team(s) in a sport or recreational physical activity 2. Refereed, umpired, or officiated at a sports match or competition 3. Performed an administrative or organisational role for a sports club, organisation or event PROMPT IF UNSURE (e.g. chair, secretary, fixture secretary, committee member, club captain, event organiser etc.) 4. Raised funds for a sports club or sports organisation 5. Provided transport which helps children or adults take part in a sport (other than family members) 6. Provided any other practical help for a sport or recreational physical activity, such as stewarding; helping with refreshments; helping with sports kit or equipment, or first aid etc 7. Other sports voluntary activity 8. No, have not participated in any of these activities in last 4 weeks 9. Don't know (Base: All)

Amendment	Question
Volunteering	During the last 4 weeks, that is since (^INSERT^), in which sports or recreational physical activities have you coached an individual or team? Only include activity done on a voluntary basis without receiving any payment except to cover expenses. Also EXCLUDE any time spent solely supporting your own family members. DISPLAY Q10 DATABASE. DO NOT PROMPT. CODE ALL MENTIONED. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY WHEN EXHAUSTED TYPE none! PROMPT: WHAT ELSE? (Base: All who have voluntarily coached a team in the last 4 weeks)
Volunteering	During the last 4 weeks, that is since (^INSERT^), how much time have you spent coaching an individual or team(s) including time spent travelling? INTERVIEWER ADD IF NECESSARY: Only include coaching done on a voluntary basis without receiving any payment except to cover expenses. Also EXCLUDE any time spent solely supporting your own family members. Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 600) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) Don't know Refused IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 224 HOURS 0 MINS DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED. INTERVIEWER TO READ OUT: YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING COACHING ON A VOLUNTARY BASIS, IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q20a. (Base: All who have voluntarily coached a team in the last 4 weeks)
Volunteering	During the last 4 weeks, that is since (^INSERT^), in which sports or recreational physical activities have you refereed, umpired, or officiated at a match/competition? Only include activity done on a voluntary basis without receiving any payment except to cover expenses. Also EXCLUDE any time spent solely supporting your own family members. DISPLAY Q10 DATABASE. DO NOT PROMPT. CODE ALL MENTIONED. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY WHEN EXHAUSTED TYPE none! Likelihood to do more sport	Which one sport or recreational physical activity would you most like to do, or to do more often? DISPLAY Q10 DATABASE. SINGLE CODE. DO NOT PROMPT. SINGLE CODE ONLY. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY Don't know (Base: All who would like to do more sport or physical recreation)
Likelihood to do more sport	A lot of people tell us they would like to do more sport or recreational physical activity although they don't manage to do so. In the next 12 months, do you think you will… READ OUT 1. Definitely do more <^ ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^> 2. Probably do more <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^> 3. Do about the same <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^>

Amendment	Question
	4. Probably do less <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^> 5. Definitely do less <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^> 6. Don't know (Base: Randomly allocate to 50% of those who would like to do more sport or physical recreation)
Religion (Question was not included in the cognitive pilot - question is used in the Taking Part Survey questionnaire)	*What is your religion, even if you are not currently practising?* *SINGLE CODE ONLY* 1. *Christian* (including Church of England, Catholic, Protestant and all other Christian denominations) *2. Buddhist* *3. Hindu* *4. Jewish* *5. Muslim* *6. Sikh* *7. Any other religion – please specify* *8. No religion* *9. [DO NOT READ] RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE]* *10. Don't know* *11. Refused* (Base: Randomly allocate to 50% of sample)
Religion	*Do you consider that you are actively practising your religion?* *1. Yes* *2. No* *3. [DO NOT READ]: RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE]* *4. Don't know* *5. Refused* (Base: All those who select a religion)
Sexual Identity (Question was not included in the cognitive pilot - this is a harmonised question recommended by the Office for National Statistics for use on telephone surveys)	I will now read out a list of terms people sometimes use to describe how they think of themselves. INTERVIEWER: READ LIST TO END WITHOUT PAUSING. NOTE THAT 'HETEROSEXUAL OR STRAIGHT' IS ONE OPTION; 'GAY OR LESBIAN' IS ONE OPTION. As I read the list again please say 'yes' when you hear the option that best describes how you think of yourself. INTERVIEWER: PAUSE BRIEFLY AFTER EACH OPTION DURING SECOND READING 1. Heterosexual or Straight, 2. Gay or Lesbian, 3. Bisexual, 4. Other *5.* [DO NOT READ]: RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE] 6. Don't know 7. Refused (Base: Randomly allocate to 50% of sample)
Vehicle access	This question was randomly allocated to 50% of sample from the start of APS5.

Amendment	Question
Life Satisfaction	On scale of 1 to 7, where 1 means 'Completely dissatisfied' and 7 means 'Completely satisfied', how dissatisfied or satisfied are you with your life overall? 1. Completely dissatisfied 2. Mostly dissatisfied 3. Somewhat dissatisfied 4. Neither satisfied or dissatisfied 5. Somewhat satisfied 6. Mostly satisfied 7. Completely satisfied *8.* [DO NOT READ]: RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE] *9.* Refused (Base: Randomly allocate to 50% of sample)
General Health	How is your health in general? Would you say it was…. READ OUT. SINGLE CODE ONLY 1. Very good 2. Good 3. Fair 4. Bad 5. Very Bad *6.* [DO NOT READ] RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE] 7. Refused (Base: Asked if 'Life Satisfaction' asked)
Disability/Illness	Does this disability or illness affect you in any of the following areas? READ OUT. CODE ALL THAT APPLY. SCROLL THROUGH FULL LIST. 1. Vision, for example, due to blindness or partial sight 2. Hearing, for example, due to deafness or partial hearing 3. Mobility, such as difficulty walking short distances, climbing stairs, lifting & carrying objects 4. Learning or concentrating or remembering. 5. Mental Health 6. Stamina or breathing difficulty 7. Social or behavioural issues, for example, due to neuro diverse conditions such as Autism, Attention Deficit or Aspergers' Syndrome 8. Difficulty speaking or making yourself understood 9. Dexterity difficulties, by that I mean lifting, grasping or holding objects 10. Long-term pain or discomfort that is always present or reoccurs from time to time 11. Affects me in some other way *12.* [DO NOT READ] RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE] 13. Don't know 14. Refused (Base: Ask all who have an illness or disability that limits themselves in some way)
Studying for recognised qualification	Can I just check, are you currently studying for a recognised qualification? 1. Yes – part-time 2. Yes – full-time

Amendment	Question
	3. Not studying for a recognised qualification 4. [DO NOT READ] RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE] 5. Don't know (Base: All non-students)
Location of Study	Are you studying with or at….. CODE ALL THAT APPLY 1. School Year 11 [DISPLAY IF D2 = 16 or D3 = 1] 2. At school sixth form [DISPLAY IF D2 = 16, 17, 18 or 19 or D3 = 1] 3. At sixth form college 4. At a further education college or other further education institution 5. At a university or other high education institution 6. Other 7. [DO NOT READ] RESPONDENT QUITS INTERVIEW [GO TO COLLECTION OF POSTCODE] 8. Don't know (Base: All students/studying for a recognised qualification)
Income (Income bands amended)	We want to know if income affects people's ability to participate in various sporting activities. Is your total household income, that is income from all sources before tax and other deductions, above or below £31,200? READ OUT POSSIBLE INCOME BANDS SINGLE CODE. 1. Up to £10,399 2. £10,400 to £20,799 3. £20,800 to £31,199 4. £31,200 to £41,599 5. £41,600 to £51,999 6. £52,000 or more 7. Don't know 8. Refused (Base: Randomly allocate to 50% of sample)
Postcode Classification (Interviewer note amended)	Can I take your full postcode? INSERT TEXT IF ROUTED FROM Pcode 1 or Pcode2: Can I take your postcode again to check I entered it correctly? IF NECESSARY ADD: The information will be used to shape local services in the future so we need to confirm exactly where you live. Please be reassured that the answers you give will be added to those from other people in your area for an overall picture. (Base: All)
Recontact Question (Wording amended)	This survey was commissioned by Sport England thank you for taking part. Would you be willing to be re-contacted on behalf of Sport England, or an organisation acting on their behalf, for future research regarding your sport and recreational activities? There would be no obligation for you to take part. 1. Yes

Amendment	Question
	2. No (Base: All)

A number of changes were also made to the questionnaire at various points during the APS5 fieldwork year. A summary of these changes is outlined below:

Amendment	Question
Survey introduction (survey introduction was amended on 22nd March 2011 to remove the reference to 'local authority')	Good afternoon/evening. My name is XXXXX calling on behalf of TNS BMRB – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used by your Local Authority to help shape local services in the future. May I ask you a few questions?
Gender (Interviewer instruction amended on the 22nd March 2011)	DO NOT READ OUT. CODE GENDER. INTERVIEWER: IF THE RESPONDENT WANTS TO QUIT AT THIS QUESTION, PLEASE RECORD THE SEX OF THE RESPONDENT BEFORE QUITTING. IF YOU DO NOT RECORD THE SEX THEN THIS INTERVIEW WILL BE UNUSABLE. Male Female
HRP SOC questions	These questions were randomly allocated to 20% of eligible sample from 14th April 2011.
Recontact Question (Wording amended on 14th April)	This survey was commissioned by Sport England thank you for taking part. Would you be willing for us to keep a record of your details so Sport England, or an organisation acting on their behalf, may re-contact you to ask you further questions on this survey or to take part in future research on this subject? There would be no obligation for you to take part. 1. Yes 2. No
Follow-up Recontact Question wording (New question)	In order to carry out this future research, TNS may also need to provide your contact details together with relevant survey responses collected from you during this interview to Sport England or an organisation acting on their behalf. Would you be willing for this information to be passed on? INTERVIEWER ADD IF NECESSARY: The information that we pass on may include the activities that you participate in or some of the classification data such as your age or sex. We would only pass your contact details and interview information onto Sport England or another research company doing legitimate research on behalf of Sport England, your interview data would never be passed to anyone else or used for commercial purposes. 3. Yes 4. No

2.3 Questionnaire changes for APS6

Further changes were implemented during APS6. These mainly focussed on changes to the walking and cycling questions to ensure they covered walking and cycling for the

purposes of travel. The cycling questions were updated twice, once at the start of APS6 fieldwork, the second in January 2012. The walking questions were updated just once, in January 2012.

A summary of all changes are provided in the table below:

Amendment	Question
Walking Question - Minimum walking increased to 10 minutes	Firstly, I would like you to think about all the walking you have done. Please include any country walks, walking to and from work or the shops and any other walks you may have done. Please exclude time spent walking around shops. In the **last four weeks**, that is since [^INSERT^] have you done at least one continuous walk lasting **at least 10 minutes**? 1. Yes 2. No 3. Unable to walk 4. Don't know
Walking days question – Modified to include walks of at least 10 minutes	On how many days in the last four weeks have you done at least one continuous walk lasting at least 10 minutes? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT? Every day = 28 Every weekday = 20 Every other day = 14 Every day at weekends = 8 One day every weekend = 4 ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28 Don't know
Walking time question – modified to include total time spent walking throughout the day (only including walks of at least 10 minutes)	On the days that you walked, what was the total length of time you USUALLY spent walking during the course of the day? (Please only include walks of at least 10 minutes). IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) Don't know Refused IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS INTERVIEWER TO READ OUT. YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q3a.

Amendment	Question
Days walking for the purpose of health or recreation question – Modified to include walks of at least 10 minutes	You said that you had done at least one continuous walk lasting at least 10 minutes on [^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since [^INSERT^]. Can I ask, on how many of those days did you walk for the purpose of health or recreation not to get from place to place again please exclude time spent walking around shops? ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r Don't know
Time walking for the purpose of health or recreation – modified to include total time spent walking throughout the day (only including walks of at least 10 minutes)	On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation, not to get from place to place, during the course of the day? (Please only include walks of at least 10 minutes). IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) Don't know Refused IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS INTERVIEWER TO READ OUT. YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q3c.

Amendment	Question
Original time spent cycling question change – Shift of focus from asking whether or not the respondent had done one cycle ride for at least 30 minutes to collecting the amount of time they usually cycle for in hours and minutes	And how long do you USUALLY cycle for? IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES, TIME SPENT CHANGING OR SOCIALISING. Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) Don't know Refused IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS INTERVIEWER TO READ OUT. YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q6
Second time spent cycling question change - Additional interviewer instructions included to ensure that respondents added together the duration of all cycle rides completed during the course of the day	On the days that you cycled, what was the total length of time you USUALLY spent cycling during the course of the day? IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER. IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING. Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) Don't know Refused IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS INTERVIEWER TO READ OUT. YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q6r.

Amendment	Question
Original days recreational cycling question – Adapted to remove the minimum requirement of 30 minutes	You said that you had cycled on [^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks. Can I ask, on how many of those days were you cycling for the purpose of health, recreation, training or competition not to get from place to place? ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b Don't know
Second days recreational cycling question change implemented in January 2012 - Minor question text amend	You said that you had cycled on [^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks. Can I ask, on how many of those days did you cycle for the purpose of health, recreation, training or competition not to get from place to place? ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b Don't know
Original time spent cycling for the purpose of health or recreation question - Added for APS6 to collect the amount of time the respondent usually cycles for each occasion that they cycle for the purpose of health or recreation. Time collected in hours and minutes	<IF Q6 NOT DK/REF - You said that you usually cycle for [^INSERT FROM Q6^], thinking only about cycling for the purpose of health, recreation, training or competition not to get from place to place, how long do you USUALLY cycle for?> <IF Q6 = DK/REF - Thinking only about cycling for the purpose of health, recreation, training or competition not to get from place to place, how long do you USUALLY cycle for?> IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES, TIME SPENT CHANGING OR SOCIALISING. Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) Don't know Refused IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS INTERVIEWER TO READ OUT. YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q8a.
Second time spent cycling for the purpose of health or recreation question change, implemented in	Thinking only about continuous cycle rides for the purpose of health, recreation, training or competition not to get from place to place, how long do you usually cycle for? IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR

Amendment	Question
January 2012 - Question text changed by removing the feed forward time answer from the utility cycling question	EACH OCCASION THAT ACTIVITY IS UNDERTAKEN IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE, TIME SPENT CHANGING OR SOCIALISING. Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) Don't know Refused IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS INTERVIEWER TO READ OUT. YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q8a.
Main type of cycling done or the purpose of health, recreation, training or competition - Question added at the start of APS6 to collect the main type of cycling the respondent does for the purpose of health or recreation	Again thinking only about cycling for the purpose of health, recreation, training or competition, what is the main type of cycling you do? SINGLE CODE 1. Recreational cycling – General 2. Mountain biking 3. BMX 4. Road cycling 5. Track cycling 6. Cyclo-cross
Utility Cycling Intensity - Question added in January 2012 to also collect intensity of all respondents who had participated in general cycling, but reported 0 days of cycling for the purpose of health and recreation	During the last four weeks, was the effort you put into cycling usually enough to raise your breathing rate? 1. Yes 2. No 3. Don't know
Utility cycling intensity - Question added in January 2012 to also collect intensity of all respondents who had participated in general cycling, but reported 0 days of cycling for the purpose of health and recreation	During the last four weeks, was the effort you put into cycling usually enough to make you out of breath or sweat? 1. Yes 2. No 3. Don't know

Amendment	Question
Life satisfaction question change – New 10 point scale question to replace the original 7 point scale used in APS5	On a scale of nought to 10, where nought is 'not at all' and 10 is 'completely'. Overall, how satisfied are you with your life nowadays?

It is also worth noting that Club, Instruction, Competition and Volunteering questions were randomly allocated to 50% of sample from APS6 onwards. Respondents allocated these sections were asked all questions from the four sections.

Furthermore, the dance and gardening questions were temporarily removed in APS6 Q1, but were added back into the survey in January 2012.

2.3.1 14-15 Child Piloting in APS6

As a reflection of Sport England's new strategy to "create a sporting habit for life", a 14-15 child survey was introduced in July 2012. In preparation for this a period of cognitive testing and piloting of this survey was conducted amongst this age group throughout June 2012. Full details of this can be found in the Chapter 9.

2.4 Questionnaire piloting and development for APS7

In APS7 there were limited changes to the main adult questionnaire and no questions required piloting.

The only addition to the questionnaire is provided in the table below:

Amendment	Question
Q21 – sports provision question from APS4 reinstated	How would you rate your level of OVERALL satisfaction with sports provision in your local area? READ OUT LIST. SINGLE CODE 1. Very satisfied 2. Fairly satisfied 3. Neither satisfied or dissatisfied 4. Fairly dissatisfied 5. Very dissatisfied 6. No opinion/not stated – DO NOT READ OUT (Base: All Respondents)

The following amendments were also made to the questionnaire:

- Highest qualification (D6) was changed to be randomly allocated to 50% of the sample (previously 'ask all')
- Vehicle ownership was removed
- HRP (household reference person) identification questions were removed
- HRP Social Occupational Classification questions were removed
- Income was removed.

Furthermore, the prompted sports questions (Q10show and follow ups) that were included in the final CATI questionnaire of APS6 were continued into APS7 (see APS7 questionnaire in Appendix B4). These questions are not included in the APS7 sports participation estimates.

2.5 Questionnaire piloting and development for APS 8

In APS8 there were some changes to the main adult questionnaire and some questions required piloting.

2.5.1 Gender identity questions pilot

TNS BMRB piloted two potential new gender questions during July fieldwork.

The new gender question will enable Sport England to capture the range of gender groups. This addition to the APS questionnaire is in response to the Equality Act of 2010 which outlines the responsibility of public authorities to eliminate unlawful discrimination, advance equality of opportunity and foster good relations across all aspects of equality.

The two questions piloted were:

Question 1:	Question 2:
D1a. What is your gender? INTERVIEWER: READ OUT 1. Male 2. Female 3. Other Refused	D1b. Which of the following describes how you think of yourself? INTERVIEWER: READ OUT 1. Male 2. Female 3. In another way Refused

In addition to the above questions, the introduction to the demographics included an additional statement of reassurance (in italics below) to respondents about why we ask these types of questions:

> I would like to finish the survey by asking you a few questions about you and your household. *We ask these questions to look at the experiences of different groups of society so we can measure the sports activities and use of facilities among these groups.*

Method

The new gender questions where added to the July CATI script only. Each question was randomly rotated by the CATI script to ask 50% of respondents question D1a and 50% question D1b. In all interviews, the current gender question (D1) was also recorded by the interviewer.

Supervisors working on the project were briefed by TNS BMRB researchers before passing this information onto the interviewers working on the project. The briefing covered a reminder to treat the new questions in the same way as any other question in order to maximise response, reasons why the questions were being tested and the objectives of the pilot.

Summary

The objectives of the pilot were to:

- Identify which of the two questions is the most appropriate for a CATI interview

- Monitor the number of refusals/quit interviews for each question
- Monitor the number of discrepancies between D1 (interviewer recorded) and the new gender questions

Researchers listened to a selection of calls and it appeared that questions fit seamlessly without causing issues. Respondents appeared to take the questions light heartedly, but many seemed surprised they were asked this question. Researchers listened to five recordings where the answer provided at D1a or D1b was 'Other' or 'In another way'. Feedback from these interviews was that one respondent had a gender issue; one elderly respondent seemed to not understand the term 'gender' and three further responses may not have provided a true reflection of their gender identity.

Recommendations

The pilot was successful with 4,668 completed interviews split by recorded gender (1,888 Males and 2,780 Females) and by which gender question they were asked (2,310 answered D1a and 2,358 answered D1b). After considering number of refusals, differences compared with D1, interviewer feedback as well as researchers listening into calls, question D1b was the preferred option. Interviewers reported that the new introduction added unnecessary time and the existing introduction sufficed. As a result the introduction was left in to 'add if necessary'. As well as adding question D1b to the main questionnaire, interviewer recorded gender (D1) was retained to ensure weighting specifications are not compromised and the survey remains comparable with previous years. Analysis of the results from D1b should be treated with caution due to the tendency of a few respondents to provide answers which were not a true reflection of their gender identity.

2.5.2 PHE Nutrition Questions pilot

Public Heath England proposed a set of new questions on fruit and vegetable consumption for potential inclusion in the Active People Survey.

TNS BMRB conducted a pilot to cognitively test the wording of two sets of new questions and evaluate their suitability for inclusion in the main survey.

Method

The first set of questions tested in the pilot referred to the number of portions of fruit and vegetables "usually" eaten per day and the second referred to the number of fruit and vegetable portions eaten "yesterday". In addition, the first questions included a full interviewer "read out" definition on what to include in a portion of fruit or vegetables. The second set of questions did not include this detailed definition, but interviewers were briefed to "read out [definitions] as required".

The order of the 2 sets of questions was rotated in the questionnaire so that 50% of respondents were asked the "usually" questions first (F1 and V1) and the other 50% were asked the "yesterday" questions first (F2 and V2). This was to investigate the impact that the inclusion of the definition statement had on the responses.

A total of 30 interviews were carried out by TNS telephone interviewers in September. The sample consisted of respondents who took part in the main Active People Survey in the previous month and agreed to be re-contacted. Quotas were implemented to ensure a range of people from different age groups and both genders are included.

Experienced telephone interviewers contacted the respondents and took them through the pilot questions with a TNS BMRB researcher listening into the call. At the end of the

pilot questions the researcher asked the respondent about their understanding of the question wording, concepts included in the questions, and their ability to answer easily and accurately. The interviews lasted 5 to 10 minutes.

Summary

The objectives of the pilot were to identify:

- Which of the two suggested time reference periods works better - "yesterday" or "usually?"
- Whether the interviewer instructions are necessary as a "read out extension" to the question, or whether they would work better as a "read out if necessary" addition?
- What is the likely impact on questionnaire timings for both versions of the questions piloted?

The additional "read out" information provided with the "usually" question felt particularly long and respondents still provided invalid answers. Though these questions are validated for face-to-face interviews, respondents seemed to find it difficult to process the information in a telephone interview setting.

"Usually" as reference period provided vague responses, whilst "yesterday" provided more precise answers. Respondents tended to provide a higher number of portions eaten "usually" compared with "yesterday". This was the case particularly if the "usually" question was asked after the "yesterday" question. These inconsistencies appeared to even out across the sample.

There were no concerns about potential time bias through using "yesterday" as the reference period as the Active People Survey is running seven days per week throughout the year.

Recommendations

Although compromises were found with both types of questions tested, the "yesterday" questions were found to be more suitable for inclusion in the Active People Survey. This is because responses to the "usually" questions were found to be vague and respondents seemed confused at times by the lengthy "read out", which would also add to the overall interview length.

The "yesterday" questions with "read out if necessary" were considerably quicker and despite respondents sometimes taking longer to provide their answer, responses were found to be more considered.

For both sets of questions there may be some confusion over portion sizes and inclusions/exclusions of foods, but the compulsory "read out" for the "usually" questions did little to overcome this issue. TNS BMRB recommended retaining the "add if necessary" instructions with the "yesterday" versions and including a "Don't know" code (not read out by interviewers) to the final questionnaire. The final versions F3 and V3 would add around 40 seconds to the existing questionnaire.

2.5.3 Questionnaire changes following the pilots

Following the cognitive testing and CATI pilot the following changes were made for the APS8 main stage questionnaire:

Amendment	Question

New rotations

Question / section	Rotation %	Rotation R1	Rotation R2	Rotation R3	Rotation R4
		25%	25%	25%	25%
Club (Section D)	50% of sample	Y	Y		
Tuition (Section E)	50% of sample	Y	Y		
q17b (tuition in a particular sport)	50% of eligible respondents	Y	Y		
Competition (Section F)	50% of sample	Y	Y		
Volunteering (Section G)	50% of sample			Y	Y
Q21 Sports provision (Section H)	75% of whole sample		Y	Y	Y
Change in participation (Section I)	50% of sample			Y	Y
Likelihood to do more sport (Section J)	50% of sample	Y	Y		
d4a1 - Religion	50% of sample (rotate with d4b)	Y		Y	
d4b - Sexual ID	50% of sample (rotate with d4a1)		Y		Y
d6 - Education	25% of sample		1 in 2		1 in 2
d14ar - Life satisfaction	25% of sample	1 in 2		1 in 2	
d14b - General health	25% of sample	1 in 2		1 in 2	

Club Added to rotations	[ASK IF ROTATION = R1 OR R2] Over the past four weeks have you been a member of a club, particularly so that you can participate in any sports or recreational physical activities?
Tuition Added to rotations	[ASK IF ROTATION = R1 OR R2] Now thinking about the last 12 months, have you received tuition from an instructor or coach to improve your performance in any sports or recreational physical activities?
Tuition in a particular sport Sample size changed from start of APS8 to only ask 50% of eligible respondents	[ASK FOR EACH SPORT CODED AT Q17A – ONLY ASK OF 50% OF RESPONDENTS WHO ARE ROUTED HERE] On how many days in the last four weeks have you received tuition for [^INSERT ACTIVITY FROM Q17a^]
Competition Added to rotations	[ASK IF ROTATION = R1 OR R2] And again, over the past 12 months have you taken part in any organised competition for any sports or recreational physical activities? Please do not include any teaching, coaching or refereeing.
Volunteering Routing to volunteering amended in APS8 to ask 50% of sample	[ASK IF ROTATION = R3 OR R4] During the last 4 weeks, that is since (^INSERT^), have you done any of the following activities on a voluntary basis without receiving any payment except to cover expenses? Please EXCLUDE any time spent solely supporting your own family members.

Amendment	Question
Sports provision From APS8 of 75% of sample	[ASK IF ROTATION = R2, R3 OR R4] How would you rate your level of OVERALL satisfaction with sports provision in your local area? READ OUT LIST. SINGLE CODE
Change in participation From APS8 ask of 50% of sample	[ASK IF ROTATION = R3 OR R4] Do you think you generally do more, less, or the same amount of sport and recreational physical activity as you did this time last year? SINGLE CODE.
Likelihood to do more sport From APS8 ask this section (Q22, Q22CK, Q23, Q23OTH1) of 50% of sample	[ASK IF ROTATION = R1 OR R2] Now thinking about the future, over the next 12 months, would you like to do more sport or recreational physical activity than you do at the moment?
Q23a From APS 8 asked of everyone eligible	[ASK IF 22 = 1] A lot of people tell us they would like to do more sport or recreational physical activity although they don't manage to do so. In the next 12 months, do you think you will…?
d4a1 – Religion Rotate D4a1 and D4b to ask of 50% of sample	[ASK IF ROTATION = R1 OR R3] What is your religion, even if you are not currently practising?
d4b - Sexual ID Added to rotations	[ASK IF ROTATION = R2 OR R4] I will now read out a list of terms people sometimes use to describe how they think of themselves.
d6 – Education From APS8 ask of 25% of sample	[RANDOMLY ALLOCATE TO 1 IN 2 IN ROTATION R2 AND R4] Now thinking about your education. What is the highest qualification you have obtained up to now?
d14ar - Life satisfaction From APS8 ask of 25% of sample	[RANDOMLY ALLOCATED TO 1 IN 2 IN ROTATION R1 AND R3 - 25% OF SAMPLE] On a scale of nought to 10, where nought is 'not at all' and 10 is 'completely'. Overall, how satisfied are you with your life nowadays?
d14b - General health From APS8 ask of 25% of sample	How is your health in general? Would you say it was…. READ OUT. SINGLE CODE ONLY
Horseriding Amended types of horse riding codes to include 'Hacking' and 'Schooling', remove 'Horse Carriage Driving' and 'Polocrosse' and add 'Other'	[ASK IF Q10SHOW6 = 2] Which of the following types of horse riding did you do in the last four weeks? CODE ALL THAT APPLY 1. Horse Riding - Hacking 2. Horse Riding - Dressage 3. Horse Riding - Pony Trekking 4. Horse Riding - Show Jumping 5. Horse Riding - Three Day Eventing 5.6. Horse Riding - Schooling 6.7. Horse Riding - Other 7.8. Don't know (DP - no follow up questions)
RM8 New introduction, because questions moved to the beginning of health questions	The next questions are about factors relating to your health. Firstly I would like to ask you about your height and weight. There is an interest in how people's weight, given their height, is associated with their health.
Q31 and Q32 - New fruit and vegetable questions after cognitive pilot	I would now like to ask you two questions about your diet. [ASK ALL]

Amendment	Question
	How many portions of fruit did you eat yesterday? Please include all fruit, including fresh, frozen dried or tinned fruit, stewed fruit or fruit juices and smoothies. INTERVIEWER ADD IF NECESSARY: A portion is half a large fruit such as a grapefruit, avocado, one medium sized fruit such as an apple, orange or pear, 2 small fruits such as plums or satsumas, a handful of grapes or berries, a heaped tablespoon of dried fruit, 3 heaped tablespoons of fruit salad or stewed fruit. A glass of fruit juice counts as one portion but can only be counted as one portion even if several glasses have been consumed. NUMERIC. MIN 0, MAX 99 Don't know [ASK ALL] How many portions of vegetables did you eat yesterday? Please include fresh, frozen, raw or tinned vegetables, but do not include any potatoes you ate. INTERVIEWER ADD IF NECESSARY: A portion is 3 heaped tablespoons of vegetables, 3 heaped tablespoons of beans or pulses (such as baked beans or kidney beans). Beans and pulses only count once towards your daily portions no matter how much of them you eat. Potatoes do not count. NUMERIC. MIN 0, MAX 99 Don't know
Demographics D1 added a after gender identity pilot	INTERVIEWER ADD IF NECESSARY: We ask these questions to look at the experiences of different groups of society so we can measure the sports activities and use of facilities among these groups. Which of the following describes how you think of yourself? INTERVIEWER: READ OUT 1. Male 2. Female 3. In another way REFUSED
RM14 New text to reflect move of height & weight questions	Earlier we asked you about your height and weight. As pregnancy can affect weight, can I just check, are you pregnant at present? 1. Yes 2. No 3. Refused
Mobile questions M1 added for mobile phone pilot	[ASK ALL] M1. Do you have your own mobile phone, share one or do not own one? 1. Own mobile phone(s) 2. Shared mobile phone 3. No mobile phone (single code) REFUSED

2.6 Questionnaire development for APS 9

There were some questions added to the questionnaire for APS9 but they did not require piloting.

Amendment	Question
RS1 – new question, asked if respondent has taken part in running/jogging, fitness activities, combat sports, cycling and swimming (25% of sample)	[ASK RS1 IF ROTATION = R4 AND FOR RUNNING/JOGGING, FITNESS ACTIVITIES, COMBAT SPORTS, CYCLING AND SWIMMING] RS1. I'd now like to ask you about your main reason for taking part in some of the activities you have mentioned. What was your main reason for taking part in <^sports group^>? READ OUT. SINGLE CODE ONLY. 1. Enjoyment of the sport/activity 2. To improve/maintain fitness 3. Preparation/training for a sport 4. Preparation/training for an event 5. To socialise with friends/family 6. Some other reason

Amendment	Question
RS2 – new question, asked if RS1=3	[ASK RS1= 3] RS2. Which main sport were you preparing or training for? PROBE AS NECESSARY. SINGLE CODE ONLY. 1. Angling 2. Archery 3. Athletics – Running 4. Athletics – Track and Field 5. Badminton 6. Baseball or Softball 7. Basketball 8. Boccia 9. Bowls 10. Boxing 11. Canoeing 12. Cricket 13. Cycling 14. Equestrian 15. Exercise, Movement and Dance 16. Fencing 17. Football 18. Goalball 19. Golf 20. Gymnastics (includes Trampolining) 21. Handball 22. Hockey 23. Judo 24. Lacrosse 25. Modern Pentathlon 26. Mountaineering 27. Netball 28. Orienteering 29. Rounders 30. Rowing 31. Rugby League 32. Rugby Union 33. Sailing 34. Shooting 35. Snowsport 36. Squash or Racketball 37. Swimming 38. Table Tennis 39. Taekwondo 40. Tennis 41. Triathlon 42. Volleyball 43. Waterskiing 44. Weightlifting 45. Wheelchair Basketball 46. Wheelchair Rugby 47. Wrestling 48. Other

Amendment	Question
RS3 – new question, asked if RS1=4	[ASK RS1= 4] RS3 Which main event were you preparing or training for? READ OUT. SINGLE CODE ONLY 1. Running (eg. marathon, Great North Run, Zombie Run, Race for Life, ParkRun, 10k, 5k 2. Cycling (eg. Ride London, South Downs sportive, Breeze challenge events) 3. Swimming (eg.Great Swim, Human Race open water swims) 4. Triathlon or other multi-discipline event (eg. Duathlon, Aquathon,) 5. Obstacle (eg.Men's Health, Tough Mudder, Tough Warrier, Spartan race, X Runner, Survival of the Fittest 6. Other
WeightTraining – changes to answer categories	[ASK IF WEIGHT TRAINING CODED AT Q10 DATABASE] WeightTraining. What type of weight training did you do? INTERVIEWER NOTE: We are interested in respondent's primary motivation for weight training for example whether it is for general fitness or to participate in a specific sport, and the type of equipment primarily used (e.g. free weights or resistance machines). 1. Weight training (free weights) - general fitness with a personal trainer 2. Weight training (free weights) – general fitness without a personal trainer 3. Weight training (free weights) - for specific sport 4. Weight training (resistance machines) - general fitness with a personal trainer 5. Weight training (resistance machines) – general fitness without a personal trainer 6. Weight training (resistance machines) - for specific sport
GYM1, GMY2, GY2Oth	Questions removed

2.7 Questionnaire development for APS 10

A number of questions were retained for Q1 and Q2 of APS 10, but removed from the questionnaire in Q3.

Amendment	Question
	[ASK RS1 IF ROTATION = R4 AND FOR RUNNING/JOGGING, FITNESS ACTIVITIES, COMBAT SPORTS, CYCLING AND SWIMMING] I'd now like to ask you about your main reason for taking part in some of the activities you have mentioned. What was your main reason for taking part in <^sports group^>?
RS1 – not asked in Q3/4	**READ OUT.** SINGLE CODE ONLY. 1. Enjoyment of the sport/activity 2. To improve/maintain fitness 3. Preparation/training for a sport 4. Preparation/training for an event 5. To socialise with friends/family 6. Some other reason

Amendment	Question
RS2 – not asked in Q3/4	**[ASK RS1= 3]** Which main sport were you preparing or training for? PROBE AS NECESSARY. SINGLE CODE ONLY. 1. Angling 2. Archery 3. Athletics – Running 4. Athletics – Track and Field 5. Badminton 6. Baseball or Softball 7. Basketball 8. Boccia 9. Bowls 10. Boxing 11. Canoeing 12. Cricket 13. Cycling 14. Equestrian 15. Exercise, Movement and Dance 16. Fencing 17. Football 18. Goalball 19. Golf 20. Gymnastics (includes Trampolining) 21. Handball 22. Hockey 23. Judo 24. Lacrosse 25. Modern Pentathlon 26. Mountaineering 27. Netball 28. Orienteering 29. Rounders 30. Rowing 31. Rugby League 32. Rugby Union 33. Sailing 34. Shooting 35. Snowsport 36. Squash or Racketball 37. Swimming 38. Table Tennis 39. Taekwondo 40. Tennis 41. Triathlon 42. Volleyball 43. Waterskiing 44. Weightlifting 45. Wheelchair Basketball 46. Wheelchair Rugby 47. Wrestling 48. Other

Amendment	Question
RS3 – not asked in Q3/4	**[ASK RS1= 4]** Which main event were you preparing or training for? **READ OUT.** SINGLE CODE ONLY 1. Running (eg. marathon, Great North Run, Zombie Run, Race for Life, ParkRun, 10k, 5k 2. Cycling (eg. Ride London, South Downs sportive, Breeze challenge events) 3. Swimming (eg.Great Swim, Human Race open water swims) 4. Triathlon or other multi-discipline event (eg. Duathlon, Aquathon,) 5. Obstacle (eg.Men's Health, Tough Mudder, Tough Warrier, Spartan race, X Runner, Survival of the Fittest 6. Other
Q19c – not asked in Q3/4	**[ASK IF Q19b = 1]** During the *last 4 weeks, that is since (^INSERT^),* in which sports or recreational physical activities have you coached an individual or team? Only include activity done on a voluntary basis without receiving any payment except to cover expenses. EXCLUDE any time spent solely supporting your own family members. DISPLAY Q10 DATABASE. Q24ck – not asked in Q3/4	**[ASK IF Q24 = 4 ONLY]** Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey. SINGLE CODE 1. Proceed with interview (skips back to Q24) 2. Skip sports questions (skips to Q26)

Amendment	Question
Q24a – not asked in Q3/4	**[ASK IF Q24 = 3]** What is the main sport or recreational physical activity that you are doing less of? DISPLAY Q10 DATABASE. SINGLE CODE. DO NOT PROMPT. SINGLE CODE ONLY. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY IF RESPONDENT SAYS DON'T KNOW, CODE ACCORDINGLY Don't know

Amendment	Question
	[ASK IF Q24 = 3] What is the **main** reason why you are doing less? SINGLE CODE. DO NOT READ OUT LIST. SCROLL THROUGH FULL LIST. **HEALTH/DISABILITY REASONS** 1. Poor / deteriorating health 2. Increasing age 3. Disability 4. Recent injury / illness / operation / medical reason ## INCOME AND ECONOMY 5. Loss of job (redundancy) / loss of income / loss of home 6. Less income / too expensive / can't afford to due to current economic conditions 7. Less income / too expensive / can't afford to due to any other reason 8. Lack of time due to work commitments / work longer hours / longer commuting 9. Change of job **ACCESS AND OPPORTUNITIES** 10. Not enough opportunities / inadequate facilities in my area 11. A course, class or club finished/not available anymore **OTHER** 12. Pregnancy / looking after child or baby / having a family / family commitments 13. Less free time / lack of time for other reasons 14. Prefer to spend time doing other activities 15. Left school / not at school anymore 16. The weather 17. Don't have a dog anymore 18. General lack of interest/motivation 19. I was training for an event 20. Moved to a new area / home 21. Change in family structure (separation / bereavement / child leaving home) 22. No main reason 23. Other (please specify) 24. Don't know
Q25 – not asked in Q3/4	

Amendment	Question
Q24b – not asked in Q3/4	**[ASK IF Q24 =1]** What is the main sport or recreational physical activity that you are doing more of? DISPLAY Q10 DATABASE. SINGLE CODE. DO NOT PROMPT. SINGLE CODE ONLY. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY IF RESPONDENT SAYS DON'T KNOW, CODE ACCORDINGLY Don't know

[ASK IF Q24 = 1]

What is the **main** reason why you are doing more?

SINGLE CODE. DO NOT READ OUT LIST. SCROLL THROUGH FULL LIST.

HEALTH/DISABILITY REASONS

1. To improve health
2. To increase fitness
3. Health recovered (general)
4. Recovered from injury
5. To improve appearance (lose weight, tone up)

WORK, INCOME AND ECONOMY

6. More income / ability to afford sports participation
7. Increased time due to reduced work commitments

PERFORMANCE

8. To improve skill levels
9. To increase competitive success
10. To prepare for a sports event/charity event

Q25a – not asked in Q3/4

SOCIAL

11. To spend time with / support family
12. To spend time with / support friends
13. To meet new people
14. General enjoyment/I enjoy it

ACCESS AND OPPORTUNITIES

15. Increased opportunities / facilities in my area
16. Moved closer to facilities
17. More actively involved in a sports club / organisation

OTHER LIFE CIRCUMSTANCES

18. More free time because recently retired
19. More free time due to children growing up
20. More free time having completed studies
21. More free time (other reasons)
22. Got a dog
23. Moved to a new area / home
24. Change in family structure (separation / bereavement / child leaving home)
25. Environmental (enjoy being outdoors, sustainable transport)
26. No main reason
27. Other (please specify)

Amendment	Question
	28. Don't know

Amendment	Question
Q22 – not asked in Q3/4	**[ASK IF ROTATION = R4]** Now thinking about the future, over the next 12 months, would you like to do more sport or recreational physical activity than you do at the moment? 1. Amendment	Question
Q26 – not asked in Q3/4	**[ASK ALL]** I'd now like to ask if you have done any dancing or gardening, *in the last four weeks*, *that is since [^INSERT^]*, **READ OUT** – Please include all types of dancing except dance as part of an exercise class. Exclude any dancing or gardening where you received payment as part of your job. **READ OUT IF REQUIRED -** conservation related gardening activities are those where organisations inspire individuals to improve both their health and the environment at the same time such as green gyms which offer the opportunity to tackle physical jobs in the outdoors whilst benefiting local green spaces. Have you done.. **READ OUT LIST, CODE ALL THAT APPLY** 1. Dancing, 2. Gardening at home, 3. Gardening at an allotment, 4. Conservation related gardening, 5. Or any other gardening? 6. No dance or gardening done (SINGLE CODE ONLY) 7. Don't know
Q27 – not asked in Q3/4	**[ASK Q26 TO Q30 IF Q26 = 1. INSERT ACTVITY "dancing"]** **[ASK Q26 TO Q30 IF Q26 = 2 or 3 or 4 or 5. INSERT ACTVITY "gardening"]** On how many days in the last four weeks did you do [^INSERT ACTIVITY FROM Q26^]? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT? Every day = 28 Every weekday = 20 Every other day = 14 Every day at weekends = 8 One day every weekend = 4 ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 Don't know

Amendment	Question
Q28 – not asked in Q3/4	And how long do you USUALLY do [^INSERT ACTVITY FROM Q26^] for? IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN. IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES OR ALLOTMENTS etc. Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16) Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59) IF Q26 = 1 AND LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 2 HOURS 0 MINS. IF Q26 = 2 or 3 or 4 or 5 AND LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 6 HOURS 0 MINS. DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED. INTERVIEWER TO READ OUT. YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT? 1. Yes 2. No IF = 1 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT Q28.
Q29 – not asked in Q3/4	**[ASK Q29 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q29]** During the last four weeks, was the effort you put into [^INSERT ACTVITY FROM Q26^] usually enough to raise your breathing rate? 1. Yes 2. No 3. Don't know
Q30 – not asked in Q3/4	**[ASK Q30 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q30]** During the last four weeks, was the effort you put into [^INSERT FROM Q26^] usually enough to make you out of breath or sweat? 1. Yes 2. No 3. Don't know

Amendment	Question
RM8 – not asked in Q3/4	Now I would like to ask you about your height and weight. There is an interest in how people's weight, given their height, is associated with their health. Firstly, how tall are you without shoes? You may provide your height in feet and inches *or* in centimetres. INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL HEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE. RESPONDENTS MAY PROVIDE HALF UNITS SO IF HEIGHT IS STATED AS 5FT 4 AND A HALF INCHES, THIS WOULD BE CODED AS 5FT 4.5INCHES 1. Feet and inches – GO TO RM8a 2. Centimetres - GO TO RM8b 3. Cannot give estimate – GO TO RM9 4. Refused
RM8a – not asked in Q3/4	**[ASK IF RM8 = 1]** ENTER FEET AT THIS SCREEN……(ENTER FEET – NUMBER RANGE 3 to 7) ENTER INCHES AT THIS SCREEN – PLEASE NOTE INCHES TO THE NEAREST HALF AN INCH. RESPONDENT MAY PROVIDE HALF UNITS FOR EXAMPLE 1.5…. (ENTER INCHES – NUMBER RANGE 0 to 11.5)
RM8b – not asked in Q3/4	**[ASK IF RM8 = 2]** Centimeters…. (ENTER CMs – NUMBER RANGE 90 to 240) IF D1 = 1 AND LESS THAN (5FT 4IN / 164 CM) OR MORE THAN THAN (6 FEET AND 5 INCHES / 196 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED. IF D1 = 2 AND LESS THAN (4FT 11IN / 150 CM) OR MORE THAN THAN (5FT 10IN / 178 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED. INTERVIEWER TO READ OUT: YOU SAID YOUR HEIGHT IS [^INSERT FEET^] AND [^INSERT INCHES^] / [^INSERT CMs^], IS THAT CORRECT? 1. Yes 2. No 3. Refused IF = 1 or 3 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT RM8a or RM8b

Amendment	Question
RM8c – not asked in Q3/4	**[ASK IF RM8 = 1 OR 2]** Would you say that you know your height accurately, this is a pretty good estimate, or this is a guess? 1. Accurately 2. A pretty good estimate 3. A guess 4. Refused
RM9 – not asked in Q3/4	**[ASK ALL]** What is your current weight? You may provide this in stones and pounds or kilograms. INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL WEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE. 1. Stones and pounds – GO TO RM9a 2. Kilograms - GO TO RM9b 3. Cannot give estimate – GO TO RM12 4. Refused
RM9b – not asked in Q3/4	**[ASK IF RM9 = 2]** Kilograms – ENTER TO THE NEAREST KILO…. (ENTER KGs – NUMBER RANGE 20 to 250) IF LESS THAN (7 STONES / 45 KG) OR MORE THAN THAN (18 STONES / 114 KG) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED. INTERVIEWER TO READ OUT: YOU SAID YOUR CURRENT WEIGHT IS [^INSERT STONES^] AND [^INSERT POUNDS^] / [^INSERT KGs^], IS THAT CORRECT? 1. Yes 2. No 3. Refused IF = 1 or 3 GO TO NEXT QUESTION. IF = 2 GO BACK AND CORRECT RM9a or RM9b
RM9c – not asked in Q3/4	**[ASK IF RM9 = 1 OR 2]** Would you say that you know your weight accurately, this is a pretty good estimate, or this is a guess? 1. Accurately 2. A pretty good estimate 3. A guess 4. Refused

Amendment	Question
RM12 – not asked in Q3/4	**[ASK ALL]** Would you say that for your height you are… READ OUT 1. About the right weight, 2. Underweight, 3. Slightly overweight, 4. Or Very overweight? 5. Don't know 6. Refused
Q31 – not asked in Q3/4	**[ASK ALL]** How many portions of fruit did you eat yesterday? Please include all fruit, including fresh, frozen, dried or tinned fruit, stewed fruit or fruit juices and smoothies. INTERVIEWER ADD IF NECESSARY: A portion is half a large fruit such as a grapefruit, avocado, one medium sized fruit such as an apple, orange or pear, 2 small fruits such as plums or satsumas, a handful of grapes or berries, a heaped tablespoon of dried fruit, 3 heaped tablespoons of fruit salad or stewed fruit. A glass of fruit juice counts as one portion but can only be counted as one portion even if several glasses have been consumed. NUMERIC. MIN 0, MAX 99 Don't know
Q31ck – not asked in Q3/4	**[ASK IF Q31>9]** You said that you ate [^INSERT PORTION FROM Q31^] portions of fruit yesterday. Can I just check if that is correct? Yes No IF Q31ck = 1 GO TO Q32. IF Q31ck = 2 GO BACK TO Q31
Q32 – not asked in Q3/4	**[ASK ALL]** How many portions of vegetables did you eat yesterday? Please include fresh, frozen, raw or tinned vegetables, but do not include potatoes. INTERVIEWER ADD IF NECESSARY: A portion is 3 heaped tablespoons of vegetables, 3 heaped tablespoons of beans or pulses (such as baked beans or kidney beans). Beans and pulses only count once towards your daily portions no matter how much of them you eat. Potatoes do not count. NUMERIC. MIN 0, MAX 99 Don't know

Amendment	Question
Q32ck – not asked in Q3/4	**[ASK IF Q32>9]** You said that you ate [^INSERT PORTION FROM Q32^] portions of vegetables yesterday. Can I just check if that is correct? Yes No IF Q32ck = 1 GO TO NEXT SECTION. IF Q32ck = 2 GO BACK TO Q32
D1a – not asked in Q3/4	Which of the following describes how you think of yourself… INTERVIEWER: READ OUT 1. Male, 2. Female, 3. or in another way? REFUSED
D4b – not asked in Q3/4	**[ASK IF ROTATION = R1]** I will now read out a list of terms people sometimes use to describe how they think of themselves. INTERVIEWER: READ LIST TO END WITHOUT PAUSING. NOTE THAT 'HETEROSEXUAL OR STRAIGHT' IS ONE OPTION; 'GAY OR LESBIAN' IS ONE OPTION. As I read the list again please say 'yes' when you hear the option that best describes how you think of yourself. INTERVIEWER: PAUSE BRIEFLY AFTER EACH OPTION DURING SECOND READING 8. Heterosexual or Straight, 9. Gay or Lesbian, 10. Bisexual, 11. Other 12. Don't know 13. Refused

3. Sampling and respondent selection

3.1 Sample size

Like in APS2 to APS8, APS9 provided a minimum of 500 interviews in most of the Local Authorities (LAs) in England[8]. In the two smallest LAs in terms of population – Isles of Scilly and City of London, the target was to achieve as many interviews as possible.

Although the minimum sample for each LA was established to be 500 interviews, all LAs were provided with the opportunity to boost their sample sizes.

In APS6, one LA opted to boost their sample size: Blackburn and Darwen, who boosted by 500 interviews to deliver a sample size of 1,000 interviews. In APS5, four LAs had boosted by 500 interviews (Blackburn and Darwen, Gateshead, Hounslow and Stoke-on-Trent), with Liverpool boosting their sample by 2,000 to provide a 2,500 overall sample size. They opted against doing so for APS7.

At the beginning of APS8 fieldwork, Bury opted to boost their sample size, from 500 annually to 2,250. Bury also opted to boost their sample in APS9, to 2,000 annually.

3.2 Sampling frame

The sample universe comprised all individuals aged 16+ living in England.

Random Digit Dialling (RDD) was used in the selection of the sample with one respondent randomly selected from the eligible household members. Survey Sampling International (SSI) was used as the sample provider for the survey – SSI provides RDD samples across Europe and North America.

The RDD sample was drawn by selecting numbers from a database of randomly generated numbers in Great Britain. The database was constructed by using known, directory listed numbers from a recent point in time which, following a cleaning process, were used to identify exchange codes and working blocks of 100 telephone numbers. Samples of numbers were then generated by random selection of these final 3 digits of the telephone number.

The random generation of the last 3 digits brings ex-directory, business and non-working numbers into the sample and will represent working residential lines within each block in their natural proportion on average.

By analysing the relationship between address and telephone numbers in the database the sample was also supplied with a predicted Local Authority Area for each number. While this does not produce a perfect match, it does provide a good basis for selecting the sample.

In order to provide a more exact match, postcodes were collected at the end of the interview and checked using address matching software linked to the CATI script.

---

8 In APS6, the 500 interviews in each LA included interviews conducted on the face-to-face survey

Postcodes were matched in 95% of cases with the remainder allocated to an LA by evaluating other information given in the interview. A full explanation of the process of confirming respondents' place of residence is covered later in this document.

It is important to note that this sampling frame does not provide a complete coverage of the population. A small proportion of households do not have access to a telephone, part of the reason why a 'mobile only' boost was applied to the survey in APS5. Furthermore, individuals living in institutions were also likely to be excluded. However, as these groups make up a small proportion of the population, they were excluded from the main APS5 and APS6 surveys.

3.3 Interview distribution and targets

The target was for interviews to be distributed evenly across all LAs over the twelve-month fieldwork period. Sample was drawn and released on a monthly basis.

In the Active People surveys 1 to 8, fieldwork was carried out for one year from mid-October. In Active People 9, it was decided to revise the fieldwork dates, in order to align the interview periods with the dates for Taking Part fieldwork, and with Sport England's financial year. In the first six months of APS9 (from October 2014 to March 2015) the start date for each month's fieldwork was brought forward by a few days each month, so that fieldwork for Month 6 ended on 31st March 2015. Thereafter survey months corresponded to calendar months. The table below shows the start and end dates of each sample month and quarter.

Sample period	Start date	End date
Month 1	15th October 2014	11th November 2014
Month 2	12th November	9th December
Month 3	10th December	6th January 2015
Quarter 1	***15th October 2014***	***6th January 2015***
Month 4	7th January 2015	3rd February
Month 5	4th February	3rd March
Month 6	4th March	31st March
Quarter 2	***7th January 2015***	***31st March 2015***
Month 7	1st April	30th April
Month 8	1st May	31st May
Month 9	1st June	30th June
Quarter 3	***1st April 2015***	***30th June 2015***
Month 10	1st July	31st July
Month 11	1st August	31st August
Month 12	1st September	30th September
Quarter 4	***1st July 2015***	***30th September 2015***

This approach was carried into APS10 (1st October 2015 – 30th September 2016) whereby each sampling period/ month was equivalent to a calendar month.

The aim was for each LA to be within 95% and 105% of the target number of interviews at the end of each Quarter. This level of performance was targeted in order to negate the need for weighting to correct the achieved sample sizes by Quarter. Whilst in theory this should be a relatively simple process, in reality it required extensive analysis and thorough monitoring of live and used sample, particularly due to significant variability in the accuracy of postcode information allocated to each of the generated RDD telephone

numbers. The primary reason for the considerable variability is due to residents retaining their old landline telephone numbers when moving house.

In the smaller (in terms of geographical size) but higher population density metropolitan authorities and London boroughs, this was more of an issue than in larger (in terms of geographical area) but more sparsely populated district councils. The primary reason for this was due to the substantially higher likelihood that a house move would mean the respondent had moved into a different LA.

This means that it was not a process of simply issuing more or less sample in different LAs to maintain an even distribution of responses by LA over time. The fact that the respondent's postcode was not confirmed until the end of interview meant that this process was made more difficult.

The tables below show the following figures for APS5, APS6, APS7, APS8, APS9 and APS10:

- The percentage of interviews achieved against target.
- The number of LAs falling above or below the targets and the percentage of LAs exceeding 95% of target

APS 5	Q1	Q2	Q3	Q4
% of target no. of interviews achieved	102.4%	101.0%	101.1%	101.5%
Number of LAs under 95% of target	0	0	1	0
Number of LAs over 105% of target	42	32	23	7
% of LAs exceeding 95% target	100.0%	100.0%	99.7%	100.0%
APS 6	**Q1**	**Q2**	**Q3**	**Q4**
% of target no. of interviews achieved	100.5%	98.7%	98.9%	100.2%
Number of LAs under 95% of target	1	2	0	0
Number of LAs over 105% of target	10	4	2	3
% of LAs exceeding 95% target	99.7%	99.4%	100.0%	100.0%
APS 7	**Q1**	**Q2**	**Q3**	**Q4**
% of target no. of interviews achieved	84.4%	96.4%	98.9%	100.3%
Number of LAs under 95% of target	309	46	0	0
Number of LAs over 105% of target	1	0	0	0
% of LAs exceeding 95% target	4.6%	85.8%	100.0%	100.0%
APS8	**Q1**	**Q2**	**Q3**	**Q4**
% of target no. of interviews achieved	91.7%	101.3%	101.5%	100.1%
Number of LAs under 95% of target	214	0	0	0
Number of LAs over 105% of target	3	8	2	1
% of LAs exceeding 95% target	34.0%	100.0%	100.0%	100.0%
APS9	**Q1**	**Q2**	**Q3**	**Q4**
% of target no. of interviews achieved	99.0%	100.5%	100.0%	100.2%
Number of LAs under 95% of target	12	0	0	0
Number of LAs over 105% of target	8	1	0	0
% of LAs exceeding 95% target	96.3%	100.0%	100%	100%

APS10	Q1	Q2	Q3	Q4
% of target no. of interviews achieved				
Number of LAs under 95% of target	3	2	1	1
Number of LAs over 105% of target	29	1	3	0
% of LAs exceeding 95% target	98.5%	99.4%	99.7%	99.7%

Please note that the figures for APS6 include a mixture of CATI and face-to-face interviews. More details on the Active People face-to-face survey can be found in the section on survey development work (Chapter 9).

3.4 Household definition and respondent selection

Household definition and respondent selection utilised the following standardised method. Firstly, a series of screening questions were asked in order to identify the number of eligible people living in the household whilst at the same time ensuring the number called did qualify as a household. A household was defined as:

> *One person or a group of people who have the accommodation as their only or main residence*
>
> ***AND***
>
> *Either shares at least one meal per day*
>
> *Or share the living accommodation, that is, a living room or sitting room*

Specific rules were also established in relation to certain groups of people:

- Students – only included if they were actually living there the day of the call
- Forces – anyone away from home in the forces was excluded
- Away from home – anyone who has been away from home continuously for 6 months or more was not included e.g. those travelling, hospital, in prison etc.
- Temporary residents – only included if they had been there continuously for six months or more

In eligible households with only one person 16 or over this person was selected for interview.

For eligible households with two or more adults APS1 used the 'next birthday' method for selecting a respondent within a household. This is a fairly common approach and relies on the fact that month of birth is randomly distributed across the population. An enhancement – the use of the Rizzo[9] method – was used for APS2 to 9. This differs slightly from the 'next birthday' rule in that instead of selecting the person with the 'next birthday' in households with two or more adults the CATI system randomly selects the eligible respondent. Respondent selection therefore works as follows:

- Two adult households. CATI randomly selects either the screener respondent or the other adult.
- Three adult households. CATI randomly selects one of the three adults. If this is the screener respondent then this person is interviewed. If one of the other two

9 Rizzo, L. Brick, JM and Park, I (2004) "A minimally intrusive method of for sampling persons in random digit dial surveys" in Public Opinion Quarterly 68:2.

adults is selected then the adult with the ‘next birthday’ is the eligible respondent.

- Four adult households. CATI randomly selects one of the four adults. If this is the screener respondent then this person is interviewed. If one of the other three adults is selected then the adult with the ‘next birthday’ is the eligible respondent.
- Etc. (This process continues depending on the number adults in the household)

The advantage of this method is that, by not asking for next birthday in all cases, refusal rates should be lower as less screening is required. This approach also helps to eliminate any self-selection bias. (The potential bias caused by the screener respondent claiming to have the next birthday when this is not actually the case).

4. Fieldwork administration

4.1 Overview

TNS utilises Quancept Telephony CATI software in conjunction with Invade dialling technology. These systems combine to enable the complex sample management algorithms, quota management and interviewer performance tracking required to deliver this project effectively.

All of the interviewing was conducted in-house from our telephone centres in London and Yorkshire.

Consistency of approach is essential on a project of this size. All interviewer training is standardised across both interviewing sites to ensure consistency of data collection. Furthermore, all project briefings were conducted by a small group of researchers to ensure uniformity in the interviewing methods and approach. The CATI questionnaire and sample management was co-ordinated and controlled by a centralised fieldwork management team with all interviewers dialling into a centralised server.

4.2 Ethnic minority interviewing

The TNS CATI facility in Ealing recruits interviewers from the local catchment area, which enables interviews to be carried out in the major languages of the Indian sub-continent: Hindi, Gujarati and Urdu. The questionnaire was translated into Hindi, Gujarati and Urdu and interviews were conducted by interviewers reading from paper translated questionnaires with responses captured directly into the standard CATI script.

4.3 People with disabilities

The telephone centres ensure that the interviewers are as sensitive and accommodating to those with disabilities as possible. For example, all telephone calls ring for a minimum of 24 seconds before being disconnected allowing potential respondents with mobility difficulties to reach the phone. This is longer than many research organisations where calls are terminated at 18 seconds. Furthermore interviewers are trained to be sensitive to respondents who may need time to consider their responses.

The RNID TypeTalk service is also used in order to reach people with speech or hearing impairments. All interviewers are instructed that if they are advised or suspect that a household or individual has hearing difficulties, they select a specific call outcome on the CATI system. These telephone numbers are then picked up by a specially trained interviewer who is able to use the TypeTalk system and assist respondents with special requirements.

4.4 Interviewer training and quality control

TNS have a robust recruitment process to ensure interviewers have the right skills and capabilities to conduct telephone interviewing. All potential candidates undergo a 20 minute initial telephone interview designed to assess their telephone communication skills and assess their experience and suitability. Those that meet the requirements are then invited to an assessment session. During this session the candidate's abilities in

English Language, listening skills, sight reading and persuasion skills are assessed. Those that pass this recruitment process are invited to attend a two day induction training programme

During day one of the induction training interviewers are given a basic understanding of market research, techniques and methods. They are taken through their role and responsibilities within the context of the Market Research Society Code of Conduct. The training then moves onto reviewing questionnaire structure and interviewers are given detailed information as to how to administer each question type. This includes how to handle different types of closed questions, the administration of open questions and probing techniques. Interviewers are then taken through the basics of Social Grading (socio-economic classification) and the internal administration processes. Throughout the day interviewers have ample opportunity to practice and reinforce their learning.

Day two of the induction programme starts with a review of the learnings from day one, including testing of key information. If any interviewer has not attained the standard required they are not allowed to continue in the training session. Following this, interviewers are taken through how to use the CATI system and spend considerable time practicing their data collection skills. Time is then spent looking in detail at introduction techniques, handling respondent questions, persuasion skills and respondent engagement so that interviewers not only know how to administer questionnaires effectively but persuade respondents to participate. During the final part of the induction training interviewers conduct a training questionnaire with live RDD respondents in order to bring all their learning together. During this live test, interviewers are closely monitored and assessed by the training team who will make a final decision as to whether the interviewer has passed their induction.

Following induction interviewers are closely monitored for a probationary period of 25 shifts. During this period their quality of data collection, respondent engagement, refusal rates, productivity and reliability are reviewed. Only after successfully completing this are interviewers formally confirmed as members of the interviewing panel.

TNS use undetected monitoring to quality assess a minimum of 7% of completed interviews to assess the accuracy of the interviewer's data collection. This exceeds the ISO 20252 requirement of 5%. Furthermore separate introduction monitoring is undertaken to review the interviewer's ability to engage and persuade respondents to participate in the survey.

The undetected monitoring is done using a priority system to ensure that all interviewers are monitored to an appropriate level. For example, new interviewers are monitored regularly during their first 25 shifts. All interviewers newly briefed on a project are monitored to ensure they have understood the briefing and any interviewer where there has been a recent concern on a monitor is prioritised to ensure there is no recurrence. All monitors are held electronically so that previous monitors can be viewed and an overview is easily obtainable.

TNS also use the CATI system to monitor other interviewer performance information such as interviews achieved, relative productivity levels, refusal rates and other outcomes. The centre management and supervisory teams use these reports to focus on both individual and overall performance improvements using a responsive design programme which is designed to use both macro and micro data to identify performance improvements.

4.5 Interviewer briefing

All interviewers working on the survey were personally briefed in training facilities in the centres by a member of the research team. Members of the Sport England project management team also attended a number of the initial interviewer briefings in the lead up to APS5. The briefings were face-to-face in each interview location and interviewers ran through the CATI script during the session to understand the routing in the questionnaire, using a range of potential answers to accelerate interviewers understanding of the survey.

The briefing was structured as follows:

- Background/purpose of the survey
- Sample Selection
- Survey Procedures
- Questionnaire Introduction/Overview
- Screener questions
- Main survey questions
- Demographic questions
- Collecting address details
- Closing the interview
- A Sports Database re-cap
- Demographics and LA Coding re-cap
- Response Rate Exercise

A written instruction manual was provided to all interviewers (Appendix C).

Separate training was given in refusal avoidance specific to the survey in the form of PowerPoint and practical exercises.

During fieldwork there have also been a number of training and briefing sessions focusing on key elements such as respondent engagement and refusal avoidance techniques. We also ran a series of sessions reviewing the outcome of their work designed to engage and motivate interviewers. We encourage interviewer and supervisor feedback through regular re-briefing sessions

Members of the Sport England project management team monitored interviews both immediately after the briefing and remotely during the early stages of APS5 fieldwork to ensure the survey was being administered correctly.

4.6 Background on key elements of the APS Survey

The key elements of the survey are described below.

4.6.1 Survey introduction

For the start of APS5, a great deal of time was spent redesigning the introduction to try and maximise the co-operation of respondents, whilst still ensuring bias was eliminated as far as possible. Further amendments were then made to the introduction during the

APS5 fieldwork year, as identified above in section 2, and the introduction remained the same throughout APS6, APS7, APS8,APS9 and APS10.

The main potential bias was that refusal rates would be higher amongst those that were most sedentary, i.e. participating in little or no sport, so the introduction didn't explicitly mention 'sport' or 'Sport England' and stated only that the survey was about 'people's leisure and recreational activities'.

To maximise response it was agreed that the introduction needed to be short to minimise the chance of refusal during the introduction i.e. giving too much information could give more reasons for people to decline to participate. However, it was still essential to cover the following within the introduction:

- Name of interviewer and organisation they were calling from (TNS)
- The subject of the research (leisure and recreational activities)
- How the information would be used and by whom (by your local authority to help shape local services in the future). This was changed during APS5 fieldwork (22nd March 2011) to remove the mention of local authorities, though the reference to helping 'shape local services in the future' remained in the introduction.

The introduction still crucially links the survey to the shaping of local services to attempt to maximise buy-in to the survey:

> *Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. May I ask you a few questions?*

Interviewers were carefully briefed to stress the following if questioned by respondents:

- 'leisure and recreational activities' - When talking about the survey interviewers always use the word 'activity' as opposed to 'sport' (The views of those people who do not consider themselves as participating - or even interested - in sport are every bit as important as those of fitness fanatics. The word sport is more likely to put these people off participating in the survey).
- People who do not participate in leisure activities (e.g. mothers with young children or old age pensioners) are of key interest.
- 'important survey' – Interviewers stressed the sentence beginning with 'We are carrying out an important survey…' to help to encourage participation.
- May shape future local services.

4.6.2 Reference period

Questions on walking, cycling and other sport and active recreation undertaken use the previous four weeks as the reference period:

e.g. 'On how many days in last four weeks have you done …'.

In order to ensure that the correct reference period was used without respondents having to try to remember the date four weeks (28 days) previously, the CATI system inserted this date for interviewers to read out.

For example a respondent called on 29th September would be asked about the number of days they had done these activities since '1st September' (i.e. 28 days prior to the interview). In this example,

'On how many days in last four weeks, that is since 1st September, have you done …'.

4.6.3 Number of days versus number of sessions

It is important to stress that for all the activities undertaken by respondents (recreational walking, recreational cycling, other sports and recreational physical activity) the number of days that they had done each activity was captured.

This was not the number of sessions i.e. the number of times the activity has been undertaken in the last four weeks. For example someone cycling for 30 minutes twice in one day would be recorded as 'one day'.

4.6.4 Recreational versus other walking and cycling

Respondents were first asked about any walking that they had done, including recreational walking and walking to get from place to place such as to the shops or work. Then respondents were asked specifically about walking for the purpose of recreation or health, not just to get from place to place.

The difference is important, as only recreational walking is included in the main KPI participation question.

This same approach was used to isolate recreational cycling for the main KPI participation question.

4.6.5 Participation in other sport and active recreation

After being asked about walking and cycling respondents were then asked about any other activities they had undertaken in the previous four weeks:

'Please think about all the activities you did, in the last four weeks, whether for competition, training or receiving tuition, socially, casually or for health and fitness, but do not include any teaching, coaching or refereeing you may have done.

So thinking about the last four weeks, that is since [^DATE 28 DAYS EARLIER^], did you do any sporting or recreational physical activity?'

Those answering 'yes' were then asked which activities they had done. Respondents were not prompted (the list of activities is not read out by the interviewer) and asked to state all the different activities they had undertaken.

Sport England provided a comprehensive list of 256 activities for APS1. This list contained all the activities that met Sport England's definition of 'sports' or 'physical recreational activities'. These activities are referred to as 'included' activities and this list was reviewed and updated during APS2, 3, 4 and 5, and a number of new 'included' activities were added as well as labelling changes being made to some existing activities (e.g. sailing activities were amended to better classify sailing disciplines). Some additional activities were also added during APS6.

The full list of 'included' activities is provided in Appendix D.

A number of 'excluded' activities were also contained within the database, i.e. activities that are outside Sport England's definition of 'sport' and 'active recreation'. These activities included gardening, DIY, housework and dancing.

For each 'included' activity mentioned, respondents were asked the following questions:

- Q11 – The number of days the activity was undertaken for in last 28 days
- Q12 – The usual amount of time spent doing the activity

Depending on the activity undertaken, two questions were used to establish the 'intensity' with which the activity is undertaken. Each activity was classified with one of five intensity categories as follows:

- Light intensity activities

These were activities such as Shooting, Darts, and Snooker etc. and were defined as those that are usually only ever done at 'light' intensity, i.e. they do not usually raise breathing rate.

These activities were not routed to the questions to establish whether the activity is undertaken at 'moderate' intensity (Q13 – raises breathing rate) or 'vigorous' intensity (Q14 – makes sweat or out of breath).

- Moderate intensity activities

These include Cricket, Sailing, Baseball etc. and were classified as 'moderate' only, i.e. they usually raise breathing rate but do not usually make participants sweat or out of breath. These activities were not routed to the intensity questions (Q13 and Q14).

- Vigorous intensity activities

These include Rugby, Skiing, Hockey etc. and were classified as 'vigorous' only, i.e. they usually make participants sweat or out of breath. These activities were not routed to the intensity questions (Q13 and Q14).

- Light, moderate or vigorous intensity activities

These include Table tennis, Canoeing, and Skating etc. and can be undertaken at 'light', 'moderate' or 'vigorous' intensity and therefore intensity questions (Q13 and Q14) were asked to establish the intensity level.

- Moderate or vigorous intensity activities

These include Swimming, Football, and Martial arts etc. and were classified as activities that are usually undertaken at 'moderate' or 'vigorous' intensity and were therefore routed to Q14 only to establish the intensity.

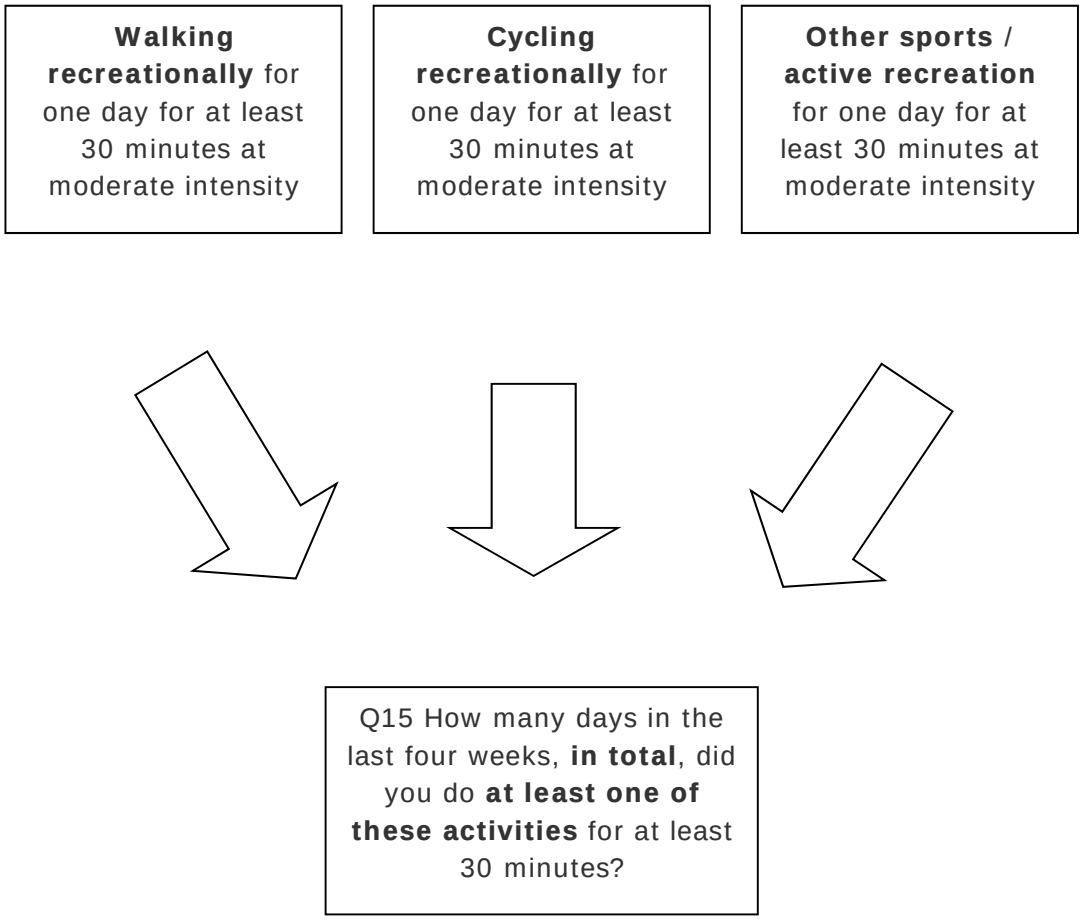
The full list of 'included' activities showing the intensity classification for each is provided in Appendix D.

4.6.6 Main participation KPI question

All of the 'included' activities (recreational walking, recreational cycling, other 'included' sports and other recreational physical activity) which respondents had done in the last 28 days were carried forward to Q15, the main participation KPI question, if they have done them:

- On at least one day
- And for at least 30 minutes
- And at moderate or vigorous intensity
- (And recreationally if walking or cycling rather than just to get from place to place)

The routing to Q15 is summarised in the diagram below.



So for example, if a respondent stated in previous questions that, in the last four weeks, they had done:

- A moderate 30 minute recreational walk on five days,
- A vigorous 30 minute recreational cycle on five days
- Vigorous 30 minutes football on five days

Each of the activities would be included in the question text for Q15 as follows:

'Thinking about the FOOTBALL, RECREATIONAL WALKING and RECREATIONAL CYCLING you have done in the last four weeks. Can I ask on how many days in the last four weeks, in total, did you do at least one of these activities for at least 30 minutes?'

If the respondent had done:

- A light 30 minute recreational walk on five days,
- A moderate 30 minute non recreational cycle on five days
- Vigorous 20 minutes Squash on five days
- Moderate 40 minutes Running on five days
- Moderate 30 minutes Football on 1 day
- Snooker for 2 hours on 2 days

The following question text would be displayed at Q15:

'Thinking about the RUNNING and FOOTBALL you have done in the last four weeks. Can I ask on how many days in the last four weeks, in total, did you do at least one of these activities for at least 30 minutes?'

NB

- Walking is not included because it was only done at light intensity
- Cycling is not included because in was not for the purpose of health or recreation
- Squash was not included because it was done for less than 30 minutes duration
- Snooker is a light intensity activity so never included in the main KPI for participation

It is also important to stress that as the question asked for the number of days 'in total' i.e. multiple activities on one day counts as one day. For example if someone did:

- A moderate 30 minute recreational walk on five days,
- A vigorous 30 minute recreational cycle on five days
- Vigorous 30 minutes football on five days

The answer at Q15 could be anywhere from five to fifteen days:

- Five days = walked, cycled, played football on each of the five days
- Six to fourteen days = any combination of activities undertaken in the same day
- Fifteen days = walked, cycled, played football on separate days

4.7 Matching respondents to local authorities

It was essential for the purposes of reporting at LA level to ensure we had an accurate LA coded on the data. There were several steps taken to do so.

The first was to collect the full postcode from respondents in the interview to confirm their full address from which we can assign the corresponding LA code with 100% accuracy from a database containing all addresses and corresponding LAs in England.

During APS5, we were able to confirm the LA in 94.8% of interviews taken in this way, a proportion that increased during the year. Postcode information was used to confirm the LA in 96.1% of interviews in APS6 and 95.4% in APS7.

For the remaining respondents where the postcode was not given we also collected:

- A partial postcode (such as postcode district e.g. W5)
- The town, city or village in which they lived (If this was 'London' respondents were probed for a more precise location)
- The LA in which the respondent thought they resided which was prompted from a list containing the LA provided with the sample and up to 5 pre-determined LAs adjoining that sample LA

We also used the LA provided with the sample which had been researched by the sample supplier and provided a useful source against which to corroborate the LA codes.

In addition we hold an independent database of c.800,000 respondents with telephone number and confirmed address from which their LA was accurately coded using the

postcode. For each telephone exchange code area (using the first 7 digits of the number) we were able to analyse the proportion of people within each exchange code who fell within each LA. In many cases there was a perfect relationship between telephone code and LA but for others, particularly in larger urban areas (London being the most obvious example) the relationship was less perfect.

Using these data we were able to assign an LA to most of the remaining respondents using the following rules (in order of priority):

1. If the LA corresponding to the city/town/village given by the respondent was the same as the LA supplied by the respondent that LA was coded

2. If, from the independent database of telephone numbers, 100% of numbers with the same 7 digit telephone exchange code fell within a single LA and there were more than 20 such numbers in the database, and that LA was the LA coded on the sample, that LA was accepted.

3. If 100% of numbers with the same 7 digit telephone exchange code fell within a single LA and there were more than 20 such numbers in the database, and that LA was the LA provided with the sample, that LA was accepted.

4. If 90-99% of numbers with the same 7 digit telephone exchange code fell within one LA and there were more than 20 such numbers in the database, and that LA was the LA coded on the sample and it was the same as the LA provided by the respondent (or one wasn't provided), that LA was accepted.

The 4 steps above were able to code the majority of remaining LAs. Those that still remained uncoded were individually inspected and all available data assessed to determine whether or not an LA code could be accurately applied. Any that could not be verified were not included in the dataset provided.

After all these steps the following profile was achieved (please note that the figures for APS6 include only interviews conducted on the main CATI survey):

APS 5	Total	% of all interviews	% of published interviews
LA verified by postcode in interview	159,468	94.8%	95.3%
LA subsequently verified	7,868	4.7%	4.7%
LA not verified – interview not used	842	0.5%	-
APS 6	**Total**	**% of all interviews**	**% of published interviews**
LA verified by postcode in interview	151,372	96.1%	96.4%
LA subsequently verified	5,732	3.6%	3.7%
LA not verified – interview not used	355	0.2%	-
APS 7	**Total**	**% of all interviews**	**% of published interviews**
LA verified by postcode in interview	155,933	95.4%	95.6%
LA subsequently verified	7,163	4.4%	4.4%
LA not verified – interview not used	400	0.2%	-
APS 8	**Total**	**% of all interviews**	**% of published interviews**
LA verified by postcode in interview	156,903	95.4%	95.6%
LA subsequently verified	7,193	4.4%	4.4%
LA not verified – interview not used	378	0.2%	-
APS 9	**Total**	**% of all interviews**	**% of published interviews**
LA verified by postcode in interview	162,458	95.9%	96.1%
LA subsequently verified	6,552	3.9%	3.9%
LA not verified – interview not used	354	0.2%	-

4.8 Enquiries from respondents

Many enquiries from respondents come during the actual interview itself. Interviewers are routinely trained in how to deal with general questions from respondents (why they have been selected, how their number was obtained, how long the interview will take etc) and explanations on how to deal with survey-specific questions were given during interviewer briefings.

Each interviewer was also provided with a document outlining frequently asked questions, extra detail regarding confidentiality and data protection, and other survey-

specific briefing points to remember. The document also contained useful phone numbers that the respondent might want to call for extra information.

One of the phone numbers included on the document provided to interviewers was a freephone helpline telephone number that was made available to respondents. The number was given at the end of each interview (or in advance if the potential respondent requested some way of verifying the caller's authenticity).

5. Sample management rules and response rates

5.1 Overview

As well as achieving the target number of interviews, it was important that the response rate should be maximised as non-response bias will arise if certain segments of the population are under-represented. While this can be corrected to a certain extent by weighting it was important to make every effort to encourage response. In order to achieve this, a number of measures were taken to minimise the number of non-contacts and refusals through the development of a complex set of sample management rules.

This section of the document outlines these sample management rules and provides an outline of response rates achieved.

5.2 Sample management rules

TNS BMRB implemented the same sample management rules for APS5-APS10 that were developed by IPSOS MORI and Sport England for APS1 to APS4. The only change to the rules was the time elapsed before reissue of 'soft' refusals, which was changed from six weeks to between four and six weeks to increase the probability of converting these into completed interviews. This time period was adopted as it was found to be successful in other TNS RDD surveys.

An overview of the sample management rules, aimed at maximising response rates and minimising non-response, are outlined below.

5.2.1 Distribution of call attempts

The CATI sample management system was programmed to ensure live sample numbers were loaded following strict rules, this ensured that each number was called over different interviewing sessions - designated as 'morning,' 'afternoon' or 'evening' from Monday to Friday and separate morning/afternoon sessions on Saturday and afternoon sessions on Sunday. This means that difficult to reach respondents may be contacted. These rules can be summarised as follows:

- Numbers were called a maximum of twice per day
- Weekdays – each number was called at least once between 10am and 1.00pm, at least once between 1.00pm and 5.30pm and at least once between 5.30pm and 9.00pm
- Saturday – each number was called at least twice, once between 10-2pm and once between 2-6pm
- Sunday – as Saturday

Numbers were tried a minimum of 40 times before being classified as 'dead'.

5.2.2 Sample 'fallow periods'

Under certain circumstances sample remained uncalled for a period of time to ensure that where respondents or phone lines may be temporarily unavailable, they could be contacted at a later date.

No Replies / Answerphones / Engaged

If a number is consistently one, or a combination of these it must be called at least 20 times before being classified as dead. After attempt 6 there is a fallow period of 8 days and after attempt 15 there is a fallow period of at least 22 days.

Fax / Data / Modem

If a number is consistently one, or a combination of these it must be called at least 6 times before being classified as dead. After attempt 3 there is a fallow period of at least 22 days.

Unobtainables

If a number is consistently unobtainable it must be called at least 6 times before being classified as dead. After attempt 3 there is a fallow period of at least 22 days.

Mixed Unanswered Calls

If a number remains unanswered but is a combination of the above outcomes it must be called at least 30 times before being classified as dead. Once it becomes a mixed number after attempt 3 there is a fallow period of at least 22 days.

Calls with at least one contact

If a number is answered and contact made on one occasion, it must be called 30 times[10] before being classified as dead. After attempt 15 there is a fallow period of at least 22 days.

Deferrals

Respondents have the right to refuse to participate in research surveys and TNS BMRB work in line with the MRS Code of Conduct, the Data Protection Guidelines and Ofcom regulations. We also recognise that there is a need to maximise response rates on a project and therefore we will recontact deferral sample.

A deferral is defined as where we have either not been able to identify the selected respondent but a member of the household is unwilling to co-operate or puts the phone down or we have identified the selected respondent but another member of the household is unwilling to let the interviewer speak with them.

In order to reduce the number of non-interviews due to deferrals these were re-issued for follow-up calls between 4 and 6 weeks after the deferral was made. The deferral sample was re-issued to a small team of hand-picked interviewers, who were trained to handle deferral surveys effectively.

5.3 Final sample outcome classification

10 This was reduced in APS7 from 40 times in APS5 and APS6.

This section outlines the final sample 'outcome categories' and the definition of each of these.

'Ineligible' outcomes (i.e. excluded from response rate calculations)

- Always no reply or engaged or answerphone

  All sample that had 20 consecutive no replies, engaged or answerphones (or any combination of these)

- Always fax /dataline

  All sample that had six consecutive fax / dataline responses

- Business numbers

  All sample that was confirmed as a business telephone number.

- Unobtainable numbers

  All sample that had six consecutive 'unobtainable' outcomes

- Numbers called 30 times - no contact

  All sample called 30 times without the call being answered i.e. any mixture of the following outcomes: no reply, engaged, fax/dataline, unobtainable.

- Duplicate/ complete no LA/ outside England

  Any duplicate telephone numbers, numbers where respondents were confirmed as living outside England and any completed interviews where no Local Authority can be confirmed.

'Eligible' outcomes (i.e. included in response rate calculation)

- Complete interviews

  Interviews were classified as complete where respondents have completed the whole interview and their LA was confirmed. Interviews were also classified as complete where respondents quit during the demographics but their LA was still confirmed.

- Stopped interviews

  Cases where the respondent asked to stop the interview and re-start at a different time. Stopped interviews are not accepted on the survey due to the need for consistency of the timeline in the questionnaire.

- Quit interviews

  Cases where respondents got part way through the interview and did not wish to complete.

- Hard refusal

  Hard refusals were coded where the selected respondent refused or another household member firmly refused to co-operate.

- Deferral

  Any reissued sample that was coded as deferral and not converted at a later attempt.

- Numbers called 30 times - contact

All numbers called 30 times where contact was made at least once i.e. a person was spoken to and confirmed the number related to a household rather than a business.

- Deferral - no reply/ engaged/ answer phone/ fax/dataline on reissue

  A soft refusal on first issue that was consecutively no reply, engaged or answer phone on five occasions or consecutively fax/dataline on three occasions on reissue.

5.4 Response rate analysis

As TNS BMRB took over APS from Ipsos MORI, the sample issued for the start of APS5 comprised solely of fresh telephone numbers. In previous years, any outstanding live sample at the end of survey year was continued into the new survey year (rather than replaced completely with new fresh sample) to maximise the response for each batch of issued sample. This was to ensure the response from each batch was as representative as possible, both demographically and in terms of participation behaviours.

The final response rates obtained were as follows:

- APS5: 27.6%
- APS6: 27.7%
- APS7: 27.1%
- APS8: 27.8%
- APS9: 27.2%
- APS10: 20.6%

Sample months were closed once the remaining live sample was less than one percent of sample issued. The exception is APS10. Ordinarily, due to the ongoing nature of fieldwork, sample for a given month continued to be worked as long as it remained productive, even where this overlapped with the subsequent survey year. For example, the APS9 Month 12 sample was still in field in October 2015, by which time APS10 fieldwork had begun. This ensured that sample was used as efficiently as possible and enabled TNS BMRB to maximise response rates. The fall in the APS10 response rate (shown above) was a result of a curtailed fieldwork period. The survey in its current form closed at the end of September 2016, resulting in a shorter than usual fieldwork period for the final months of APS10 and, consequently, lower response rates.

The final response rates for all months are shown below.

5.5 16-25 Boost Survey in APS6

5.5.1 Background

Sport England commissioned a boost survey with 16-25 year olds, to be run alongside the main APS6 fieldwork. This age group is viewed as one of the hardest to reach using the traditional RDD CATI methodology, while it is also a key demographic group for Sport England, who launched a new youth and community sport strategy in January 2012 (and as such it was considered important to boost the numbers of respondents in this age group).

A target of 6,325 interviews with young people aged between 16 and 25 was set, and fieldwork ran concurrently with the main CATI survey for the duration of APS6 fieldwork (15th October 2011 to 14th October 2012).

5.5.2 16-25s Questionnaire

The questionnaire used for the boost survey was largely the same as the one in the main survey, apart from the changes required in order to screen and select respondents in the correct age group.

An age screening question was added to the questionnaire, to screen out respondents who did not meet the age criteria. The process for screening and selecting respondents in the correct age group was as follows:

- The first screening question determined whether there was anyone in the household aged 16-25 (if not, the interview was closed)
- If there was a 16-25 year old in household, the interviewer checked whether the screening respondent was aged 16-25
- The interviewer checked how many people aged 16-25 in household (including respondent if aged 16-25)
- Following this, the standard selection method was used (similar to the main survey, but only including the 16-25s in the household):
    - If screener respondent was only person in household aged 16-25, they were interviewed
    - If screener respondent was aged 16-25 and one other person in household was aged 16-25, rizzo method was used for the selection
    - If screener respondent was aged 16-25 and there were three or more 16-25s in the household, then the rizzo selection of screener respondent or next birthday selection of another 16-25 year-old was used
    - If the screener respondent was NOT aged 16-25 and there was only one person aged 16-25 in the household, the interviewer would interview the 16-25 year-old
    - If screener respondent was NOT aged 16-25 and there were two or more 16-25s in the household, the next birthday selection method would be used to determine which person aged 16-25 to interview

Initial feedback on this method of selection suggested that respondents may be screening themselves out of the interview at the initial question, with experience indicating that presenting a narrow age band to respondents in a screening question is an easy way for respondents to avoid participating. As such, the screening was adapted slightly during fieldwork. A question was added to the start of the screening section, asking whether there was anyone in the household aged 26 or over. This question made no difference to the routing of the screening section, but it was designed to make it harder for respondents to opt-out at an early stage, and therefore addressed the potential issue of non-response bias in the sample.

Other than the screening section, the questionnaire was almost identical to the main CATI script. The only other changes were that the questions on club participation, instruction/tuition, competition and sports volunteering were asked of all respondents in the boost survey, rather than 50%, as was the case in the main CATI survey. Also, in the demographics section, the age questions were amended to account for the more narrow range of ages that it was possible to enter.

5.5.3 Fieldwork

The fieldwork for the 16-25 boost survey ran concurrently with the main adult CATI survey, for the duration of the APS6 fieldwork year (15th October 2011 to 14th October 2012). Sample was issued quarterly, rather than monthly as is the approach in the main survey.

In total, 6,307 interviews were achieved on the 16-25 boost survey.

5.5.4 Response rate analysis

There are several ways of calculating the response rate for the boost survey, with the screening and selection of a small age band adding an extra consideration when calculating response. A large proportion of unproductive interviews (mostly refusals before screening could take place) would also be ineligible from the survey if screening had been completed, so applying the likely penetration rate to refusals is the fairest way to calculate response rates. By doing this, the number of eligible refusals is reduced. The response rate after applying the penetration rate to refusals was 26.4%.

The table below summarises the outcomes and response rates for the 16-25 boost survey.

APS6 16-25 Boost survey	
Total sample	**638,303**
Deadwood	260,778
Ineligible (no one 16-25)	112,245
Ineligible (other)	1423
Penetration (known eligibility)	5.3%
Effectiveness of sample (total sample minus deadwood)	59.2%
Total interviews	**6,307**
Unproductive	115,715
Interview response rate (based on resolved effective eligible sample)	**2.4%**
Response rate applying penetration rate to refusals	**26.4%**

5.6 16-25 Boost Survey in APS9

5.6.1 Background

Sport England once again commissioned a boost survey with 16-25 year olds, to be run alongside the main APS9 fieldwork from April to September 2015.

The target was to achieve an additional 4,900 interviews with 16-25 year olds on the boost sample, in order to bring the total number of 16-25s interviewed to around 13,000. Fieldwork ran concurrently with the main CATI survey for the second half of APS9 fieldwork (1st April to 30th September 2015).

5.6.2 16-25s Questionnaire

The questionnaire used for the boost survey was largely the same as the one in the main survey, apart from the changes required in order to screen and select respondents in the correct age group.

An age screening question was added to the questionnaire, to screen out respondents who did not meet the age criteria. The process for screening and selecting respondents in the correct age group was as follows:

- The first screening question checked whether there was anyone aged 26 or over in the household, followed by a question to determine whether there was anyone in the household aged 16-25 (if not, the interview was closed)
- If there was a 16-25 year old in household, the interviewer checked whether the screening respondent was aged 16-25
- The interviewer checked how many people aged 16-25 in household (including respondent if aged 16-25)
- Following this, the standard selection method was used (similar to the main survey, but only including the 16-25s in the household):
    - If screener respondent was only person in household aged 16-25, they were interviewed
    - If screener respondent was aged 16-25 and one other person in household was aged 16-25, rizzo method was used for the selection
    - If screener respondent was aged 16-25 and there were three or more 16-25s in the household, then the rizzo selection of screener respondent or next birthday selection of another 16-25 year-old was used
    - If the screener respondent was NOT aged 16-25 and there was only one person aged 16-25 in the household, the interviewer would interview the 16-25 year-old
    - If screener respondent was NOT aged 16-25 and there were two or more 16-25s in the household, the next birthday selection method would be used to determine which person aged 16-25 to interview

Other than the screening section, the questionnaire was identical to the main CATI script.

5.6.3 Fieldwork

The fieldwork for the 16-25 boost survey ran concurrently with the main adult CATI survey, for the second half of the APS9 fieldwork year (1st April to 30th September 2015).

In total, 4,915 interviews were achieved on the 16-25 boost survey.

5.6.4 Response rate analysis

There are several ways of calculating the response rate for the boost survey, with the screening and selection of a small age band adding an extra consideration when calculating response. A large proportion of unproductive interviews (mostly refusals before screening could take place) would also be ineligible from the survey if screening had been completed, so applying the likely penetration rate to refusals is the fairest way to calculate response rates. By doing this, the number of eligible refusals is reduced. The response rate after applying the penetration rate to refusals was 26.4%.

The table below summarises the outcomes and response rates for the 16-25 boost survey.

APS9 16-25 Boost survey	
Total sample	**608,633**
Deadwood	367,487
Ineligible (no one 16-25)	87,815
Ineligible (other)	94
Penetration (known eligibility)	5.3%
Effectiveness of sample (total sample minus deadwood)	39.6%
Total interviews	**4,915**
Unproductive	143,135
Interview response rate (based on resolved effective eligible sample)	**3.2%**
Response rate applying penetration rate to refusals	**17.1%**

5.7 14-15 Survey

5.7.1 Introduction to the 14-15 Survey

The 14-15 survey was added to the Active People Survey, after a period of piloting and development, in July 2012 (the final quarter of fieldwork in APS6). The introduction of the 14-15 survey was in response to a change of strategy within Sport England to focus on a key group aged between 14 and 25 years old. As the Active People Survey traditionally interviewed those aged 16 and over, a new survey was required, and consequently new methods of sampling, screening and interviewing. A detailed account of the development of the 14-15 survey can be found in chapter 9.4 of this technical report.

5.7.2 Method

The sample for the child participants was sourced from the main APS survey. This meant identifying, screening, selecting and gaining permission to interview the 14-15 year olds from their parent or guardian during (or rather at the end of), the main adult interview.

In order to not influence the adult interview, or to affect the likelihood of the adult respondent completing the interview, the child screening was left until the very end of the adult interview. Eligible children in the household were identified from the existing question in the demographics section of the questionnaire (D10), which asked about the number of children in the household, and the age of each. If a child, or children aged 14 or 15 were identified during the interview, the child screening section at the end of the adult interview was triggered.

The first question in the child screening asked the adult respondent if they were the parent or guardian of the child (or children) identified as being aged 14 or 15. If the adult respondent was not the parent or guardian, then the interviewer asked to speak to the parent or guardian, or if they weren't available, made an appointment to call back.

Once the parent or guardian of the child was on the phone (in most cases, this was still the main adult respondent that the interviewer had been speaking with), the child screening continued. If there was more than one child within the 14 to 15 age bracket within the household, a selection was made using the next birthday method. The name

of the selected child was collected by the interviewer, and they sought parental permission to approach the child for interview.

Once parental permission was gained, the adult interview was completed entirely before the interviewer asked to speak to the 14 or 15 year old. At this stage, if the child was available, the 14-15 interview would go ahead. The interview was linked to the main adult interview via a 10-digit linking code that enabled household information collected in the adult interview to be linked with the child data at the analysis stage. If the child was not available for interview at the time of the main adult interview, then an appointment was made to call back to complete this interview.

For any callbacks, the interviewer first asked to speak to the adult who gave permission to speak to the child, and their permission was sought again before asking to speak to the child. Depending on the extent of the screening that was completed at the end of the adult interview, the interviewer was also required to select the child, if this selection had not already taken place (i.e. if the parent or guardian was not available at the end of the adult interview). If the interviewer made a callback, spoke to the parent or guardian who gave permission, but then discovered that the child was still not available for interview, then they asked the adult whether it was acceptable to ask directly for the child on the occasion of their next call.

Once the child was on the phone, the research was explained to them, and they were asked if they were happy to take part, giving them an opportunity to refuse if they wished.

5.7.3 14-15 Questionnaire

There were several differences between the main adult questionnaire and the questionnaire for the 14-15 survey. The 14-15 questionnaire was shorter than the main adult questionnaire, with certain questions and sections removed, either because they were not suitable to ask of children, or were not questions that children would be likely to answer accurately.

The walking, cycling and sports participation sections were all included in the child questionnaire in the same format as the adult interview, including the prompted sports section. The club, competition, tuition and volunteering sections were randomly allocated to 50% of respondents, as they were in the main adult survey, as was the “change in participation” section. The dance and gardening section was not included in the child questionnaire. A number of questions from the main adult survey’s demographics section were excluded from the 14-15 questionnaire, either because they were considered too sensitive, not appropriate to ask of children, the child respondent might not know the answer, or the information was already collected via the main adult interview (this applied mainly to household information, rather than personal demographic information). The age question was not required in the main demographics section as this was taken at the start of the interview to ensure the respondent was within the correct age range. Other demographic questions that were not included in the 14-15 questionnaire were religion, sexual identity, education, tenure, children in household, life satisfaction, height and weight, working status, employment and NS-SEC questions. A question was added to the end of the child demographics asking whether they currently go to school, and which school year they were in.

5.7.4 Response rate analysis

The response to the 14-15 survey is included in the table below. The analysis covers fieldwork from the fourth quarter of APS6, until the end of APS9.

APS 14-15 survey	Total	% of all interviews	% of those with 14-15s in household
Total sample	495,916		
Respondents with 14-15 year old in household	**24,881**	**5.0%**	**100.0%**
Respondents who are parent/guardian of 14-15 year old	19,174	3.9%	77.1%
Interviews where contact is made with parent/guardian	**20,313**	**4.1%**	**81.6%**
Parent/guardian gives permission	10,588	2.1%	42.6%
Parent/guardian refuses permission	12,029	2.4%	58.3%
Child available to complete interview	3,382	0.7%	13.6%
Child not available – appointment made	6,962	1.4%	28.0%
Total interviews	**5,515**	**1.1%**	**22.2%**

In total, 5% of all interviews (24,881) were in households containing a 14 or 15 year old. The main adult respondent was the parent or guardian of the 14-15 year old in 77.1% of those interviews, and interviewers managed to speak to the parent or guardian in a further 4.1% of those interviews, meaning that 81.6% of the time that there was a 14-15 year old identified, an interviewer managed to speak to the parent or guardian of the child without needing to call back.

Over half of the parents and guardians interviewers spoke to refused permission to speak with the 14 or 15 year old, with 42.6% giving permission. In the majority of cases where the parent or guardian gave permission to speak to the child, they were not available at the time to complete the interview immediately, and an appointment was made.

In total, 5,515 interviews were completed over APS6-APS9, with a response rate of 22.2%.

In APS9 alone, 1,425 interviews were achieved.

6. Data processing and weighting

6.1 Data processing

6.1.1 Edit checks

There is no separate data entry needed for CATI questionnaires. Only valid response codes can be entered by the interviewer. Range and logic checks were written into the questionnaire to ensure that all data were correct at the time of interviewing.

6.1.2 Coding

A specialist unit carried out coding of open-ended responses, and any queries were referred to the research team. The initial code frames were based on those used in previous years of the Active People survey. Code frames were continually updated during the project as processing continued.

There were sixteen questions in the survey that required coding. These were 'other – specify' questions, that is, questions with a pre-code list with the option for interviewers to record verbatim any 'other' responses.

The questions were:

- Q10 – sports and active recreation not coded into the sports database. A number of respondents mention sports not included (or found) in the database of sporting and active recreational activities contained within the CATI script. These tended to be very specific activities that were then recoded into the original database list. In APS6 a new code was raised for 'Zumba' at this question as the number of people reporting participation in this activity was high.
- Q16b – The type of club which respondents have been a member of over the past four weeks (particularly so that they can participate in any sports or recreational physical activities)
- Q16a - sports and active recreation not coded into the sports database in which respondents took part in as a member of a club
- Q17a - sports and active recreation not coded into the sports database in which respondents received tuition from an instructor or coach
- Q18a - sports and active recreation not coded into the sports database in which respondents took part in organised competition
- Q19c - sports and active recreation not coded into the sports database in which respondents coached an individual or team
- Q19d - sports and active recreation not coded into the sports database in which respondents refereed, umpired, or officiated at a match/competition
- Q19e - sports and active recreation not coded into the sports database in which respondents did any other volunteering activity (not coaching or tuition)

- Q23 - one sport or recreational physical activity respondents would most like to take up, or to do more often
- Q24a - main sport or recreational physical activity respondents were doing less of
- Q24b - main sport or recreational physical activity respondents were doing more of
- Q25 – main reason for doing less sport or recreational physical activity
- Q25a - main reason for doing more sport or recreational physical activity
- D4 – ethnic group

  The ethnicity question was kept consistent with previous Active People surveys and used the harmonised Office for National Statistics (ONS) question[11]. Coding of ethnicity occurs at five levels:

    - White – Other White background
    - Mixed – Other Mixed background
    - Asian or Asian British – Other Asian background
    - Black or Black British – Other Black background
    - Other ethnic group
- D4a1 – other religion
- D6 – highest qualification obtained to date

6.1.3 NS-SEC classification

The National Statistics Socio-economic Classification (NS-SEC) has been used for all official statistics and surveys since 2001 when it replaced Social Class based on Occupation (SC, formerly Registrar General's Social Class) and Socio-economic Groups (SEG).

The NS-SEC is an occupationally based classification but has rules to provide coverage of the whole adult population. The information required to create the NS-SEC is occupation coded to the unit groups (OUG) of the Standard Occupational Classification 2000 (SOC2000) and details of employment status (whether an employer, self-employed or employee; whether a supervisor; number of employees at the workplace). Similar information was previously required for SC and SEG.

The Active People CATI script contains all the questions required to derive NS-SEC using the full method. NS-SEC is derived from SOC Unit Group and an Employment Status/Size of Organisation variable.

SOC Unit Group

SOC Unit Group is coded from questions about respondents' job title, job description and industry description. SOC2000 Unit Group was coded using Cascot software, which is a program designed to make the coding of text information to standard classifications

11 A new harmonised question was published by the ONS in August 2011 (towards the end of APS5). The ethnicity question was kept unchanged to offer comparability with previous Active People surveys.

simpler, quicker and more reliable. The software is capable of occupational coding and industrial coding to the UK standards developed by the UK Office for National Statistics. These are the Standard Occupational Classification (SOC) and the Standard Industrial Classification (SIC).

Employment status and size of organisation

Further questions were asked to allocate respondents to one of the following groups:

1. Employers – large organisations
2. Employers – small organisations
3. Self-employed / no employees
4. Managers – large organisations
5. Managers – small organisations
6. Supervisors
7. Other employees

NS-SEC Full Operational Categories were then derived using NS-SEC derivation tables based on SOC2000 using priority order rules.

NS-SEC questions were also asked for the Household Reference Person (HRP) if this was not the respondent. The ONS definition of a HRP was used; 'the member of the household in whose name the accommodation is owned or rented, or is otherwise responsible for the accommodation'[12].

A more detailed outline of NS-SEC coding is provided in Appendix G.

6.2 Data weighting

Rim weights were applied to the survey data. Rim weighting calculates the 'best' fit for the data across all the variables included in the weighting and does this by weighting the data by one weighting variable at a time and repeating the sequence until the 'best' fit is reached.

The advantages of this approach are that the weighting can include a greater number of weighting variables, and it is not necessary to have targets for all the interlocked cells. Applying targets for each interlocked cell (cell weighting) would mean that targets would be set, for example, for each age band within each gender within each socio economic group and so on, which would be impractical due to the limitations of sample size.

All that rim weighting requires is that targets be set for each weighting variable separately, for example age within gender is given a set of weighting targets, socio-economic group is given a set of weighting targets and so on (that is, they are not interlocked).

12 In households with a sole householder that person is the household reference person. In households with joint householders the person with the highest income is taken as the household reference person. If both have the same income, the older is taken as the HRP.

In summary the data were weighted as follows:

- A pre weight was applied to deal with the unequal selection probabilities of individuals in different sized households
- Demographic rim weighting was applied to ensure the data was representative of the populations of all reporting geographies in terms of age by gender, white and non white, working status by gender, household size and socio-economic classification (NS-SEC).
- Reporting geographies which combine responses from a number of local authorities were weighted to match the population sizes of the different authorities comprising the reporting geography.

It is important to note that the universe for Active People has changed over the years and this is reflected in the weights available in each dataset:

- In APS5 and APS6, the dataset contains weighting variables for the 16+ population only.
- In APS7 and APS8, the dataset contains all the weighting variables for both the 14+ population and the 16+ population.
- In APS9, the dataset contains weighting variables for the 14+ population only.
- In APS10, the dataset contains weighting variables for both the 14+ population and the 16+ population.

6.2.1 Pre weight

Resting on the assumption that each household has a single land-line, it is not possible for more than one adult sharing the same household to be included in the survey. A one-adult household is equally likely to be contacted as a three adult household. However, a person living alone, in the one-adult household would have three times the chance of being interviewed as a person in the three adult household.

Therefore, a probability weight was applied at the analysis stage to compensate for this, in addition to the standard demographic non-response weights described below. The probability weight is the number of adults in the household. This probability weight was used as the base weight entered into the rim weighting process.

The number of adults in the household was captured in the screener question S3. Where respondents refused to give the number of adults the probability weight ‘h’ was set at 2. In households with 5 or more adults the probability weight ‘h’ was set at 4.

6.2.2 Demographic weighting variables

Demographic weighting was applied to the data and each demographic weighting variable is listed below along with an outline of how the weighting targets for each were calculated.

Weighting targets were calculated so that the percentages within each weighting variable add to 100%. The targets used in the weighting were taken from the 2001 census (APS5 only), ONS mid-year population estimates, the Annual Population Survey (July 2009–June 2010 for APS5, October 2010–September 2011 for APS6), the 2011 census (APS7), and ONS mid-year population estimates, the Annual Population Survey (January 2013 – December 2014 for APS8, October 2013 – September 2014 for APS9, July 2014 – June 2015 for APS10). The source of each individual target is specified below.

Household size

- One person
- Two or more people

All respondents where no household size was recorded were coded as 'Two or more'. The targets for this weight were taken from the 2001 census for APS5, the 2011 census for APS7, and the Annual Population Survey for APS6 and APS 8-10.

Ethnicity

- Non white
- White

All respondents with no ethnicity recorded were coded as 'White'. In APS5-6, and APS8-10 the targets for this weight were taken from the latest Annual Population Survey available (see above). In APS7 the targets were taken from the 2011 census.

Working status within gender

Weighting targets source data for working status were only provided for those aged 16 to 74. In order to attach weights to those aged 14 and 15 and those over age 74, the population of each of these groups was added to the total population base for the calculation of weights:

- Men - Working full time (i.e. 30+ hours per week)
- Men - Not working full time – combines all other 'Men' working status breaks plus 'All Men 75+' and 'All Men 14 and 15' (in the 14+ weighting targets only)
- Women - Working full time (i.e. 30+ hours per week)
- Women - Not working full time – combines all other 'Women' working status breaks plus 'All Women 75+' and 'All Women 14 and 15' (in the 14+ weighting targets only)

All respondents with no working status recorded were coded as 'Not working full time' (gender was always recorded). In APS5-6, and APS8-10 the targets for this weight were taken from the latest Annual Population Survey available (see above). In APS7 the targets were taken from the 2011 census.

NS-SEC

Weighting targets source data for NS-SEC were only provided for those aged 16 to 74. In order to attach weights to those aged 14 and 15 and those over age 74, the population of each of these groups was added to the total population base for the calculation of weights:

- Managerial and professional occupations – NS-SEC 1, 1.1, 1.2, 2
- Intermediate occupations – NS-SEC 3
- Small employers and own account workers - NS-SEC 4
- Lower supervisory and technical occupations - NS-SEC 5
- Semi-routine and routine occupations - NS-SEC 6, 7
- Never worked and long term unemployed and Full time students - NS-SEC 8, 9

- Inadequately described and Not classifiable - NS-SEC 9 (L16 and L17 from survey data)
- 14 and 15s (in the 14+ weighting targets only) and over 74s – from population estimates

The weighting proportion for this NS-SEC classification was calculated as follows:

NS SEC population total (excluding NS SEC 'Inadequately described' and 'Not classifiable') plus population total of 14-15s and 75+

Multiplied by

100% + Percentage of 16 to 74s NS SEC 'Inadequately described' and 'Not classifiable'

= Total population including NS SEC from census / NS SEC 'Inadequately described' and 'Not classifiable' from survey / people aged 14-15 and aged 75+ from census

Multiplied by

Percentage of 16 to 74s NS SEC 'Inadequately described' and 'Not classifiable'

= Total population from the percentage of 16 to 74s NS SEC 'Inadequately described' and 'Not classifiable'

In APS5-6 and APS8-10 the targets for this weight were taken from the latest Annual Population Survey available (see above). In APS7 the targets were taken from the 2011 census.

Age by gender

- Men 14 to 15 (in the 14+ weighting targets only)
- Men 16 to 24
- Men 25 to 34
- Men 35 to 54
- Men 55 +
- Women 14 to 15 (in the 14+ weighting targets only)
- Women 16 to 24
- Women 25 to 34
- Women 35 to 54
- Women 55 +

Any respondents without age specified were randomly assigned to an age category. In order not to skew the overall balance, the probability of being assigned to each age category was made proportional to the distribution of answers given by other respondents. As gender was always collected, this did not need to be imputed for any respondents.

In APS5-6 and APS8-10 the targets for this weight were taken from the latest ONS mid-year population estimates. In APS7 the targets were taken from the 2011 census.

6.2.3 Calculation of weights for all reporting geographies

Annual data

For the LA level reporting geography, demographic weighting targets were set within each Local Authority.

A different approach was used for the other reporting geographies, to ensure proportionate representation of respondents living in different sized LAs. These reporting geographies were:

- County Council (CC)
- County Sport Partnership (CSP)
- Region
- National (England)

These geographies are all based on Local Authorities, with regions within each of these being formed of a number of LAs grouped together.

The weighting for each of these geographies was done in two stages. Firstly, demographic weighting was applied to each of the LAs. Secondly, the weighted counts of each LA were scaled according to the population of adults aged 16+[13] in each area. This ensured each LA was represented in correct proportion to its population size.

For example, the table below shows the LAs within the Tyne and Wear CSP for APS5. LA weights were applied first, then the LAs within the County Sport Partnership were scaled by their population sizes.

LAs within Tyne and Wear CSP	Unweighted count	LA Population (aged 16+)	LA Population % of overall CSP population	Weighted count
Gateshead (LA)	1001	157,100	17.15%	516
Newcastle upon Tyne (LA)	503	238,700	26.05%	784
North Tyneside (LA)	500	162,200	17.70%	532
South Tyneside (LA)	502	126,100	13.76%	414
Sunderland (LA)	502	232,200	25.34%	762
Total Tyne and Wear CSP	**3,008**	**916,300**	**100.00%**	**3,008**

Although the number of interviews per quarter tended to be roughly equal this did vary a little bit and in some survey years there were boosts which meant that they were not consistently the same size. In order to address this, the size of quarters was scaled to ensure they each have an equal weight within the rolling 12 month data.

13 In APS5, APS6, APS8, APS9 and APS10 the population of each Local Authority was taken from the latest ONS mid-year population estimates (2010 for APS5, 2011 for APS6, 2013 for APS8 and 2014 for APS9). In APS7 the population was taken from the 2011 census.

A similar approach was also used when reporting on 24 month results, with the two survey years given equal weight.

Monthly and quarterly data

Monthly, quarterly and six monthly results were produced for the following reporting geographies:

- County Council (CC)
- County Sports Partnership (CSP)
- Region
- National (England)

As the annual sample size for most LAs was 500 per year, there were insufficient responses within each LA on a monthly and quarterly basis to apply the LA based weighting scheme effectively. As a result, a different weighting approach was used to that applied to the annual reporting for these geographies.

Data were weighted to individual population profiles within larger geographic regions. For instance, for the regional monthly and quarterly weights targets were set within each individual region. An additional weighting variable was included with the demographic weights; this used the LA populations to adjust the weights within the geographic regions and avoided over-representing persons in the smaller LAs.

Monthly, quarterly and six monthly results were weighted based on interviews conducted between specific dates. In the Active People surveys 1 to 8, fieldwork was carried out for one year from mid-October. In Active People 9, it was decided to revise the fieldwork dates, in order to align the interview periods with the dates for Taking Part fieldwork, and with Sport England's financial year. In the first six months of APS9 (from October 2014 to March 2015) the start date for each month's fieldwork was brought forward by a few days each month, so that fieldwork for Month 6 ended on 31st March 2015. Thereafter survey months corresponded to calendar months. The monthly, quarterly and six monthly dates for APS9 are shown in the table below.

Sample period	Start date	End date
Month 1	15th October 2014	11th November 2014
Month 2	12th November	9th December
Month 3	10th December	6th January 2015
Quarter 1	***15th October 2014***	***6th January 2015***
Month 4	7th January 2015	3rd February
Month 5	4th February	3rd March
Month 6	4th March	31st March
Quarter 2	***7th January 2015***	***31st March 2015***
Month 7	1st April	30th April
Month 8	1st May	31st May
Month 9	1st June	30th June
Quarter 3	***1st April 2015***	***30th June 2015***
Month 10	1st July	31st July
Month 11	1st August	31st August
Month 12	1st September	30th September

Quarter 4	***1st July 2015***	***30th September 2015***

National and Regional results were produced for monthly, quarterly and six monthly time periods. County Council and County Sport Partnerships results were produced only for quarterly and six monthly periods.

Weighting for modules that were not asked to all respondents

In order to shorten the length of the overall questionnaire certain modules were asked to a random subset of respondents rather than to the entire sample. The following table shows the modules that have been randomised and the proportion of respondents asked the questions at different times.

	APS5Q1-Q4	APS6Q1-Q4	APS7Q1-Q4	APS8Q1 - APS8Q2	APS8Q3-APS8Q4	APS9Q1-APS9Q4	APS10Q1-APS10Q4
Club, competition and tuition module	100%	50%	50%	50%	66%	66%	66%
Volunteering module	100%	50%	50%	50%	25%	25%	25%
Sports provision module	Not asked	Not asked	100%	75%	50%	50%	50%
Change in participation module	50%	50%	50%	50%	25%	25%	25%
Likely module	100%	100%	100%	50%	25%	25%	25%
Reasons module	Not asked	Not asked	Not asked	Not asked	Not asked	25%	25%

Design weights have been created for these sections in order to compensate for the fact they have only been asked to a subset of the sample. The main purpose of these weights was to ensure that each quarter was equal in size across periods where the randomisation changed. For example, in the APS6 Q2 dataset there was a new weight to be used for the 'club, competition, tuition and organised' variables as from APS6 these questions were only asked to only 50% of the sample. The weight was to ensure that the data from APS5 was not over-represented (i.e. the APS5 data would have accounted for two thirds of the sample had this adjustment not been made).

7. Development work

This section focuses on the development projects that have been undertaken during APS5, 6 and 7. During this period, there has been an emphasis placed on conducting experimental work to explore potential methodological advances which may improve or develop the survey in the future. This section will focus on the following key development projects that have been undertaken during the APS5 to 7 fieldwork period:

- Continuity of results – a trend analysis project to ensure smooth transition between APS4 and APS5
- Exclusion of mobile-only households – a project which focused on addressing the issue of the growing number of households without access to a landline phone, but with access to a mobile phone (known as “mobile-only households”), and implications that this may have for the survey sample
- Tenure weighting experiment – a project following the mobile-only project, to look at improving the weighting specification of the survey by adding a housing tenure variable
- 14-15 child survey – a pilot survey for the inclusion of 14 and 15 year old respondents in the main Active People Survey, to address the new Sport England strategy for sport amongst young people aged 14 to 25
- Face-to-face survey – a face-to-face version of the Active People Survey, using random probability interviews in households, to look at the potential differences between the methods, and the implications of adding a face-to-face element to the main survey
- Multi-mode experiment – this included a CATI mobile RDD survey and a multi-mode survey experiment using CATI, CAWI and Mobile App methodologies in APS7. This was to assess the feasibility of incorporating other data collection methods into the survey.

7.1 Continuity of results

Trend analysis was conducted on key results from Active People Surveys 2, 3 and 4, and using a seasonal model results were predicted for Active People 5. Results for some key results in the first few months of Active People 5 were found to be a bit lower than predicted by the model.

Based on further analysis of results and a literature review, three possible causes were identified.

7.1.1 Continuity of the sample

Sample in Active People is usually worked on for seven or eight months after it is issued (until less than 1% of the sample has no final outcome). As TNS BMRB took over the Active People Survey from Ipsos MORI, the sample used for the first month of APS5 comprised solely of fresh telephone numbers, and the sample for the subsequent few months included a higher proportion of fresh sample than had been the case in the

previous interview quarter. This may have impacted on the continuity of the results as it is possible that the characteristics and the behaviours of respondents that are easier to reach (requiring a lower number of calls to reach) are different to those that are harder to reach (requiring a larger number of calls over an extended period of time to establish contact).

Analysis of results from the first quarter of Active People survey 4, suggests that the harder to reach group have different characteristics to the easier to reach groups. The harder to reach group has higher proportions of BMEs, men and younger people. Easier to reach respondents are also generally less likely to participate in sport.

7.1.2 Interviewer effects and field procedures

It is well documented that the manner in which interviews are administered can be a source of response bias in surveys.

However, whilst this was a risk this is unlikely to have had much of an impact on Active People as one of TNS BMRB's key considerations when taking over this project was to ensure that the approach was kept as similar to that used by Ipsos MORI as possible:

- Using the same CATI script
- Interviewer briefings were kept as consistent as possible
- Interviewer instructions in the survey script were not changed.

7.1.3 Weather

The once a week sports participation KPI results dipped noticeably for outdoor sports in December 2010. Looking at previous Active People data there is a correlation between cold weather and sports participation. The mean temperature was much lower in December 2010 than in previous years, suggesting that this was a cause of the decrease in sports participation.

The link between weather and sports participation is validated by academic research carried out by Tucker and Gilliland[14], in which they examined the results from 37 studies from around the world and found that weather had a significant impact on physical activity behaviours in twenty seven (73%) of these studies. Tucker and Gilliland conclude that 'it is clearly important to recognize bad or extreme weather as a deterrent' for sports participation.

7.2 Exclusion of mobile-only households

The Active People Survey uses an RDD (random digit dialling) methodology which is based on residential land-line numbers only and therefore excludes mobile-only households. Ofcom data shows that the proportion of mobile-only households in England was at 15% in 2011, and has been increasing by about 1% per year in recent years[15]. With one in seven households in England mobile-only, it became important to determine whether the exclusion of these people from the sample frame for Active People was impacting on the quality of the findings. TNS BMRB carried out a programme of research to explore this.

7.2.1 Methodology

Face-to-face Omnibus

A landline/mobile-only comparison study was carried out using face-to-face interviewing, conducted using CAPI (Computer Assisted Personal Interviewing) via the TNS Omnibus survey. Landline and mobile-only respondent were identified and asked a set of questions about their sports participation. The Omnibus approach provided a convenient way to screen for mobile-only respondents in a cost effective and fast manner. It also provided a means of interviewing a comparison group using the same methodology and questionnaire.

The target population for this survey consisted of the general public (aged 16-30) in England. This group was of most interest to the research, being both more likely than other groups to be mobile-only, and also having higher levels of sports participation.

Regression analysis was used to control for the demographic differences between the mobile-only population and the landline population.

CATI

1000 interviews were carried out using CATI, using RDD mobile phone sample and screening for mobile-only respondents. Again this sample were asked a series of questions about their sports participation, based on those in the CATI landline survey. Propensity score weighting was used to control for the demographic differences between the mobile-only and landline samples. This technique was used to weight the data from the main Active People Survey to match the demographic characteristics of the mobile-only sample.

This technique was applied first using the current Active People weighting variables and then refined by adding additional weighting variables.

7.2.2 Findings

In both the Omnibus and CATI research, mobile-only and landline respondents had similar participation levels for most individual sports, once demographic differences between the samples were controlled for. However, when looking at participation at the overall level or of sports grouped together, respondents who only had a mobile did less sport than those with a landline.

Looking at the CATI research results, adding further demographic items into the weighting matrix went some way to reducing the difference (bringing one million and NI8 into line) but a few differences in participation in named sports remained.

7.2.3 Recommendations

The data from the mobile comparison surveys suggested that the omission of mobile-only respondents from the Active People survey led to a slight over-estimate of sports participation. This effect could be reduced or removed by:

Modifying the current weighting approach

Additional weighting variables, particularly housing tenure, could be added to the Active People weighting matrix to reduce sample bias.

An in-home interview sample

An in-home interview sample which would cover the entire population regardless of telephone status could be used to supplement or calibrate the Active People CATI survey, in order to correct for the omission of mobile-only respondents from the CATI survey.

Continuation of the mobile-only survey

The mobile-only CATI survey could be continued on an ongoing basis, with the mobile-only data merged with the main survey results in order to obtain a nationally representative final sample. It would not be possible to apply local area controls to the mobile-only sample.

7.3 Tenure weighting experiment

Following on from the mobile-only work conducted, it was decided to experiment with the inclusion of housing tenure in the weighting specification to see what impact this would have on results.

7.3.1 Weighting approach

This new weight was created using exactly the same approach as that used for the main survey with targets being set within individual Local Authorities (using data from the ONS Annual Population Survey, 2001 Census and ONS mid-year population estimates). Rim weighting was used and the data was weighted by:

- Household size
- Ethnicity
- Working status within Gender
- NSSEC
- Age by Gender

In addition to the above targets, a new target for tenure was included.

The tenure question used in Active People is not exactly the same as the question used in the Annual Population Survey; the categories were matched in the following way:

Category	Active People answer categories	Annual Population Survey category
Owner occupier / buying with mortgage	Owned outright Owned with mortgage	Owned outright Being bought with mortgage or loan Part rent, part mortgage
Renting / Other	Rented from Council Rented from housing association Rented with job/business Rented privately, unfurnished Rented privately, furnished Free - comes with job or part of pay package Other	Rented Rent free Squatting

In the Active People Survey a number of respondents refused to or were unable to give an answer to the tenure question. When applying the weighting the proportion of

respondents with 'no answer' within each Local Authority was kept unchanged, and the targets were recalculated based on those that had given an answer.

Once demographic weighting was applied within the Local Authorities the size of each individual Local Authority was scaled based on its population (16+) to ensure that the final results were representative of the English general population.

7.3.2 Findings

Including tenure in the weighting set up reduced overall sports participation; however, the effect was fairly muted[16]. The reduction affected all of the key demographic groups as illustrated below:

	Normal weighting	Weighting including tenure	Subtraction	% Change
National overall	16.31%	16.14%	-0.17	98.970%
Male	20.46%	20.28%	-0.18	99.112%
Female	12.36%	12.20%	-0.15	98.747%
16 to 34	26.13%	25.83%	-0.29	98.883%
35 to 54	16.18%	16.02%	-0.16	99.005%
55 +	7.65%	7.59%	-0.07	99.134%
White	16.32%	16.16%	-0.16	99.011%
Non white	16.26%	16.04%	-0.22	98.646%
Limiting disability - Yes	7.00%	6.86%	-0.15	97.893%
Limiting disability - No	17.95%	17.81%	-0.14	99.204%
NS SEC1,1.1,1.2,2 Managerial and professional	19.12%	19.09%	-0.03	99.834%
NS SEC3 Intermediate	14.49%	14.44%	-0.05	99.657%
NS SEC4 Small employers / own account workers	14.84%	14.69%	-0.15	99.013%
NS SEC5,6,7,8 Lower supervisory/technical/ routine /semi-routine/never worked /longterm unemployed	12.38%	12.19%	-0.19	98.442%
NS SEC9 Not classified	19.74%	19.38%	-0.36	98.178%
Further and Higher education students	26.99%	26.56%	-0.43	98.423%

Looking at the findings at a sports level[17] showed a more mixed picture, with some sports participation levels increasing marginally. However, the overall trend was

16The 3x30 indicator measures the number of adults (aged 16 and over) participating in at least 30 minutes of sport at moderate intensity at least three times a week

17 Once a week participation, for 30 minutes or more at a moderate or vigorous intensity

downwards, although the impact of the weighting was fairly minimal with most differences within two or three percent of the original figures (see table below).

	Normal weighting	Weighting including tenure	Subtraction	% Change
Swimming	6.62%	6.54%	-0.07%	98.9
Football	4.98%	4.94%	-0.04%	99.2
Athletics	4.47%	4.41%	-0.06%	98.6
Cycling	4.15%	4.13%	-0.02%	99.5
Bowls	2.55%	2.50%	-0.05%	97.9
Golf	1.96%	1.93%	-0.03%	98.4
Badminton	1.20%	1.18%	-0.02%	98.3
Tennis	0.88%	0.87%	-0.01%	98.5
Equestrian	0.74%	0.72%	-0.01%	98.3
Squash and Racketball	0.67%	0.66%	-0.01%	99.1
Movement & Dance	0.56%	0.56%	0.00%	99.9
Cricket	0.51%	0.50%	-0.01%	98.8
Rugby Union	0.42%	0.41%	-0.01%	97.9
Basketball	0.36%	0.36%	0.00%	101.1
Boxing	0.35%	0.35%	0.00%	99.7
Table Tennis	0.32%	0.31%	0.00%	99.1
Angling	0.32%	0.33%	0.01%	103.7
Netball	0.31%	0.29%	-0.02%	94.6
Mountaineering	0.26%	0.27%	0.01%	103.1
Snow sport	0.25%	0.25%	0.00%	99.8
Hockey	0.19%	0.18%	-0.01%	95.1
Weightlifting	*0.17%*	*0.17%*	0.00%	99.6
Sailing	0.12%	0.12%	0.00%	98.6
Rugby League	*0.12%*	*0.13%*	0.01%	108.5
Gymnastics and trampolining	0.11%	0.11%	0.00%	98.3
Canoeing and kayaking	0.11%	0.12%	0.01%	105.2
Rowing	0.09%	0.09%	0.00%	97.9
Volleyball	0.07%	0.08%	0.00%	104.4
Taekwondo	0.06%	0.06%	0.00%	99.0
Rounders	0.04%	0.04%	0.00%	95.2
Waterskiing	0.03%	0.03%	0.00%	95.6
Fencing	0.03%	0.03%	0.00%	100.5
Archery	0.03%	0.03%	0.00%	98.4
Judo	0.03%	0.03%	0.00%	99.1

It should be noted that the weight which included tenure has not been examined in detail to determine whether it needs to be capped. This may reduce some of the sports participation figures.

7.4 14-15 Child Pilot

7.4.1 Overview

In light of Sport England's shift in strategy from January 2012, which saw a shift in focus to targeting investment to people aged 14-25 in an attempt to create a sporting habit for

life amongst young people, 2012 saw the introduction of a 14-15 child survey, which ran concurrently alongside the adult survey from July.

As the data collected needed to work closely with the adult survey, it was important that the main components and questions asked in the 14-15 child survey operated as close to the adult survey as possible. Consequently, TNS BMRB conducted a period of questionnaire testing split into two stages; cognitive testing of an initial draft questionnaire in order to identify any potential inefficiency or miscomprehension of existing adult questions; and a CATI pilot, in order to test the contact, screening and selection issues associated with interviewing children under the age of 16 over the phone. Before piloting, it was deemed that 14-15 year olds would be sub-sampled from the main Active People Survey, meaning screening for 14-15 year olds would be carried in all households where a child of this age was identified during the adult interview.

7.4.2 Cognitive Testing

Questionnaire Testing

After initial discussions within the research teams at TNS BMRB and Sport England, a questionnaire was drafted in preparation for cognitive testing, carried out in the week commencing Monday 18th June 2012. The drafted questionnaire was broadly comparable with the adult version, however a number of questions (mainly demographics) were excluded, either due to being inappropriate to ask of children and secondly due to the fact that the majority of household details could be obtained from the corresponding adult interview. The following questions were omitted from the cognitive questionnaire:

- Religion
- Sexual identity
- Tenure/accommodation
- Children in household
- Car or van availability
- Life satisfaction
- Working status
- NS-SEC and HRP questions
- Income
- Local authority coding section
- Re-contact questions
- All questions in the Dance and Gardening section.

As well as removing inapplicable and inappropriate questions, it was also felt that additional information was needed in the child questionnaire in order to undertake meaningful analysis of the data. Consequently, questions were added to the questionnaire in the following topic areas:

- Whether the respondent currently attends school
- Current school year
- Whether the respondent has been on school holidays in the last four weeks

Throughout the interview, time was spent pausing respondents, and probing for details of their comprehension of the question asked. Researchers also spent time trying to undercover the types of thought processes adopted when answering these questions, before culminating in asking feedback on the child's overall interview experience. Areas given additional attention during the cognitive testing process included:

- Ease of respondents recall in participation during the last four weeks (participation, club membership, volunteering) and last 12 months (tuition and organised competition)
- Whether or not respondents were including activities done in school when providing answers
- Respondents understanding of the Q15 days question, and their ability to provide an accurate answer
- Respondents understanding of the terms "health" and "recreation"

Six interviews were conducted in total, five face-to-face in people's homes and one over the telephone. The face-to-face interviews comprised three girls and two boys, with one boy interviewed over the phone. The latter provided a deeper understanding into how effective the existing questions were when asked over the phone.

Cognitive Testing Feedback

Cognitive testing was generally a success with no major issues reported with the questionnaire in its current state. There were however some general recommendations that were applied in preparation for the pilot:

- At the walking questions, wording was modified to include 'walking to and from school, a part-time job or the shops' as opposed to just 'work' to make it more relevant to child respondents. This change was also made to the cycling questions.
- At the Sports volunteering question, the response code 'Provided transport which helps children or adults take part in sport (other than family members)' was removed as a potential response as this was not applicable to children.

Comprehension and understanding of the questions was generally good and although the Q15 days question did cause confusion in some cases, this was deemed similar to the potential misunderstanding on the adult questionnaire. The general consensus amongst the research team was that the accompanying interviewer instructions and the check question did enough to address any misunderstandings in the 14-15 child survey. On a separate note, it was also clear from the cognitive testing that children were mentioning activities both in and out of school in their answers.

7.4.3 Piloting

Once the changes to the questionnaire had been implemented, a period of piloting was conducted between 9th and 13th July 2012 to test out how the screening and recruitment element for 14-15 child interviews operated. As already agreed, 14-15 year olds were sub-sampled from the main Active People Survey, however modifications were made to the end of the adult script and beginning of the child script, to ensure that parental permission, appointments, and back-to-back child interviews could all be conducted in an efficient way.

Feedback from the telephone centre was positive, with no major problems reported in the recruitment and screening process for all child interviews. These changes were implemented, and applied to the main survey from July 2012.

7.5 Active People Face-to-Face Survey

7.5.1 Overview

Sport England commissioned TNS BMRB to conduct a face-to-face CAPI[18] survey to run in parallel to the APS6 CATI survey. This was to help facilitate comparisons between the two data collection methods and ensure the survey continued to reach all section of the population (e.g. mobile only households, telephone survey non-responders etc). This section provides a summary of the fieldwork design and procedures for this aspect of Active People.

7.5.2 Sample design

The survey was designed to yield a representative sample of 9,500 adults aged 16+ (originally 6,000 which was boosted in the final 3 months). For practical purposes, residents of institutional accommodation (armed forces barracks, student halls of residence, hospitals, care homes, prisons etc.) were excluded.

TNS BMRB used the residential Postal Address File (PAF) as the sample frame. This provides a list of almost all private residential addresses in the UK and is the most comprehensive frame available. Because it lists addresses, not individuals, interviewers were required to randomly select respondents from among those eligible.

BMRB designed the primary sampling units (PSUs) to be equal to postal sectors except where these contained fewer than 500 delivery points (addresses) on the small-user Postal Address File (PAF). These sectors were combined with their nearest neighbour to form a 'super-sector'.

Before TNS BMRB selected the PSUs for the survey, the list of PSUs was stratified using the following factors:

- Expected moderate sports participation rate derived from the Taking Part Survey (5 equal sized categories),
- Region, with extra sorting by local authority and address density

To achieve an initial 6000 interviews, 480 PSUs were sampled, allocating 50 to a reserve sample (10 of which were later issued). Sport England commissioned an additional 3000 interviews in June, so a further 309 PSU's were sampled. Therefore, a total of 749 PSU's were used.

PSUs were allocated to each sample month to equalise the number of interviews targeted per calendar month, albeit with a much larger sample size in the final two quarters. In each PSU, 26 addresses were issued.

At each sampled address, the interviewer would randomly sample one dwelling unit (if more than one), then randomly sample one household (if more than one) within the sampled dwelling unit. Interviewers used unique Kish Grids assigned to each address to

18 Computer Assisted Personal Interviewing

assist them in this process. The same Kish grid was used to randomly sample the adult aged 16+ to take part.

In the final quarter (July), the survey was extended to include 14 and 15 years olds within sampled households. In households with more than one eligible child, the interviewer would use the same Kish grid to randomly select the child to participate.

7.5.3 Fieldwork

All fieldwork was conducted on behalf of TNS BMRB by interviewers trained and supervised by Kantar Operations.

Briefings

All interviewers attended personal briefing conducted by the research team before starting work on the survey. A total of 20 briefings were conducted throughout the year and 272 interviewers were briefed. About 12-15 interviewers attended each briefing. The briefings covered the following areas:

- Background and information on the Active People Survey and its use by Sport England
- Information about sampling procedures; contact procedures and dwelling/respondent selection; the importance of high response rates, with methods of ensuring contact and encouraging co-operation; and the use of incentives.
- Description of the questionnaire, and interview procedures. This was a key focus of the briefing to ensure consistency with the telephone survey. Interviewers also practiced using the sports database.

In addition to attending the face to face briefing, interviewers were also required to read the written Interviewer Instructions and carry out at least two practice interviews before starting their first assignment.

Supervision and Quality Control

Several methods were used to ensure the quality and validity of the data collection operation.

A proportion of interviewers, particularly those less experienced, were accompanied in the field by supervisors (29%). All interviewers who were new to random probability sample surveys were accompanied by a supervisor on the first day of their Active People assignment.

A proportion of respondents were re-contacted to verify that an interview had taken place. In total, 17.7% of respondents were re-contacted to verify that the interviewer had contacted someone and whether or not an interview was completed. Addresses for back checking were selected on the basis of Kantar Operations overall field quality procedures, whereby all interviewers have their work checked at least twice a year.

These back checking procedures were mainly carried out by telephone. Where no telephone number was available a short postal questionnaire was sent to the address to collect the same information.

Fieldwork Dates and Management

Fieldwork was conducted between 15th October 2011 and 31st October 2012.

Fieldwork was managed on a monthly basis and assignments were issued to interviewers prior to each month starting. The table shows the fieldwork dates, the number of assignments and core sample addresses per month.

Sample period	Start date	End date (for data processing purposes)	Number of assignments issued	Number of addresses issued
Month 1	15-Oct	11-Nov	56	1,456
Month 2	12-Nov	9-Dec	30	780
Month 3	10-Dec	13-Jan	37	962
Quarter	***15-Oct***	***13-Jan***	***123***	***3,198***
Month 4	14-Jan	10-Feb	36	936
Month 5	11-Feb	9-Mar	36	936
Month 6	10-Mar	13-Apr	36	936
Quarter	***14-Jan***	***13-Apr***	***108***	***2,808***
Month 7	14-Apr	11-May	36	936
Month 8	12-May	8-Jun	39	1,014
Month 9	9-Jun	13-Jul	40	1,040
Quarter	***14-Apr***	***13-Jul***	***115***	***2,990***
Month 10	14-Jul	10-Aug	161	4,186
Month 11	11-Aug	7-Sep	121	3,146
Month 12	8-Sep	14-Oct	121	3,146
Quarter	***14-Jul***	***14-Oct****	***403***	***10,478***

*Fieldwork was extended until the 31st October to achieve the 9,500 interviews

As a requirement was to try and achieve an even number of interviews each month, the number assignments issued in Month 1 was much higher than in later months (with the exception of the final quarter when the sample was boosted).

Interviewers had about 4-5 weeks to cover all the addresses in their assignment and report final outcomes. Interviewers were encouraged to start their assignment as early as possible in fieldwork to try to maximise the time available for making contact at the addresses.

Once all the issued addresses had been covered the Address Contact Sheets were returned to Kantar Operations and a decision was taken about re-issuing non-productive outcomes. As a general rule all non-productive addresses (non-contacts, refusals, broken appointments, etc.) were considered for re-issue unless there was a specific reason not to or it was not considered cost effective (e.g. response rate and interview projections were on track or if only one or two addresses in an assignment were available for reissue).

Fieldwork procedures and incentives

All addresses were sent an advance letter on TNS BMRB headed paper. The letters and leaflets were sent by interviewers a couple of days before starting their assignment. The letter was designed to inform the household that an interviewer would be visiting and

encourage them to take part. The letters outlined the background to the survey, stressed the importance of the respondent taking part, the confidential nature of the survey and the financial 'thank you' for taking part. 'Sport England' was not mentioned in the letter to minimise any bias in response.

There were also 2 'reissue' letters – one for those addresses where the initial interviewer was unable to make contact at the address and one for those where a refusal had occurred. All letters provided a telephone number and an email address so that individuals could find out more about the survey, make an appointment for an interviewer to call, or opt out of the survey. Over the course of the year, 261 people, representing 1.3% of addresses issued, opted out of the survey by contacting TNS BMRB or Kantar Operations.

Each address was issued to the interviewer on a document called the Address Contact Sheet (ACS). This document had 5 main functions:

- it contained full address details for the sampled address;
- interviewers used it to make random selections of dwelling units and eligible adults;
- interviewers used it to complete the screening for the child interview, make the selection of the child and record parental permission to approach the child for interview (in Quarter 4 only);
- interviewers used it to record the outcome of their attempts to make contact and conduct an interview at the address.

Interviewers made a minimum of eight calls at each address before regarding it as a non-contact, recording details of these on the ACS. Calls had to be made on different days of the week and at different times of day: at least two of the calls had to be made on a weekday evening (after 7.00 p.m.) and at least one call at a weekend (10.00 a.m. – 9.00 p.m.), in order to make contact with households where everyone was working.

All adult respondents received a £5 High Street Voucher as a thank you for participating in the survey.

Questionnaire

The majority of the questionnaire content was the same as the main telephone survey. In addition the face-to-face survey contained a section about factors which may or may not affect participation in activities and a number of the demographic questions were adjusted to the face-to-face variant recommended by ONS (for example, sexual identity). The child questionnaire, introduced in July covered the same participation questions as the adult survey but included a reduced demographic section.

To ensure comparisons could be made with the main telephone survey, interviewers were briefed to administer the questionnaire in a similar way to the telephone interviewers. Interviewers were instructed to read out all questions and response lists (except don't know, not applicable and refusal codes) and to not show the CAPI screen to respondents at anytime. Showcards were provided for a number of the demographic questions.

At the end of fieldwork the adult interview length was 23 minutes.

Interviews achieved and response rate

A total of 9,505 adult interviews were achieved at the end of fieldwork year and a further 204 interviews with those aged 14-15 (achieved from July-September).

The final response rate of 53% was achieved however this was affected by the lack of time available to re-issue sample issued in the last quarter of fieldwork. In the first nine months of fieldwork, a response rate of 56% was achieved.

Final outcome description	Outcomes	
Total sample	**19,474**	**100.0%**
Total sample covered	**19,474**	**100.0%**
Deadwood	1,587	8.1%
Total in scope	17,887	91.9%
Productive (response rate)	**9,505**	**53.1%**
Refusals	5,165	28.9%
Office opt outs	261	1.5%
Non-contact (after 8+ calls)	1,683	9.4%
Other unproductive (e.g. broken appointments, ill or incapacitated)	1,273	7.1%

7.6 Multi-mode experiment

Sport England commissioned TNS BMRB to carry out two projects to assess the feasibility of incorporating other data collection methods into the Active People Survey. The two projects were:

- A CATI mobile RDD survey
- A multi-mode survey experiment using CATI, CAWI and Mobile App methodologies

The aim of the mobile RDD survey was to build on the findings of the previous Active People "mobile-only" experiment, and to assess the viability of including a mobile RDD element into the Active People survey, using a dual-frame (mobile and landline RDD) design. The survey tested the feasibility of carrying out Active People with a mobile RDD sample, and considered the potential impact on survey results of combining mobile and landline interviews.

The aim of the multi-mode survey experiment was to test the feasibility of including Mobile App and CAWI methodologies in the Active People survey in future, and to explore, using an experimental design, whether using different interview modes would impact on participation estimates.

Fieldwork for both surveys was conducted between October 2012 and April 2013.

7.6.1 CATI Mobile RDD survey

Around 1,000 interviews were carried out using RDD mobile phone sample, using a shortened version of the Active People questionnaire. Data from the mobile survey were combined with those from the main Active People landline survey collected during the same time period, in order to compare combined mobile/landline results with those from the landline survey, and to test for any systematic bias in the landline survey.

The survey demonstrated that the mobile RDD methodology required substantially more contacting time on average to achieve an interview than the landline survey, which has implications for the relative cost, with mobile phone interviews being more expensive per interview than landline. The response rate to the mobile phone survey was also lower than to the landline survey. The interview termination rate (among respondents who had started an interview) was broadly similar for the mobile and landline samples.

There were significant differences in the demographic profile of the mobile phone and landline respondents. Mobile phone respondents were on average younger, and were more likely to be male and from a non-White ethnic group than landline respondents. The mobile phone sample was therefore relatively effective in reaching demographic groups that are typically under-represented in the Active People landline survey.

Once the mobile and landline samples were combined, no systematic difference was observed between the landline-only and combined landline-mobile sample results for once a week and once a month sports participation for the ten largest sports, nor for the overall once a week or 3x30 measures. The small mobile sample size in this experiment limited the ability to test whether this also held true for population sub-groups or for the smaller sports.

This evidence suggests therefore that:

- It is feasible to carry out a shortened version of the Active People survey using mobile RDD sample, albeit with implications for survey costs.
- The mobile phone sample was relatively effective in reaching demographic groups that are typically under-represented in the Active People landline survey.
- There was no evidence of systematic non-coverage bias in the current landline sample estimates.
- Switching to a dual-frame design would have little or no impact on the participation estimates for the more prevalent sports (for which this could be tested).

7.6.2 Multi-mode experiment

The sample source for this survey was respondents to the face-to-face version of the Active People survey that was carried out in 2011/12, and is described in chapter 9.5 of this report. Respondents who had agreed to be re-contacted were randomly allocated to a CATI only or Mobile App/CAWI/CATI experimental group.

The CATI group were interviewed on a CATI follow-up survey. The Mobile App/CAWI/CATI group were first invited to complete a Mobile App or CAWI survey. Those who had not responded during the initial fieldwork period were followed up by telephone and asked to complete a CATI interview.

The CATI questionnaire was similar to the main Active People questionnaire. The Mobile App and CAWI questionnaires were modified to suit the self-completion format, and the Mobile App questionnaire was significantly shortened.

Around 1,000 respondents completed the CATI-only survey, and 2,500 the Mixed-mode survey. In both experimental groups a response rate of 55% was obtained. In the Mixed-mode group, 3% responded to the Mobile App survey, 17% to the CAWI survey and 35% to the CATI chaser survey.

There were significant barriers for some respondents in accessing the Mobile App and CAWI versions of the survey, including not having a smartphone or access to the internet, difficulties downloading the App, and difficulties accessing the CAWI survey. The use of a self-completion led to some mis-classifications of activities by respondents.

There were some demographic differences between the Mobile App respondents and the main landline survey respondents. Respondents completing the Mobile App survey were younger on average than landline respondents, with 20% aged 45 or older. The age profile of CAWI respondents was more similar to that of the landline survey, with around three-fifths aged 45 or older.

After applying weights to correct non-response bias, results from the experimental groups were compared for once a week and once a month sports participation for the ten largest sports, and for the overall once a week and 3x30 measures.

The results showed:

- There were very few differences between the CATI-only and Mixed-mode (Mobile App/CAWI/CATI combined) group.
- Both the CATI vs. App/Web and Mixed-mode vs. App/Web groups showed a number of differences in participation estimates.

There does therefore appear to be a mode effect between App/Web interviews and CATI only interviews. However, once the influence of the App/Web data is ‘diluted’ by the addition of CATI chase interviews, the estimates are quite compatible with CATI-only estimates. If an App/Web *only* survey were used there would be some concern that there could be differences in some estimates, even after applying corrective non-response weights.

Appendix A – Sample size by Local Authority

	APS5			APS6			APS7

Appendix B - Questionnaires

APS 5 questionnaire

212627 – SPORT ENGLAND ACTIVE PEOPLE SURVEY 5

FINAL QUESTIONNAIRE – VERSION 28 (14 APRIL 2011)

INTRODUCTION

INTRODUCTION AMENDED FOR START OF APS5, REFERENCE TO LA REMOVED ON 22ND MARCH

Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

Intro CODE OUTCOME FROM LIST BELOW

1. Continue
2. Not available - make appointment
3. Business
4. Hard Refusal
5. Deferral - May complete at later date
6. Foreign language required
7. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]

For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. Urdu (close and reissue)

2. Hindi (close and reissue)
3. Gujarati (close and reissue)
4. Asian Not Known (close and reissue)
5. Other (Specify and close)

[INSERT QUESTION ONLY FOR SAMPLE FLAGGED AS BORDER AREA]
The survey covers only England so can I just check whether you live in England?

1. Yes – proceed to next screen
2. No – TIPCODE K – Outside sample frame

SCREENER QUESTIONS

S3. To make sure we speak to a good cross section of the public can you please tell me how many people aged 16 or over currently live in your household including yourself?
CODE NULL IF NO PEOPLE AGED 16 or OVER

1. 1 – Go to S9
2. 2 – Go to S6
3. 3 – Go to S4
4. 4 – Go to S4
5. 5 – Go to S4
6. 6 – Go to S4
7. 7 or more – Go to S4
8. Business number – TIPCODE 417
9. Don't know – Go to S4
10. Refused – Go to S4

ALLOW NULL - Close

IF S3 = 1 GO TO S9.
IF S3 = 2 GO TO S6.
IF S3 = 8 TIPCODE H.
IF S3 = DK OR REF GO TO S4.

[ASK IF S3 = 3, 4, 5, 6, 7 AND RIZZO METHOD SELECTS ANOTHER MEMBER OF THE HOUSEHOLD OR IF S3 = 9 OR 10]. IF SCREENER RESPONDENT SELECTED VIA RIZZO GO TO S9]

S4. Could I speak to the person aged 16 or over who has the next birthday?
[INCLUDE INTERVIEWER NOTE ONLY IF S3 = 3, 4, 5, 6 OR 7] INTERVIEWER NOTE: This does not include the person you are speaking to, it must be another member of the household.
IF NECESSARY SAY THE PERSON WITH THE NEXT BIRTHDAY IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND.

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) - Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S3 = 2 AND RIZZO DOES NOT SELECT THE SCREENER RESPONDENT. IF SCREEN RESPONDENT SELECTED VIA RIZZO GO TO S9]

S6. In households where there are no more than two adults, we are using a random method to select which one of these adults takes part in this survey. On this occasion it is the other person that I would like to speak to. May I speak to that person? IF NECESSARY SAY THE OTHER PERSON IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) – Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S4 = 2 OR S6 = 2]

S5. Please can I take the persons name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL TO DO THE INTERVIEW.

1. Insert Name – first name only is acceptable - Go to S7
2. Proxy deferral
3. Proxy refusal – hard

[ASK IF S5 = 1]

S7. GO TO APPOINTMENT SCREEN TO BOOK APPOINTMENT.

[ASK S4 or S6 = 6 or 8]

S8. We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. English (continue)
2. Urdu (close and reissue)
3. Hindi (close and reissue)
4. Gujarati (close and reissue)
5. Asian Not Known (close and reissue)
6. Hard of hearing/speech impediment – Type Talk *(auto coded from code 8 at S4 or S6)*
7. Other (Specify and close)

[ASK IF S3 = 1 OR SCREENER RESP SELECTED VIA RIZZO OR S4 = 1 OR 7 OR S6 = 1 OR 7]

S9. INTERVIEWER CODE

1. Respondent willing
2. Hard refusal
3. Deferral
4. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

[IF S9 = 1]

I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate.

A. WALKING

[ASK ALL]

Q1. Firstly, I would like you to think about all the walking you have done. Please include any country walks, walking to and from work or the shops and any other walks you may have done. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done at least one continuous walk lasting at least 5 minutes?

1. Yes
2. No
3. Unable to walk
4. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

[ASK IF Q1 = 1]

Q2. In the last four weeks, that is since [^INSERT^] have you done at least one continuous walk lasting at least 30 minutes?

1. Yes
2. No
3. Don't know

[ASK IF Q2 = 1]

Q3. On how many days in the last four weeks have you walked for at least 30 minutes? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

[ASK IF Q2 = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know

[ASK IF Q2 = 1]

Q5. You said that you had walked for 30 minutes on *[^INSERT FROM Q3^ IF Q3 = DK INSERT 'at least one'] day(s) since* [^INSERT^]. Can I ask, on how many of those days were you walking for the purpose of health or recreation not just to get from place to place again please exclude time spent walking around shops?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3

Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you may have done. Please include any casual cycling in your local area, any cycling in the countryside or on cycling routes, cycling to or from work or any competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

1. Yes
2. No
3. Don't know

[ASK IF 6a=1]

Q6b. On how many days in the last 4 weeks have you done any cycling? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

[ASK IF Q6A=1]

Q6. In the *last four weeks, that is since [^INSERT DATE^]* have you done at least one continuous cycle ride lasting at least *30 minutes*?

1. Yes
2. No
3. Don't know

[ASK IF Q6 = 1] – MIN WAS SET UP AS '0' - CHANGED on 21/10 SO MIN ACCEPTED = 1

Q7. On how many days in the last four weeks have you cycled for at least 30 minutes?

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28 IF < OR = TO Q6b. IF Q6b = DK, RANGE = 1 to 28.

Don't know

[ASK IF Q6 = 1]

Q8. You said that you had cycled for 30 minutes on *[^INSERT FROM Q7^ IF Q7 = DK INSERT 'at least one'] day(s) in the last four weeks*. Can I ask, on how many of those days were you cycling for the purpose of health, recreation, training or competition not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q7

Don't know

[ASK IF Q8 >=1]

Q13a. During the last four weeks, was the effort you put into recreational cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 >=1]

Q14a. During the last four weeks, was the effort you put into recreational cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

C. SPORTS AND RECREATION

[ASK ALL]

Q9. I have already asked you about walking and cycling. I would now like to ask you about other types of sport and recreational physical activity you may have done.

Please think about all the activities you did, *in the last four weeks,* whether for competition, training or receiving tuition, socially, casually or for health and fitness, but do not include any teaching, coaching or refereeing you may have done.

So thinking about *the last four weeks*, *that is since [^INSERT DATE^]*, did you do any sporting or recreational physical activity?

1. Yes

2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q9 = 3 ONLY]

Q9ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

1. Proceed with interview (skips back to question)
2. Skip sports questions (skips to Q26)

[ASK IF Q9 = 1]

Q10. What have you done?
DO NOT PROMPT. CODE ALL MENTIONED. WHERE A DATABASE SEARCH BRINGS UP A NUMBER OF ACTIVITIES FOR A SPORT PLEASE PROBE CAREFULLY FOR THE EXACT ACTIVITY UNDERTAKEN. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY.

[SEE SEPARATE Q10 ACTIVITIES LIST FOR ROUTING TO Q11 TO Q15]

WHEN EXHAUSTED TYPE none!

[ASK IF WEIGHT TRAINING CODED]

WeightTraining. What type of weight training did you do?

INTERVIEWER NOTE: We are interested in respondents primary motivation for weight training for example whether it is for general fitness or to participate in a specific sport, and the type of equipment primarily used (e.g. free weights or resistance machines).

1. Weight training (free weights) - general fitness
2. Weight training (free weights) - for specific sport
3. Weight training (resistance machines) - general fitness
4. Weight training (resistance machines) - for specific sport

[ASK IF WEIGHTLIFTING CODED]

Weightlifting. Is that Snatch / Clean & Jerk?"

INTERVIEWER NOTE: If the answer is no please enter weight training at the database and code as a weight training activity.

1. Yes
2. No - (this will skip back to Q10)

[ASK IF POWERLIFTING CODED]

Powerlifting. Is that Special Olympians or Paralympic Bench Press powerlifting?"

INTERVIEWER NOTE: If it is not one of these please enter 'Neither' at the below.

1. Powerlifting - Special Olympians
2. Powerlifting Paralympic - Bench press
3. Neither - (allocate to existing ‘general’ powerlifiting code (code no 289)

[ASK IF CRICKET CODED]

Cricket. Which of the following types of cricket have you done in the last four weeks?
INTERVIEWER NOTE: any mention of 'nets' is cricket practice.

1. cricket (outdoors) - match
2. cricket (indoors) - match
3. cricket (outdoor) - nets / practice
4. cricket (indoors) - nets / practice
5. Cricket - Other

[ASK IF RUGBY UNION CODED]

RugbyUnion. Which of the following types of Rugby Union have you done in the last four weeks?

1. Rugby union - 15 a side game
2. Rugby union – Sevens
3. Rugby union - Tag rugby
4. Rugby union - Touch rugby
5. Rugby Union - Other

[ASK IF RUGBY LEAGUE CODED]

RugbyLeague. Which of the following types of Rugby League have you done in the last four weeks?

1. Rugby league - 13 a side game
2. Rugby league - Tag rugby
3. Rugby League - Touch rugby
4. Rugby league - Other

[ASK IF RUGBY TAG CODED]

RugbyTag. Is that Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby - Other'.

1. Rugby league - Tag rugby
2. Rugby union - Tag rugby
3. Rugby - Other

[ASK IF RUGBY TOUCH CODED]

RugbyTouch. Is that Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby -Other'.

1. Rugby league - Touch rugby
2. Rugby union - Touch rugby
3. Rugby - Other

[ASK IF Q10 = 5, 6, 7, 8, 178, or 179 AND Q8 >=1]

Cycl. Is that in addition to any RECREATIONAL cycling you have already mentioned?

1. Yes
2. No
3. Don't know

[Cycl. = 1 ADD TO ACTIVITIES AT Q10. Cycl. = 2 OR 3 DO NOT ADD TO ACTIVITIES AT Q10.]

[ASK IF Q10 = 114, 115, 116, 117, 118, 145, or 146 AND Q5 >=1]

Walk. Is that in addition to any RECREATIONAL walking you have already mentioned?

1. Yes
2. No
3. Don't know

Q11. On how many days in the last four weeks have you done [^INSERT ACTIVITY^] THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q12. And how long do you USUALLY do [^INSERT ACTIVITY^] for?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN E.G. ONE SWIMMING SESSION, ONE FOOTBALL GAME ETC.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES, TIME SPENT CHANGING OR SOCIALISING.

Q24b ADDED AT START OF APS5

[ASK IF Q24 =1]

Q24b What is the main sport or recreational physical activity that you are doing more of?

DISPLAY Q10 DATABASE. SINGLE CODE.

DO NOT PROMPT. SINGLE CODE ONLY. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY
IF RESPONDENT SAYS DON'T KNOW, CODE ACCORDINGLY

Don't know

[ASK IF Q24b = 'OTHER']

Q24BTH1. PLEASE ENTER 1st OTHER

Q25a ADDED AT START OF APS5

[ASK IF Q24 = 1]

Q25a. What is the **main** reason why you are doing more?
SINGLE CODE. DO NOT READ OUT LIST. SCROLL THROUGH FULL LIST.

HEALTH/DISABILITY REASONS
29. To improve health
30. To increase fitness
31. Health recovered (general)
32. Recovered from injury
33. To improve appearance (lose weight, tone up)

WORK, INCOME AND ECONOMY
34. More income / ability to afford sports participation
35. Increased time due to reduced work commitments

PERFORMANCE
36. To improve skill levels
37. To increase competitive success
38. To prepare for a sports event/charity event

SOCIAL
39. To spend time with / support family
40. To spend time with / support friends
41. To meet new people
42. General enjoyment/I enjoy it

ACCESS AND OPPORTUNITIES
43. Increased opportunities / facilities in my area
44. Moved closer to facilities
45. More actively involved in a sports club / organisation

OTHER LIFE CIRCUMSTANCES
46. More free time because recently retired
47. More free time due to children growing up
48. More free time having completed studies
49. More free time (other reasons)
50. Got a dog
51. Moved to a new area / home
52. Change in family structure (separation / bereavement / child leaving home)
53. Environmental (enjoy being outdoors, sustainable transport)
54. No main reason
55. Other (please specify)
56. Don't know

I. LIKELIHOOD TO DO MORE SPORT

Q22 and Q23 ADDED AT START OF APS2

[ASK ALL]

Q22. Now thinking about the future, over the next 12 months, would you like to do more sport or recreational physical activity than you do at the moment?

1. Yes
2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q22 = 3 ONLY]

Q22ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

3. Proceed with interview (skips back to Q22)
4. Skip sports questions (skips to Q26)

[ASK IF Q22 = 1]

Q23. Which one sport or recreational physical activity would you most like to do, or to do more often?
DISPLAY Q10 DATABASE. SINGLE CODE.

DO NOT PROMPT. SINGLE CODE ONLY. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY

Don't know

Q23a ADDED AT START OF APS5

[ASK IF 22 = 1 – RANDOMLY ALLOCATE TO 50% OF THOSE THAT ARE ROUTED TO THIS QUESTION]

Q23a. A lot of people tell us they would like to do more sport or recreational physical activity although they don't manage to do so. In the next 12 months, do you think you will…

READ OUT

1. Definitely do more <^ ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^>
2. Probably do more <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^>
3. Do about the same <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^>
4. Probably do less <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^>
5. Definitely do less <^ACTIVITY FROM Q23/'SPORT' IF Q23 = MISC SPORT or DK^>
6. Don't know

J. DANCE AND GARDENING QUESTIONS

DANCE AND GARDENING QUESTIONS ADDED AT START OF APS3 MONTH 4 - 14 Jan 09

[ASK ALL]

Q26. I have already asked you about sports and recreational physical activity you may have done.

I'd now like to ask if you have done any dancing or any of the following types of gardening, *in the last four weeks*, *that is since [^INSERT^]*,

READ OUT – PLEASE INCLUDE ALL TYPES OF DANCING EXCEPT DANCE AS PART OF AN EXERCISE CLASS.

PLEASE EXCLUDE ANY DANCING OR GARDENING WHERE YOU RECEIVED PAYMENT AS PART OF YOUR JOB.

READ OUT IF REQUIRED - CONSERVATION RELATED GARDENING ACTIVITIES ARE THOSE WHERE ORGANISATIONS INSPIRE INDIVIDUALS TO IMPROVE BOTH THEIR HEALTH AND THE ENVIRONMENT AT THE SAME TIME SUCH AS GREEN GYMS WHICH OFFER THE OPPORTUNITY TO TACKLE PHYSICAL JOBS IN THE OUTDOORS WHILST BENEFITING LOCAL GREEN SPACES.

READ OUT LIST

8. Dancing
9. Gardening at home
10. Gardening at an allotment
11. Conservation related gardening
12. Any other gardening
13. No dance or gardening done (SINGLE CODE ONLY)
14. Don't know

[ASK Q26 TO Q30 IF Q26 = 1. INSERT ACTVITY "dancing"]
[ASK Q26 TO Q30 IF Q26 = 2 or 3 or 4 or 5. INSERT ACTVITY "gardening"]

Q27. On how many days in the last four weeks did you do [^INSERT ACTIVITY FROM Q26^]?
THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q28. And how long do you USUALLY do [^INSERT ACTVITY FROM Q26^] for?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES OR ALLOTMENTS etc.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

IF Q26 = 1 AND LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 2 HOURS 0 MINS.
IF Q26 = 2 or 3 or 4 or 5 AND LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 6 HOURS 0 MINS.

DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

3. Yes
4. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q28.

[ASK Q29 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q29]

Q29. During the last four weeks, was the effort you put into [^INSERT ACTVITY FROM Q26^] usually enough to raise your breathing rate?

4. Yes
5. No
6. Don't know

[ASK Q30 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q30]

Q30. During the last four weeks, was the effort you put into [^INSERT FROM Q26^] usually enough to make you out of breath or sweat?

4. Yes
5. No
6. Don't know

DEMOGRAPHICS

I would like to finish the survey by asking you a few questions about you and your household. Please be assured that we are bound by the MRS code of conduct and all of your details are held in the strictest confidence.

RE-CONTACT FOR MAIN SURVEY

WORDING AMENDED FOR APS5, UPDATED ON 14th APRIL 2011

RC1. This survey was commissioned by Sport England thank you for taking part. Would you be willing for us to keep a record of your details so Sport England, or an organisation acting on their behalf, may re-contact you to ask you further questions on this survey or to take part in future research on this subject? There would be no obligation for you to take part.

3. Yes
4. No

NEW QUESTION ADDED ON 14th APRIL 2011

[ASK IF RC1 = 1]

RC1A. In order to carry out this future research, TNS may also need to provide your contact details together with relevant survey responses collected from you during this interview to Sport England or an organisation acting on their behalf. Would you be willing for this information to be passed on?

INTERVIEWER ADD IF NECESSARY: The information that we pass on may include the activities that you participate in or some of the classification data such as your age or sex. We would only pass your contact details and interview information onto Sport England or another research company doing legitimate research on behalf of Sport England, your interview data would never be passed to anyone else or used for commercial purposes.

1. Yes
2. No

[ASK IF RC1 = 1]

RC2. Can I please ask for your name?
ENTER NAME

[ASK IF RC1 = 1]

RC3. Could I take your email address?

1. Yes

2. No

[ASK IF RC3 = 1]

RC4. Record email address

INTERVIEWER: PLEASE READ BACK EMAIL ADDRESS TO RESPONDENT BEFORE MOVING ONTO NEXT SCREEN

229387 – SPORT ENGLAND ACTIVE PEOPLE SURVEY 6

FINAL QUESTIONNAIRE – VERSION 31 (11 FEBRUARY 2012) – FINAL

INTRODUCTION

INTRODUCTION AMENDED FOR START OF APS5, REFERENCE TO LA REMOVED ON 22ND MARCH '11

Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

Intro CODE OUTCOME FROM LIST BELOW

1. Continue
2. Not available - make appointment
3. Business
4. Hard Refusal
5. Deferral - May complete at later date
6. Foreign language required
7. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]
For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. Urdu (close and reissue)
2. Hindi (close and reissue)
3. Gujarati (close and reissue)
4. Asian Not Known (close and reissue)
5. Other (Specify and close)

[INSERT QUESTION ONLY FOR SAMPLE FLAGGED AS BORDER AREA]
The survey covers only England so can I just check whether you live in England?

1. Yes – proceed to next screen
2. No – TIPCODE K – Outside sample frame

SCREENER QUESTIONS

S3. To make sure we speak to a good cross section of the public can you please tell me how many people aged 16 or over currently live in your household including yourself?
CODE NULL IF NO PEOPLE AGED 16 or OVER

1. 1 – Go to S9
2. 2 – Go to S6
3. 3 – Go to S4
4. 4 – Go to S4
5. 5 – Go to S4
6. 6 – Go to S4
7. 7 or more – Go to S4
8. Business number – TIPCODE 417
9. Don't know – Go to S4
10. Refused – Go to S4

ALLOW NULL - Close

IF S3 = 1 GO TO S9.
IF S3 = 2 GO TO S6.
IF S3 = 8 TIPCODE H.
IF S3 = DK OR REF GO TO S4.

[ASK IF S3 = 3, 4, 5, 6, 7 AND RIZZO METHOD SELECTS ANOTHER MEMBER OF THE HOUSEHOLD OR IF S3 = 9 OR 10]. IF SCREENER RESPONDENT SELECTED VIA RIZZO GO TO S9]

S4. Could I speak to the person aged 16 or over who has the next birthday?
[INCLUDE INTERVIEWER NOTE ONLY IF S3 = 3, 4, 5, 6 OR 7] INTERVIEWER NOTE: This does not include the person you are speaking to, it must be another member of the household.

IF NECESSARY SAY THE PERSON WITH THE NEXT BIRTHDAY IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND.

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) - Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S3 = 2 AND RIZZO DOES NOT SELECT THE SCREENER RESPONDENT. IF SCREEN RESPONDENT SELECTED VIA RIZZO GO TO S9]

S6. In households where there are no more than two adults, we are using a random method to select which one of these adults takes part in this survey. On this occasion it is the other person that I would like to speak to. May I speak to that

person? IF NECESSARY SAY THE OTHER PERSON IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) – Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S4 = 2 OR S6 = 2]

S5. Please can I take the persons name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL TO DO THE INTERVIEW.

1. Insert Name – first name only is acceptable - Go to S7
2. Proxy deferral
3. Proxy refusal – hard

[ASK IF S5 = 1]

S7. GO TO APPOINTMENT SCREEN TO BOOK APPOINTMENT.

[ASK S4 or S6 = 6 or 8]

S8. We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. English (continue)
2. Urdu (close and reissue)
3. Hindi (close and reissue)
4. Gujarati (close and reissue)
5. Asian Not Known (close and reissue)
6. Hard of hearing/speech impediment – Type Talk *(auto coded from code 8 at S4 or S6)*
7. Other (Specify and close)

[ASK IF S3 = 1 OR SCREENER RESP SELECTED VIA RIZZO OR S4 = 1 OR 7 OR S6 = 1 OR 7]

S9. INTERVIEWER CODE

1. Respondent willing
2. Hard refusal
3. Deferral
4. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

[IF S9 = 1]

I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate. I just need to inform you that for quality control and training purposes this interview may be monitored or recorded.

A. WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]

Q1r. Firstly, I would like you to think about all the walking you have done. Please include any country walks, walking to and from work or the shops and any other walks you may have done. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done at least one continuous walk lasting at least 10 minutes?

1. Yes
2. No
3. Unable to walk
4. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]

Q3r. On how many days in the last four weeks have you done at least one continuous walk lasting at least 10 minutes?
THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done at least one continuous walk lasting at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. Can I ask, on how many of those days did you walk for the purpose of health or recreation not to get from place to place again please exclude time spent walking around shops?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation, not to get from place to place, during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)

Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you may have done. Please include any casual cycling in your local area, any cycling in the countryside or on cycling routes, cycling to or from work or any competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

1. Yes
2. No
3. Don't know

[ASK IF 6a=1]

Q6b. On how many days in the last 4 weeks have you done any cycling? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling during the course of the day?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q6r.

Q8 UPDATED FOR APS6 – ROUTING BASED ON Q6a and TEXT SUBS FROM Q6b, Q8 QUESTION TEXT UPDATED IN JANUARY 2012

[ASK IF Q6a = 1]

Q8. You said that you had cycled on *[^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks*. Can I ask, on how many of those days did you cycle for the purpose of health, recreation, training or competition not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b

Don't know

Q8a ADDED FOR APS6, AMENDED IN JANUARY 2012

[ASK IF Q8>=1]

Q8ar. Thinking only about continuous cycle rides for the purpose of health, recreation, training or competition not to get from place to place, how long do you usually cycle for?

IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE, TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q8a.

Q8B ADDED FOR APS6

[ASK IF Q8>=1]
Q8b. Again thinking only about cycling for the purpose of health, recreation, training or competition, what is the main type of cycling you do?

SINGLE CODE

1. Recreational cycling – General
2. Mountain biking
3. BMX
4. Road cycling
5. Track cycling
6. Cyclo-cross

[ASK IF Q8 >=1]
Q13a. During the last four weeks, was the effort you put into recreational cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 >=1]

Q14a. During the last four weeks, was the effort you put into recreational cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

Q13B and Q14B ADDED FOR APS6 M5

[ASK IF Q8 = 0 or DK]

Q13b. During the last four weeks, was the effort you put into cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 = 0 or DK]

Q14b. During the last four weeks, was the effort you put into cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

C. SPORTS AND RECREATION

[ASK ALL]

Q9. I have already asked you about walking and cycling. I would now like to ask you about other types of sport and recreational physical activity you may have done.

Please think about all the activities you did, *in the last four weeks,* whether for competition, training or receiving tuition, socially, casually or for health and fitness, but do not include any teaching, coaching or refereeing you may have done.

So thinking about *the last four weeks*, *that is since [^INSERT DATE^]*, did you do any sporting or recreational physical activity?

1. Yes
2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q9 = 3 ONLY]

Q9ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

1. Proceed with interview (skips back to question)
2. Skip sports questions (skips to Q26)

[ASK IF Q9 = 1]

Q10. What have you done?

DO NOT PROMPT. CODE ALL MENTIONED. WHERE A DATABASE SEARCH BRINGS UP A NUMBER OF ACTIVITIES FOR A SPORT PLEASE PROBE CAREFULLY FOR THE EXACT ACTIVITY UNDERTAKEN. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY.

[SEE SEPARATE Q10 ACTIVITIES LIST FOR ROUTING TO Q11 TO Q15]

WHEN EXHAUSTED TYPE none!

PROMPT: WHAT ELSE?

[ASK FOR EACH 'OTHER' CODED AT Q10]

Q10oth PLEASE ENTER <1ST…> OTHER

[**IF GARDENING CODED]**

READ OUT - YOU WILL BE ASKED SEPARATELY ABOUT GARDENING LATER IN THE INTERVIEW'

[IF DANCING CODED]

READ OUT - YOU WILL BE ASKED SEPARATELY ABOUT DANCING LATER IN THE INTERVIEW'

[ASK IF DEEP WATER SWIMMING IS CODED]

ONLY CODE DEEP WATER IF RESPONDENT SAYS DEEP WATER. IF RESPONDENT SAYS JUST "SWIMMING" PROBE FOR INDOORS OR OUTDOORS AND CODE APPROPRIATELY.

Qdeep Did the respondent specifically mention "deep water swimming"?

1. Yes
2. No

[ASK IF OPEN WATER SWIMMING IS CODED]

ONLY CODE OPEN WATER IF RESPONDENT SAYS OPEN WATER. IF RESPONDENT SAYS JUST "SWIMMING" PROBE FOR INDOORS OR OUTDOORS AND CODE APPROPRIATELY.

Qopen Did the respondent specifically mention "open water swimming"?

1. Yes
2. No

FISHING QUESTION ADDED AT START Q2 OF APS4, AMENDED AT APS5. FISH1 ADDED AT APS5

[ASK IF Q9 = 1 AND q10 <u>NOT</u> = 9, 78, 79, 161]

Fish. Have you done any fishing in the last four weeks, that is since *[^INSERT DATE^]*?

1. Yes
2. No
3. Don't know

FISHING QUESTION ROUTING Q11 to Q14 ADDED AT START M6 OF APS4

[ASK IF FISH = 1]

Fish1 Was this?

1. Sea fishing
2. Fishing – game / fly fishing
3. Fishing – coarse / freshwater
4. Fishing – wheelchair sports

[FOLLOW RELEVANT ROUTING THROUGH Q11 TO Q14]

[ASK FOR EACH SNOWSPORT ACTIVITY CODED]

Snow1. Was this in?

1. England
2. Other United Kingdom (Scotland, Wales, N Ireland)
3. Overseas

[ASK IF SNOW1 = 1] [DO NOT DISPLAY OPTION 1 (Indoor snow slope) IF CODE 97 (SKI-ING - GRASS OR DRY SKI SLOPE)

Snow2. Was this?

1. Indoor snow slope
2. Dry slope
3. Other

[ASK IF WEIGHT TRAINING CODED]

WeightTraining. What type of weight training did you do?

INTERVIEWER NOTE: We are interested in respondents primary motivation for weight training for example whether it is for general fitness or to participate in a specific sport, and the type of equipment primarily used (e.g. free weights or resistance machines).

1. Weight training (free weights) - general fitness

Powerlifting. Is that Special Olympians or Paralympic Bench Press powerlifting?"

INTERVIEWER NOTE: If it is not one of these please enter 'Neither' at the below.

1. Powerlifting - Special Olympians
2. Powerlifting Paralympic - Bench press
3. Neither - (allocate to existing ‘general’ powerlifiting code (code no 289))

[ASK IF CRICKET CODED]

Cricket. Which of the following types of cricket have you done in the last four weeks?

INTERVIEWER NOTE: any mention of 'nets' is cricket practice.

1. cricket (outdoors) - match
2. cricket (indoors) - match
3. cricket (outdoor) - nets / practice
4. cricket (indoors) - nets / practice
5. Cricket - Other

[ASK IF RUGBY UNION CODED]

RugbyUnion.. Which of the following types of Rugby Union have you done in the last four weeks?

1. Rugby union - 15 a side game
2. Rugby union – Sevens
3. Rugby union - Tag rugby
4. Rugby union - Touch rugby
5. Rugby Union - Other

[ASK IF RUGBY LEAGUE CODED]

RugbyLeague. Which of the following types of Rugby League have you done in the last four weeks?

1. Rugby league - 13 a side game
2. Rugby league - Tag rugby
3. Rugby League - Touch rugby
4. Rugby league - Other

[ASK IF RUGBY TAG CODED]

RugbyTag. Is that Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby - Other'.

1. Rugby league - Tag rugby
2. Rugby union - Tag rugby
3. Rugby - Other

[ASK IF RUGBY TOUCH CODED]

RugbyTouch. Is that Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby - Other'.

1. Rugby league - Touch rugby
2. Rugby union - Touch rugby
3. Rugby - Other

[ASK IF Q10 = 5, 6, 7, 8, 178, or 179 AND Q8 >=1]

Cycl. Is that in addition to any RECREATIONAL cycling you have already mentioned?

1. Yes
2. No
3. Don't know

[Cycl. = 1 ADD TO ACTIVITIES AT Q10. Cycl. = 2 OR 3 DO NOT ADD TO ACTIVITIES AT Q10.]

[ASK IF Q10 = 114, 115, 116, 117, 118, 145, or 146 AND Q3b >=1]

Walk. Is that in addition to any RECREATIONAL walking you have already mentioned?

1. Yes
2. No
3. Don't know

Q11. On how many days in the last four weeks have you done [^INSERT ACTIVITY^] THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q12. And how long do you USUALLY do [^INSERT ACTIVITY^] for?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN E.G. ONE SWIMMING SESSION, ONE FOOTBALL GAME ETC.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES, TIME SPENT CHANGING OR SOCIALISING.

BMI QUESTIONS ADDED IN JANUARY 2012

RM8. I would like to ask you about your height and weight. There is an interest in how people's weight, given their height, is associated with their health.

Firstly, how tall are you without shoes? You may provide your height in feet and inches *or* in centimetres.
INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL HEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE.

RESPONDENTS MAY PROVIDE HALF UNITS SO IF HEIGHT IS STATED AS 5FT 4 AND A HALF INCHES, THIS WOULD BE CODED AS 5FT 4.5INCHES

1. Feet and inches – GO TO RM8a
2. Centimetres - GO TO RM8b
3. Cannot give estimate – GO TO RM9
4. Refused

ENTER HEIGHT

[ASK IF RM8 = 1]

RM8a ENTER FEET AT THIS SCREEN……(ENTER FEET – NUMBER RANGE 3 to 7)

ENTER INCHES AT THIS SCREEN – PLEASE NOTE INCHES TO THE NEAREST HALF AN INCH.

RESPONDENT MAY PROVIDE HALF UNITS FOR EXAMPLE 1.5…. (ENTER INCHES – NUMBER RANGE 0 to 11.5)

[ASK IF RM8 = 2]

RM8b Centimeters…. (ENTER CMs – NUMBER RANGE 90 to 240)

IF D1 = 1 AND LESS THAN (5FT 4IN / 164 CM) OR MORE THAN THAN (6 FEET AND 5 INCHES / 196 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

IF D1 = 2 AND LESS THAN (4FT 11IN / 150 CM) OR MORE THAN THAN (5FT 10IN / 178 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT: YOU SAID YOUR HEIGHT IS [^INSERT FEET^] AND [^INSERT INCHES^] / [^INSERT CMs^], IS THAT CORRECT?

4. Yes
5. No
6. Refused

IF = 1 or 3 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT RM8a or RM8b

[ASK IF RM8 = 1 OR 2]

RM8c Would you say that you know your height accurately, this is a pretty good estimate, or this is a guess?

5. Accurately
6. A pretty good estimate
7. A guess
8. Refused

[ASK ALL]

RM9. What is your current weight? You may provide this in stones and pounds or kilograms.
INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL WEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE.

5. Stones and pounds – GO TO RM9a
6. Kilograms - GO TO RM9b
7. Cannot give estimate – GO TO RM12
8. Refused

ENTER WEIGHT

[ASK IF RM9 = 1]

RM9a Stones…. (ENTER STONES – NUMBER RANGE 3 to 40)
Pounds… (ENTER POUNDS – NUMBER RANGE 0 to 13)

[ASK IF RM9 = 2]

RM9b Kilograms – ENTER TO THE NEAREST KILO…. (ENTER KGs – NUMBER RANGE 20 to 250)

IF LESS THAN (7 STONES / 45 KG) OR MORE THAN THAN (18 STONES / 114 KG) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT: YOU SAID YOUR CURRENT WEIGHT IS [^INSERT STONES^] AND [^INSERT POUNDS^] / [^INSERT KGs^], IS THAT CORRECT?

4. Yes
5. No
6. Refused

IF = 1 or 3 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT RM9a or RM9b

[ASK IF RM9 = 1 OR 2]

RM9c Would you say that you know your weight accurately, this is a pretty good estimate, or this is a guess?

5. Accurately
6. A pretty good estimate
7. A guess
8. Refused

[ASK ALL]

RM12 Would you say that for your height you are…
READ OUT

1. About the right weight
2. Underweight
3. Slightly overweight
4. Very overweight
5. Don't know

RE-CONTACT FOR MAIN SURVEY

WORDING AMENDED FOR APS5, UPDATED ON 14th APRIL 2011

RC1. This survey was commissioned by Sport England thank you for taking part. Would you be willing for us to keep a record of your details so Sport England, or an organisation acting on their behalf, may re-contact you to ask you further questions on this survey or to take part in future research on this subject? There would be no obligation for you to take part.

1. Yes
2. No

NEW QUESTION ADDED ON 14th APRIL 2011

[ASK IF RC1 = 1]

RC1A. In order to carry out this future research, TNS may also need to provide your contact details together with relevant survey responses collected from you during this interview to Sport England or an organisation acting on their behalf. Would you be willing for this information to be passed on?

INTERVIEWER ADD IF NECESSARY: The information that we pass on may include the activities that you participate in or some of the classification data such as your age or sex. We would only pass your contact details and interview information onto Sport England or another research company doing legitimate research on behalf of Sport England, your interview data would never be passed to anyone else or used for commercial purposes.

1. Yes
2. No

[ASK IF RC1 = 1]

RC2. Can I please ask for your name?

ENTER NAME

[ASK IF RC1 = 1]

RC3. Could I take your email address?

1. Yes
2. No

[ASK IF RC3 = 1]

RC4. Record email address
INTERVIEWER: PLEASE READ BACK EMAIL ADDRESS TO RESPONDENT BEFORE MOVING ONTO NEXT SCREEN

Closing page for completed interviews

229387 – SPORT ENGLAND ACTIVE PEOPLE SURVEY 6

FINAL QUESTIONNAIRE – VERSION 2 (14TH JULY 2012)

14-15 QUESTIONNAIRE – FINAL

Information to pull in from main adult interview:

C1B (if = 1, show parental permission/screening/selection)
D11_1-10 (number of children in household aged 14-15)
CHILD'S NAME, IF GIVEN AT C2 or C2A
NAME OF ADULT GIVEN AT C1B
NAME OF ADULT GIVEN AT C2C

Introduction and Screening

CALL BACK AND ASK FOR [INSERT ADULT WHO YOU NEED TO GAIN PERMISSION FROM – NAME GIVEN AT C2C, OR IF NO NAME GIVEN THERE, AT C1B (C14B ON CHILD SCRIPT – FOR CALLBACKS)]

IF NAMED PARENT FROM ADULT INTERVIEW IS NOT AVAILABLE OR NO NAME GIVEN, USE CINTRO1 – IF AVAILABLE AND ON LINE, GO TO CINTRO2:
CINTRO1. Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. As part of the survey we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do. Recently we conducted an interview with someone in your household, and we identified [a child / children] aged 14 or 15 at the address. Can I just ask, are you the parent or guardian of [this child / these children] aged 14 or 15?

1. Yes
2. No
3. Don't know
4. Refused

IF CINTRO1 = 2, ASK:
C14A. I'd like to ask a few questions about [this child / these children]. Could I speak to their parent or guardian please?

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM.
2. No, not available – GO TO C14B
3. Proxy deferral - CLOSE
4. Proxy refusal – hard - CLOSE
5. Proxy - other non interview (not capable of taking part eg. disabilities) - CLOSE
6. Proxy wrong language
7. Proxy interview (unable to come to phone eg. disability)
8. Proxy interview – Type Talk (hard of hearing/speech impediment)

[IF C14A = 2]

C14B. Please can I take the parent or guardian's name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL.

1. Insert Name – first name only is acceptable
2. Proxy deferral - CLOSE
3. Proxy refusal – hard - CLOSE

GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT TO CALL BACK FOR PARENTAL PERMISSION

MAKE AN APPOINTMENT FOR CALLBACK

[IF C1A=2 & NAME GIVEN AT C1B]

INTRO FOR WHEN NAMED PARENT/GUARDIAN FROM THE ADULT INTERVIEW IS ON THE LINE (ONLY USED IF THEY WERE UNAVAILABLE TO GIVE PERMISSION AT END OF ADULT INTERVIEW):

CINTRO2 Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. As part of the survey we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do. Recently we conducted an interview with someone in your household, and we identified [a child / children] aged 14 or 15 at the address. You were identified as the parent or guardian of [that child / those children]. Can I please ask you a few questions about your [child / children] aged between 14 and 15?

[IF D11_1-10 = MORE THAN ONE CHILD AGED 14-15 MENTIONED, AND C1A = 2]

C14C. Can I just ask, which child in the household aged between 14 and 15, has the next birthday?

ADD IF NECESSARY: Can I please take the name of this child? [FIRST NAME ONLY IS ACCEPTABLE]

PLEASE INSERT NAME OF SELECTED CHILD

1. All information refused - CLOSE

[IF ONLY ONE CHILD AGED 14-15 MENTIONED AT D11_1-10, AND C1A = 2]

C14D. Can I please take the name of the child in the household aged [INSERT AGE ENTERED AT D11_1-10]?

PLEASE INSERT NAME OF SELECTED CHILD (FIRST NAME IS ACCEPTABLE)

1. All information refused - CLOSE

[IF PARENTAL PERMISSION HAS BEEN GAINED AT C2B & NAME GIVEN AT C2C, OR AT C15 & C15A ON PRIOR CALL ON CHILD SCRIPT]

INTRO FOR WHEN NAMED PARENT WHO HAS ALREADY GIVEN PERMISSION IS ON THE LINE:

CINTRO3. Good afternoon/evening, my name is XXXXX calling on behalf of TNS – the independent research organisation. We recently spoke to you about interviewing your

child, [INSERT NAME OF CHILD GIVEN AT C2 OR C2A] for an important survey about people's leisure and recreational activities. At the time, you gave us permission to speak to your child, but they were not available to be interviewed...

GO TO NEXT SCREEN – C15

[ASK ALL]
C15. This survey is also being conducted with children aged 14 and 15 years old. We would like to conduct a short interview with [INSERT NAME FROM C2 OR C2A, C14C OR C14D] to ask them some questions about their leisure and recreational activities. Can we have permission to speak to [INSERT NAME FROM C2 OR C2A, C14C OR C14D]?

IF ROUTING FROM CINTRO3, INTRO TEXT SHOULD READ:

Can we have permission to speak to [INSERT NAME FROM C2 OR C2A, C14C OR C14D]?

1. Yes – available
2. Yes – not available
3. No – permission refused - CLOSE

[IF C15 = 1 OR 2]
C15A. Could I please take your name? This is just so that we have a record of who gave permission to speak to [INSERT CHILD'S NAME].

INSERT ADULT'S NAME – PLEASE TAKE FULL NAME

[IF C15 = 1]
NOW ASK TO SPEAK TO [INSERT CHILD'S NAME]

[IF C15 = 2]
C15B. We would like to call back to carry out an interview with [INSERT CHILD'S NAME] when they are available. Can we have your permission to ask for [INSERT CHILD'S NAME] directly when we call back?

1. Yes – ask for child directly
2. No – ask to speak to parent again first

[IF C15B = 1]
C15C. Thank you for your time. We will try and call back to speak to [INSERT CHILD'S NAME] directly. Can I please take a time and date that would be convenient to call back? You may also want to let [INSERT CHILD'S NAME] know that we will be trying to contact them.

ARRANGE TIME TO CALL BACK WHEN CHILD WILL BE AVAILABLE – FLAG NAME OF CHILD AND NAME OF PARENT/GUARDIAN AND RESPONSE TO C15B.

WHEN CALLING BACK:
IF C15B = 1, GO STRAIGHT TO CINTRO4
IF C15B = 2, GO TO CINTRO3
INTRO FOR WHEN CHILD IS ON THE LINE:
CINTRO4. Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. May I ask you a few questions?

IF CALL IS A CALL BACK, AND PERMISSION HAS ALREADY BEEN GRANTED AT C15, AND C15B=1, INTRO SHOULD READ:

Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. Recently we spoke to your parent or guardian, who gave permission for us to interview you for this survey. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

CODE OUTCOME FROM LIST BELOW

1. Continue
2. Not available - make appointment
3. Business
4. Hard Refusal
5. Deferral - May complete at later date
6. Foreign language required
7. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]

For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. Urdu (close and reissue)
2. Hindi (close and reissue)
3. Gujarati (close and reissue)
4. Asian Not Known (close and reissue)
5. Other (Specify and close)

CS1. INTERVIEWER CODE

1. Respondent willing
2. Hard refusal
3. Deferral
4. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

ASK ALL

CS2. Firstly, can I just check, how old are you?

OPEN NUMERIC

[IF CS2 <> 14 or 15]
CS3. Thank you for your time but at the moment we are only interviewing children aged 14 or 15 on this survey.

CLOSE

[IF CS2 = 14 OR 15]
I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate.

A. WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]
Q1r. Firstly, I would like you to think about all the walking you have done. Please include any country walks, walking to and from school, a part-time job or the shops and any other walks you may have done. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done at least one continuous walk lasting at least 10 minutes?

1. Yes
2. No
3. Unable to walk
4. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]
Q3r. On how many days in the last four weeks have you done at least one continuous walk lasting at least 10 minutes?
THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done at least one continuous walk lasting at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. Can I ask, on how many of those days did you walk for the purpose of health or recreation not to get from place to place again please exclude time spent walking around shops?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation, not to get from place to place, during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you may have done. Please include any casual cycling in your local area, any cycling in the countryside or on cycling routes, cycling to or from school, a part-time job or any competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

1. Yes
2. No
3. Don't know

[ASK IF 6a=1]

Q6b. On how many days in the last 4 weeks have you done any cycling? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling during the course of the day?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

2. No during school term
3. Don't know
4. Refused

This survey was commissioned by Sport England. Thank you for taking part.

114118 – SPORT ENGLAND ACTIVE PEOPLE SURVEY 7

FINAL QUESTIONNAIRE – VERSION 34 (15TH OCT 2012) – FINAL (INCLUDES TEST PROMPTED QUESTIONS)

INTRODUCTION

INTRODUCTION AMENDED FOR START OF APS5, REFERENCE TO LA REMOVED ON 22ND MARCH '11

Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

Intro CODE OUTCOME FROM LIST BELOW

1. Continue
2. Not available - make appointment
3. Business
4. Hard Refusal
5. Deferral - May complete at later date
6. Foreign language required
7. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]

For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. Urdu (close and reissue)
2. Hindi (close and reissue)
3. Gujarati (close and reissue)
4. Asian Not Known (close and reissue)
5. Other (Specify and close)

[INSERT QUESTION ONLY FOR SAMPLE FLAGGED AS BORDER AREA]
The survey covers only England so can I just check whether you live in England?

1. Yes – proceed to next screen
2. No – TIPCODE K – Outside sample frame

4. SCREENER QUESTIONS

S3. To make sure we speak to a good cross section of the public can you please tell me how many people aged 16 or over currently live in your household including yourself?
CODE NULL IF NO PEOPLE AGED 16 or OVER

1. 1 – Go to S9

2. Hard refusal
3. Deferral
4. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

[IF S9 = 1]

I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate.

A. WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]

Q1r. Firstly, I would like you to think about all the walking you have done. Please include any country walks, walking to and from work or the shops and any other walks you may have done. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done at least one continuous walk lasting at least 10 minutes?

1. Yes
2. No
3. Unable to walk
4. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]

Q3r. On how many days in the last four weeks have you done at least one continuous walk lasting at least 10 minutes?
THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done at least one continuous walk lasting at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. Can I ask, on how many of those days did you walk for the purpose of health or recreation not to get from place to place again please exclude time spent walking around shops?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation, not to get from place to place, during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)

Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you may have done. Please include any casual cycling in your local area, any cycling in the countryside or on cycling routes, cycling to or from work or any competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

1. Yes
2. No
3. Don't know

[ASK IF 6a=1]

Q6b. On how many days in the last 4 weeks have you done any cycling? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling during the course of the day?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q6r.

Q8 UPDATED FOR APS6 – ROUTING BASED ON Q6a and TEXT SUBS FROM Q6b, Q8 QUESTION TEXT UPDATED IN JANUARY 2012

[ASK IF Q6a = 1]

Q8. You said that you had cycled on *[^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks*. Can I ask, on how many of those days did you cycle for the purpose of health, recreation, training or competition not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b

Don't know

Q8a ADDED FOR APS6, AMENDED IN JANUARY 2012

[ASK IF Q8>=1]

Q8ar. Thinking only about continuous cycle rides for the purpose of health, recreation, training or competition not to get from place to place, how long do you usually cycle for?

IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE, TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q8a.

Q8B ADDED FOR APS6

[ASK IF Q8>=1]

Q8b. Again thinking only about cycling for the purpose of health, recreation, training or competition, what is the main type of cycling you do?

SINGLE CODE

1. Recreational cycling – General
2. Mountain biking
3. BMX
4. Road cycling
5. Track cycling
6. Cyclo-cross

[ASK IF Q8 >=1]

Q13a. During the last four weeks, was the effort you put into recreational cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 >=1]

Q14a. During the last four weeks, was the effort you put into recreational cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

Q13B and Q14B ADDED FOR APS6 M5

[ASK IF Q8 = 0 or DK]

Q13b. During the last four weeks, was the effort you put into cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 = 0 or DK]

Q14b. During the last four weeks, was the effort you put into cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

C. SPORTS AND RECREATION

[ASK ALL]

Q9. I have already asked you about walking and cycling. I would now like to ask you about other types of sport and recreational physical activity you may have done.

Please think about all the activities you did, *in the last four weeks,* whether for competition, training or receiving tuition, socially, casually or for health and fitness, but do not include any teaching, coaching or refereeing you may have done.

So thinking about *the last four weeks*, *that is since [^INSERT DATE^]*, did you do any sporting or recreational physical activity?

1. Yes
2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q9 = 3 ONLY]

Q9ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

1. Proceed with interview (skips back to question)
2. Skip sports questions (skips to Q26)

[ASK IF Q9 = 1]

Q10. What have you done?
DO NOT PROMPT. CODE ALL MENTIONED. WHERE A DATABASE SEARCH BRINGS UP A NUMBER OF ACTIVITIES FOR A SPORT PLEASE PROBE CAREFULLY FOR THE EXACT ACTIVITY UNDERTAKEN. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY.

[SEE SEPARATE Q10 ACTIVITIES LIST FOR ROUTING TO Q11 TO Q15]

WHEN EXHAUSTED TYPE none!

PROMPT: WHAT ELSE?

[ASK FOR EACH 'OTHER' CODED AT Q10]

Q10oth PLEASE ENTER <1ST…> OTHER

[**IF GARDENING CODED]**

READ OUT - YOU WILL BE ASKED SEPARATELY ABOUT GARDENING LATER IN THE INTERVIEW'

[IF DANCING CODED]
READ OUT - YOU WILL BE ASKED SEPARATELY ABOUT DANCING LATER IN THE INTERVIEW'

Q10SHOW AND FOLLOW UP QUESTIONS ADDED AS A TEST (PART OF SAMPLE) ON 20TH AUGUST 2012. ALL ACTIVITIES NEED TO BE SET IN SPORTS DATABASE AND RELEVANT FOLLOW UP QUESTION Q11-Q15 SHOULD BE ASKED. NEED TO INCLUDE A DUMMY QUESTION IN QUESTIONNAIRE TO SET Q10 WITH AND WITHOUT PROMPTED QUESTION.

[ASK ALL]

Q10SHOW We are interested in a wide variety of different types of sports, exercise and physical recreation activities. Please think about all the activities you've done in the last 4 weeks, whether socially, casually, for health and fitness, for competition, training or receiving tuition, but do not include any teaching, coaching or refereeing you may have done. You do not need to mention any activities that you have already told me about.

So, can I just check, since [^INSERT DATE^], have you done any…..

7. Less income / too expensive / can't afford to due to any other reason
8. Lack of time due to work commitments / work longer hours / longer commuting
9. Change of job

ACCESS AND OPPORTUNITIES

10. Not enough opportunities / inadequate facilities in my area
11. A course, class or club finished/not available anymore

OTHER

12. Pregnancy / looking after child or baby / having a family / family commitments
13. Less free time / lack of time for other reasons
14. Prefer to spend time doing other activities
15. Left school / not at school anymore

16. The weather
17. Don't have a dog anymore
18. General lack of interest/motivation
19. I was training for an event
20. Moved to a new area / home
21. Change in family structure (separation / bereavement / child leaving home)

22. No main reason
23. Other (please specify)
24. Don't know

Q24b ADDED AT START OF APS5

[ASK IF Q24 =1]

Q24b What is the main sport or recreational physical activity that you are doing more of?

DISPLAY Q10 DATABASE. SINGLE CODE.

DO NOT PROMPT. SINGLE CODE ONLY. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY
IF RESPONDENT SAYS DON'T KNOW, CODE ACCORDINGLY

Don't know

[ASK IF Q24b = 'OTHER']

Q24BTH1. PLEASE ENTER 1st OTHER

Q25a ADDED AT START OF APS5

[ASK IF Q24 = 1]

Q25a. What is the **main** reason why you are doing more?
SINGLE CODE. DO NOT READ OUT LIST. SCROLL THROUGH FULL LIST.

HEALTH/DISABILITY REASONS

1. To improve health
2. To increase fitness
3. Health recovered (general)
4. Recovered from injury
5. To improve appearance (lose weight, tone up)

WORK, INCOME AND ECONOMY

6. More income / ability to afford sports participation
7. Increased time due to reduced work commitments

PERFORMANCE

8. To improve skill levels
9. To increase competitive success
10. To prepare for a sports event/charity event

SOCIAL

11. To spend time with / support family
12. To spend time with / support friends
13. To meet new people
14. General enjoyment/I enjoy it

ACCESS AND OPPORTUNITIES

15. Increased opportunities / facilities in my area
16. Moved closer to facilities
17. More actively involved in a sports club / organisation

OTHER LIFE CIRCUMSTANCES

18. More free time because recently retired
19. More free time due to children growing up
20. More free time having completed studies
21. More free time (other reasons)
22. Got a dog
23. Moved to a new area / home
24. Change in family structure (separation / bereavement / child leaving home)
25. Environmental (enjoy being outdoors, sustainable transport)
26. No main reason
27. Other (please specify)
28. Don't know

J. LIKELIHOOD TO DO MORE SPORT

Q22 and Q23 ADDED AT START OF APS2

[ASK ALL]

Q22. Now thinking about the future, over the next 12 months, would you like to do more sport or recreational physical activity than you do at the moment?

1. Yes
2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q22 = 3 ONLY]

Q22ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

1. Proceed with interview (skips back to Q22)
2. Skip sports questions (skips to Q26)

RE-CONTACT FOR MAIN SURVEY

WORDING AMENDED FOR APS5, UPDATED ON 14th APRIL 2011

RC1. This survey was commissioned by Sport England thank you for taking part. Would you be willing for us to keep a record of your details so Sport England, or an organisation acting on their behalf, may re-contact you to ask you further questions on this survey or to take part in future research on this subject? There would be no obligation for you to take part.

1. Yes
2. No

NEW QUESTION ADDED ON 14th APRIL 2011

[ASK IF RC1 = 1]

RC1A. In order to carry out this future research, TNS may also need to provide your contact details together with relevant survey responses collected from you during this interview to Sport England or an organisation acting on their behalf. Would you be willing for this information to be passed on?

INTERVIEWER ADD IF NECESSARY: The information that we pass on may include the activities that you participate in or some of the classification data such as your age or sex. We would only pass your contact details and interview information onto Sport England or another research company doing legitimate research on behalf of Sport England, your interview data would never be passed to anyone else or used for commercial purposes.

1. Yes
2. No

[ASK IF RC1 = 1]

RC2. Can I please ask for your name?

ENTER NAME

[ASK IF RC1 = 1]

RC3. Could I take your email address?

1. Yes
2. No

[ASK IF RC3 = 1]

RC4. Record email address
INTERVIEWER: PLEASE READ BACK EMAIL ADDRESS TO RESPONDENT BEFORE MOVING ONTO NEXT SCREEN

[ASK IF D11_1-10 = 14 OR 15]

I'd now like to ask you a few quick questions about the [child / children] aged 14-15 in your household.

C1. During the interview, you mentioned that there [is a child / are children] living in your household aged 14 or 15. We are also conducting this survey with children aged 14 and 15, and would like to ask them a few questions if possible. Can I just ask, are you the parent or guardian of [this child / these children]?

1. Yes
2. No
3. Don't know
4. Refused

[ASK IF C1 = 2]

C1A. I'd like to ask a few questions about [this child / these children]. Could I speak to their parent or guardian please?

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM.
2. No, not available – CALL BACK – GO TO C1B
3. No, proxy refusal - CLOSE
4. No, not available (other reasons) - CLOSE

[ASK IF C1A = 2]

C1B. Please can I take the parent or guardian's name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL.

1. Insert Name – first name only is acceptable
2. Proxy deferral
3. Proxy refusal – hard

[IF C1B = 1]

GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT TO CALL BACK FOR PARENTAL PERMISSION – CALL BACK ON CHILD SCRIPT

INTRO FOR WHEN PARENT/GUARDIAN IS ON THE LINE:
Good afternoon/evening. My name is XXXXX calling on behalf of TNS – the independent research organisation. We are carrying out an important survey about people's leisure and recreational activities. It will be used to help shape local services in the future. As part of the survey we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do. Can I please ask you a few questions about your [child / children] aged between 14 and 15?

[IF (C1 = 1 or C1A = 1) AND D11_1-10 = MORE THAN ONE CHILD AGED 14-15 MENTIONED]

C2. Can I just ask, which child in the household aged between 14 and 15, has the next birthday?

ADD IF NECESSARY: Can I please take the name of this child? [FIRST NAME ONLY IS ACCEPTABLE]

PLEASE INSERT NAME OF SELECTED CHILD

1. All information refused

[IF (C1=1 or C1A = 1) AND ONLY ONE CHILD AGED 14-15 MENTIONED AT D11_1-10]

C2A. Can I please take the name of the child in the household aged [INSERT AGE ENTERED AT D11_1-10]?

PLEASE INSERT NAME OF SELECTED CHILD (FIRST NAME IS ACCEPTABLE)

1. All information refused

[IF C1 = 1 OR C1A = 1]

C2B. This survey is also being conducted with children aged 14 and 15 years old. We would like to conduct a short interview with [INSERT NAME FROM C2 OR C2A] to ask them some questions about their leisure and recreational activities. Can we have permission to speak to [INSERT NAME FROM C2 OR C2A]?

1. Yes – available
2. Yes – not available
3. No – permission refused

[IF C2B = 1 OR 2]

C2C. Could I please take your name? This is just so that we have a record of who gave permission to speak to [INSERT CHILD'S NAME].

INSERT ADULT'S NAME – PLEASE TAKE FULL NAME

[IF C2B = 1]

119881 – SPORT ENGLAND ACTIVE PEOPLE SURVEY 8

FINAL QUESTIONNAIRE – VERSION 36 (21ST MARCH 2014)

INTRODUCTION

INTRODUCTION AMENDED FOR START OF APS5, REFERENCE TO LA REMOVED ON 22ND MARCH '11

Good afternoon/evening. My name is XXXXX calling from TNS – the independent research organisation. We are carrying out an important survey on behalf of government agencies including Public Health England, an Agency of the Department of Health, about people's health and recreational activities. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

Intro CODE OUTCOME FROM LIST BELOW

1. Continue
2. Not available - make appointment
3. Business
4. Hard Refusal
5. Deferral - May complete at later date
6. Foreign language required
7. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]

For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. Urdu (close and reissue)
2. Hindi (close and reissue)
3. Gujarati (close and reissue)
4. Asian Not Known (close and reissue)
5. Other (Specify and close)

[INSERT QUESTION ONLY FOR SAMPLE FLAGGED AS BORDER AREA]

The survey covers only England so can I just check whether you live in England?

1. Yes – proceed to next screen
2. No – TIPCODE K – Outside sample frame

SCREENER QUESTIONS

S3. To make sure we speak to a good cross section of the public can you please tell me how many people aged 16 or over currently live in your household including yourself?
CODE NULL IF NO PEOPLE AGED 16 or OVER

1. 1 – Go to S9
2. 2 – Go to S6
3. 3 – Go to S4
4. 4 – Go to S4
5. 5 – Go to S4
6. 6 – Go to S4
7. 7 or more – Go to S4
8. Business number – TIPCODE 417
9. Don't know – Go to S4
10. Refused – Go to S4

ALLOW NULL - Close

IF S3 = 1 GO TO S9.
IF S3 = 2 GO TO S6.
IF S3 = 8 TIPCODE H.
IF S3 = DK OR REF GO TO S4.

[ASK IF S3 = 3, 4, 5, 6, 7 AND RIZZO METHOD SELECTS ANOTHER MEMBER OF THE HOUSEHOLD OR IF S3 = 9 OR 10]. IF SCREENER RESPONDENT SELECTED VIA RIZZO GO TO S9]

S4. Could I speak to the person aged 16 or over who has the next birthday?
[INCLUDE INTERVIEWER NOTE ONLY IF S3 = 3, 4, 5, 6 OR 7] INTERVIEWER NOTE: This does not include the person you are speaking to, it must be another member of the household.
IF NECESSARY SAY THE PERSON WITH THE NEXT BIRTHDAY IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND.

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) - Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S3 = 2 AND RIZZO DOES NOT SELECT THE SCREENER RESPONDENT. IF SCREEN RESPONDENT SELECTED VIA RIZZO GO TO S9]

S6. In households where there are no more than two adults, we are using a random method to select which one of these adults takes part in this survey. On this occasion it is the other person that I would like to speak to. May I speak to that person? IF NECESSARY SAY THE OTHER PERSON IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) – Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S4 = 2 OR S6 = 2]

S5. Please can I take the persons name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL TO DO THE INTERVIEW.

1. Insert Name – first name only is acceptable - Go to S7
2. Proxy deferral
3. Proxy refusal – hard

[ASK IF S5 = 1]

S7. GO TO APPOINTMENT SCREEN TO BOOK APPOINTMENT.

[ASK S4 or S6 = 6 or 8]

S8. We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. English (continue)
2. Urdu (close and reissue)
3. Hindi (close and reissue)
4. Gujarati (close and reissue)
5. Asian Not Known (close and reissue)
6. Hard of hearing/speech impediment – Type Talk *(auto coded from code 8 at S4 or S6)*
7. Other (Specify and close)

[ASK IF S3 = 1 OR SCREENER RESP SELECTED VIA RIZZO OR S4 = 1 OR 7 OR S6 = 1 OR 7]

S9. INTERVIEWER CODE

1. Respondent willing
2. Hard refusal
3. Deferral
4. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

[IF S9 = 1]

I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate.

A. WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]

Q1r. Firstly, I would like you to think about all the walking you have done. Please include any country walks, walking to and from work or the shops and any other walks you may have done. Please

exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done at least one continuous walk lasting at least 10 minutes?

1. Yes
2. No
3. Unable to walk
4. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]

Q3r. On how many days in the last four weeks have you done at least one continuous walk lasting at least 10 minutes?
THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)

Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done at least one continuous walk lasting at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. Can I ask, on how many of those days did you walk for the purpose of health or recreation not to get from place to place again please exclude time spent walking around shops?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation, not to get from place to place, during the course of the day? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you may have done. Please include any casual cycling in your local area, any cycling in the countryside or on cycling routes, cycling to or from work or any competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

1. Yes
2. No
3. Don't know

[ASK IF 6a=1]

Q6b. On how many days in the last 4 weeks have you done any cycling? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling during the course of the day?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q6r.

Q8 UPDATED FOR APS6 – ROUTING BASED ON Q6a and TEXT SUBS FROM Q6b, Q8 QUESTION TEXT UPDATED IN JANUARY 2012

[ASK IF Q6a = 1]

Q8. You said that you had cycled on *[^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks*. Can I ask, on how many of those days did you cycle for the purpose of health, recreation, training or competition not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b

Don't know

Q8a ADDED FOR APS6, AMENDED IN JANUARY 2012

[ASK IF Q8>=1]

Q8ar. Thinking only about continuous cycle rides for the purpose of health, recreation, training or competition not to get from place to place, how long do you usually cycle for?

IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE, TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q8a.

Q8B ADDED FOR APS6

[ASK IF Q8>=1]

Q8b. Again thinking only about cycling for the purpose of health, recreation, training or competition, what is the main type of cycling you do?

SINGLE CODE

1. Recreational cycling – General
2. Mountain biking
3. BMX
4. Road cycling
5. Track cycling
6. Cyclo-cross

[ASK IF Q8 >=1]

Q13a. During the last four weeks, was the effort you put into recreational cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 >=1]

Q14a. During the last four weeks, was the effort you put into recreational cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

Q13B and Q14B ADDED FOR APS6 M5

[ASK IF Q8 = 0 or DK]

Q13b. During the last four weeks, was the effort you put into cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 = 0 or DK]

Q14b. During the last four weeks, was the effort you put into cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

C. SPORTS AND RECREATION

[ASK ALL]

Q9. I have already asked you about walking and cycling. I would now like to ask you about other types of sport and recreational physical activity you may have done.

Please think about all the activities you did, *in the last four weeks,* whether for competition, training or receiving tuition, socially, casually or for health and fitness, but do not include any teaching, coaching or refereeing you may have done.

So thinking about *the last four weeks*, *that is since [^INSERT DATE^]*, did you do any sporting or recreational physical activity?

1. Yes
2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q9 = 3 ONLY]

Q9ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

1. Proceed with interview (skips back to question)
2. Skip sports questions (skips to Q26)

[ASK IF Q9 = 1]

Q10. What have you done?

5. Yes
6. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q28.

[ASK Q29 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q29]

Q29. During the last four weeks, was the effort you put into [^INSERT ACTVITY FROM Q26^] usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK Q30 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q30]

Q30. During the last four weeks, was the effort you put into [^INSERT FROM Q26^] usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

HEALTH

BMI QUESTIONS ADDED IN JANUARY 2012, MOVED AT START OF APS8

The next questions are about factors relating to your health.

RM8. Firstly I would like to ask you about your height and weight. There is an interest in how people's weight, given their height, is associated with their health.

Firstly, how tall are you without shoes? You may provide your height in feet and inches or in centimetres.
INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL HEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE.

RESPONDENTS MAY PROVIDE HALF UNITS SO IF HEIGHT IS STATED AS 5FT 4 AND A HALF INCHES, THIS WOULD BE CODED AS 5FT 4.5INCHES

1. Feet and inches – GO TO RM8a
2. Centimetres - GO TO RM8b
3. Cannot give estimate – GO TO RM9
4. Refused

ENTER HEIGHT

[ASK IF RM8 = 1]

RM8a ENTER FEET AT THIS SCREEN……(ENTER FEET – NUMBER RANGE 3 to 7)

ENTER INCHES AT THIS SCREEN – PLEASE NOTE INCHES TO THE NEAREST HALF AN INCH.

RESPONDENT MAY PROVIDE HALF UNITS FOR EXAMPLE 1.5…. (ENTER INCHES – NUMBER RANGE 0 to 11.5)

[ASK IF RM8 = 2]

RM8b Centimeters…. (ENTER CMs – NUMBER RANGE 90 to 240)

IF D1 = 1 AND LESS THAN (5FT 4IN / 164 CM) OR MORE THAN THAN (6 FEET AND 5 INCHES / 196 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

IF D1 = 2 AND LESS THAN (4FT 11IN / 150 CM) OR MORE THAN THAN (5FT 10IN / 178 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT: YOU SAID YOUR HEIGHT IS [^INSERT FEET^] AND [^INSERT INCHES^] / [^INSERT CMs^], IS THAT CORRECT?

1. Yes

2. No
3. Refused

IF = 1 or 3 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT RM8a or RM8b

[ASK IF RM8 = 1 OR 2]

RM8c *Would you say that you know your height accurately, this is a pretty good estimate, or this is a guess?*

1. Accurately
2. A pretty good estimate
3. A guess
4. Refused

[ASK ALL]

RM9. *What is your current weight? You may provide this in stones and pounds or kilograms. INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL WEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE.*

1. Stones and pounds – GO TO RM9a
2. Kilograms - GO TO RM9b
3. Cannot give estimate – GO TO RM12
4. Refused

ENTER WEIGHT

[ASK IF RM9 = 1]

RM9a Stones…. (ENTER STONES – NUMBER RANGE 3 to 40)
Pounds… (ENTER POUNDS – NUMBER RANGE 0 to 13)

[ASK IF RM9 = 2]

IF LESS THAN (7 STONES / 45 KG) OR MORE THAN THAN (18 STONES / 114 KG) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT: YOU SAID YOUR CURRENT WEIGHT IS [^INSERT STONES^] AND [^INSERT POUNDS^] / [^INSERT KGs^], IS THAT CORRECT?

1. Yes
2. No
3. Refused

IF = 1 or 3 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT RM9a or RM9b

[ASK IF RM9 = 1 OR 2]

RM9c *Would you say that you know your weight accurately, this is a pretty good estimate, or this is a guess?*

1. Accurately
2. A pretty good estimate
3. A guess
4. Refused

[ASK ALL]

RM12 Would you say that for your height you are…

READ OUT

1. About the right weight
2. Underweight
3. Slightly overweight
4. Very overweight
5. Don’t know
6. Refused

I would now like to ask you two questions about your diet.

[ASK ALL]

Q31 How many portions of fruit did you eat yesterday? Please include all fruit, including fresh, frozen dried or tinned fruit, stewed fruit or fruit juices and smoothies.

INTERVIEWER ADD IF NECESSARY: A portion is half a large fruit such as a grapefruit, avocado, one medium sized fruit such as an apple, orange or pear, 2 small fruits such as plums or satsumas, a handful of grapes or berries, a heaped tablespoon of dried fruit, 3 heaped tablespoons of fruit salad or stewed fruit. A glass of fruit juice counts as one portion but can only be counted as one portion even if several glasses have been consumed.

NUMERIC. MIN 0, MAX 99

Don’t know

[ASK IF Q31>9]

Q31chk You said that you ate [^INSERT PORTION FROM Q31^] portions of fruit yesterday. Can I just check if that is correct?

1. Yes
2. No

IF Q31ck = 1 GO TO Q32.
IF Q31ck = 2 GO BACK TO Q31

[ASK ALL]

Q32 How many portions of vegetables did you eat yesterday? Please include fresh, frozen, raw or tinned vegetables, but do not include any potatoes you ate.

INTERVIEWER ADD IF NECESSARY: A portion is 3 heaped tablespoons of vegetables, 3 heaped tablespoons of beans or pulses (such as baked beans or kidney beans). Beans and pulses only count once towards your daily portions no matter how much of them you eat. Potatoes do not count.

NUMERIC. MIN 0, MAX 99

Don’t know

[ASK IF Q32>9]

Q32chk You said that you ate [^INSERT PORTION FROM Q32^] portions of vegetables yesterday. Can I just check if that is correct?

1. Yes
2. No

IF Q32ck = 1 GO TO NEXT SECTION.
IF Q32ck = 2 GO BACK TO Q32

DEMOGRAPHICS

I would like to finish the survey by asking you a few questions about you and your household. Please be assured that we are bound by the MRS code of conduct and all of your details are held in the strictest confidence.

INTERVIEWER ADD IF NECESSARY: We ask these questions to look at the experiences of different groups of society so we can measure the sports activities and use of facilities among these groups.

INTERVIEWER INSTRUCTION ADDED ON 22ND MARCH 2011 (GENDER) AND REMOVED IN JANUARY 2012. RESPONDENT QUITS INTERVIEW CODE REMOVED FROM ALL PRE-CODED QUESTIONS IN JAN 2012 – ALSO QUIT FUNCTION AMENDED. PARTIAL INTERVIEWS ALLOWED FROM 10th AUGUST '12 – INTERVIEWER INSTRUCTION ADDED AT D1.

RE-CONTACT FOR MAIN SURVEY

WORDING AMENDED FOR APS5, UPDATED ON 14th APRIL 2011

RC1. This survey was commissioned by Sport England with funding from Public Health England, thank you for taking part. Would you be willing for us to keep a record of your details so Sport England, or an organisation acting on their behalf, may re-contact you to ask you further questions on this survey or to take part in future research on this subject? There would be no obligation for you to take part.

1. Yes
2. No

NEW QUESTION ADDED ON 14th APRIL 2011

[ASK IF RC1 = 1]

RC1A. In order to carry out this future research, TNS may also need to provide your contact details together with relevant survey responses collected from you during this interview to Sport England or an organisation acting on their behalf. Would you be willing for this information to be passed on?

INTERVIEWER ADD IF NECESSARY: The information that we pass on may include the activities that you participate in or some of the classification data such as your age or sex. We would only pass your contact details and interview information onto Sport England or another research company doing legitimate research on behalf of Sport England, your interview data would never be passed to anyone else or used for commercial purposes.

1. Yes
2. No

[ASK IF RC1 = 1]

RC2. Can I please ask for your name?

ENTER NAME

[ASK IF RC1 = 1]

RC3. Could I take your email address?

1. Yes
2. No

[ASK IF RC3 = 1]

RC4. Record email address

INTERVIEWER: PLEASE READ BACK EMAIL ADDRESS TO RESPONDENT BEFORE MOVING ONTO NEXT SCREEN

[ASK IF D11_1-10 = 14 OR 15]

I'd now like to ask you a few quick questions about the [child / children] aged 14-15 in your household.

C1. During the interview, you mentioned that there [is a child / are children] living in your household aged 14 or 15. We are also conducting this survey with children aged 14 and 15, and would like to ask them a few questions if possible. Can I just ask, are you the parent or guardian of [this child / these children]?

1. Yes
2. No
3. Don't know
4. Refused

[ASK IF C1 = 2]

C1A. I'd like to ask a few questions about [this child / these children]. Could I speak to their parent or guardian please?

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM.
2. No, not available – CALL BACK – GO TO C1B
3. No, proxy refusal - CLOSE
4. No, not available (other reasons) - CLOSE

[ASK IF C1A = 2]

C1B. Please can I take the parent or guardian's name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL.

1. Insert Name – first name only is acceptable
2. Proxy deferral
3. Proxy refusal – hard

[IF C1B = 1]

GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT TO CALL BACK FOR PARENTAL PERMISSION – CALL BACK ON CHILD SCRIPT

INTRO FOR WHEN PARENT/GUARDIAN IS ON THE LINE:

Good afternoon/evening. My name is XXXXX calling from TNS – the independent research organisation. We are carrying out an important survey on behalf of government agencies including Public Health England, an Agency of the Department of Health, about people's health and recreational activities. As part of the survey we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do. Can I please ask you a few questions about your [child / children] aged between 14 and 15?

[IF (C1 = 1 or C1A = 1) AND D11_1-10 = MORE THAN ONE CHILD AGED 14-15 MENTIONED]

C2. Can I just ask, which child in the household aged between 14 and 15, has the next birthday?

ADD IF NECESSARY: Can I please take the name of this child? [FIRST NAME ONLY IS ACCEPTABLE]

PLEASE INSERT NAME OF SELECTED CHILD

1. All information refused

[IF (C1=1 or C1A = 1) AND ONLY ONE CHILD AGED 14-15 MENTIONED AT D11_1-10]

C2A. Can I please take the name of the child in the household aged [INSERT AGE ENTERED AT D11_1-10]?

PLEASE INSERT NAME OF SELECTED CHILD (FIRST NAME IS ACCEPTABLE)

1. All information refused

[IF C1 = 1 OR C1A = 1]

C2B. This survey is also being conducted with children aged 14 and 15 years old. We would like to conduct a short interview with [INSERT NAME FROM C2 OR C2A] to ask them some questions about their leisure and recreational activities. Can we have permission to speak to [INSERT NAME FROM C2 OR C2A]?

1. Yes – available
2. Yes – not available
3. No – permission refused

[IF C2B = 1 OR 2]

C2C. Could I please take your name? This is just so that we have a record of who gave permission to speak to [INSERT CHILD'S NAME].

INSERT ADULT'S NAME – PLEASE TAKE FULL NAME

[IF C2B = 1]

INTRODUCTION

INTRODUCTION AMENDED FOR START OF APS5, REFERENCE TO LA REMOVED ON 22ND MARCH '11

Good afternoon/evening. My name is XXXXX calling from TNS – the independent social research organisation. We are carrying out an important study on behalf of government agencies including Public Health England, an Agency of the Department for Health, about people's health and recreational activities. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

The information will be used to help shape local and national services.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

Intro CODE OUTCOME FROM LIST BELOW

1. Continue
2. Not available - make appointment
3. Business
4. Hard Refusal
5. Deferral - May complete at later date
6. Foreign language required
7. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]

For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. Urdu (close and reissue)
2. Hindi (close and reissue)
3. Gujarati (close and reissue)
4. Asian Not Known (close and reissue)
5. Other (Specify and close)

[INSERT QUESTION ONLY FOR SAMPLE FLAGGED AS BORDER AREA]
Can I just check whether you live in England?

1. Yes – proceed to next screen
2. No – TIPCODE K – Outside sample frame

SCREENER QUESTIONS

S3. How many people aged 16 or over currently live in your household including yourself?
CODE NULL IF NO PEOPLE AGED 16 or OVER

1. 1 – Go to S9
2. 2 – Go to S6

3. 3 – Go to S4
4. 4 – Go to S4
5. 5 – Go to S4
6. 6 – Go to S4
7. 7 or more – Go to S4
8. Business number – TIPCODE 417
9. Don't know – Go to S4
10. Refused – Go to S4

ALLOW NULL - Close

IF S3 = 1 GO TO S9.
IF S3 = 2 GO TO S6.
IF S3 = 8 TIPCODE H.
IF S3 = DK OR REF GO TO S4.

[ASK IF S3 = 3, 4, 5, 6, 7 AND RIZZO METHOD SELECTS ANOTHER MEMBER OF THE HOUSEHOLD OR IF S3 = 9 OR 10]. IF SCREENER RESPONDENT SELECTED VIA RIZZO GO TO S9]

S4. To make sure we speak to a good cross section of the public, we are using a random method to select who takes part. Could I speak to the person aged 16 or over TEXTSUB IF S3 = 3,4,5,6 or 7 <, not yourself, >who has the next birthday?
[INCLUDE INTERVIEWER NOTE ONLY IF S3 = 3, 4, 5, 6 OR 7] INTERVIEWER NOTE: This does not include the person you are speaking to, it must be another member of the household.
IF NECESSARY SAY THE PERSON WITH THE NEXT BIRTHDAY IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND.

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) - Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S3 = 2 AND RIZZO DOES NOT SELECT THE SCREENER RESPONDENT. IF SCREEN RESPONDENT SELECTED VIA RIZZO GO TO S9]

S6. To make sure we speak to a good cross section of the public, we are using a random method to select who takes part. On this occasion it is the other person that I would like to speak to. May I speak to that person? IF NECESSARY SAY THE OTHER PERSON IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
2. No, not available – Go to S5
3. Proxy deferral
4. Proxy refusal – hard
5. Proxy - other non interview (not capable of taking part eg. disabilities)
6. Proxy wrong language – Go to S8
7. Proxy interview (unable to come to phone eg. disability) – Go to S9
8. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S4 = 2 OR S6 = 2]

S5. Please may I take the person's name so we know who to ask for next time we call?

1. Insert Name – first name only is acceptable - Go to S7
2. Proxy deferral
3. Proxy refusal – hard

[ASK IF S5 = 1]

S7. GO TO APPOINTMENT SCREEN TO BOOK APPOINTMENT.

[ASK S4 or S6 = 6 or 8]

S8. We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. English (continue)
2. Urdu (close and reissue)
3. Hindi (close and reissue)
4. Gujarati (close and reissue)
5. Asian Not Known (close and reissue)
6. Hard of hearing/speech impediment – Type Talk *(auto coded from code 8 at S4 or S6)*
7. Other (Specify and close)

[ASK IF S3 = 1 OR SCREENER RESP SELECTED VIA RIZZO OR S4 = 1 OR 7 OR S6 = 1 OR 7]

S9. INTERVIEWER CODE

1. Respondent willing
2. Hard refusal
3. Deferral
4. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

[IF S9 = 1]

I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate.

A.WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]

Q1r. I would like you to think about all the walking you have done. Please include any country walks, walking to and from work or the shops and any other walks. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done a continuous walk lasting at least 10 minutes?

1. Yes
2. No
3. Unable to walk
4. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]

Q3r. On how many days in the last four weeks have you done a walk of at least 10 minutes?

THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done a walk of at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. On how many of those days did you walk for the purpose of health or recreation, not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you have done. Please include casual cycling in your local area, cycling in the countryside or on cycling routes, cycling to or from work or competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

[ADD IF Q1r = 3] INTERVIEWER READ OUT IF NECESSARY: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK WE ARE STILL INTERESTED IN OTHER ACTIVITIES THAT YOU MAY DO.

1. Yes
2. No
3. Don't know

[ASK IF 6a=1]

Q6b. On how many days IF NECESSARY: (in the last 4 weeks have you done any cycling)? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling? IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q6r.

Q8 UPDATED FOR APS6 – ROUTING BASED ON Q6a and TEXT SUBS FROM Q6b, Q8 QUESTION TEXT UPDATED IN JANUARY 2012

[ASK IF Q6a = 1]

Q8. You said that you had cycled on *[^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks*. On how many of those days did you cycle for the purpose of health, recreation, training or competition not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b

Don't know

Q8a ADDED FOR APS6, AMENDED IN JANUARY 2012

[ASK IF Q8>=1]

Q8ar. Thinking only about continuous cycle rides for the purpose of health, recreation, training or competition, how long do you usually cycle for?

IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE, TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q8a.

Q8B ADDED FOR APS6

[ASK IF Q8>=1]

Q8b. Again thinking only about cycling for the purpose of health, recreation, training or competition, do you mainly do..

READ OUT

SINGLE CODE

1. … general recreational cycling,
2. mountain biking,
3. BMX,
4. road cycling,
5. track cycling or

6. Cyclo-cross?

[ASK IF Q8 >=1]

Q13a. During the last four weeks, was the effort you put into recreational cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 >=1]

Q14a. During the last four weeks, was the effort you put into recreational cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

Q13B and Q14B ADDED FOR APS6 M5

[ASK IF Q8 = 0 or DK]

Q13b. During the last four weeks, was the effort you put into cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 = 0 or DK]

Q14b. During the last four weeks, was the effort you put into cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

C.SPORTS AND RECREATION

[ASK ALL]

Q9. I would now like to ask you about <u>other</u> types of sport and recreational physical activity you have done.

Please include activities for competition, training or receiving tuition, socially, casually or for health and fitness, but <u>do not include any teaching, coaching or refereeing you may have done</u>.

So in <u>*the last four weeks*</u>, <u>*that is since [^INSERT DATE^]*</u>, did you do any sporting or recreational physical activity?

1. Yes
2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q9 = 3 ONLY]

Q9ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

1. Proceed with interview (skips back to question)
2. Skip sports questions (skips to Q26)

[ASK IF Q9 = 1]

Q10. What have you done?
DO NOT PROMPT. CODE ALL MENTIONED. WHERE A DATABASE SEARCH BRINGS UP A NUMBER OF ACTIVITIES FOR A SPORT PLEASE PROBE CAREFULLY FOR THE EXACT ACTIVITY UNDERTAKEN. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY.

[SEE SEPARATE Q10 ACTIVITIES LIST FOR ROUTING TO Q11 TO Q15]

WHEN EXHAUSTED TYPE none!

PROMPT: WHAT ELSE?

[ASK FOR EACH 'OTHER' CODED AT Q10]

Q10oth PLEASE ENTER <1ST…> OTHER

[**IF GARDENING CODED]**

READ OUT - YOU WILL BE ASKED SEPARATELY ABOUT GARDENING LATER IN THE INTERVIEW'

[IF DANCING CODED]

READ OUT - YOU WILL BE ASKED SEPARATELY ABOUT DANCING LATER IN THE INTERVIEW'

[ASK IF DEEP WATER SWIMMING IS CODED AT Q10 DATABASE]
ONLY CODE DEEP WATER IF RESPONDENT SAYS DEEP WATER. IF RESPONDENT SAYS JUST "SWIMMING" PROBE FOR INDOORS OR OUTDOORS AND CODE APPROPRIATELY.

Qdeep Did the respondent specifically mention "deep water swimming"?

1. Yes
2. No

[ASK IF OPEN WATER SWIMMING IS CODED AT Q10 DATABASE]
ONLY CODE OPEN WATER IF RESPONDENT SAYS OPEN WATER. IF RESPONDENT SAYS JUST "SWIMMING" PROBE FOR INDOORS OR OUTDOORS AND CODE APPROPRIATELY.

Qopen Did the respondent specifically mention "open water swimming"?

1. Yes
2. No

[ASK IF Q9 = 1 AND q10 <u>NOT</u> = 9, 78, 79, 161]

Fish. Have you done any fishing in the last four weeks, that is since *[^INSERT DATE^]*?

1. Yes
2. No
3. Don't know

FISHING QUESTION ROUTING Q11 to Q14 ADDED AT START M6 OF APS4

[ASK IF FISH = 1]

Fish1 Was this?

1. Sea fishing
2. Fishing – game / fly fishing
3. Fishing – coarse / freshwater
4. Fishing – wheelchair sports

[FOLLOW RELEVANT ROUTING THROUGH Q11 TO Q14]

[ASK FOR EACH SNOWSPORT ACTIVITY CODED AT Q10 DATABASE = 1 thru 9 or 11]

Snow1. Was this in?

1. England
2. Other United Kingdom (Scotland, Wales, N Ireland)
3. Overseas

[ASK IF SNOW1 = 1] [DO NOT DISPLAY OPTION 1 (Indoor snow slope) IF CODE 97 (SKI-ING - GRASS OR DRY SKI SLOPE)

Snow2. Was this?

1. Indoor snow slope
2. Dry slope
3. Other

[ASK IF WEIGHT TRAINING CODED AT Q10 DATABASE]

WeightTraining. What type of weight training did you do?

INTERVIEWER NOTE: We are interested in respondents primary motivation for weight training for example whether it is for general fitness or to participate in a specific sport, and the type of equipment primarily used (e.g. free weights or resistance machines).

1. Weight training (free weights) - general fitness with a personal trainer

3. Weight training (free weights) - for specific sport
4. Weight training (resistance machines) - general fitness with a personal trainer
5. Weight training (resistance machines) – general fitness without a personal trainer
6. Weight training (resistance machines) - for specific sport

[ASK IF WEIGHTLIFTING CODED AT Q10 DATABASE]

Weightlifting. Is that Snatch / Clean & Jerk?

INTERVIEWER NOTE: If the answer is no please enter weight training at the database and code as a weight training activity.

1. Yes
2. No - (this will skip back to Q10)

[ASK IF POWERLIFTING CODED]

Powerlifting. Is that Special Olympians or Paralympic Bench Press powerlifting?

INTERVIEWER NOTE: If it is not one of these please enter 'Neither' at the below.

1. Powerlifting - Special Olympians
2. Powerlifting Paralympic - Bench press
3. Neither - (allocate to existing 'general' powerlifting code (code no 289))

[ASK IF CRICKET CODED AT Q10 DATABASE]

Cricket. What types of cricket have you done in the last four weeks – cricket match, practice or nets, or some other type? Was that outdoors or indoors?

INTERVIEWER NOTE: any mention of 'nets' is cricket practice.

1. cricket (outdoors) - match
2. cricket (indoors) - match
3. cricket (outdoor) - nets / practice
4. cricket (indoors) - nets / practice
5. Cricket - Other

[ASK IF RUGBY UNION CODED AT Q10 DATABASE]

RugbyUnion.. What type of Rugby Union have you done in the last four weeks – 15 a side game, Sevens, Tag rugby, Touch rugby or some other type?

1. Rugby union - 15 a side game
2. Rugby union – Sevens
3. Rugby union - Tag rugby
4. Rugby union - Touch rugby
5. Rugby Union - Other

[ASK IF RUGBY LEAGUE CODED AT Q10 DATABASE]

RugbyLeague. What type of Rugby League have you done in the last four weeks – 13 a side game, Tag rugby, Touch rugby or some other type?

1. Rugby league - 13 a side game
2. Rugby league - Tag rugby
3. Rugby League - Touch rugby
4. Rugby league - Other

[ASK IF RUGBY TAG CODED]

RugbyTag. Is the Tag rugby you did Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby - Other'.

1. Rugby league - Tag rugby
2. Rugby union - Tag rugby
3. Rugby - Other

[ASK IF RUGBY TOUCH CODED]

RugbyTouch. Is the Touch rugby you did Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby - Other'.

1. Rugby league - Touch rugby
2. Rugby union - Touch rugby
3. Rugby - Other

[ASK IF Q10 = 5, 6, 7, 8, 178, or 179 AND Q8 >=1]

Cycl. Is that in addition to any RECREATIONAL cycling you have already mentioned?

1. Yes
2. No
3. Don't know

[Cycl. = 1 ADD TO ACTIVITIES AT Q10. Cycl. = 2 OR 3 DO NOT ADD TO ACTIVITIES AT Q10.]

[ASK IF Q10 = 114, 115, 116, 117, 118, 145, 146 or CLIMB = 3, 4 or 5 AND Q3b >=1]
Walk. Is that in addition to any RECREATIONAL walking you have already mentioned?

1. Yes
2. No
3. Don't know

To here

Q11. On how many days in the last four weeks have you done [^INSERT ACTIVITY^]
THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

2. No
3. Don't know

Q15 – routing (RECREATIONAL CYCLING AND WALKING ROUTING AMENDED IN JANUARY 2012)

ACTIVITIES ROUTED FROM Q10 LIST [SEE SPREADSHEET – Q15 – Routing column]

- ✓ **ACTIVITIES 'Always included' INSERTED AT Q15 IF Q12 >=30 mins**
- ✓ **ACTIVITIES 'Only if Q13' INSERTED AT Q15 IF Q13 = 1 AND Q12 >=30 mins**
- ✓ **ACTIVITIES 'Only if Q4=3or4' INSERTED AT Q15 IF Q4 = 3 OR 4 OR Q4a = 3 OR 4 AND Q12 >=30 mins**

RECREATIONAL WALKING INSERTED AT Q15 IF Q3c>=30 mins AND Q4 = 3 OR 4.
RECREATIONAL CYCLING INSERTED AT Q15 IF Q8aR>=30 mins AND Q13a = 1 OR Q14a = 1.

Q15. Thinking about the [ACTIVITIES ROUTED FROM Q10 LIST] [and] [RECREATIONAL WALKING] [and] [RECREATIONAL CYCLING] you have done in the last four weeks.

Can I ask on how many days in the last four weeks, in total, did you do at least one of these activities [this activity] for at least 30 minutes?

IF ONLY ONE ACTIVITY IS INCLUDED AT Q15 DISPLAY ALTERNATIVE QUESTION TEXT
Can I just confirm on how many days in the last four weeks did you do [INSERT ACTIVITY] for at least 30 minutes?

VERY IMPORTANT: PLEASE ENSURE IT IS ONLY THE ACTIVITIES DISPLAYED ABOVE THAT ARE INCLUDED IN THE NUMBER OF DAYS COUNTED IN THIS QUESTION.

THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. FOR THOSE DAYS THAT YOU HAVE DONE MORE THAN ONE ACTIVITY ON A DAY YOU NEED TO COUNT AS JUST ONE DAY.

IF RESPONDENT ASKS WHY WE ARE ONLY ASKING ABOUT SOME OF THE ACTIVITIES THEY HAVE MENTIONED SAY: 'We just want to focus on specific activities of particular benefit to health'.

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

[ASK IF RESPONSE TO Q15 IS LESS THAN OR MORE THAN THE TOTAL NUMBER OF DAYS FROM ELIGIBLE ACTIVITIES CODED AT Q3b or Q8 or Q10]

Q15ck. This doesn't quite match the answers you gave previously. You said that you did [INTERVIEWER READ OUT ACTIVITIES AND DAYS BELOW] in the last 4 weeks. Can I just check again, on how many days in the last 4 weeks did you do AT LEAST ONE of these activities for at least 30 minutes.
Enter number of days given

<INSERT LIST OF ACTIVITES AND NUMBER OF DAYS FOR EACH ACTIVITY FROM Q15>

On how many days in the last 4 weeks, in total, did you do AT LEAST ONE of these activities for at least 30 minutes.

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

K. DANCE AND GARDENING QUESTIONS

DANCE AND GARDENING QUESTIONS ADDED AT START OF APS3 MONTH 4 - 14 Jan 09
TEMPORARILY REMOVED IN APS6Q1, ADDED BACK IN – JANUARY 2012

[ASK ALL]

Q26.

I'd now like to ask if you have done any dancing or gardening, *in the last four weeks*, *that is since [^INSERT^]*,

READ OUT – Please include all types of dancing except dance as part of an exercise class.

Exclude any dancing or gardening where you received payment as part of your job.

READ OUT IF REQUIRED - conservation related gardening activities are those where organisations inspire individuals to improve both their health and the environment at the same time such as green gyms which offer the opportunity to tackle physical jobs in the outdoors whilst benefiting local green spaces.

Have you done..

READ OUT LIST, CODE ALL THAT APPLY

1. Dancing,
2. Gardening at home,
3. Gardening at an allotment,
4. Conservation related gardening,
5. Or any other gardening?
6. No dance or gardening done (SINGLE CODE ONLY)
7. Don't know

[ASK Q26 TO Q30 IF Q26 = 1. INSERT ACTVITY "dancing"]
[ASK Q26 TO Q30 IF Q26 = 2 or 3 or 4 or 5. INSERT ACTVITY "gardening"]

Q27. On how many days in the last four weeks did you do [^INSERT ACTIVITY FROM Q26^]?
THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q28. And how long do you USUALLY do [^INSERT ACTVITY FROM Q26^] for?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES OR ALLOTMENTS etc.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

IF Q26 = 1 AND LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 2 HOURS 0 MINS.
IF Q26 = 2 or 3 or 4 or 5 AND LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 6 HOURS 0 MINS.

DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q28.

[ASK Q29 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q29]

Q29. During the last four weeks, was the effort you put into [^INSERT ACTVITY FROM Q26^] usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK Q30 IF Q28 >= 30] [Q28 = DK OR REFUSED NOT ROUTED TO Q30]

Q30. During the last four weeks, was the effort you put into [^INSERT FROM Q26^] usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

HEALTH

BMI QUESTIONS ADDED IN JANUARY 2012, MOVED AT START OF APS8

RM8. Now I would like to ask you about your height and weight. There is an interest in how people's weight, given their height, is associated with their health.

Firstly, how tall are you without shoes? You may provide your height in feet and inches *or* in centimetres.
INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL HEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE.

RESPONDENTS MAY PROVIDE HALF UNITS SO IF HEIGHT IS STATED AS 5FT 4 AND A HALF INCHES, THIS WOULD BE CODED AS 5FT 4.5INCHES

1. Feet and inches – GO TO RM8a
2. Centimetres - GO TO RM8b
3. Cannot give estimate – GO TO RM9
4. Refused

ENTER HEIGHT

[ASK IF RM8 = 1]

RM8a ENTER FEET AT THIS SCREEN……(ENTER FEET – NUMBER RANGE 3 to 7)

ENTER INCHES AT THIS SCREEN – PLEASE NOTE INCHES TO THE NEAREST HALF AN INCH.

RESPONDENT MAY PROVIDE HALF UNITS FOR EXAMPLE 1.5…. (ENTER INCHES – NUMBER RANGE 0 to 11.5)

[ASK IF RM8 = 2]

RM8b Centimeters…. (ENTER CMs – NUMBER RANGE 90 to 240)

IF D1 = 1 AND LESS THAN (5FT 4IN / 164 CM) OR MORE THAN THAN (6 FEET AND 5 INCHES / 196 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

IF D1 = 2 AND LESS THAN (4FT 11IN / 150 CM) OR MORE THAN THAN (5FT 10IN / 178 CM) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT: YOU SAID YOUR HEIGHT IS [^INSERT FEET^] AND [^INSERT INCHES^] / [^INSERT CMs^], IS THAT CORRECT?

1. Yes
2. No
3. Refused

IF = 1 or 3 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT RM8a or RM8b

[ASK IF RM8 = 1 OR 2]

RM8c Would you say that you know your height accurately, this is a pretty good estimate, or this is a guess?

1. Accurately
2. A pretty good estimate
3. A guess
4. Refused

[ASK ALL]

RM9. What is your current weight? You may provide this in stones and pounds or kilograms. INTERVIEWER CODE UNIT OF MEASUREMENT AT THIS QUESTION AND THEN ENTER ACTUAL WEIGHT AT NEXT QUESTION. ACCEPT ESTIMATE IF RESPONDENT IS NOT SURE.

1. Stones and pounds – GO TO RM9a
2. Kilograms - GO TO RM9b
3. Cannot give estimate – GO TO RM12
4. Refused

ENTER WEIGHT

[ASK IF RM9 = 1]

RM9a Stones…. (ENTER STONES – NUMBER RANGE 3 to 40)
Pounds… (ENTER POUNDS – NUMBER RANGE 0 to 13)

[ASK IF RM9 = 2]

RM9b Kilograms – ENTER TO THE NEAREST KILO…. (ENTER KGs – NUMBER RANGE 20 to 250)

IF LESS THAN (7 STONES / 45 KG) OR MORE THAN THAN (18 STONES / 114 KG) DISPLAY ON SCREEN LOGIC CHECK. VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT: YOU SAID YOUR CURRENT WEIGHT IS [^INSERT STONES^] AND [^INSERT POUNDS^] / [^INSERT KGs^], IS THAT CORRECT?

1. Yes
2. No
3. Refused

IF = 1 or 3 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT RM9a or RM9b

[ASK IF RM9 = 1 OR 2]

RM9c Would you say that you know your weight accurately, this is a pretty good estimate, or this is a guess?

1. Accurately
2. A pretty good estimate
3. A guess
4. Refused

[ASK ALL]

RM12 Would you say that for your height you are…
READ OUT

1. About the right weight,
2. Underweight,
3. Slightly overweight,
4. Or Very overweight?
5. Don't know
6. Refused

[ASK ALL]

Q31 How many portions of fruit did you eat yesterday? Please include all fruit, including fresh, frozen, dried or tinned fruit, stewed fruit or fruit juices and smoothies.

INTERVIEWER ADD IF NECESSARY: A portion is half a large fruit such as a grapefruit, avocado, one medium sized fruit such as an apple, orange or pear, 2 small fruits such as plums or satsumas, a handful of grapes or berries, a heaped tablespoon of dried fruit, 3 heaped tablespoons of fruit salad or stewed fruit. A glass of fruit juice counts as one portion but can only be counted as one portion even if several glasses have been consumed.

NUMERIC. MIN 0, MAX 99

Don't know

[ASK IF Q31>9]

Q31chk You said that you ate [^INSERT PORTION FROM Q31^] portions of fruit yesterday. Can I just check if that is correct?

1. Yes
2. No

IF Q31ck = 1 GO TO Q32.
IF Q31ck = 2 GO BACK TO Q31

[ASK ALL]

Q32 How many portions of vegetables did you eat yesterday? Please include fresh, frozen, raw or tinned vegetables, but do not include potatoes.

INTERVIEWER ADD IF NECESSARY: A portion is 3 heaped tablespoons of vegetables, 3 heaped tablespoons of beans or pulses (such as baked beans or kidney beans). Beans and pulses only count once towards your daily portions no matter how much of them you eat. Potatoes do not count.

NUMERIC. MIN 0, MAX 99

Don't know

[ASK IF Q32>9]

Q32chkYou said that you ate [^INSERT PORTION FROM Q32^] portions of vegetables yesterday. Can I just check if that is correct?

1. Yes
2. No

IF Q32ck = 1 GO TO NEXT SECTION.
IF Q32ck = 2 GO BACK TO Q32

DEMOGRAPHICS

I would like to finish the survey by asking you a few questions about you and your household. INTERVIEWER ADD IF NECESSARY:

Please be assured that we are bound by the MRS code of conduct and all of your details are held in the strictest confidence.

We ask these questions to look at the experiences of different groups of society so we can measure the sports activities and use of facilities among these groups.

RE-CONTACT FOR MAIN SURVEY

WORDING AMENDED FOR APS5, UPDATED ON 14th APRIL 2011

RC1. This study was commissioned by Sport England with funding from Public Health England, thank you for taking part. Would you be willing for us to keep a record of your details so Sport England, or an organisation acting on their behalf, may re-contact you to ask you further questions on this study or to take part in future research on this subject? There would be no obligation for you to take part.

1. Yes
2. No

NEW QUESTION ADDED ON 14th APRIL 2011

[ASK IF RC1 = 1]

RC1A. In order to carry out this future research, TNS may also need to provide your contact details together with relevant survey responses collected from you during this interview to Sport England or anorganisation acting on their behalf. Would you be willing for this information to be passed on?

INTERVIEWER ADD IF NECESSARY: The information that we pass on may include the activities that you participate in or some of the classification data such as your age or sex. We would only pass your contact details and interview information onto Sport England or another research company doing legitimate research on behalf of Sport England, your interview data would never be passed to anyone else or used for commercial purposes.

1. Yes
2. No

[ASK IF RC1 = 1]

RC2. Can I please ask for your name?

ENTER NAME

[ASK IF RC1 = 1]

RC3. Could I take your email address?

1. Yes
2. No

[ASK IF RC3 = 1]

RC4. Record email address

INTERVIEWER: PLEASE READ BACK EMAIL ADDRESS TO RESPONDENT BEFORE MOVING ONTO NEXT SCREEN

[ASK IF D11_1-10 = 14 OR 15]

C1. During the interview, you mentioned that there [is a child / are children] living in your household aged 14 or 15. We are also conducting this study with children aged 14 and 15, and would like to ask them a few questions if possible. Can I just ask, are you the parent or guardian of [this child / these children]?

1. Yes
2. No
3. Don't know

2. Proxy deferral
3. Proxy refusal – hard

[IF C1B = 1]

GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT TO CALL BACK FOR PARENTAL PERMISSION – CALL BACK ON CHILD SCRIPT

INTRO FOR WHEN PARENT/GUARDIAN IS ON THE LINE:

Good afternoon/evening. My name is XXXXX calling from TNS – the independent research organisation. We are carrying out an important study on behalf of government agencies including Public Health England, an Agency of the Department for Health, about people's health and recreational activities. It will be used to help shape local services in the future. As part of the study we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do.

[IF C1 = 1 OR C1A = 1]

C2B. We would like to conduct a short interview with your child to ask them some questions about their health and recreational activities. We will not ask them any further questions about your household. Can we have permission to speak to your child?

1. Yes – permission given
2. No – permission refused

[IF (C2B=1) AND D11_1-10 = MORE THAN ONE CHILD AGED 14-15 MENTIONED]

C2. Can I just ask, which child in the household aged 14 or 15, has the next birthday?

ADD IF NECESSARY: Can I please take the first name of this child? [

INSERT FIRST NAME OF SELECTED CHILD

1. All information refused

[IF (C2B=1) AND ONLY ONE CHILD AGED 14-15 MENTIONED AT D11_1-10]

Information to pull in from main adult interview:

C1B (if = 1, show parental permission/screening/selection)
D11_1-10 (number of children in household aged 14-15)
CHILD'S NAME, IF GIVEN AT C2 or C2A
NAME OF ADULT GIVEN AT C1B
NAME OF ADULT GIVEN AT C2C

Introduction and Screening

CALL BACK AND ASK FOR [INSERT ADULT WHO YOU NEED TO GAIN PERMISSION FROM – NAME GIVEN AT C2C, OR IF NO NAME GIVEN THERE, AT C1B (C14B ON CHILD SCRIPT – FOR CALLBACKS)]

IF NAMED PARENT FROM ADULT INTERVIEW IS NOT AVAILABLE OR NO NAME GIVEN, USE CINTRO1 – IF AVAILABLE AND ON LINE, GO TO CINTRO2:

CINTRO1. Good afternoon/evening. My name is XXXXX calling from TNS – the independent social research organisation. We are carrying out an important study on behalf of government agencies including Public Health England, an Agency of the Department of Health, about people's health and recreational activities. As part of the study we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do. Recently we conducted an interview with someone in your household, and we identified [a child / children] aged 14 or 15 at the address. Can I just ask, are you the parent or guardian of [this child / these children] aged 14 or 15?

1. Yes
2. No
3. Don't know
4. Refused

IF CINTRO1 = 2, ASK:
C14A.I'd like to ask a few questions about [this child / these children]. Could I speak to their parent or guardian please?

1. Yes, available – CODE HERE WHEN SPEAKING TO THEM.
2. No, not available – GO TO C14B
3. Proxy deferral - CLOSE
4. Proxy refusal – hard - CLOSE
5. Proxy - other non interview (not capable of taking part eg. disabilities) - CLOSE
6. Proxy wrong language
7. Proxy interview (unable to come to phone eg. disability)
8. Proxy interview – Type Talk (hard of hearing/speech impediment)

[IF C14A = 2]
C14B. Please can I take the parent or guardian's name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL.

1. Insert Name – first name only is acceptable
2. Proxy deferral - CLOSE
3. Proxy refusal – hard - CLOSE

GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT TO CALL BACK FOR PARENTAL PERMISSION

MAKE AN APPOINTMENT FOR CALLBACK

[IF C1A=2 & NAME GIVEN AT C1B]
INTRO FOR WHEN NAMED PARENT/GUARDIAN FROM THE ADULT INTERVIEW IS ON THE LINE (ONLY USED IF THEY WERE UNAVAILABLE TO GIVE PERMISSION AT END OF ADULT INTERVIEW):
CINTRO2 Good afternoon/evening. My name is XXXXX calling from TNS Social Research – the independent research organisation. We are carrying out an important study on behalf of government agencies including Public Health England, an Agency of the Department of Health, about people's health and recreational activities. As part of the study we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do. Recently we conducted an interview with someone in your household, and we identified [a child / children] aged 14 or 15 at the address. You were identified as the parent or guardian of [that child / those children]. Can I please ask you a few questions about your [child / children] aged between 14 and 15?

[IF D11_1-10 = MORE THAN ONE CHILD AGED 14-15 MENTIONED, AND C1A = 2]
C14C.Can I just ask, which child in the household aged between 14 and 15, has the next birthday?

ADD IF NECESSARY: Can I please take the name of this child? [FIRST NAME ONLY IS ACCEPTABLE]

PLEASE INSERT NAME OF SELECTED CHILD

1. All information refused - CLOSE

[IF ONLY ONE CHILD AGED 14-15 MENTIONED AT D11_1-10, AND C1A = 2]
C14D.Can I please take the name of the child in the household aged [INSERT AGE ENTERED AT D11_1-10]?

PLEASE INSERT NAME OF SELECTED CHILD (FIRST NAME IS ACCEPTABLE)

1. All information refused - CLOSE

[IF PARENTAL PERMISSION HAS BEEN GAINED AT C2B & NAME GIVEN AT C2C, OR AT C15 & C15A ON PRIOR CALL ON CHILD SCRIPT]
INTRO FOR WHEN NAMED PARENT WHO HAS ALREADY GIVEN PERMISSION IS ON THE LINE:
CINTRO3. Good afternoon/evening, my name is XXXXX calling from TNS Social Research – the independent research organisation. We recently spoke to you about interviewing your child, [INSERT NAME OF CHILD GIVEN AT C2 OR C2A] for an important study about people's health and recreational activities. At the time, you gave us permission to speak to your child, but they were not available to be interviewed...

GO TO NEXT SCREEN – C15

[ASK ALL]
C15. This study is also being conducted with children aged 14 and 15 years old. We would like to conduct a short interview with [INSERT NAME FROM C2 OR C2A, C14C OR C14D] to ask them some questions about their leisure and recreational activities. Can we have permission to speak to [INSERT NAME FROM C2 OR C2A, C14C OR C14D]?

IF ROUTING FROM CINTRO3, INTRO TEXT SHOULD READ:

Can we have permission to speak to [INSERT NAME FROM C2 OR C2A, C14C OR C14D]?

1. Yes – available
2. Yes – not available
3. No – permission refused - CLOSE

[IF C15 = 1 OR 2]
C15A.Could I please take your name? This is just so that we have a record of who gave permission to speak to [INSERT CHILD'S NAME].

INSERT ADULT'S NAME – PLEASE TAKE FULL NAME

[IF C15 = 1]
NOW ASK TO SPEAK TO [INSERT CHILD'S NAME]

[IF C15 = 2]
C15B.We would like to call back to carry out an interview with [INSERT CHILD'S NAME] when they are available. Can we have your permission to ask for [INSERT CHILD'S NAME] directly when we call back?

1. Yes – ask for child directly
2. No – ask to speak to parent again first

[IF C15B = 1]

C15C.Thank you for your time. We will try and call back to speak to [INSERT CHILD'S NAME] directly. Can I please take a time and date that would be convenient to call back? You may also want to let [INSERT CHILD'S NAME] know that we will be trying to contact them.

ARRANGE TIME TO CALL BACK WHEN CHILD WILL BE AVAILABLE – FLAG NAME OF CHILD AND NAME OF PARENT/GUARDIAN AND RESPONSE TO C15B.

WHEN CALLING BACK:
IF C15B = 1, GO STRAIGHT TO CINTRO4
IF C15B = 2, GO TO CINTRO3

INTRO FOR WHEN CHILD IS ON THE LINE:

CINTRO4. Good afternoon/evening. My name is XXXXX calling from TNS Social Research – the independent research organisation. We are carrying out an important study on behalf of government agencies including Public Health England, an Agency of the Department of Health, about people's health and recreational activities. May I ask you a few questions?

IF CALL IS A CALL BACK, AND PERMISSION HAS ALREADY BEEN GRANTED AT C15, AND C15B=1, INTRO SHOULD READ:

Good afternoon/evening. My name is XXXXX calling from TNS Social Research – the independent research organisation. We are carrying out an important study on behalf of government agencies including Public Health England, an Agency of the Department of Health, about people's health and recreational activities. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

CODE OUTCOME FROM LIST BELOW

1. Continue
2. Not available - make appointment
3. Business
4. Hard Refusal
5. Deferral - May complete at later date
6. Foreign language required
7. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]

For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

1. Urdu (close and reissue)
2. Hindi (close and reissue)
3. Gujarati (close and reissue)

4. Asian Not Known (close and reissue)
5. Other (Specify and close)

CS1. INTERVIEWER CODE

1. Respondent willing
2. Hard refusal
3. Deferral
4. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

ASK ALL
CS2. Firstly, can I just check, how old are you?

OPEN NUMERIC

[IF CS2 <> 14 or 15]
CS3. Thank you for your time but at the moment we are only interviewing children aged 14 or 15 on this survey.

CLOSE

[IF CS2 = 14 OR 15]
I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate. I just need to inform you that for quality control and training purposes this interview may be monitored or recorded.

A.WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]
Q1r. I would like you to think about all the walking you have done. Please include any country walks, walking to and from school, a part-time job or the shops and any other walks.. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done a continuous walk lasting at least 10 minutes?

1. Yes
2. No
3. Unable to walk
4. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]

Q3r. On how many days in the last four weeks have you done a walk of at least 10 minutes? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done a continuous walk of at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. On how many of those days did you walk for the purpose of health or recreation not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you have done. Please include casual cycling in your local area, cycling in the countryside or on cycling routes, cycling to or from school, a part-time job or competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

[ADD IF Q1r = 3] INTERVIEWER READ OUT IF NECESSARY: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK WE ARE STILL INTERESTED IN OTHER ACTIVITIES THAT YOU MAY DO.

1. Yes
2. No
3. Don't know

[ASK IF 6a=1]

Q6b. On how many days IF NECESSARY:(in the last 4 weeks have you done any cycling)? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling? IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q6r.

Q8 UPDATED FOR APS6 – ROUTING BASED ON Q6a and TEXT SUBS FROM Q6b, Q8 QUESTION TEXT UPDATED IN JANUARY 2012

[ASK IF Q6a = 1]

Q8. You said that you had cycled on *[^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks*. On how many of those days did you cycle for the purpose of health, recreation, training or competition not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b

Don't know

Q8a ADDED FOR APS6, AMENDED IN JANUARY 2012

[ASK IF Q8>=1]

Q8ar. Thinking only about continuous cycle rides for the purpose of health, recreation, training or competition, how long do you usually cycle for?

IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE, TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q8a.

Q8B ADDED FOR APS6

[ASK IF Q8>=1]

Q8b. Again thinking only about cycling for the purpose of health, recreation, training or competition,do you mainly do…

READ OUT

SINGLE CODE

1. General recreational cycling,
2. mountain biking,
3. BMX,
4. road cycling,

5. track cycling or
6. Cyclo-cross?

[ASK IF Q8 >=1]

Q13a. During the last four weeks, was the effort you put into recreational cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 >=1]

Q14a. During the last four weeks, was the effort you put into recreational cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

Q13B and Q14B ADDED FOR APS6 M5

[ASK IF Q8 = 0 or DK]

Q13b. During the last four weeks, was the effort you put into cycling usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[ASK IF Q8 = 0 or DK]

Q14b. During the last four weeks, was the effort you put into cycling usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

C.SPORTS AND RECREATION

[ASK ALL]

Q9. I would now like to ask you about <u>other</u> types of sport and recreational physical activity you have done.

Please include activities for competition, training or receiving tuition, socially, casually or for health and fitness, but <u>do not include any teaching, coaching or refereeing you may have done</u>.

So in <u>*the last four weeks*</u>, <u>*that is since [^INSERT DATE^]*</u>, did you do any sporting or recreational physical activity?

1. Yes
2. No
3. INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS
4. Don't know

[ASK IF Q9 = 3 ONLY]

Q9ck. Can I just check that you don't do any light recreational activities such as darts, snooker, fishing or any wheelchair sports as these are included in the survey?. If you do I'd like to continue with the survey.
SINGLE CODE

1. Proceed with interview (skips back to question)
2. Skip sports questions (skips to Q26)

[ASK IF Q9 = 1]

Q10. What have you done?
DO NOT PROMPT. CODE ALL MENTIONED. WHERE A DATABASE SEARCH BRINGS UP A NUMBER OF ACTIVITIES FOR A SPORT PLEASE PROBE CAREFULLY FOR THE EXACT ACTIVITY UNDERTAKEN. IF ACTIVITY NOT ON DATABASE CODE OTHER AND ENTER AS OTHER SPECIFY.

[SEE SEPARATE Q10 ACTIVITIES LIST FOR ROUTING TO Q11 TO Q15]

WHEN EXHAUSTED TYPE none!

PROMPT: WHAT ELSE?

DISPLAY ON SCREEN LOGIC CHECK. (RANGES RELATE TO INDIVIDUAL SPORTS). VALUES OUTSIDE THESE RANGES STILL PERMITTED.

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

1. Yes
2. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q12.

[ASK IF Q10 = 114, 115, 116, 117, 118, 145, 146 or CLIMB = 3, 4 or 5 AND Q1r NOT = 1]

Q4a. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

1. A slow pace
2. A steady average pace
3. A fairly brisk pace
4. A fast pace
5. Don't know
6. Refused

[Q12 = DK OR REFUSED ROUTE AS < 30 mins]

Q13. During the last four weeks, was the effort you put into [^INSERT FROM Q10^] usually enough to raise your breathing rate?

1. Yes
2. No
3. Don't know

[Q12 = DK OR REFUSED ROUTE AS < 30 mins]

Q14. During the last four weeks, was the effort you put into [^INSERT FROM Q10^] usually enough to make you out of breath or sweat?

1. Yes
2. No
3. Don't know

Q15 – routing (RECREATIONAL CYCLING AND WALKING ROUTING AMENDED IN JANUARY 2012)

ACTIVITIES ROUTED FROM Q10 LIST [SEE SPREADSHEET – Q15 – Routing column]

- ✓ **ACTIVITIES 'Always included' INSERTED AT Q15 IF Q12 >=30 mins**
- ✓ **ACTIVITIES 'Only if Q13' INSERTED AT Q15 IF Q13 = 1 AND Q12 >=30 mins**
- ✓ **ACTIVITIES 'Only if Q4=3or4' INSERTED AT Q15 IF Q4 = 3 OR 4 OR Q4a = 3 OR 4 AND Q12 >=30 mins**

RECREATIONAL WALKING INSERTED AT Q15 IF Q3c>=30 mins AND Q4 = 3 OR 4.
RECREATIONAL CYCLING INSERTED AT Q15 IF Q8aR>=30 mins AND Q13a = 1 OR Q14a = 1.

Q15. Thinking about the [ACTIVITIES ROUTED FROM Q10 LIST] [and] [RECREATIONAL WALKING] [and] [RECREATIONAL CYCLING] you have done in the last four weeks.

Can I ask on how many days in the last four weeks did you do at least one of these activities [this activity] for at least 30 minutes?

IF ONLY ONE ACTIVITY IS INCLUDED AT Q15 DISPLAY ALTERNATIVE QUESTION TEXT
Can I just confirm on how many days in the last four weeks did you do [INSERT ACTIVITY] for at least 30 minutes?

VERY IMPORTANT: PLEASE ENSURE IT IS ONLY THE ACTIVITIES DISPLAYED ABOVE THAT ARE INCLUDED IN THE NUMBER OF DAYS COUNTED IN THIS QUESTION.

THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. FOR THOSE DAYS THAT YOU HAVE DONE MORE THAN ONE ACTIVITY ON A DAY YOU NEED TO COUNT AS JUST ONE DAY.

IF RESPONDENT ASKS WHY WE ARE ONLY ASKING ABOUT SOME OF THE ACTIVITIES THEY HAVE MENTIONED SAY: 'We just want to focus on specific activities of particular benefit to health'.

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

[ASK IF RESPONSE TO Q15 IS LESS THAN OR MORE THAN THE TOTAL NUMBER OF DAYS FROM ELIGIBLE ACTIVITIES CODED AT Q3b or Q8 or Q10]

INTRODUCTION

INTRODUCTION AMENDED FOR START OF APS5, REFERENCE TO LA REMOVED ON 22ND MARCH '11
REFERENCE TO PHE REMOVED IN MAY 2016

Good afternoon/evening. My name is XXXXX calling from TNS – the independent social research organisation. We are carrying out an important study on behalf of several government agencies and departments, about people's health and recreational activities. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 10-15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

The information will be used to help shape local and national services.

IF ASKED FOR MORE DETAIL ABOUT WHO THE SURVEY IS FOR: the study is supported by the Department for Transport who are interested in people's walking and cycling, and Sport England who are interested in how much sport people do.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

Intro CODE OUTCOME FROM LIST BELOW

8. Continue
9. Not available - make appointment
10. Business
11. Hard Refusal
12. Deferral - May complete at later date
13. Foreign language required
14. Type Talk required - hard of hearing/speech impediment

[ASK IF INTRO = 6]

For1 We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

6. Urdu (close and reissue)
7. Hindi (close and reissue)
8. Gujarati (close and reissue)
9. Asian Not Known (close and reissue)
10. Other (Specify and close)

[INSERT QUESTION ONLY FOR SAMPLE FLAGGED AS BORDER AREA]
Can I just check whether you live in England?

3. Yes – proceed to next screen
4. No – TIPCODE K – Outside sample frame

SCREENER QUESTIONS

S3. How many people aged 16 or over currently live in your household including yourself?

CODE NULL IF NO PEOPLE AGED 16 or OVER

11. 1 – Go to S9
12. 2 – Go to S6
13. 3 – Go to S4
14. 4 – Go to S4
15. 5 – Go to S4
16. 6 – Go to S4
17. 7 or more – Go to S4
18. Business number – TIPCODE 417
19. Don't know – Go to S4
20. Refused – Go to S4

ALLOW NULL - Close

IF S3 = 1 GO TO S9.
IF S3 = 2 GO TO S6.
IF S3 = 8 TIPCODE H.
IF S3 = DK OR REF GO TO S4.

[ASK IF S3 = 3, 4, 5, 6, 7 AND RIZZO METHOD SELECTS ANOTHER MEMBER OF THE HOUSEHOLD OR IF S3 = 9 OR 10]. IF SCREENER RESPONDENT SELECTED VIA RIZZO GO TO S9]

S4. To make sure we speak to a good cross section of the public, we are using a random method to select who takes part. Could I speak to the person aged 16 or over TEXTSUB IF S3 = 3,4,5,6 or 7 <, not yourself, >who has the next birthday?
[INCLUDE INTERVIEWER NOTE ONLY IF S3 = 3, 4, 5, 6 OR 7] INTERVIEWER NOTE: This does not include the person you are speaking to, it must be another member of the household. IF NECESSARY SAY THE PERSON WITH THE NEXT BIRTHDAY IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND.

9. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
10. No, not available – Go to S5
11. Proxy deferral
12. Proxy refusal – hard
13. Proxy - other non interview (not capable of taking part eg. disabilities)
14. Proxy wrong language – Go to S8
15. Proxy interview (unable to come to phone eg. disability) - Go to S9
16. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S3 = 2 AND RIZZO DOES NOT SELECT THE SCREENER RESPONDENT. IF SCREEN RESPONDENT SELECTED VIA RIZZO GO TO S9]

S6. To make sure we speak to a good cross section of the public, we are using a random method to select who takes part. On this occasion it is the other person that I would like to speak to. May I speak to that person? IF NECESSARY SAY THE OTHER PERSON IS SELECTED TO ENSURE WE ACHIEVE A NATIONALLY REPRESENTATIVE SAMPLE OF ADULTS IN ENGLAND

9. Yes, available – CODE HERE WHEN SPEAKING TO THEM. – Go to S9
10. No, not available – Go to S5
11. Proxy deferral
12. Proxy refusal – hard
13. Proxy - other non interview (not capable of taking part eg. disabilities)
14. Proxy wrong language – Go to S8
15. Proxy interview (unable to come to phone eg. disability) – Go to S9
16. Proxy interview – Type Talk (hard of hearing/speech impediment) – Go to S8

[ASK IF S4 = 2 OR S6 = 2]

S5. Please may I take the person's name so we know who to ask for next time we call?

4. Insert Name – first name only is acceptable - Go to S7
5. Proxy deferral
6. Proxy refusal – hard

[ASK IF S5 = 1]

S7. GO TO APPOINTMENT SCREEN TO BOOK APPOINTMENT.

[ASK S4 or S6 = 6 or 8]

S8. We may arrange for another interviewer to call in the next few days, can you please tell me what language this person speaks?

8. English (continue)
9. Urdu (close and reissue)
10. Hindi (close and reissue)
11. Gujarati (close and reissue)
12. Asian Not Known (close and reissue)
13. Hard of hearing/speech impediment – Type Talk *(auto coded from code 8 at S4 or S6)*
14. Other (Specify and close)

[ASK IF S3 = 1 OR SCREENER RESP SELECTED VIA RIZZO OR S4 = 1 OR 7 OR S6 = 1 OR 7]

S9. INTERVIEWER CODE

5. Respondent willing
6. Hard refusal
7. Deferral
8. Wants appointment – GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT

[IF S9 = 1]

I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate.

A. WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]

Q1r. I would like you to think about all the walking you have done. Please include any country walks, walking to and from work or the shops and any other walks. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done a continuous walk lasting at least 10 minutes?

5. Yes
6. No
7. Unable to walk
8. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]

Q3r. On how many days in the last four weeks have you done a walk of at least 10 minutes? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

3. Yes
4. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done a walk of at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. On how many of those days did you walk for the purpose of health or recreation, not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

3. Yes
4. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

6. A slow pace
7. A steady average pace
8. A fairly brisk pace
9. A fast pace
10. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you have done. Please include casual cycling in your local area, cycling in the countryside or on cycling routes, cycling to or from work or competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

[ADD IF Q1r = 3] INTERVIEWER READ OUT IF NECESSARY: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK WE ARE STILL INTERESTED IN OTHER ACTIVITIES THAT YOU MAY DO.

4. Yes
5. No
6. Don't know

[ASK IF 6a=1]

Q6b. On how many days IF NECESSARY: (in the last 4 weeks have you done any cycling)? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling? IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

3. Yes
4. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q6r.

Q8 UPDATED FOR APS6 – ROUTING BASED ON Q6a and TEXT SUBS FROM Q6b, Q8 QUESTION TEXT UPDATED IN JANUARY 2012

[ASK IF Q6a = 1]

Q8. You said that you had cycled on *[^INSERT FROM Q6b^ IF Q6b = DK INSERT 'at least one'] day(s) in the last four weeks*. On how many of those days did you cycle for the purpose of health, recreation, training or competition not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q6b

Don't know

Q8a ADDED FOR APS6, AMENDED IN JANUARY 2012

[ASK IF Q8>=1]

Q8ar. Thinking only about continuous cycle rides for the purpose of health, recreation, training or competition, how long do you usually cycle for?

IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE, TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

3. Yes
4. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q8a.

Q8B ADDED FOR APS6

[ASK IF Q8>=1]

Q8b. Again thinking only about cycling for the purpose of health, recreation, training or competition, do you mainly do..

READ OUT

SINGLE CODE

7. … general recreational cycling,
8. mountain biking,

READ OUT - YOU WILL BE ASKED SEPARATELY ABOUT DANCING LATER IN THE INTERVIEW'

CUT PROMPTED SPORT QUESTIONS

[ASK IF DEEP WATER SWIMMING IS CODED AT Q10 DATABASE]
ONLY CODE DEEP WATER IF RESPONDENT SAYS DEEP WATER. IF RESPONDENT SAYS JUST "SWIMMING" PROBE FOR INDOORS OR OUTDOORS AND CODE APPROPRIATELY.

Qdeep Did the respondent specifically mention "deep water swimming"?

3. Yes
4. No

[ASK IF OPEN WATER SWIMMING IS CODED AT Q10 DATABASE]
ONLY CODE OPEN WATER IF RESPONDENT SAYS OPEN WATER. IF RESPONDENT SAYS JUST "SWIMMING" PROBE FOR INDOORS OR OUTDOORS AND CODE APPROPRIATELY.

Qopen Did the respondent specifically mention "open water swimming"?

3. Yes
4. No

REINSTATE FISH and FISH1

[ASK IF Q9 = 1 AND q10 <u>NOT</u> = 9, 78, 79, 161]

Fish. Have you done any fishing in the last four weeks, that is since *[^INSERT DATE^]*?

4. Yes
5. No
6. Don't know

FISHING QUESTION ROUTING Q11 to Q14 ADDED AT START M6 OF APS4

[ASK IF FISH = 1]

Fish1 Was this?

5. Sea fishing
6. Fishing – game / fly fishing
7. Fishing – coarse / freshwater
8. Fishing – wheelchair sports

[FOLLOW RELEVANT ROUTING THROUGH Q11 TO Q14]

[ASK FOR EACH SNOWSPORT ACTIVITY CODED AT Q10 DATABASE = 1 thru 9 or 11]

Snow1. Was this in?

4. England
5. Other United Kingdom (Scotland, Wales, N Ireland)
6. Overseas

[ASK IF SNOW1 = 1] [DO NOT DISPLAY OPTION 1 (Indoor snow slope) IF CODE 97 (SKI-ING - GRASS OR DRY SKI SLOPE)

Snow2. Was this?

4. Indoor snow slope
5. Dry slope
6. Other

[ASK IF WEIGHT TRAINING CODED AT Q10 DATABASE]

WeightTraining. What type of weight training did you do?

INTERVIEWER NOTE: We are interested in respondents primary motivation for weight training for example whether it is for general fitness or to participate in a specific sport, and the type of equipment primarily used (e.g. free weights or resistance machines).

5. Weight training (free weights) - general fitness with a personal trainer
6. Weight training (free weights) – general fitness without a personal trainer
7. Weight training (free weights) - for specific sport
8. Weight training (resistance machines) - general fitness with a personal trainer
9. Weight training (resistance machines) – general fitness without a personal trainer
10. Weight training (resistance machines) - for specific sport

[ASK IF WEIGHTLIFTING CODED AT Q10 DATABASE]

Weightlifting. Is that Snatch / Clean & Jerk?

INTERVIEWER NOTE: If the answer is no please enter weight training at the database and code as a weight training activity.

3. Yes
4. No - (this will skip back to Q10)

[ASK IF POWERLIFTING CODED]

Powerlifting. Is that Special Olympians or Paralympic Bench Press powerlifting?

INTERVIEWER NOTE: If it is not one of these please enter 'Neither' at the below.

4. Powerlifting - Special Olympians
5. Powerlifting Paralympic - Bench press
6. Neither - (allocate to existing ‘general’ powerlifting code (code no 289))

[ASK IF CRICKET CODED AT Q10 DATABASE]

Cricket. What types of cricket have you done in the last four weeks – cricket match, practice or nets, or some other type? Was that outdoors or indoors?

INTERVIEWER NOTE: any mention of 'nets' is cricket practice.

6. cricket (outdoors) - match
7. cricket (indoors) - match
8. cricket (outdoor) - nets / practice
9. cricket (indoors) - nets / practice
10. Cricket - Other

[ASK IF RUGBY UNION CODED AT Q10 DATABASE]

RugbyUnion.. What type of Rugby Union have you done in the last four weeks – 15 a side game, Sevens, Tag rugby, Touch rugby or some other type?

6. Rugby union - 15 a side game
7. Rugby union – Sevens
8. Rugby union - Tag rugby
9. Rugby union - Touch rugby
10. Rugby Union - Other

[ASK IF RUGBY LEAGUE CODED AT Q10 DATABASE]

RugbyLeague. What type of Rugby League have you done in the last four weeks – 13 a side game, Tag rugby, Touch rugby or some other type?

5. Rugby league - 13 a side game
6. Rugby league - Tag rugby
7. Rugby League - Touch rugby
8. Rugby league - Other

[ASK IF RUGBY TAG CODED]

RugbyTag. Is the Tag rugby you did Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby - Other'.

4. Rugby league - Tag rugby
5. Rugby union - Tag rugby
6. Rugby - Other

[ASK IF RUGBY TOUCH CODED]

RugbyTouch. Is the Touch rugby you did Union or League?

INTERVIEWER NOTE: if respondent says it's neither code as 'Rugby - Other'.

4. Rugby league - Touch rugby
5. Rugby union - Touch rugby
6. Rugby - Other

[ASK IF Q10 = 5, 6, 7, 8, 178, or 179 AND Q8 >=1]

Cycl. Is that in addition to any RECREATIONAL cycling you have already mentioned?

4. Yes
5. No
6. Don’t know

[Cycl. = 1 ADD TO ACTIVITIES AT Q10. Cycl. = 2 OR 3 DO NOT ADD TO ACTIVITIES AT Q10.]

[ASK IF Q10 = 114, 115, 116, 117, 118, 145, 146 or CLIMB = 3, 4 or 5 AND Q3b >=1]

Walk. Is that in addition to any RECREATIONAL walking you have already mentioned?

4. Yes
5. No
6. Don't know

Q11. On how many days in the last four weeks have you done [^INSERT ACTIVITY^]

THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q12. And how long do you USUALLY do [^INSERT ACTIVITY^] for?

IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN E.G. ONE SWIMMING SESSION, ONE FOOTBALL GAME ETC.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT GETTING TO AND FROM VENUES, TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Q4a. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

7. A slow pace
8. A steady average pace
9. A fairly brisk pace
10. A fast pace
11. Don't know
12. Refused

[Q12 = DK OR REFUSED ROUTE AS < 30 mins]

Q13. During the last four weeks, was the effort you put into [^INSERT FROM Q10^] usually enough to raise your breathing rate?

4. Yes
5. No
6. Don't know

[Q12 = DK OR REFUSED ROUTE AS < 30 mins]

Q14. During the last four weeks, was the effort you put into [^INSERT FROM Q10^] usually enough to make you out of breath or sweat?

4. Yes
5. No
6. Don't know

Q15 – routing (RECREATIONAL CYCLING AND WALKING ROUTING AMENDED IN JANUARY 2012)

ACTIVITIES ROUTED FROM Q10 LIST [SEE SPREADSHEET – Q15 – Routing column]

- ✓ **ACTIVITIES 'Always included' INSERTED AT Q15 IF Q12 >=30 mins**
- ✓ **ACTIVITIES 'Only if Q13' INSERTED AT Q15 IF Q13 = 1 AND Q12 >=30 mins**
- ✓ **ACTIVITIES 'Only if Q4=3or4' INSERTED AT Q15 IF Q4 = 3 OR 4 OR Q4a = 3 OR 4 AND Q12 >=30 mins**

RECREATIONAL WALKING INSERTED AT Q15 IF Q3c>=30 mins AND Q4 = 3 OR 4.
RECREATIONAL CYCLING INSERTED AT Q15 IF Q8aR>=30 mins AND Q13a = 1 OR Q14a = 1.

Q15. Thinking about the [ACTIVITIES ROUTED FROM Q10 LIST] [and] [RECREATIONAL WALKING] [and] [RECREATIONAL CYCLING] you have done in the last four weeks.

Can I ask on how many days in the last four weeks, in total, did you do at least one of these activities [this activity] for at least 30 minutes?

IF ONLY ONE ACTIVITY IS INCLUDED AT Q15 DISPLAY ALTERNATIVE QUESTION TEXT
Can I just confirm on how many days in the last four weeks did you do [INSERT ACTIVITY] for at least 30 minutes?

VERY IMPORTANT: PLEASE ENSURE IT IS ONLY THE ACTIVITIES DISPLAYED ABOVE THAT ARE INCLUDED IN THE NUMBER OF DAYS COUNTED IN THIS QUESTION.

THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. FOR THOSE DAYS THAT YOU HAVE DONE MORE THAN ONE ACTIVITY ON A DAY YOU NEED TO COUNT AS JUST ONE DAY.

IF RESPONDENT ASKS WHY WE ARE ONLY ASKING ABOUT SOME OF THE ACTIVITIES THEY HAVE MENTIONED SAY: 'We just want to focus on specific activities of particular benefit to health'.

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

RE-CONTACT FOR MAIN SURVEY

WORDING AMENDED FOR APS5, UPDATED ON 14th APRIL 2011

RC1. This study was commissioned by Sport England, thank you for taking part. Would you be willing for us to keep a record of your details so Sport England, or an organisation acting on their behalf, may re-contact you to ask you further questions on this study or to take part in future research on this subject? There would be no obligation for you to take part.

5. Yes
6. No

NEW QUESTION ADDED ON 14th APRIL 2011

[ASK IF RC1 = 1]

RC1A. In order to carry out this future research, TNS may also need to provide your contact details together with relevant survey responses collected from you during this interview to Sport England or anorganisation acting on their behalf. Would you be willing for this information to be passed on?

INTERVIEWER ADD IF NECESSARY: The information that we pass on may include the activities that you participate in or some of the classification data such as your age or sex. We would only pass your contact details and interview information onto Sport England or another research company doing legitimate research on behalf of Sport England, your interview data would never be passed to anyone else or used for commercial purposes.

3. Yes
4. No

[ASK IF RC1 = 1]

RC2. Can I please ask for your name?

ENTER NAME

[ASK IF RC1 = 1]

RC3. Could I take your email address?

3. Yes
4. No

[ASK IF RC3 = 1]

RC4. Record email address

INTERVIEWER: PLEASE READ BACK EMAIL ADDRESS TO RESPONDENT BEFORE MOVING ONTO NEXT SCREEN

[ASK IF D11_1-10 = 14 OR 15]

C1. During the interview, you mentioned that there [is a child / are children] living in your household aged 14 or 15. We are also conducting this study with children aged 14 and 15, and would like to ask them a few questions if possible. Can I just ask, are you the parent or guardian of [this child / these children]?

5. Yes
6. No
7. Don't know

8. Refused

[ASK IF C1 = 2]

C1A. I'd like to ask a few questions about [this child / these children]. Could I speak to their parent or guardian please?

5. Yes, available – CODE HERE WHEN SPEAKING TO THEM.
6. No, not available – CALL BACK – GO TO C1B
7. No, proxy refusal - CLOSE
8. No, not available (other reasons) - CLOSE

[ASK IF C1A = 2]

C1B. Please can I take the parent or guardian's name? EXPLAIN THAT YOU NEED THIS SO THAT YOU KNOW WHO TO ASK FOR THE NEXT TIME YOU CALL.

4. Insert Name – first name only is acceptable
5. Proxy deferral
6. Proxy refusal – hard

[IF C1B = 1]

GO TO APPOINTMENT SCREEN AND BOOK APPOINTMENT TO CALL BACK FOR PARENTAL PERMISSION – CALL BACK ON CHILD SCRIPT

INTRO FOR WHEN PARENT/GUARDIAN IS ON THE LINE:

Good afternoon/evening. My name is XXXXX calling from TNS – the independent research organisation. We are carrying out an important study on behalf of several government agencies and departments, about people's health and recreational activities. It will be used to help shape local services in the future. As part of the study we are conducting interviews with children aged 14 and 15 about the type of leisure and recreational activities they do.

[IF C1 = 1 OR C1A = 1]

C2B. We would like to conduct a short interview with your child to ask them some questions about their health and recreational activities. We will not ask them any further questions about your household. Can we have permission to speak to your child?

4. Yes – permission given
5. No – permission refused

[IF (C2B=1) AND D11_1-10 = MORE THAN ONE CHILD AGED 14-15 MENTIONED]

C2. Can I just ask, which child in the household aged 14 or 15, has the next birthday?

ADD IF NECESSARY: Can I please take the first name of this child? [

INSERT FIRST NAME OF SELECTED CHILD

2. All information refused

[IF (C2B=1) AND ONLY ONE CHILD AGED 14-15 MENTIONED AT D11_1-10]

C2A. Can I please take the first name of the child aged [INSERT AGE ENTERED AT D11_1-10]?

INSERT FIRST NAME OF SELECTED CHILD

2. All information refused

[IF C2B = 1]

C2C. Could I please take your name? This is just so that we have a record of who gave permission to speak to [INSERT CHILD'S NAME FROM C2/C2A].

INSERT ADULT'S NAME – PLEASE TAKE FULL NAME

[IF C2B=1]

C2D. Is [child name] available now?

1. Yes – available
2, No, not available – CALL BACK

ADD IF NECESSARY: Can I please take the name of this child? [FIRST NAME ONLY IS ACCEPTABLE]

PLEASE INSERT NAME OF SELECTED CHILD

2. All information refused - CLOSE

[IF ONLY ONE CHILD AGED 14-15 MENTIONED AT D11_1-10, AND C1A = 2]

C14D.Can I please take the name of the child in the household aged [INSERT AGE ENTERED AT D11_1-10]?

PLEASE INSERT NAME OF SELECTED CHILD (FIRST NAME IS ACCEPTABLE)

2. All information refused - CLOSE

[IF PARENTAL PERMISSION HAS BEEN GAINED AT C2B & NAME GIVEN AT C2C, OR AT C15 & C15A ON PRIOR CALL ON CHILD SCRIPT]

INTRO FOR WHEN NAMED PARENT WHO HAS ALREADY GIVEN PERMISSION IS ON THE LINE:

CINTRO3. Good afternoon/evening, my name is XXXXX calling from TNS Social Research – the independent research organisation. We recently spoke to you about interviewing your child, [INSERT NAME OF CHILD GIVEN AT C2 OR C2A] for an important study about people's health and recreational activities. At the time, you gave us permission to speak to your child, but they were not available to be interviewed...

GO TO NEXT SCREEN – C15

[ASK ALL]
C15. This study is also being conducted with children aged 14 and 15 years old. We would like to conduct a short interview with [INSERT NAME FROM C2 OR C2A, C14C OR C14D] to ask them some questions about their leisure and recreational activities. Can we have permission to speak to [INSERT NAME FROM C2 OR C2A, C14C OR C14D]?

IF ROUTING FROM CINTRO3, INTRO TEXT SHOULD READ:

Can we have permission to speak to [INSERT NAME FROM C2 OR C2A, C14C OR C14D]?

4. Yes – available
5. Yes – not available
6. No – permission refused - CLOSE

[IF C15 = 1 OR 2]
C15A. Could I please take your name? This is just so that we have a record of who gave permission to speak to [INSERT CHILD'S NAME].

INSERT ADULT'S NAME – PLEASE TAKE FULL NAME

[IF C15 = 1]
NOW ASK TO SPEAK TO [INSERT CHILD'S NAME]

[IF C15 = 2]
C15B. We would like to call back to carry out an interview with [INSERT CHILD'S NAME] when they are available. Can we have your permission to ask for [INSERT CHILD'S NAME] directly when we call back?

3. Yes – ask for child directly
4. No – ask to speak to parent again first

[IF C15B = 1]
C15C. Thank you for your time. We will try and call back to speak to [INSERT CHILD'S NAME] directly. Can I please take a time and date that would be convenient to call back? You may also want to let [INSERT CHILD'S NAME] know that we will be trying to contact them.

ARRANGE TIME TO CALL BACK WHEN CHILD WILL BE AVAILABLE – FLAG NAME OF CHILD AND NAME OF PARENT/GUARDIAN AND RESPONSE TO C15B.

WHEN CALLING BACK:
IF C15B = 1, GO STRAIGHT TO CINTRO4
IF C15B = 2, GO TO CINTRO3

INTRO FOR WHEN CHILD IS ON THE LINE:
CINTRO4. Good afternoon/evening. My name is XXXXX calling from TNS Social Research – the independent research organisation. We are carrying out an important study on behalf of several

government agencies and departments,about people's health and recreational activities. May I ask you a few questions?
IF CALL IS A CALL BACK, AND PERMISSION HAS ALREADY BEEN GRANTED AT C15, AND C15B=1, INTRO SHOULD READ:
Good afternoon/evening. My name is XXXXX calling from TNS Social Research – the independent research organisation. We are carrying out an important study on behalf of several government agencies and departments, about people's health and recreational activities. May I ask you a few questions?

IF NECESSARY, USE THE FOLLOWING REASSURANCES AS APPROPRIATE:

This interview will only take about 10-15 minutes on average. If now is not convenient, I can call back at another time but it would be helpful if we could ask you a couple of quick questions now, to check you are the person we need to speak to.

This is in no way a sales call and you will not be contacted as a result of this survey for sales purposes.

IF ASKED FOR MORE DETAIL ABOUT WHO THE SURVEY IS FOR: the study is supported by the Department for Transport who are interested in people's walking and cycling, and Sport England who are interested in how much sport people do.

I would like to assure you that all the information that we collect will be kept in the strictest confidence, and used for research purposes only. IF MORE NEEDED SAY: Your answers will be added to those of thousands of others and presented to our client as statistical summaries only.

CS3. Thank you for your time but at the moment we are only interviewing children aged 14 or 15 on this survey.

CLOSE

[IF CS2 = 14 OR 15]
I just want to reassure you that this is confidential, voluntary social research. Thank you for agreeing to participate. I just need to inform you that for quality control and training purposes this interview may be monitored or recorded.

A. WALKING

Q1 UPDATED IN JAN 2012 – MINIMUM WALKING INCREASED TO 10 MINS

[ASK ALL]
Q1r. I would like you to think about all the walking you have done. Please include any country walks, walking to and from school, a part-time job or the shops and any other walks.. Please exclude time spent walking around shops. In the last four weeks, that is since [^INSERT^] have you done a continuous walk lasting at least 10 minutes?

9. Yes
10. No
11. Unable to walk
12. Don't know

IF Q1 = 3, DISPLAY TEXT FOR INTERVIEWER TO READ OUT.

INTERVIEWER READ OUT: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK, WE ARE STILL INTERESTED IN ANY OTHER ACTIVITIES YOU MAY DO WHICH ARE BENEFICIAL TO YOUR HEALTH AND THE NEXT FEW QUESTIONS ASK YOU ABOUT THESE.

Q2 DELETED AND Q3 UPDATED IN JAN 2012

[ASK IF Q1r = 1]
Q3r. On how many days in the last four weeks have you done a walk of at least 10 minutes? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 1 to 28

Don't know

Q3A, Q3B, Q3C – ALL NEW QUESTIONS FROM JAN 2012 (14TH JAN). QUESTIONS Q3A AND Q3C REVISED ON 19TH JAN). FILTERING TO Q4 ALSO UPDATED AND Q5 REMOVED.

[ASK IF Q1r=1]

Q3a. On the days that you walked, what was the total length of time you USUALLY spent walking? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

5. Yes
6. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3a.

[ASK IF Q1r=1]

Q3b. You said that you had done a continuous walk of at least 10 minutes on *[^INSERT FROM Q3r^ IF Q3r = DK INSERT 'at least one'] day(s) since* [^INSERT^]. On how many of those days did you walk for the purpose of health or recreation not to get from place to place?

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28 IF < OR = TO Q3r

Don't know

[ASK IF Q3b>=1]

Q3c. On these days, what was the total length of time you USUALLY spent walking for the purpose of health or recreation? (Please only include walks of at least 10 minutes).

IF THE RESPONDENT CAN'T ANSWER BECAUSE THE TOTAL TIME SPENT WALKING VARIES WIDELY DAY TO DAY, ASK FOR THE TOTAL TIME THEY MOST REGULARLY/FREQUENTLY SPEND WALKING

EG. IF THEY WALKED FOR 30 MINUTES ON 5 DAYS AND 2 HOURS ON ONE DAY, RECORD 30 MINUTES

ADD TOGETHER THE DURATION OF ALL WALKS OF AT LEAST 10 MINUTES COMPLETED DURING THE DAY

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

Don't know
Refused

IF LESS THAN 0 HOURS AND 10 MINS OR MORE THAN 4 HOURS 0 MINS

INTERVIEWER TO READ OUT.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

5. Yes
6. No

IF = 1 GO TO NEXT QUESTION.
IF = 2 GO BACK AND CORRECT Q3c.

[ASK IF Q1r = 1]

Q4. How would you describe your usual walking pace?
SINGLE CODE. READ OUT LIST.

11. A slow pace
12. A steady average pace
13. A fairly brisk pace
14. A fast pace
15. Don't know

B. CYCLING

Q6a AND Q6b ADDED FOR START OF APS5

[ASK ALL]

Q6a. I would now like you to think about any cycling you have done. Please include casual cycling in your local area, cycling in the countryside or on cycling routes, cycling to or from school, a part-time job or competitive cycling.

In the *last four weeks, that is since [^INSERT DATE^]* have you done any cycling?

[ADD IF Q1r = 3] INTERVIEWER READ OUT IF NECESSARY: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK WE ARE STILL INTERESTED IN OTHER ACTIVITIES THAT YOU MAY DO.

7. Yes
8. No
9. Don't know

[ASK IF 6a=1]

Q6b. On how many days IF NECESSARY:(in the last 4 weeks have you done any cycling)? THERE ARE 28 DAYS IN THE LAST FOUR WEEKS. SPONTANEOUS RESPONSE CODE AS BELOW. IF RESPONSE NOT GIVEN IN DAYS PROMPT, ON HOW MANY DAYS IS THAT?

Every day = 28
Every weekday = 20
Every other day = 14
Every day at weekends = 8
One day every weekend = 4

ENTER NUMBER OF DAYS – NUMBER RANGE 0 to 28

Don't know

Q6 UPDATED FOR APS6 AND Q7 REMOVED, Q6 UPDATED AGAIN IN JANUARY 2012

[ASK IF Q6A=1]

Q6r. On the days that you cycled, what was the total length of time you USUALLY spent cycling?
IF RESPONDENT CAN'T ANSWER BECAUSE PATTERN VARIES WIDELY DAY TO DAY. STRESS THAT WE WOULD LIKE AN APPROXIMATE TIME FOR EACH OCCASION THAT ACTIVITY IS UNDERTAKEN

WHERE MORE THAN ONE CYCLE RIDE IS COMPLETED DURING THE COURSE OF A SINGLE DAY (FOR EXAMPLE, CYCLING TO WORK IN THE MORNING AND HOME IN THE EVENING) THE DURATION OF ALL CYCLE RIDES SHOULD BE ADDED TOGETHER.

IF ASKED STRESS THAT THIS IS TIME SPENT ACTUALLY DOING THE ACTIVITY AND DOES NOT INCLUDE FOR EXAMPLE TIME SPENT CHANGING OR SOCIALISING.

Hrs…. (ENTER NUMBER OF HOURS – NUMBER RANGE 0 to 16)
Mins… (ENTER NUMBER OF MINUTES – NUMBER RANGE 0 to 59)

4. Any other White background? – please specify

IF 2 (MIXED) ASK. And which one of these best describes your ethnic group or background?

1. White and Black Caribbean, or
2. White and Black African, or
3. White and Asian, or
4. Any other mixed / multiple ethnic background? – please specify

IF 3 (ASIAN) ASK. And which one of these best describes your ethnic group or background?

1. Indian, or
2. Pakistani, or
3. Bangladeshi, or
4. Any other Asian background? – please specify

IF 4 (BLACK) ASK. And which one of these best describes your ethnic group or background?

1. African, or
2. Caribbean, or
3. Any other Black / African / Caribbean background? – please specify

IF 7 (OTHER) ASK. Please can you describe your ethnic group or background? Record respondent's answer – please specify

D14. Do you have a long-standing illness, disability or infirmity? By longstanding I mean anything that has troubled you over a long period of time or that is likely to affect you over a period of time.

8. Yes
9. No
10. *Refused*

[ASK IF D14 = 1]

D15. Does this illness or disability limit your activities in any way?

7. Yes
8. No
9. Refused

QD15a ADDED AT START OF APS5

[ASK IF D15 = 1]

D15a. Does this disability or illness affect you in any of the following areas?

READ OUT. CODE ALL THAT APPLY. SCROLL THROUGH FULL LIST.

28. Vision, for example, due to blindness or partial sight
29. Hearing, for example, due to deafness or partial hearing
30. Mobility, such as difficulty walking short distances, climbing stairs, lifting & carrying objects
31. Learning or concentrating or remembering.
32. Mental Health
33. Stamina or breathing difficulty
34. Social or behavioural issues, for example, due to neuro diverse conditions such as Autism, Attention Deficit or Aspergers' Syndrome
35. Difficulty speaking or making yourself understood
36. Dexterity difficulties, by that I mean lifting, grasping or holding objects
37. Long-term pain or discomfort that is always present or reoccurs from time to time
38. Affects you in some other way
39. Don't know
40. Refused

ASK ALL

D24. Can I just ask, do you go to school?

1. Yes
2. No
3. Don't know
4. Refused

[ASK IF D24 = 1]
D24a. And which school year are you currently in?

8. Year 7
9. Year 8
10. Year 9
11. Year 10
12. Year 11
13. Don't know
14. Refused

[ASK IF D24 = 1]
D24b. Have you been on school holiday (e.g. half term, Easter or summer holidays) in the last four weeks?

5. Yes has been on school holiday for all/part of the last four weeks
6. No during school term
7. Don't know
8. Refused

This study was commissioned by Sport England, thank you for taking part.

Appendix C – Interviewer briefing materials

Active People Survey 9

Telephone Interviewer's Manual

1. Background to the survey

Welcome to the "Active People" interviewing team.

The Active People Survey (APS9) collects data about participation in sport. It is one of the largest CATI studies to be undertaken by telephone in the UK and is very important to TNS. We are carrying out up to 162,500 CATI interviews per year – 500 in every Local Authority (LA) in England. In APS8 Q3 we moved to a dual-frame design, with mobile interviews being conducted alongside the main CATI landline interviews. In addition to the main 16+ survey, we are also conducting additional boost interviews with young people age 14 or 15. This is in accordance with Sport England's new strategy set in 2012, which sees a real focus in getting more young people involved in sport, building the foundations of "creating a sporting habit for life" for future generations. This is Wave 8 of the project – the fourth year TNS has conducted the survey. The first 4 waves were completed by a different research agency.

The fieldwork for this project started on October 15th 2014, and runs continuously throughout the year.

Due to the sheer size and importance of the project we are spreading the fieldwork over our two CATI units in Westgate and Hull.

■ Who is our Client?

Our Client is *Sport England*. This is the leading body of strategy for sport in England. They invest both Lottery and Exchequer money into

grassroots sports. Their aim is “to make England an active and successful sporting nation and to provide for people of all ages to start, to stay and to succeed in sport” by creating a “sporting habit for life.”

- **The main areas of interest for them are…**

  How many people take part in sports or physical activity?
  What are the activities they take part in?
  What is the extent of participation in competitions, tuition and volunteering?

-

Trend data is available on all of the above factors from previous waves, which APS9 is being compared against. It is important that we are able to provide accurate figures which have been gathered in an identical way to the previous research agency and consistency is key to achieving this.

- **The main uses of this research are….**

  To provide an on-going measurement of Sport England’s target of an active, healthy nation. Sport England has stated that “The realisation of our Olympic vision, tackling obesity and helping to create more cohesive communities all rest on establishing a clear understanding of how physically active a nation we are.”
  Sport England are using the results that we provide to help promote the value of sport or physical activity participation, and are helping them to target investment in sporting facilities so that it has the maximum impact allowing all groups in society to benefit.
  This is of particular importance now in terms of addressing the legacy agenda provided by the London 2012 Olympic Games & Paralympic Games.

The data collected in APS1-7 has been used by a variety of agencies including Local Authorities to help them to develop plans to increase people’s levels of participation in sport and active recreation, as well as National Governing Bodies of Sport, who are using the data to increase the number of people taking part in their sport.

Other organisations such as Public Health England provide additional support and have funded a number of health related questions on the survey.

- **Key Issues**

After 4 years of being completed by another research agency who performed well in terms of achieving the targeted volumes, we need to perform equally well and you as the interviewer are the most important part of achieving this. We are relying on your continued support in terms of attendance, timekeeping and productivity for this project to succeed. You must all play your part in this.

It is vital that we always refer to “Activity” as opposed to “Sport”. The views of those people who do not consider themselves as participating - or even interested - in sport are every bit as important as those of fitness fanatics. So we do not want to sell this study to them as a study “on sport”.

Consistency across the interviewing centres. You must all pay very close attention to your training/briefing so that there are no interviewer variations between our centres.

Achieving a good response

Response rate

If you were to approach 100 people with a question and 75 gave answers then you could have more confidence in the result than if, say, 40 people were to answer.

In fact if the 40 you spoke to all answered “yes” to your question it is still (theoretically) possible that the 60 you did not speak to would have said “no”. It is these figures that give us “response rates” and statistical “confidence limits”.

Again, due to the high level of scrutiny, we are contracted to achieving a high response-rate – around 27-28%. So that is that for every 10 eligible people we will have a complete interview with 3 of them.

Introducing the survey

The key to achieving this response rate is you and your introduction. Read the **introduction** as it is written:

Good afternoon/evening. My name is XXXXX calling from TNS – the independent social research organisation. We are carrying out an important study on behalf of government agencies including Public Health England, an Agency of the Department for Health, about people's health and recreational activities. May I ask you a few questions?

The key points to get over are…

"health and recreational activities" – When talking about the survey always use the word "activity" as opposed to "sport". The views of those people who do not consider themselves as participating – or even interested – in sport are every bit as important as those of fitness fanatics. The word 'sport' is more likely to put these people off participating.

People who do not participate in leisure activities (e.g. mothers with young children or old age pensioners) are of key interest so be ready to explain that we are interested in their activities.

Ensure that you emphasise the importance of the survey in the introduction. This should help to encourage participation.

The responses given may help to shape future local services. If respondents query how, please advise them that the survey has been nationally commissioned but that the results are provided to and used by local authorities and county based organisations to shape local services.

However it is not just the words that you use but also how you say them:

You must always treat every telephone number as if it were the most important call you ever made! You may have read the script hundreds of times, but it is the first time for the respondent. You need to sound interested and enthusiastic about the topic and the survey in general.

Smile while you talk – this may sound like an old cliché but it really does make a difference – if you are smiling you sound happier and people are more likely to take part.

Speak with confidence – always speak to the respondent clearly and confidently. If they can understand you easily they are more likely to take part, and to complete the survey.

Listen to the respondent and what sort of person they are – match the tone and pace of your voice to what you think they want to hear. An elderly lady may want you to be slower, louder and clearly spoken, whilst a brisk young man may prefer you to be more dynamic and upbeat. If you can make that judgement correctly in the first couple seconds this will help make people want to speak to you.

Make the respondent feel valued – listen to their responses and make them feel that you are interested in their opinions. Maintain the enthusiasm and avoid sounding bored, but also keep control of the call. The respondent should always be the most important thing to you so deserves your attention.

There is some additional information in the CATI that you can use to reassure people if necessary:

This is not a sales call and respondents will not be contacted for sales purposes as a result of taking part in the survey.

The information collected will be kept in the strictest confidence and used for research purposes only.

The interview will take about 15 minutes on average. If now is not convenient, you can offer to call back at another time. However, it would be helpful if you could ask the first few screener questions on the initial call, so that you can identify which household member you need to speak to.

Sample handling

The sample

This is a random probability survey, with Random Digit Dial sample.

For the main household survey, you will need to interview one adult (aged 16+) per household (see section 4.4 about the 14-15 boost).

The person to interview will be selected by a random probability method (further details given below). This means that we do not need to enforce any quotas on age, sex etc.

It is ESSENTIAL to interview the selected respondent, who may well not be the first person you get on the telephone.

Sample handling

In order to achieve the required response you need to take care when handling sample that everything is coded in the correct place.

You will find on the outcome list for this project that there are a couple of differences from usual.

Handling refusals

If a person refuses to take part, and they haven't already told you why, try to ask why they are refusing "*Could I ask why you are not interested in taking part"*. Be ready to counter reasons by giving them more information about the project.

If they refuse because they are busy or you can hear from the tone of voice, background noise etc that now is not a good time stress you can call back as now is not a good time.

It is important that if you are not able to convert this piece of sample into a complete on this call that you make every effort to try it again at a later date.

When making soft appointments and you have not been advised of a possible time to call, avoid making call backs for time such as +1day etc. If this sort of time is not good today, the chances are it's a bad time so may be best to try a different time of day on the next call.

Outcome screen

It is important in our response rate analysis that all sample is coded accurately. Most codes are used as you would normally however please be aware of the following:

Disconnect – where the dialler disconnects

Modem/Fax/beeper – use this code for fax machines or data lines. These may be identifiable by a very brief blip then silence on the line

Business number – if this is a business or non-residential number

Privacy manager/Call ID block – respondents' privacy settings
No answer – do not use this for answer phones
Busy – number engaged
Answering machine – this should only be used for voice mails and answer phones. If however this is a business answerphone, please code as Business number

Please note that there is no option of a personal or postal interview on this survey. If someone does say they would do the survey if we posted it, then explain that we are unable to do that on this project, as to ensure the results are consistent, all interviews need to be done using the same method. If someone says they would only do it by post or face to face, code as a refusal.

Refusals and deferrals

To help us achieve the response rate target we are handling refusals a little differently from usual.

We are classifying refusals into two categories, deferrals and hard refusals. All deferrals will be reissued in a separate job to be retried at a later date. This methodology is regularly used by the face to face fieldwork team to improve response.

Deferrals - this is the most commonly used of the refusal codes. This should be used for things such as too busy, don't like market research, sickness. Please include full comments. Do not accept lazy refusals.

Hard Refusal – This code should be used for permanent refusals for respondents that clearly state that they are refusing to take part.

It is, however, important that you keep all refusals to a minimum – if you think this person could be redialled – make an appointment. It is often worth making appointments for different times of day – If someone says they are busy cooking dinner then next time try them a little earlier or later.

Non-English speakers

The first screen when you proceed with an interview is a language check. If the person you are speaking to is able to communicate in English, then continue to the interview.

If they do not have adequate English skills, then code 'Foreign language required' and at the next screen, code the appropriate language. If you are sure it is an Asian language but you are unable to identify it as Urdu, Hindi or Gujarati, code 'Asian Not known'. Please code as best you can. If you cannot identify it as an Asian language and you do not know which language is spoken, code 'Other' where you will need to specify as much as you can. If you are not 100% sure which language is the correct one but think you recognise the language, then put *'I think this is Italian'*. If you know or think it is a language from a certain area, then put this *'I think this is European'*.

Since we need to ensure that all groups within the community are represented, we will initially be offering interviews in Urdu, Hindi and Gujarati. Other languages may also be added to this at a later stage depending upon need.

If you speak to someone who is unable to speak English well enough to complete the survey, explain as best you can that 'We may arrange for another interviewer to call in the next few days'.

Respondents with disabilities

In previous waves it was identified that there is a need to help more people with disabilities to take part in the survey. We are doing this in two ways:

Type Talk

Type Talk is a system enabling people who are hard of hearing or who have speech difficulties to use the telephone. Type Talk is a service provided by the RNID that enables us to conduct the interview through an operator who will type out the questions we ask, and read back the respondent's typed response. The system can be used by people who are

hard of hearing or who have speech impediments, if they have type talk facilities.

If this is needed, select the code 'Type Talk required – hard of hearing/speech impediment'. The sample will be moved to an alternative directory where the interview will be attempted using Type Talk, by an interviewer who has been trained in this method. We are training a small number of interviewers to use Type Talk.

Proxy Interview

In some instances we find that once we have selected the correct person in the household to take part, we are told that they are unable to come to the phone due to disability. If in these instances they are capable of answering the questions by using another household member to relay the questions to them then you should code 'Proxy interview (unable to come to phone e.g. disability)' and continue with the call.

This should not be used for non English speakers as we cannot guarantee the accuracy of translation, but may be used for any situations where you can hear the questions being read back to the respondent after you have asked them.

Please take care that the respondent is the one providing the answers, and not someone else answering on their behalf.

Area check

On occasions you will get this question to confirm if the respondent lives in England. This will only be shown where we believe, from the telephone number, that the address is located near the Welsh or Scottish borders. If they are not living in England, then the interview will close.

Screener

Random Selection

The data you collect is subjected to a high level of scrutiny throughout Central and Local Government as well as the Media. Therefore it is essential that we use a random selection of respondents as opposed to our more usual quota surveys. This means that we need to select a

specific individual from each household rather than just interview the person who answers the phone.

For APS5 onwards we have been adopting a dual methodology in order to randomly select the member of the household to take part in the survey. The first part uses the Rizzo method and the second part involves selecting the household member whose birthday comes next. If these methods are adhered to correctly, then our final sample will be nationally representative. This means that there is no need to enforce any quotas on age, sex, social grade.

Rizzo & Next Birthday – how it works

The CATI script will initially attempt to randomly select an adult in the household. If only one adult lives in the household, then CATI will select that person, the person you are speaking to.

If two adults live in the household, CATI will randomly select either the person you are speaking to or the other household member. This means each adult in the household has a 50/50 chance of being chosen to take part in the survey.

If more than two adults live in the household, then CATI may randomly select the person you are speaking to in order to continue with the interview. Alternatively, it will want to select one of the other adults in the household and to do this you will ask which other adult in the household has the next birthday and this will be the randomly selected person you need to speak to.

The CATI script will try to avoid making you ask the next birthday questions where it can, to make this part of the script as easy as possible for you.

The questions to achieve this selection are well worded and take you through the selection step by step. It is important that you ask each as it is written on the screen, and code the responses accurately.

Screener Questions

S3 – take care that the respondent remembers themselves. It is fairly common for people to say '*only one, me and my husband*' They are thinking of how many *other* people are in the household.

We are asking about the household which we have dialled on this occasion.

For the purposes of this question a household is defined as:

One person or a group of people who have the accommodation called as their only or main residence AND EITHER share at least one meal a day OR share the living accommodation, that is, a living room or sitting room

Take care with certain groups of people:

- Students – only include if they are actually living there on the day of your call (i.e. not away at university)
- Forces – anyone away from home in the forces should not be included
- Away from home – anyone who has been away from home continuously for 6 months or more is not included. This may be travelling, hospital, in prison.
- Temporary residents – If this is not their usual home, only include them if they have been here continuously for six months or more

If there are no people aged 16+ in this household who consider this to be their only or main address, then you should code 0. Do take care and clarify this before coding it, and put full comments on the specify screen to explain why this has been coded.

S4

This will be asked when there are more than two adults in the household and the screener respondent is not selected.

Take care we are still thinking about only the people aged 16+ identified in the last question.

If a respondent refuses or questions why you need to know, then explain further why it is necessary to select an individual for the household.

For refusals you will see there are two codes ‘deferral’ and ‘hard refusal’. The definitions of deferrals and hard refusals are the same as outlined above.

S6

This will be asked when there are two adults in the household and the CATI chooses to speak to the other person in the household i.e. not the screener respondent.

Take care we are still thinking about only the people aged 16+ identified in the last question.

If a respondent refuses or questions why you need to know, then explain further why it is necessary to select an individual for the household.

Do not code ‘yes – available’ until the selected person is actually on the phone talking to you.

- For refusals you will see there are two codes ‘deferral’ and ‘hard refusal’. The definitions of deferrals and hard refusals are the same as outlined above.
- ‘Not available’ will take you to S5 and then to an appointment screen.
- Proxy refusals – as per S4. This will close the interview.
- Proxy other non interview – this would be cases where the selected person is not capable of taking part (e.g. disabilities). This will close the interview.
- Proxy wrong language – this would route to a question asking which language the selected person speaks so we could call back and complete a non-English language interview if possible.
- Proxy interview can’t come to the phone – this would apply when the selected respondent requires someone else to act as an interpreter i.e. if they are unable to answer the phone (see above). Please take care that the respondent is the one providing the answers, and not someone else answering on their behalf. NB not to be used if respondent doesn’t speak English.
- Proxy interview - Hard of hearing/speech impediment - Type Talk required – this is the code to use if a Type Talk interview is required, see above.

It is vitally important to make this work that you stick to the method without deviation. It can be very tempting to interview the first person you get on the telephone, particularly when told that the selected respondent…
"is out a lot of the time and probably won't want to do it" or the selected person is physically unable to take part but someone else is willing and able.

This is, quite simply**, not allowed**.
(In addition to our own monitoring the client will also monitor all three centres from time to time.)

It is worth keeping its purpose in the back of your mind – it means that the person who *"is out a lot of the time and probably won't want to do it"* at least **"has an equal chance of being selected."**

However, bear in mind…

1 person in household	no need for selection process
2 people ……..	50% chance you already have them
3 people……..	33% ……
etc. etc.	

Once you have the selected respondent on the phone and have coded "yes – available" at S6, the survey introduction appears for a second time to allow you to introduce the survey fully to the selected respondent.

S5
A full name is not necessary, just a first name or a nickname will suffice, but you need to collect enough detail so that it is clear to you or another interviewer on re-contacting the household, who it is that needs to be interviewed.

14-15 Boost Survey

In all households where it is identified that there is at least one child aged 14-15, interviewers will be required to randomly select a child to complete an additional interview, after the main adult 16+ interview – which remains the priority is completed.

The prevalence of households containing a 14 or 15 year old will be low, but in some circumstances there will be one or possibly more children meeting these criteria. Where more than one child aged 14 or 15 are living in the household, a random selection will be made using the next birthday method. It is however vital that parental permission is obtained before proceeding with the child interview. It may also be required that a call back or appointment needs to be arranged for a future date, either to obtain the parent or guardians permission, or to speak to the child selected. The step by step guide below outlines the various routes that the initial child contact may take.

14-15 Child Survey – Selection and procedures

C1

This question is asked at the end of the main adult survey, after the re-contact questions and only will appear if question D11 (which collects the ages of all children under 16 living in the household) produces an answer of 14 or 15. This question introduces the child survey to the adult respondent before asking if they are the parent or guardian of the child.

C1A

If it is determined that the adult respondent is NOT the parent or guardian of the children in the household, question C1A then asks if we can speak to the parent or guardian.

C1B

If the parent or guardian is not available, question C1B is asked to establish the parent or guardian's name. This will be used when contact is made with the household at a future time, to try and complete the 14-15 interview.

C2

If the parent or guardian is available, the survey is then introduced to them. This uses a very similar introduction to that found in the adult survey, with some adaptations outlining that we are also interested in speaking to 14/15 year olds. Question C2 follows by asking which child has the next birthday, before taking the name of the child generated from this random selection method.

C2A

If there is only one child aged 14/15 in the household, question C2A asks for the child's name.

C2B

Question C2B asks for the parent or guardians permission to speak to the child aged 14 or 15 in the household.

C2C

If the parent/guardian permission is provided, regardless of whether or not the child is available at the present time for an interview, question C2C is then asked. This question collects the name of the parent or guardian so that we have a record of who gave us permission to speak to the child aged 14 or 15.

Proceeding to the child interview or calling back at a later date

In some cases, it will be possible to proceed straight onto the child aged 14-15 interview, if the child selected is available and the parent is available and has granted their permission. In these instances, you will need to proceed onto the child interview. Where this is the case, a screen at the end of the adult interview will appear advising you to open the child script. This screen will contain a key code, 10 digits in length. This key code needs to be entered into the child script before the child interview can take place. The first screen at the start of the child script will ask for this code to be entered. You must enter the code carefully, and check that it is correct before proceeding. The CATI will display a check to prompt you to make sure that the key code is entered correctly.

It is ESSENTIAL that you enter this key code correctly, as it will be used to link the adult and child data together. If key codes are entered incorrectly, we are left with child data without an adult interview to link to, and the data is useless. The accuracy with which interviewers enter the key code will be closely monitored in the same manner as other key interviewer performance indicators.

If the child is not available there and then for interview (straight after the adult interview), or for any reason parental permission has not been obtained at the end of the adult interview, all call-backs will take place on

the child re-contact script._ The relevant details collected at the end of the adult script will be loaded into the child script so that when an interviewer calls back, they will know who to ask for. Depending on the outcome of the screening at the end of the adult script, either of the stages outlined in section 1 of this document could be carried out on the child script. For example:

If no parent/guardian was identified at the end of the adult script, or if they were identified but not available, the child script will ask for the parent/guardian, and the selection of the child will be carried out in the child script.

In situations where the child was selected at the end of the adult script, but the child was not available, when calling back on the child script you will ask to speak to the parent again to check whether it is still ok to interview their child.

When calling back on the child script, if the original parent/guardian who was identified or spoken with at the end of the adult interview is not available, it is acceptable to speak to a different parent/guardian to obtain permission.

When calling on the child script, if the child is not available to be interviewed, an appointment should be made to call back. At this stage, the script will ask if it is ok to ask for the child directly when calling back next time. This means that we have permission to interview the child and the adult is happy for the interviewer to ask for the child directly. When calling back in this situation, the interviewer will be advised to ask for the child. In all other call-back situations, you will be advised to ask to speak to the adult again to check that it is still ok to interview the child.

Main questionnaire

This section of the questionnaire measures how active the population is. We ask what type of sports or activities the respondent has participated in, within the last 4 weeks or 12 months. You must read the question exactly as it appears on the screen. . Please ensure that you take your time going through the questionnaire and probe as much as possible. It can be tempting to take shortcuts to get through the interview quickly but it is absolutely vital that each respondent hears all of the inclusions and

exclusions which precede each question – the script must be stuck to without any deviation!

It is also important to know that rotations are applied so that respondents will not always be asked all questions. This is done in order to ensure that the interview remains at a suitable length. There are 4 rotations in total, with some questions asked of 25% of respondents and others 50% or 2/3 of respondents. A detailed overview of the rotations applied in the APS9 questionnaire can be found in the table 5.1.

Table 5.1 Rotations of questions/sections in APS8

Question / section	Version %	Version R1	Version R2	Version R3	Version R4
		3/12	5/12	1/12	3/12
Reasons for participation (RS1 to RS3) – **NEW APS9**	25% of sample				Y
Club (Section D)	2/3 of sample	Y	Y		
Tuition (Section E)	2/3 of sample	Y	Y		
q17b (tuition in a particular sport)	2/3 of eligible respondents	Y	Y		
Competition (Section F)	2/3 of sample	Y	Y		
Volunteering (Section G)	25% of sample				Y
Q21 Sports provision (Section H)	50% of whole sample		Y	Y	
Change in participation (Section I)	25% of sample				Y
Likelihood to do more sport (Section J)	25% of sample				Y
D1a – gender identity	25% of sample	Y			
d4a1 - Religion	25% of sample	Y			
d4b - Sexual ID	25% of sample	Y			

Section A – Walking

Q1r – Everybody is asked this question. It asks whether respondent did any walking in the last 4 weeks. It's straightforward but please note that although time spent walking to and from the shops is included, time spent walking around shops is to be excluded, as we are only interested in continuous walking. Emphasise that it's 10 minutes of continuous walking in the last 4 weeks.

If a respondent says that they are unable to walk at Q1r, you will be routed to the Cycling section (Q6a) and an on screen read out will appear. You must read out the following text:

INTERVIEWER READ OUT IF NECESSARY: ALTHOUGH YOU HAVE SAID YOU CANNOT WALK WE ARE STILL INTERESTED IN OTHER ACTIVITIES THAT YOU MAY DO.

It is important that we capture any activities that someone who is disabled and/or unable to walk may be doing; we cannot assume that they are not doing any physical activities.

Q3r – Is asked of those who say yes at Q1r. You are required to input a specific number of days. There are examples on your screen to help you. Please ensure you always clarify/double check with the respondent, for example

Resp: *Erm, probably every other day*
Interviewer: *So approximately 14 days a month?*

Q3a – Is asked of those who say yes at Q1r and follows on from Q3r. This question asks respondents to calculate the total length of time they USUALLY spend walking during the course of the day, only including walks of at least 10 minutes.

It is possible that the respondent has difficulty providing you with a conclusive answer on this question due to their total walking time varying considerably from day to day. In these circumstances, ask for the total time they most regularly/frequently spend walking, for example

Resp: *Well, I walk to and from work, 30 minutes a day from Monday to Friday but on Sundays I usually go for a 2 hour walk after dinner.*

On this occasion, the interviewer would enter 30 minutes, as this is the most frequent amount of time they spend walking.

Q3b –This question is asked in a similar vein to Q3r, however this time asks respondents to include only the days where they walked for the purpose of health and recreation. Once again, this excludes time spent walking around shops.

Q3c – This question is asked in the same way as Q3a. Respondents are once again asked to calculate the total length of time they USUALLY spent walking during the course of the day, only including walks of at least 10 minutes. This time however, they must just be thinking about walks that they do for the purposes of leisure and recreation.

Q4 – Is asked of all who answer Q1r. Read out the options and code as applicable, allowing for self-definition by the respondent.

Section B - Cycling

This follows a similar pattern as Section A but it's about cycling rather than walking. Everyone is asked this section including those who have said they are unable to walk, as they could use a specially modified bicycle.

Q6a – Asks about any cycling done in the past 4 weeks. Please note that for this question, there is no minimum time requirement, any cycling at all should be counted.

Q6b – This question clarifies how many days in the past 4 weeks the respondent has done any cycling, again with no minimum time requirement.

Q6r – Asks how long the respondent USUALLY cycles for over the course of a day. As the on screen instructions say, probe for an approximate/average number of hours and minutes. Where more than one cycle ride is completed during the course of a single day (for example cycling to work in the morning and home in the evening) the duration of all cycle rides should be added together. The first screen will ask you for hours, the second for minutes (see section 5.3.4 for more detail about this).

It is vital that the respondent only includes time spent actually doing the activity.

Q8– As per Q3r, clarifying number of days or approx timescales

Q8ar –This question asks how many cycling days were for health, recreation, training or competition, not to get from place to place. If this is not the same number of days as Q6b, then Q8a asks how long the respondent usually cycles for health, recreation, training or competition. Q8b asks about the main type of cycling - it is important that you read out all options before accepting a response from the respondent.

Q8b – Asks about the type of cycling that respondent mainly does.

Q13a – A straightforward question to establish whether the effort put into cycling was enough to raise the respondent's breathing rate. Stress that we're asking about recreational cycling – not just getting from place to place.

Q14a – A question asked to establish whether the effort put into cycling was enough to make respondent out of breath or sweat. If you find a particular respondent finds the word 'sweat' offensive please use the word 'perspire'.

Q13b and Q14b are alternatives to Q13a and Q14a that are asked of those respondents that only did utility cycling.

Section C – Sports and Recreation

Q9 – Asked of everybody. This question asks whether respondent did any sport or recreational activity other than walking and cycling mentioned in previous questions. Emphasise that we're only asking about the last 4 weeks. Teaching, coaching or refereeing should not be counted here (we ask about these activities later).

There is an option for you to code:

INTERVIEWER DO NOT READ OUT. CODE IF RESPONDENT HAS STATED THEY ARE SEVERELY DISABLED AND DO NO ACTIVITY. CODE ONLY AS A LAST RESORT IF RESPONDENT IS FRUSTRATED OR UNHAPPY WITH ACTIVITY QUESTIONS

As the note states, unless the respondent is unhappy with the questions, you should ask them even if the respondent has said they are disabled;

however, you have this code as an option if the respondent is becoming frustrated or unhappy with these questions. This option should only be used as a last resort – please emphasise to respondents that in order for the survey to be representative it is important that we speak to those who do not do active recreational activities as well as those who do.

Q9ck – if you have coded that the respondent is disabled and does no activity, this check question appears, just to check that they don't do any 'light recreational activities such as darts, snooker, fishing or any wheelchair sports' as these are included in the survey. If the respondent answers that they do some of these activities, the CATI will skip back to Q9 where you should code 'Yes'.

If the respondent confirms that they do not do any of these activities, the CATI will skip to Q26 (dance/gardening).

There are similar options for coding if someone is disabled and wants to skip the rest of the sports questions at several later questions, i.e. Q16, Q17, Q18, Q24, Q22; follow the same procedure at each question.

Q10 – This list contains in excess of 325 different activities. The routing on the following questions is taken from this one so it is vital that you record all activities as you get the responses. The list is set up as a database to help you to find items quickly and easily.

Using the database

The database will bring up all the activities listed that include the word or part word typed in, and then you should code the correct activity from the list.

The database is case sensitive, all letters must be **lower case**
e.g. netball not Netball or NETBALL

In order to search the database, you must type '!' after the search word. For example:

ENTER 'hockey!' and the database will bring up a list containing all the hockey activities –

hockey – field indoor
hockey – field outdoor

hockey – ice
hockey – roller
hockey – street
hockey – underwater

ENTER ‘motorcycling!’ and the database will bring up a list containing all the motorcycling activities –

motorcycling – motocross
motorcycling - off road
motorcycling - trail riding
motorcycling - trials riding
motorcycling - sidecar racing
motorcycling - rallying
motorcycling - drag/sprint
motorcycling - track racing
motorcycling - super moto
motorcycling - enduro

The database also searches on the first letters of the word. For example:

ENTER ‘moto!’ and the database will bring up a list containing all the motor activities–

motor sprints
motorcycling – motocross
motorcycling - off road
motorcycling - trail riding
motorcycling - trials riding
motorcycling - sidecar racing
motorcycling - rallying
motorcycling - drag/sprint
motorcycling - track racing
motorcycling - super moto
motorcycling - enduro
motor racing / banger racing
road racing (motors)

The database also searches for letters in any position in a word. For example:

ENTER ‘cycl! And the database will bring up a list of all activities containing the letters cycl

bicycle polo
cyclo-cross

cycling
cycling – downhill riding / gravity riding
cycling – stunt riding
motorcycling – motocross
motorcycling - off road
motorcycling - trail riding
motorcycling - trials riding
motorcycling - sidecar racing
motorcycling - rallying
motorcycling - drag/sprint
motorcycling - track racing
motorcycling - super moto
motorcycling - enduro

All the activities that match the letters you have typed will be shown on the screen.

You can either select the required activity from the shorter list (using + to scroll if needed) or you can perform a second search within the search to narrow the choice down further.

If the respondent has not taken part in any activities, or you have recorded all of their activities then you need to select none to continue: ENTER 'None!'

The database will bring up the code 'None'. Selecting this will move you forward in the script.

It is vital that as many responses as possible are coded on the list rather than using the other specifies as this affects the routing on the following questions.

For some sports like football there are a number of different types:

football (indoors) - small sided(eg.5-a-side)
football (indoors) – other
football(outdoors) – small sided(eg.5-a-side)
football (outdoors) - 11-a-side
football (outdoors) – other

Please make sure your FIRST probe is **indoors/outdoors**. Then probe for the other details i.e. ask if they play **5-a-side, 11-a-side or other** (such

as kick about in the park / back garden / beach / knocking a ball about with family etc).

Asking Q10

Read the question as it is on the screen.

Do not prompt for any specific sports.

Probe “what else?” after all spontaneous mentions, to ensure you capture EVERYTHING the respondent has done.

If a respondent mentions a sport that is listed on the database without any subgroups (e.g.baseball) then you just code baseball – there is no need to probe for variant.

If the respondent names a sport for which ALL entries on the database have a subgroup (e.g. hockey) then you need to probe for variant. To do this ask:

“What type of [sports name] is that?”

If necessary prompt from the list.

Take care with abbreviated sports. If the respondent says “Biking” – you need to clarify whether this is motorcycling or cycling and then code as appropriate.

When you read out the list of possible options, make sure you only include relevant sports. Because the sports database is programmed to search for common misspellings and different usages of various keywords, sometimes the list that you will be presented with may include variations which do not logically fit with the sport given. Take the example of ‘powerlifting’. If you conducted a search for ‘power!’ then ‘powerboat racing’, ‘power kiting’ and ‘power walking’ would be displayed in addition to variants of ‘powerlifting’. You should not read out these unrelated options.

If you cannot find the named activity on the list then confirm with the respondent if there are any other common names for the activity.

If there are no other names then use the ‘other specify’ options.

Points to note:

- **Always** search for the **respondent’s own words** first before thinking about alternative words/similar sports.
- **Always** search for **alternative words/similar sports** before using ‘other – please specify’.
- **Read out the list of options** when your search returns more than one sport to ensure **full probing** and **accurate coding**.
- Enter **everything** the respondent mentions, as long as you have checked with them that they consider it to be a **recreational physical activity**.
- There are detailed questions on **dancing** and **gardening** later in the questionnaire, but these activities should also be entered at Q10 if mentioned here, as it brings up important prompts during the remainder of the script.
- **Exercises** are on the database; you just need to probe whether it is health & fitness exercises or keep fit exercises.
- The **names of exercise classes** are on the database, so please search for these. DON’T put them under gym for e.g. body pump, body jam, body attack, and legs, bums and tums.
- **Marathon** and **half marathon** are included with ‘Running – road’, as is running in a park/local area.
- **Armchair exercises** done by older respondents should be coded as health and fitness activities.
- If a respondent has taken part in a **charity event**, please confirm whether they did walking or running and code the appropriate response.

When using the other specify code, it is important to only record one activity in each other specify (i.e. if 2 activities are mentioned that are not on the list then select “other specify 1” and “other specify 2”). Once you have selected the “none” code you will be asked to specify activity 1and, on the following screen activity 2. We record other specifies in this way as the text typed in for each other specify may be used later in the interview as text substitution, when asking about specific sports or

activities. If more than one activity is recorded in an other specify, this will confuse questioning later in the interview.

Follow-up questions on specific sports

For some sports, a follow-up question will come up to ask for further detail or clarification. For example:

Swimming – When you type in **swimming!**, the database will bring up the following list:

swimming / diving [indoors]
swimming / diving [outdoors]
swimming - deep water
swimming - open water

Deep water swimming and open water swimming should be coded only if respondent specifically mentioned one of them. If respondent said just 'swimming', you should probe only for **indoors/outdoors**.

If 'swimming-deep water' is selected at Q10, you will be asked question Qdeep, checking if respondent specifically mentioned deep water swimming. Similarly, if 'swimming – open water' is selected, you will be asked whether respondent specifically mentioned open water swimming (Qopen). If you answer is 'no', CATI will route you back to Q10 so that swimming – indoors or swimming – outdoors could be coded.

Snow1 – If respondent has answered a snowsport activity (e.g. Skiing, Snowboarding etc) at Q10, they would be asked the location (England, other UK or overseas)

Snow2 – If respondent answered 'England' to Snow1, the respondent would also be asked how they did this (Indoor snow slope/Dry slope/Other).

Weight Training – if respondent answers 'Weight Training' to Q10, a follow up question asks *'What type of weight training did you do?'*.
We are interested in respondents' **primary motivation** for weight training, for example whether it is for general fitness or to participate in a specific sport, the **type of equipment** primarily used (e.g. free weights

or resistance machines), and whether they did it **with a personal trainer**. The detailed categories are:

Weight training (free weights) - general fitness with a personal trainer
Weight training (free weights) – general fitness without a personal trainer
Weight training (free weights) - for specific sport
Weight training (resistance machines) - general fitness with a personal trainer
Weight training (resistance machines) – general fitness without a personal trainer
Weight training (resistance machines) - for specific sport

Therefore, please make sure your FIRST probe is to ask if they used either **free weights** or **resistance machines**, then you need to find out if the respondent did the weight training for **general fitness** or to **train for a specific sport**. If the respondent did weight training for general fitness, you need to ask if they did it **with personal trainer.**

Weight Lifting – if respondent answers 'Weightlifting' to Q10, the follow up question asks: 'Is that Snatch / Clean & Jerk'?
If the answer is 'No', the activity should be coded as a weight training activity, so the CATI will route back to Q10 so that **'Weight training (free weights) – for specific sport'** can be coded.

Powerlifting – If 'Powerlifting' is answered to Q10 we need to distinguish between which category of powerlifting this fits into so it can be allocated to the correct code.
Ask *'Is that Special Olympians or Paralympic Bench Press powerlifting?'*
The answer options are:
Powerlifting - Special Olympians
Powerlifting Paralympic - Bench press
Or Neither

Rugby - The options when you type in **rugby!** are:
rugby league
rugby union
wheelchair sports – rugby
tag rugby / rugby tag
touch rugby / rugby touch

Please make sure you read out **ALL** the above options to ensure correct coding.
The following table shows the range of questions which will be asked as soon as you have selected one of the above options:

Rugby League	Rugby Union	Touch or Tag Rugby
Which of the following types of Rugby League have you done in the last four weeks? Rugby league – 13 a side game Rugby league – Tag rugby Rugby league – Touch rugby Rugby league - Other	Which of the following types of Rugby Union have you done in the last four weeks? Rugby union – 15 a side game Rugby union – Sevens Rugby union – Tag rugby Rugby union – Touch rugby Rugby union – Other	Is that Union or League? (If respondent says it's neither code as 'Rugby – Other') Rugby league – Touch/Tag rugby Rugby union – Touch/Tag rugby Rugby – Other

Cricket - There is a follow-up question to ask for the TYPE of cricket played.

Which of the following types of cricket have you done in the last four weeks?
INTERVIEWER NOTE: any mention of 'nets' is cricket practice

cricket (outdoors) - match
cricket (indoors) - match
cricket (outdoor) - nets / practice
cricket (indoors) - nets / practice
cricket - Other

Please make sure your FIRST probe is **indoors/outdoors.** Then ask if they played cricket in a **match**, at **cricket practice**, in the **nets** or **other** (such as in the park / back garden / beach / knocking a ball about with family etc).

Walk – If a respondent mentions any walking activity at Q10 (e.g. rambling or hill walking or just walking) and has already mentioned walking for recreation on at least one day for more than 30 minutes ,then this question is displayed. It asks the respondent whether the walking at Q10 is additional to walking previously mentioned ,as we do not want to double count walking.

Cycl – Similar to above. If a respondent mentions any cycling activity at Q10 (e.g. BMX, Mountain biking or just cycling) and has already mentioned cycling for recreation on at least one day for more than 30 minutes then this question is displayed. It asks the respondent whether the cycling mentioned at Q10 is additional to cycling previously mentioned, as we do not want to double count.

Days, time and effort questions

Q11 – This is asked for certain sports and activities mentioned at Q10, again clarify the number of days or general time scale. As this question is asked for a selection of the sports, it may come up more than once and the script will automatically insert the response from Q10 – take care that the respondent is clear about the activity you are asking about each time this question is asked.

Q12 – As Q11, this is asked for certain sports mentioned at Q10. As the on screen instructions say, probe for an approximate/average number of hours and minutes.
The first screen will ask you for hours, the second for minutes.

It is vital that the respondent only includes time spent actually doing the activity. For example –

- If someone arrived at the swimming baths at 3pm, got into the pool at 3.30, swam until 5, and left the swimming baths at 6 the time we are interested in is between 3.30 and 5 where they were actually swimming so 1.5 hours
- If someone plays a game of golf 10-12, has lunch 12-1, then has another game 1-3, the average per occasion would be 2 hours. If the lunch break was in the middle of the game (using the same timings), it would still be 2 hours as the continuity was broken.
- If someone says, for example, that they fish for 2 days continuously, then we would need to establish how long during that 2 day period they actually engaged in the fishing activity. You would need to know how long each bout of fishing lasted before they did another non-fishing task (e.g. sleeping, drinking beer etc). For example if they did 2 hrs fishing and then went to the café for a cup of tea, then did 2.5 hrs fishing before sleeping for a while, then did 1.5 hrs fishing before having a few beers with fellow fishermen, with the rest of the 2 days following a similar pattern you would need to code 2hrs (the average of 2 hrs, 2.5 hrs and 1.5 hrs)

There is a minimum and maximum amount set as 0-16 hours and 0-59 minutes. Again the script will insert the sport from Q10 into the text.

Take care that 'one and a half hours' would be entered as 1 hour 30 minutes

If you do have someone who does do a single activity continuously for more than 16 hours, confirm that this is the case and if so code 16 hours 59 minutes

In addition, to help with the accuracy of the time recorded at Q12, we have programmed the script to run logic checks on the time entered. Logic checks are simply a way of double checking responses that seem unusual are in fact correct. These logic checks are very simple and appear on the screen as a prompt for you to check that the time given by the respondent for a particular activity is correct. The logic checks are programmed on a sport by sport basis. For example:

If a respondent says they participate in Tennis on average for 8 hours, then a logic check would appear, as 8 hours is considered an unusually long time for an activity of this type.

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^], IS THAT CORRECT?

The CATI programme would automatically insert the time and activity the respondent has mentioned. All you need to do is read out the logic check and then code either 'yes' if it's confirmed by the respondent as being correct or 'no' if the respondent believes they have said the incorrect amount of time. If the respondent says 'no', you will be taken back to Q12 so that the correct time can be entered.

Q4a – This question is displayed if the respondent had not previously said that they had walked for half an hour continuously and was therefore not previously asked the walking pace question at Q4. This rule applies to all walking based activities mentioned at Q10.

Q13 – A straightforward question to establish whether the effort put into an activity was enough to raise the respondent's breathing rate. This

question may be asked more than once depending on sports mentioned at Q10.

Q14 – A question asked to establish whether the effort put into cycling was enough to make respondent out of breath or sweat. As Q12, it is asked for certain sports mentioned at Q10. As Q13, it may come up more than once. If you find a particular respondent finds the word 'sweat' offensive please use the word 'perspire'.

Q15 – This is crucial to the survey and as such particular care needs to be taken to ensure we are getting accurate results.

There is a readout screen before this question – ensure that this is read clearly as these are the activities that we are focusing on for Q15. Only some of the recorded activities will be included here, depending on which activity, how long they are done for and for some only if it raised the breathing rate.

We are asking:

Can I ask on how <u>many days</u> in the last four weeks, in total, did you do <u>at least one</u> of these activities for at least 30 minutes?

If the respondent did more than one of these activities on any one day then you should only count that day once.

Example A:

- If every Monday they go swimming and no other activities were done for at least 30 minutes that would be 4 days.
- If they went on a bike ride for 45 minutes on each of the days they swam, it would still be 4 days.
- If they also played rugby every other Wednesday it would be 6 days.

Example B:

- If every Saturday and Sunday morning a person plays Squash for 30 minutes and no other activities were done for at least 30 minutes that would be 8 days.
- If every Saturday afternoon after they also played Football for an hour it would still be 8 days.

If they also played Five-a-side football for 45 minutes every Tuesday, it would be 12 days.

Take care not to push someone too much for an answer – we would prefer a “don’t know” than a guess that is totally inaccurate.

To help with the accuracy of the days recorded at Q15, we have programmed the script to run a logic check should the total number of days given by the respondent at Q15 be either:

Less than the lowest number of days given for any of the eligible activities at a previous question asking them on how many days they did that particular activity. For example, if a respondent had previously said that they had swam for 5 days and played tennis for 3 days, the lowest number of days that should be entered at Q15 is 3 days;

More than the combined total number of days that they may have done any of the individual activities. For example, if a respondent had previously said that they swam for 5 days and played football for 5 days, the maximum number of days that should be entered at Q15 is 10 days.

If the answer given at Q15 falls outside the minimum and maximum number of days (as explained above), an on-screen logic check will appear prompting you to double check the answer given with the respondent.

The CATI programme will automatically list all of the eligible activities and the number of days the participant said they participated in each. All you need to do is read out the logic check and then code either ‘yes’ if it’s confirmed by the respondent as being correct or ‘no’ if the respondent believes they have said the incorrect number of days. If the respondent says ‘no’ you will be taken back to Q15 so that the correct number of days can be entered.

RS1- This question is asked only in R4, that is of 25% of respondents. It asks about the main reason why the respondent took part in certain activities mentioned at Q10. Instead of copying all responses from Q10, CATI allocates them to one or more of the following groups:

running or jogging
fitness activities
combat sports
cycling (also include **IF Q8ar>=30 mins AND Q13a=1 or Q14a=1)**
swimming

The question reads as follows:

What was your main reason for taking part in <^sports group^>?

READ OUT. *SINGLE CODE ONLY.*

13. Enjoyment of the sport/activity
14. To improve/maintain fitness
15. Preparation/training for a sport
16. Preparation/training for an event
17. To socialise with friends/family
18. Some other reason

The CATI script will automatically insert the appropriate activity group. This question may be asked more than once (up to 5 times - once for each activity group) depending on sports mentioned at Q10.

RS2- This question is asked if the respondent gives training for a sport as the main reason why they took part in an activity group at RS1. It asks which main sport they were training for. This question includes a list of 47 sports, which were alphabetically ordered so that the sport mentioned by the respondent could be found easily.There is also an 'Other' code for sports that are not included in the list.

RS3- This question is asked if the respondent gives training for an event as the main reason why they took part in an activity at RS1. It asks which of the following events they were preparing for:

Running (eg. marathon, Great North Run, Zombie Run, Race for Life, ParkRun, 10k, 5k
Cycling (eg. Ride London, South Downs sportive, Breeze challenge events)
Swimming (eg.Great Swim, Human Race open water swims)
Triathlon or other multi-discipline event (eg. Duathlon, Aquathon,)
Obstacle (eg.Men's Health, Tough Mudder, Tough Warrier, Spartan race, X Runner, Survival of the Fittest

Club, instructionand competition sections are asked of 2/3 of respondents (R1 and R2).

Other

Section D – Club

Q16 – This question asks whether the respondent has been a member of club. Emphasise that we're only asking about the last *4 weeks.*

Q16b – This question is only asked if people said 'yes' at Q16. You must read out the list fully and bear in mind that it spans several pages. Please take care not to code the health and fitness club option as default, you must check to see whether or not they belong to a sports club. If the respondent says they are a member of a leisure centre or gym, you will need to probe i.e. *and what type of club at the leisure centre [gym] do you belong to?* If necessary read out list again. If after probing, the respondent still says a type of club that is not included in the read out list, then code as 'other' and type in their response in as much detail as possible.

UNLESS the respondent is adamant, **ALL** responses with the name of a sport in the club title **MUST** be coded as option 3 – "sports club".

Q16a – This question is only asked if the respondent says they have been a member of a sports club at Q16b. This question uses the Q10 database (please refer to Section C 'using the database' for more detailed instructions). A respondent may give multiple answers.

Section E – Instruction

Q17 – Emphasise that we are asking about the last *12 months* at this question

Q17a – This question is only asked if the respondent says 'yes' at Q17, i.e. they have received tuition in the past 12 months. This question uses the Q10 database (please refer to Section C 'using the database' for more detailed instructions). A respondent may give multiple answers.

Q17b – This question is repeated for each sport mentioned at Q17a. Emphasise that we're only asking about the last *four weeks* at this question. If the respondent has not received any tuition in the last four weeks, code '0' at this question.

There is a similar logic check to Q15 here, which will be displayed on screen if any unexpectedly high answers are given at Q17b.

Section F – Competition

Q18 – Emphasise that we are asking about the last *12 months* at this question

Q18a – This question is only asked if the respondent says 'yes' at Q18, i.e. they have received tuition in the past 12 months. This question uses the Q10 database (please refer to Section C 'using the database' for more detailed instructions). A respondent may give multiple answers.

Volunteering section is asked of 25% of respondents (R4).

Section G – Volunteering

For the volunteering questions, it is vital that time spent solely supporting the respondent's own family members should NOT be included. However, time supporting their own family members **and** other people should be included. Please remember to read out all inclusions and exclusions so that respondents are aware that we count travel time etc.

Example:
Driving their own child and a neighbours' to football practice would count.

If a respondent is doing this activity as a part of a paid job (e.g. nannies, teachers) then it should not be counted, however if it is done on a voluntary basis outside of their job duties it would be counted.

Q19b – Emphasise that we're asking about the last *4 weeks*. READ OUT all responses and multi code where appropriate.

PROBE for code 3, we are looking for any type of administrative or organisational role, no matter how minimal.

Use the 'Other sports voluntary activity' code only if you have checked that the response would not fit into one of the pre-codes.

"Other sports voluntary activity" should not include the following types of activities:

- Raising money for a non-sporting charity by participating in a sporting event such as a marathon
- Volunteering for a non-sporting organisation such as a church, a community centre or a non-sporting charity.

Q19c – This is only asked of those who responded 'Coached an individual or team(s) in a sport or recreational physical activity' to Q19b
Emphasise we are asking about the last *4 weeks.*

The Q10 database of sports will be used, which requires equally detailed probing on sports mentioned. Follow the same principles to Q10 and once exhausted all sports enter 'none'.

Q20a – This question is a follow-on from Q19c, asking how much time in total has been spent on coaching an individual or team. The first screen will ask you for hours, the second for minutes.

There is a minimum and maximum amount set as 0-600 hours and 0-59 minutes.

To help with the accuracy of the time recorded at Q20, we have programmed the script to run logic checks on the time entered. Logic checks are simply a way of double checking responses that seem unusual are in fact correct. These logic checks are very simple and appear on the screen as a prompt for you to check that the time given by the respondent is correct. For example:

If a respondent says they did coaching for 225 hours, the following logic check would appear on screen:

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING COACHING AN INDIVIDUAL OR TEAM(S) IN A SPORTS OR RECREATIONAL ACTIVITY, IS THAT CORRECT?

The CATI programme would automatically insert the time the respondent has mentioned. All you need to do is read out the logic check and then code either 'yes' if it's confirmed by the respondent as being correct or 'no' if the respondent believes they have said the incorrect amount of time. If the respondent says 'no' you will be taken back to Q20a so that the correct time can be entered.

Q19d – This question is only asked of those who responded 'Refereed, umpired, or officiated at a sports match or competition' to Q19b. Emphasise that we are asking about the last *4 weeks.* Similar to Q19c, the Q10 database will be used to code activities.

Q20b – This question is a follow-on from Q19d, asking how much time in total has been spent on refereeing, umpiring or officiating a match/competition. An identical procedure to Q20a is used. The logic check applied this time will read:

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING REFEREEING, UMPIRING, OR OFFICIATING A MATCH OR COMPETITION, IS THAT CORRECT?

Q19e – This is only asked of those who responded '3', '4', '5', '6' or '7' to Q19b. Emphasise that we are asking about the last *4 weeks.* Similar to Q19c, the Q10 database will be used to code activities. NB if someone has done coaching and/or refereeing/ officiating as well as Other voluntary activities, the sports coded at this question should relate to the Other voluntary activities only.

Q20c – This is a follow-on from Q19d, asking how much time in total has been spent on other voluntary sports activities. NB if someone has done coaching and/or refereeing/officiating as well as Other voluntary activities, the time spent of coaching and/or refereeing/officiating should NOT be included at this question.

An identical procedure to Q20a is used. The logic check applied will read:

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING VOLUNTARY SPORTS WORK, IS THAT CORRECT?

Section H – Sports Provision

Q21 – This question is asked of 50% of respondents and requires respondents to rate their overall satisfaction with sports provision in their local area, using a five point scale with responses ranging from very satisfied to very dissatisfied. If a respondent queries this, then we should explain that we're interested in all sports provision regardless of who provides it. So local authority, private sector, club / voluntary sector, education provision would all form part of the judgement.

Change in participation section is asked of 25% of respondents (R4).

Section I – Change in participation in the last 12 months

Q24 –This is a straightforward question asking whether the respondent believes they are doing more, less or the same amount of sport and recreational physical activity as they did this time last year. Emphasise that we are asking about *this time last* year, so 12 months ago. If respondents are unsure what period they are thinking about, ask them about their levels of participation since the same month last year.

If respondents state that "they don't do any sport", check if that is the same as this time last year, i.e. that they have never done any sport. If so, they should be coded as 'Same' rather than 'don't know'.

Q24a – This question is only asked if 'Less' is answered to Q24. We are looking for the one sport that the respondent is doing less of.

The Q10 database of sports will be used, which requires equally detailed probing on sports mentioned. Follow the same principles to Q10, although once the main sport has been coded, the questionnaire will move onto the next question.

‘Don’t know’ can be coded (but do not read out) for this question.

Q25 – This is a follow-on from Q24a. Probe fully and try to attribute the answer to the most relevant code in the list. If none are applicable, please code to ‘Other’ only if the code cannot be applied to an existing code. The list at this question is very long so please scroll through the full list.

Q24b – This question is only asked if ‘More’ is answered to Q24. A similar principle to Q24a is followed; the Q10 database of sports used with ‘don’t know’ a possible code (but do not read out).

Q25a – This is a follow-on from Q24b. The question follows a similar principle to Q25, using a different response list. Again, please try to apply the response to an existing code where possible.

Likelihhod to do more sport section is asked of 25% of respondents (R4).

Section J – Likelihood to do more sport

Q22 – This is a straightforward question establishing whether or not the respondent would like to do more sport than they do at the moment. Emphasise that we are asking about the next *12 months*.

Q23 – This question is only asked of respondents who answered ‘yes’ at Q22, i.e. they would like to do more sport or recreational physical activity. This question uses the Q10 database (please refer to Section C ‘using the database’ for more detailed instructions). The respondent may only give one answer. Once the main sport has been coded, the questionnaire will move onto the next question.

A ‘don’t know’ response is allowed, but must not be read out to the respondent.

Q23a – This is a follow-on from Q23. Emphasise that we are asking about the next *12 months*. If answer is ‘do more’ or ‘do less’, please probe as to whether they will ‘definitely’ be doing more/less or ‘probably’.

If they use another variation, please reconfirm as to which code they would like to be coded to. Do not read out 'don't know'.

Section K – Dance and Gardening questions

Q26 – Please note you **MUST** read out the full introduction to this question to inform the respondent that it doesn't include dance as part of an exercise class, or gardening where you receive payment. Additionally please make sure the respondent knows that we are looking for the length of time they spend doing these activities in **ONE** session **WITHOUT** a break (it is highly unlikely that a person does gardening for 8 hours non-stop in one day so bear that in mind). Please emphasise that we are asking about the last 4 weeks. A definition of 'conservation related gardening' is given in the CATI script if the respondent requires it.

Q27 – This question is filtered from Q26 for 'dancing' (code 1) and 'gardening' (codes 2, 3, 4 or 5) so it could potentially be repeated if a respondent does both. Similar to Q3, you are required to input a specific number of days. There are examples on your screen to help you. Please ensure you always clarify/double check with the respondent.

Q28 – This is a follow-on from Q27 for both 'dancing' and 'gardening', asking how much time in total has been spent doing each activity. Similar to Q20a, the first screen will ask you for hours, the second for minutes.

If the respondent says that they dance for less than 10 minutes or longer than 2 hours, or garden for less than 10 minutes or longer than 6 hours, the following logic check will appear on the screen:

YOU SAID YOU SPEND [^INSERT HRS^] AND [^INSERT MINUTES^] DOING [^INSERT ACTIVITY^] WORK, IS THAT CORRECT?

Q29 – This question is filtered to those respondents who spent more than 30 minutes doing any dancing or gardening at Q28. Emphasise we are asking about the last *4 weeks.*

Q30 – This is a follow-on from Q29. Emphasise that we are asking about the last *4 weeks.*

Section L - Health questions

RM8 – This question is asked of all respondents and requires respondents to provide their height in either feet and inches, or centimetres. There is also the option “cannot give estimate” which can be used if respondents are unable to provide their height in either of these units of measurement. Furthermore, respondents can also refuse to answer this question if they wish to.

RM8a – All respondents who wish to provide their height in feet and inches are asked this question which collects height in feet and inches at separate screens. To reduce the occurrence of unrealistic answers and/or interviewer error, the range is capped between 3 and 7 foot and 0 to 11.5 inches. Respondents are required to provide their height to the nearest 0.5 inches at this question. Although it is unlikely that a respondent would provide a height to an even greater precision than the nearest half inch, please do take care that this rule is applied.

RM8b – Those respondents that select that they wish to provide their height in centimetres are routed through to this question. Height in centimetres is collected on one screen with the range capped between 90cm and 240cm.

There is a soft check immediately after this question, if the respondent enters a height of 5 feet and 4 inches (or 164cm) or more than 6 feet and 5 inches (or 196cm) to ensure that the correct height has been entered. If this is incorrect, then respondents are routed back to correct their answers.

RM8c – To conclude the height questions is a single coded question which requires respondent to state whether they know their height; accurately, whether their answer was a pretty good estimate, or finally, a guess.

RM9 – Following suit with the height questions, are a selection of questions on the respondents weight. The first of these questions, require the respondent to clarify whether they would rather provide their weight in stones and pounds or kilograms. Once again there is also the option

“cannot give estimate” if respondents are unable to provide an answer to this question, and also a refusal code, if they do not wish to provide this information.

RM9a – Respondents, who select stones and pounds at RM9, are then required to provide their weight in this form at this questions. The range is capped between 3 and 40 stones and 0 and 13 pounds and interviewers will input this data at two separate screens, one for stones and one for pounds.

RM9b – Respondents who wish to provide their weight in kilograms proceed to this question. Weight in kilograms is collected at one screen and must be provided to the nearest kilogram. The range at this question is capped between 20 and 250 kilograms.

Once again, there is a soft check immediately after this question. This appears if the respondent enters a weight of 7 stones (or 45 Kilograms) or more than 18 stones (or 114 kilograms) to ensure that the correct weight has been entered. If this is incorrect, then respondents are routed back to correct their answers.

RM9C – Like with height, the section concludes with a question asking respondent to clarify whether they know their weight accurately, whether it was a pretty good estimate or a guess.

RM12 – The last question in the height and weight series of questions asks respondents to provide their own perception of their weight, in relation to their height. This single coded question requires respondents to clarify whether they are about the right weight, underweight, slightly overweight, or very overweight. There is also don’t know and refused options if required.

Q31 – The health section concludes with a couple of questions on diet. The first requires respondents to state how many portions of fruit they ate yesterday. The term portion is self-defined by the respondent, however if required there are interviewer instructions which provide a precise definition of what constitutes a portion of fruit. This answer is capped between 0 and 99 and there is a don’t know option if required.

Q32 – This question then asks how many portions of vegetables that the respondent consumed yesterday. Once again, the term portion is self-defined by the respondent however, if required, there is a lengthy definition providing a precise explanation of what constitutes a portion of vegetables. This answer is capped between 0 and 99 and there is a don't know option if required.

For both fruit and vegetable consumption questions, there is a check question which appears if respondent enters more than 10 portions of fruit or vegetables. Also the "don't know" option should not be read out to respondents.

Demographics

The Demographics section of this questionnaire has been carefully designed in consultation with the Office for National Statistics and many of these questions are asked in the same way on other studies, so for the sake of comparison it is important that all questions are asked as written. One of the key principles of the National Statistics Code of Practice and Protocol on Statistical Integration is the promotion and use of common statistical frames, definitions and classifications.

The classification that is achieved using responses from these demographic questions allows us to arrange the data according to common properties so that the resulting statistics can be easily reproduced and compared over time as well as between different sources.

It is important that you ask these questions in the same way as any other question in the questionnaire and **DO NOT** preface them with any comments such as:

'I don't like asking this but I have to…'
'Some people don't like these questions'
'You can refuse any of these questions if you want to'

These types of comments will encourage more people to refuse to answer the questions or to worry about what may be being asked.

If a respondent is worried about a specific question they will let you know even if you have not told them they can refuse to answer. If the respondent wants to quit in the demographics section of the questionnaire then do not use the standard 'quit' option. Instead, select the 'respondent quits interview' option from the question list. By choosing this option, you will be taken directly to the local authority questions. Please note that the 'respondent quits interview' option should only be used if the respondent wants to quit the entire interview; if the respondent merely objects to one question, then the standard 'REF' option should be used to move on to the next question.

If a respondent queries why we need this information about them the following assurances may help:

The answers to these questions enable us to group the answers from different people together so we can report, for example, about the habits of people of a particular age group or household type.

Any answers you give me will remain completely confidential, they will only be used for analysis.

We want to be able to look at the experiences of different groups of society so we can measure the sports activities and use of facilities among these groups.

IT IS VERY IMPORTANT THAT WE COLLECT GENDER AND LOCAL AUTHORITY INFORMATION AS A BARE MINIMUM IN ORDER TO GAIN A USABLE PARTIAL INTERVIEW. WITHOUT THESE DETAILS, THE INTERVIEW IS REDUNDANT.

Standard Demographics

D1 Gender

As usual code this, do not read out. An answer should always be coded at this question as it is your responsibility, as the interviewer, to provide it. If the respondent would like to terminate the interview at this stage then please proceed to the next question where you can quit the interview in the usual way (the interview will then jump to the postcode section – the interview will be counted as a usable partial if we are able to identify the respondents' local authority – see section 8 for more details about this).

D1a – Following the interviewer coded gender questions is a question on gender identity, which is asked of 25% of respondent. This read out, single coded question asks respondents "In which of the following ways do you think of yourself," with options of Male, Female or in another way provided.

D2/D3 Age

Ask the age of the respondent, if they refuse then ask which age band. Read out the bands but do not offer the refusal option.

D2a - As 16-25s form a fundamental part of Sport England's new strategy, question D2a is asked to establish whether or not the respondent is either 'aged 25 or under' or 'aged 26 or over,' if the answer to D2 is refused.

D4r Ethnicity

The issue of an individual's ethnic group can, for some, be a sensitive topic. It is therefore important we are sensitive when handling this question but that we also maintain sound methodology.

If you are asked why we need this you may find the following helpful:

***We need to be able to assess the impact of services and policies on different ethnic groups and to monitor any adverse impact of these policies*.**

D4a1/D4a2 Religion

Again, the issue of religion can be a sensitive topic for some.

NB any denominations of the Christian religion should be included as code 1 – for example, Anglican, Baptist, Presbyerian etc.

There is an 'Other – specify' code to use if necessary, first please check that the response cannot be coded under one of the pre-codes.

These questions will be asked of 25% of respondents.

D4b Sexual identity

This may be a sensitive topic for some respondents. The question has been included in the survey since APS5 and prior to this it was extensively piloted by ONS to ensure it is handled sensitively. It is important that you follow the on-screen instructions and read out the question exactly as it appears on-screen. You will be asked to read out the response list twice to the respondent – when you read it for the second time, ask the respondent to say 'yes' when you read out the option that best describes them. Do not read out don't know or refused. Please be reassured that we receive responses to this question from the vast majority of respondents.

If you are asked why we need this you may find the following helpful:

***We need to be able to assess the impact of services and policies on different groups of the population and to monitor any adverse impact of these policies*.**

This sexual identity question will be asked of 25% of respondents.

D7 Accommodation

At this question, always read out the first two options; after that, read the rest of the list and stop when the respondent gives an answer.

D10/D11 Other household members

This section is for gathering information about children living in the respondent's household. The definition of a household is as per the screening section.

Sometimes people are wary of giving out personal details of other members of the household – you may need to reassure them again that any details they give will remain confidential.

Follow the on-screen instructions to gather the number of children aged 15 or under in the household and each of their ages. The number of times age is asked for will be dependent on the number the respondent has said is in the house.

D14/D15/D15a Longstanding illnesses/disability

These questions are to establish whether the respondent has any disabilities or illnesses that may impact their sport or recreational participation. The first of these questions establishes whether the respondent has any longstanding illnesses or disabilities. Follow up questions for respondents with an illness/disability cover whether the illness/disability limits their activities, and if so, in what areas it affects them.

RM14 – In order to ensure pregnancy is accounted for in the data collected at the earlier questions on height and weight, a simple yes or no question is included in the Demographics section of the questionnaire, to establish whether or not the respondent is currently pregnant. This question is only asked to females aged under 55.

Occupation Classifications

We are using various methods of classifying respondents and their household using their occupation. You will be gathering information to allocate a socio-economic group but you will not actually allocate it. The coding department will do this afterwards. They also use the responses (including verbatims) in this section to allocate 'SOC' The Standard Occupation Classification and 'NS-SEC' The National Statistics Socio-Economic Classification. It is therefore important that full details are collected and recorded throughout this section. Please be as thorough as possible when probing the respondent and record any useful information they provide.

D19 – At this question, record the respondent's main status.

Do not read the whole list but prompt from the list to clarify the correct response. For example, if the respondent says that they are not working you should ask whether they are Unemployed, Student or not working for another reason, and then probe further to get the correct response.

If the respondent suggests that they may fit into two categories you should ask for the main one, for example the one that takes up more of their time in an average week. So if, for example, someone has a full-time and a part-time job we would classify them as working full-time.

If queried the following definitions can be used:

Unemployed – not currently in employment but is available to start work within two weeks, and either looked for work in the last four weeks or waiting to start a new job

Long-term absence from work, sick leave, maternity leave etc. – a person is classified as employed if full or partial pay has been received by the worker during the absence and they expect to return to work for the same employer (i.e. a job is available for them).

Career Break / Sabbatical**:** In some organisations employees are able to take a career break for a specified period and are guaranteed employment at the end of that period. If a respondent is currently on a career break they should be coded as employed only if there is an arrangement, between the employer and employee, that there will be employment for them at the end of the break. This is not dependent upon them receiving payment from their employer during this time. The respondent's opinion of whether they have a job to go back to should be taken.

Eda1 – This question is asked of those respondents who have identified that they are not studying (full or part time) at the working status question, in order to identify whether the respondent is currently doing any secondary studying which they haven't had a chance to mention. **Any training which is solely based in the work place should not be included.**

Edb1 – This question is asked to establish the type of institution the respondent is studying at or with, if mentioned at Eda1 that they are studying for a recognised qualification. Most respondents should fall into the categories of Further Education college, Higher Education college or university.

D20 A to C - For the following few questions we are interested in the respondent's main job for the week ending last Sunday.

This reference period is used as standard by the Office for National Statistics to avoid confusion for someone whose titles may change. If the respondent has had more than one job in the reference period then you should ask them to decide which was the main job. If they are unable to

make this decision then you should ask them to select the job with the largest number of hours.

If the respondent is retired then you need to ask about their **last position** when they were working and record these details. It is helpful to reiterate that we are always thinking about their last job throughout the occupation questions.

A. Industry Description – Here you must probe fully. If someone says *I work in a factory* you need to probe '*What does the factory produce'*. If they give you a company name for example *Kodak* you need to probe '*What does Kodak mainly make or do at the place where you work'*

B. Job Title – Here we just need the job title for the period of the week lasting last Sunday. There should be no need to probe further.

C. Job Description – Here we need to know what the job actually entailed. You should probe here for things such as:
- Main task involved
- Level of position

Ca. Qualifications – Record the qualifications required for the position they are in.

D. Employment Status - The division between employees and self-employed is based on respondents' own assessment of their employment status in their main job.

E. Manager or Supervisor – Take care here that the respondent is thinking about employees that they supervise and not patients in the hospital ward, passengers on the bus, etc.

F to I. Employees – The number of employees may be asked in 4 different ways depending on whether the respondent is a supervisor, employee or self employed.

In each instance we need to know the number of people working at the local unit of the establishment. The *local unit* refers to the site where they normally work. This may be part of a building, a whole building or a

self contained group of buildings at one location. The *establishment* refers to the just the company they work for.

We are interested in the total number of people at the local unit not just their own division, department etc.

For people based at a central depot but travel away to work (e.g. a bus driver) the local unit would be the depot.

For people who work at home you need to establish if they have a base office that they are a part of and communicate with. In this instance the base office would the local unit. If unsure you should accept the respondent's opinion of whether they belong to a wider establishment for work purposes or if they work totally independently.

For freelance workers who are subcontracted you need to ask them to think of the main place of work for the reference period of the week ending last Sunday.

Mobile and Internet Use

This section includes a number of questions relating to mobile and internet use.

M1 – The first single coded question asks respondents if they have their own mobile phone, a shared mobile phone or whether they don't own one.

Mob1 – If the respondent has either their own or a shared mobile phone, we then ask a question on how many mobile numbers they are contactable on, with the answer capped between 1 and 10.

Postcode and Local Authority Coding

Collecting the postcode

These questions are to collect the full postcode. It is vitally important that we collect the full postcode on this project as it will be used in the analysis stage in order to group respondents in terms of their local

authority, in their local health authority or the distance from local facilities that they live.

S1 You will ask the respondent for their FULL postcode –

If they know their full postcode, code “yes” and enter it on the following screen.
If they do not know their full postcode code “no”
If they refuse to give you their full postcode you must make every effort to reassure them to give it to you. If this is not successful then code no.

Some respondents may want to know why we need their postcode. If asked you may find the following useful:

“The information will be used to shape local services in the future so we need to confirm exactly where you live. Please be reassured that the answers you give will be added to those from other people in your area for an overall picture.”

Recording the postcode

Pcode1

Most postcodes are in the following format:

Letter, letter, number, *SPACE,* number, letter, letter
e.g. HA1 2QG

However you can get B2 1XY, or EC1A 4QQ.

The only hard rule is that they always begin with a letter, and end *SPACE,* number, letter, letter.

Some respondents may give you an area in place of the first letter or letters, for example ‘Southwest 1 3BP’ or ‘Liverpool 2 3RW’. In these instances please explain that you are not familiar with the postcode from their area and ask them to tell you what letters represent Southwest or Liverpool in their postcode.

When entering the postcode listen very carefully and do not be afraid to prompt as letters can be confused over the ‘phone – P/B, T/D, N/M, F/S etc.

If postcode matched – you will be routed to the address check

If postcode not matched first time – you will be routed back to verify that the postcode has been given or entered correctly

If postcode not matched second time – you will be routed to ask for their town or village

Address Check if postcode matched

Pcode2 / Pcode3
Once the postcode has been matched to the database you will be shown the respondent’s street name. Please read this back to the respondent to confirm we have the correct area. On some occasions you may find that the computer displays e.g. Harrow road for that postcode when the respondent lives at 8 Harrow court, Harrow road. As long as the property is on Harrow road then this is fine.

If address matched – you will be routed to ask house name or number

If address not matched first time – you will be routed back to verify that the postcode has been given or entered correctly

If address not matched second time – you will be routed to ask for their town or village. To ensure the town or village details are as accurate as possible, also ask the respondent confirm the county.

House number / name if address and postcode matched
For the example of Harrow court above you would type ‘8 Harrow court’ as the house number or name.

If the respondent asks why we need to collect the house number/name, just say that this will only be used to verify their local authority in which they live and it will not be used for any other purpose. The respondent does have the option to refuse this question.

Collecting town or village details

ADD1
For all respondents who have not given you a full postcode that is successfully matched to the database, where the road or street name provided by the database is not the same as the respondent's, you will ask them for the name of their town or village and the county.

This is entered into a database in the same way as the activities were earlier on. However on this database please try and type in as much of the word as possible. The database will not only search on the list of towns and villages but also the county details.

In some instances there will be a number of matches for the town searched in the database. The database will display county name alongside the name of each town, so as to remove any confusion of exactly which town the respondent is referring to. If necessary, ask the respondent which county they live in, and code the appropriate town based on this.

If the respondent lives in London, please ask which area they live in.

If town matched – you will be routed to check the county and then onto ask whether the respondent can provide part of their postcode

If town not matched – code NULL and you will need to type in the town and county the respondent lives in

If town refused – code REF and you will be routed to ask about partial postcode

Partial postcode

ADD1a
This question asks the respondent to provide the first part of their postcode. Record any postcode details that the respondent can provide – e.g. first two letters and number etc.

Local Authority

This will also be asked of all respondents where the full postcode is not confirmed. Ask the question as on the screen. If the respondent does not spontaneously answer read the list displayed of likely authorities. This list has been generated based on the telephone number on the sample. If you do need to read the list, read the whole list until the respondent stops you.

If you select “other” you are taken to another database of all Local Authorities. Search the database as before to find the local authority mentioned.

If there is no match code NULL and enter verbatim the LA they have given to you. If necessary ask for them to repeat it. If the respondent lives in London, please prompt for the Borough they live in, for example Hammersmith and Fulham or Southwark.

14-15 Child Survey Overview

The child questionnaire is largely the same as the adult questionnaire, though a number of sections and questions have been removed. The child interview should last between 10 and 12 minutes on average.

Introduction and screening

The introduction to the survey is similar to that of the main adult survey, but mentions that we have spoken to the child’s parent and gained permission to interview them. Before the main questions begin, we also ask the child to confirm their age, so that we are sure we’re interviewing children of the correct age.

Walking and cycling section

These sections are the same as in the adult interview, but the question text for each section asks the child to think about journeys including trips to and from “school or a part-time job”, as well as the other types of journeys asked about in the adult interview.

Sports and recreation (including sports database)

These questions are the same as asked in the adult interview. Child respondents are allowed to mention activities that they took part in at school, although this is not mentioned in the question text.

Club, instruction, competition

These questions are the same as in the adult questionnaire

Sports volunteering

The response codes on this question have been amended slightly as appropriate for child interviews. Code 5 (providing transport) will not be asked in the child interview.

Sports provision

This question is the same as in the adult questionnaire.

Change in participation / likelihood to do more sport

These questions are the same as in the adult questionnaire

Dance / gardening section

This section is not asked in the child questionnaire.

Health section

This section is not asked in the child questionnaire.

Demographics and LA coding

Many of the demographics questions have been removed from the child questionnaire, either because they are not suitable to ask of children, or because we will already have gained the information from the adult interview. The demographics that remain in the child survey are:

Gender
Ethnicity
Health
Illness/disability

School/School year/School holiday

The LA coding section of the interview is also removed for 14-15 year olds.

Some new questions have been added to the end of the child 14-15 questionnaire, to establish whether the child goes to school, which school year they are currently in, and whether they have been on school holidays in the last four weeks.

Re-contact question

No re-contact question is asked in the child questionnaire.

Closing the child interview:

There is no “closing card” on the child script, as this will have been read to the adult at the end of the main interview. Once the child interview is finished and you have thanked them for their participation, you may finish the call.

KPI Complete

The Client has agreed that once we have a certain amount of information that we can include the respondent as a KPI complete - that is a key performance indicator.

If at any stage AFTER the first gender question (D1) the respondent wishes to quit then we can still include their data, AS LONG AS we also get the postcode and local authority information completed. It is obviously preferable to us to have the complete data if possible, so you should use this option only as a last resort if you think the respondent is about to quit altogether.

Therefore for any quits after this stage you should type ‘quit’ in the usual way.

The script will then take you to the postcode question as this is the final information we need to make the answers complete.

Closing the Interview

Re-contact

Finally you will find a couple of re-contact questions asking for permission to be contacted on Sport England's behalf in the future. Read as on the screen.

Please take care here that the correct telephone number is read out as is displayed on the screen.

Those who agree to be re-contacted will then be asked for their name and email address. Read back the email address to the respondent before moving on to next question.

Hang-up

At this stage you will thank and close the interview. Here you can type * hang-up.

Review demographics – If you need to tidy up the demographic details you entered now is the time to do so.

And Finally…

The success of this project is largely down to you, the interviewers. You will be working on this project a lot over the coming months. It is important to remember that although you have read the script countless times, you need to stay focused on the job, and fresh sounding on each and every call you make.

Thank you for your efforts for helping to make a project of this size a reality for TNS.

The Active People Survey Management Team

Appendix D – Activities database

Activity	Included on database for Q16, 17, 18	Intensity label	Change	Change implemented
ABSEILING	Yes	Light, moderate or vigorous		
~~AEROBICS~~	Yes	Moderate or vigorous		
Aerobics - Class	Yes	Moderate or vigorous	New activity	Start of APS9
Aerobics - DVD/Virtual trainer	Yes	Moderate or vigorous	New activity	Start of APS9
AIKAIDO	Yes	Moderate or vigorous		
AIR CHAIR	Yes	Light, moderate or vigorous		
AMERICAN FOOTBALL	Yes	Vigorous only		
~~ANGLING~~	Yes	~~Light, moderate or vigorous~~	DELETED	APS2 22 October 2007
AQUAFIT / AQUACISE / AQUA AEROBICS	Yes	Light, moderate or vigorous		
ARCHERY	Yes	Light, moderate or vigorous	Intensity level change	APS2 Start of APS2
ARM WRESTLING	Yes	Light, moderate or vigorous		
ATHLETICS - FIELD	Yes	Moderate or vigorous		
ATHLETICS - TRACK	Yes	Moderate or vigorous		
AUSTRALIAN RULES FOOTBALL	Yes	Light, moderate or vigorous		
AUTO CROSS	Yes	Moderate or vigorous		
Autotest	Yes	Moderate or vigorous	New activity	APS3 Start of Q3
BACKPACKING	Yes	Light, moderate or vigorous		
~~BADMINTON~~	Yes	~~Moderate or vigorous~~	-	
Badminton - indoor	Yes	Moderate or vigorous		
Badminton - outdoor	Yes	Moderate or vigorous		
~~BASE JUMPING - BUILDINGS / ANTENNA / SPAN / EARTH~~	Yes	~~Light, moderate or vigorous~~	DELETED	APS3 18 January 2009
BASEBALL	Yes	Moderate only		
~~BASKETBALL~~	Yes	~~Moderate or vigorous~~	-	
Basketball - indoor	Yes	Moderate or vigorous		
Basketball - outdoor	Yes	Moderate or vigorous		
BATON TWIRLING	Yes	Moderate or vigorous	New activity	APS2 Start of APS2
Biathlon	Yes	Moderate or vigorous	New activity	APS3 Start of Q3
Bicycle Polo	Yes	Moderate or vigorous	New activity	APS3 Start of Q3

YACHTING - LAND	Yes	Light, moderate or vigorous		
~~YACHTING - OCEAN RACING~~	Yes	~~Moderate only~~	DELETED	APS4 Start of APS4
~~YACHTING (CRUISING OR RACING) - INSHORE/COASTAL~~	Yes	~~Moderate only~~	DELETED	APS4 Start of APS4 (activity added start of APSS2)

Activity	Included on database for Q16, 17, 18	Intensity label	Change	Change implemented
~~YACHTING (CRUISING OR RACING) - OFFSHORE~~	Yes	~~Moderate only~~	DELETED	APS4 Start of APS4 (activity added start of APSS2)
~~YACHTING (CRUISING OR RACING) - OTHER~~	Yes	~~Moderate only~~	DELETED	APS4 Start of APS4 (activity added start of APSS2)
~~YOGA~~	Yes	Light, moderate or vigorous	Intensity level change	APS2 Start of APS2
Yoga - Class	Yes	Light, moderate or vigorous	New activity	Start of APS9
Yoga - DVD/Virtual trainer	Yes	Light, moderate or vigorous	New activity	Start of APS9
Zumba	Yes	Moderate or vigorous	New activity	Start of APS6 Q2 but backcoded to start of APS5

Appendix E – Sample management rules

Excluded from response rate calculation	Ineligible	Detail
Dead	Always no reply	20 consecutive 'no replies' outcomes (15 on first issue and 5 on reissue).
Dead	Always engaged	20 consecutive 'engaged' outcomes (15 on first issue and 5 on reissue).
Dead	Always answer phone	20 consecutive 'answer phone' outcomes (15 on first issue and 5 on reissue).
Dead	Always fax / data line	6 consecutive 'fax or dataline' outcomes (3 on first issue and 3 on reissue)
Dead	Always no reply or engaged or answer phone	20 consecutive 'no replies or engaged or answer phone' outcomes (15 on first issue and 5 on reissue).
Dead	Duplicate	A number duplicated in the sample
Dead	Business number	Known business numbers have been excluded from sample but some will still be present
Dead	Unobtainable - checked	6 consecutive 'unobtainable' outcomes (3 on first issue and 3 on reissue)
Dead	Other non interview e.g. deaf, no English speakers or Urdu, Hindi, Gujerati	
Dead	Outside sample frame	Non English numbers excluded, out of quota
Dead	Complete - No postcode/LA/Address	A completed interview where no LA can be allocated
Dead	KPI complete - No postcode/LA/Address	A completed interview where respondent quits in the demographics and where no LA can be allocated
Dead	30 times tried – no contact (40 times in APS5 and APS6)	Any sample reaching 30 calls where it has not been possible to confirm that the number is an eligible household (40 times in APS5 and APS6)

Included in response rate calculation	Ineligible	Detail
Used	Complete	All questions answered, LA verified
Used	KPI complete	Q1 to Q15, Q19 and Q24 answered, LA verified
Used	Quit interview	A quit between Q1 and Q24
Used	Stopped interview	Interview stopped by respondent
Used	Hard refusal - initial contact	Refusal during survey introduction.
Used	Hard refusal - next birthday	Refusal at screener S4
Used	Hard refusal - respondent name	Refusal at screener S5
Used	Hard refusal - won't pass to respondent	Refusal at screener S6
Used	Hard refusal - respondent	Refusal at screener S9
Used	Soft refusal - reissued - initial contact	Soft refusal during survey introduction.
Used	Soft refusal - reissued - next birthday	Soft refusal at screener S4
Used	Soft refusal - reissued- respondent name	Soft refusal at screener S5
Used	Soft refusal - reissued - won't pass to respondent	Soft refusal at screener S6
Used	Soft refusal - reissued - respondent	Soft refusal at screener S9
Used	Soft refusal - reissued - proxy	Soft refusal by other member of household after eligible respondent has been confirmed.
Used	Soft refusal - reissue always eng / no rep / fax	Soft refusal reissued 5 consecutive no reply or engaged or 3 consecutive fax or dataline
Used	30 times tried – contact (40 times in APS5 and APS6)	Any sample reaching 30 calls where it is confirmed that the number is an eligible household (40 times in APS5 and APS6)

Appendix G – NS-SEC Classification

Outline of NS-SEC classification

The script contains all the questions required to derive NS-SEC using the full method. NS-SEC is derived from SOC Unit Group – coded from questions A to C on the questionnaire and an Employment Status/Size of Organisation variable – calculated using questions D to I.

A. SOC CODING

SOC coding comes from responses to A / A2 to Cb / Cb2 on the script.

Word of warning on statistical software: the derivation tables contain values with decimal places that relate to the operational sub-categories (31, 3.2 etc.). With most statistical software, precision problems can arise if the variables are defined as numeric values. ONS recommend that NS-SEC variables as names rather than numeric values so that they will not be picked up as figures to be included in calculations.

- There are 353 SOC codes.
- SOC Codes 1111 to 1239 are all classed as managers
- SOC codes 2111 to 9259 are not

B. DERIVING THE EMPLOYMENT STATUS/SIZE OF ORGANISATION VARIABLE FROM CATI DATA

The employment status/size variable has seven codes derived as follows:

1. Employers – large organisations

   I / I2 = 2 OR 3.

2. Employers – small organisations

   I / I2 = 1 (OR I / I2 = DK, REF).

3. Self-employed / no employees

   H / H2 = 1 (OR H / H2 = DK, REF).

4. Managers – large organisations

SOC CODE = 1111 to 1239 AND F / F2 = 2 OR 3.

5. Managers – small organisations

SOC CODE = 1111 to 1239 AND F / F2 = 1 (OR F / F2 = DK, REF).

6. Supervisors

SOC CODE = 2111 to 9259 AND E / E2 = 1.

7. Other employees

SOC CODE = 2111 to 9259 AND E / E2 = 2 (OR IF E / E2 = DK, REF).

C. CREATING NS-SEC CLASSIFICATIONS

The following variables will be computed from SOC and Employment status/size:

1. NS-SEC Full Operational Categories
2. NS-SEC Combined Operational Categories
3. NS-SEC Analytic Classes
4. Approx. Social Class
5. Approx. SEG

1. NS-SEC Full Operational Categories

The table below gives the NS-SEC Full Operational Categories. These are derived using NS-SEC derivation tables based on SOC2000 using priority order rules[19].

National Statistics Socio-economic Classification Full Operational Categories	
L1	Employers in large organisations
L2	Higher managerial
L3.1	Higher professionals (traditional) – employees
L3.2	Higher professionals (new) – employees
L3.3	Higher professionals (traditional) - self-employed
L3.4	Higher professionals (new) - self-employed
L4.1	Lower professionals and higher technical (traditional) – employees
L4.2	Lower professionals and higher technical (new) – employees
L4.3	Lower professionals and higher technical (traditional) - self-employed
L4.4	Lower professionals and higher technical (new) - self-employed

19 See The National Statistics Socio-economic Classification: User Manual for full derivation tables

L5	Lower managerial
L6	Higher supervisory
L7.1	Intermediate clerical and administrative
L7.2	Intermediate sales and service
L7.3	Intermediate technical and auxiliary
L7.4	Intermediate engineering
L8.1	Employers in small organisations (non-professional)
L8.2	Employers in small organisations (agriculture)
L9.1	Own account workers (non- professional)
L9.2	Own account workers (agriculture)
L10	Lower supervisory
L11.1	Lower technical craft
L11.2	Lower technical process operative
L12.1	Semi-routine sales
L12.2	Semi-routine service
L12.3	Semi-routine technical
L12.4	Semi-routine operative
L12.5	Semi-routine agriculture
L12.6	Semi-routine clerical
L12.7	Semi-routine childcare
L13.1	Routine sales and service
L13.2	Routine production
L13.3	Routine technical
L13.4	Routine operative
L13.5	Routine agricultural
L14.1	Never worked
L14.2	Long-term unemployed
L15	Full-time students
L16	Occupations not stated or inadequately described
L17	Not classifiable for other reasons

In some case Full Operational Categories are derived directly from working status questions so do not require SOC or Employment status/size.

These cases are outlined below:

Creating Operational categories straight from D19 / D192

D19 / D192 = 4. NS-SEC CODE = L14.2
D19 / D192 = 8. NS-SEC CODE = L15
D19 / D192 = REF. NS-SEC CODE = L17

Creating Operational categories straight from D19a / D19a2

If D19a = 2. NS-SEC CODE = L14.1

On other cases with missing data Full Operational Categories can be derived as follows:

Creating Operational categories if D / D2 is don't know or refused

D / D2 = DK, REF. CODE NS-SEC USING SOC2000 AND SIMPLIFIED NS-SEC COLUMN.

Creating Operational categories if D19a / D19a2 is don't know or refused
CODE NS-SEC USING SOC2000 AND SIMPLIFIED NS-SEC COLUMN.

Creating Operational categories if no SOC is coded

IF SOC2000 CANNOT BE CODED. CODE NS-SEC = L16.

2. NS-SEC Combined Operational Categories

A combined version of the list can then be derived from the Full list as follows:

1	L1	Large employers
1.1	L2	Higher managerial occupations
1.2	L3	Higher professional occupations
2	L4	Lower professional and higher technical occupations
2	L5	Lower managerial occupations
2	L6	Higher supervisory occupations
3	L7	Intermediate occupations
4	L8	Employers in small organisations
4	L9	Own account workers
5	L10	Lower supervisory occupations
5	L11	Lower technical occupations
6	L12	Semi-routine occupations
7	L13	Routine occupations
8	L14	Never worked and long-term unemployed
9	L15	Full time students
9	L16	Occupations not stated or inadequately described
9	L17	Not classified for other reasons

3. NS-SEC Analytic Classes

Analytic Classes can then be derived from the combined list as follows:

1. Higher managerial and professional occupations
2. Large employers and higher managerial occupations
3. Higher professional occupations
4. Lower managerial and professional occupations
5. Intermediate occupations
6. Small employers and own account workers
7. Lower supervisory and technical occupations
8. Semi-routine occupations
9. Routine occupations
10. Never worked and long term unemployed
11. Not classified

4. Social Class

Approximate SC can be derived from NS-SEC Full Operational Categories as show below:

Social Class		NS-SEC Full Operational Categories
I	Professional, etc. occupations	3.1, 3.3
II	Managerial and Technical occupations	1, 2, 3.2, 3.4, 4.1, 4.3, 5, 7.3, 8.1, 8.2, 9.2
III N	Skilled occupations - non-manual	4.2, 4.4, 6, 7.1, 7.2, 12.1, 12.6
III M	Skilled occupations - manual	7.4, 9.1, 10, 11.1, 12.3, 13.3
IV	Partly skilled occupations	11.2, 12.2, 12.4, 12.5, 12.7, 13.1, 13.2, 13.5
V	Unskilled occupations	13.4

5. Socio-economic Group (SEG)

Approximate SEG can be derived from NS-SEC Full Operational Categories as shown below:

Socio-economic Group			NS-SEC Operational Categories
1	Employers and managers in central and local government, industry, commerce, etc. - large establishments		
	1.1	Employers in industry, commerce, etc. - large establishments	1
	1.2	Managers in central and local government, industry, commerce, etc. - large establishments	2
2	Employers and managers in industry, commerce, etc. - small establishments		
	2.1	Employers in industry, commerce, etc. - small establishments	8.1
	2.2	Managers in industry, commerce, etc. - small establishments	5
3	Professional workers - self-employed		3.3
4	Professional workers - employees		3.1
5	Intermediate non-manual workers		
	5.1	Ancillary workers and artists	3.2, 3.4, 4.1, 4.3, 7.3
	5.2	Foremen and supervisors non-manual	6
6	Junior non-manual workers		4.2, 7.1, 7.2, 12.1, 12.6,
7	Personal service workers		12.7, 13.1
8	Foremen and supervisors - manual		10
9	Skilled manual workers		7.4, 11.1, 12.3, 13.3
10	Semi-skilled manual workers		11.2, 12.2, 12.4, 13.2
11	Unskilled manual workers		13.4
12	Own account workers (other than professional)		4.4, 9.1
13	Farmers - employers and managers		8.2
14	Farmers - own account		9.2
15	Agricultural workers		12.5, 13.5
16	Members of armed forces		-
17	Inadequately described and not stated occupations		16
