

SCOTTISH SOCIAL ATTITUDES 2015

DOCUMENTATION OF THE BLAISE QUESTIONNAIRE *29.10.2015*

Notes:

1. This is an edited documentation of the Blaise program. Not all variables that appear here are on the SPSS file. Those that are not are marked with a '\$' after the question name. Similarly, not all derived variables that are on the SPSS file are mentioned here (though most are listed in footnotes). See also separate documentation of derived variables.
2. Unless otherwise specified, 'Don't Know' is code 8 (code 98 where there were more than 7 other answer options).
3. Unless otherwise specified, 'Refusal/Not answered' is code 9 (code 99 where there were more than 8 other answer options). Where there is an explicit 'Refusal' code (usually code 7 or 97), then code 9 (or 99) is reserved for 'Not answered' only.
4. Sections in brackets and italics were textfilled as appropriate on the interviewers' computers.
5. Routing instructions appear above the questions. A routing instruction should be considered to stay in force until the next routing instruction.
6. '(NOT ON SCREEN)' means that the question did not appear on the interviewers' or data editors' screens. '(EDIT ONLY)' means it appeared on screen for the editors but not the interviewers – relevant this year? Individual codes marked 'EDIT ONLY' were used by the editors to reclassify 'other' answers, but did not appear on screen for the interviewer or on showcards for respondents.
7. For some questions respondents could give an answer other than one of those listed in the codeframe (these are generally indicated in code frame by the instruction: (WRITE IN)). Such answers were recorded verbatim and examined during the editing process to see whether any could be 'back-coded' to one of the existing answer categories. The original open text answers are not available on the SPSS file and have not been detailed within this documentation.
8. The self-complete section is administered as a Computer Assisted Self Interview (CASI). Until 2011 this was done as a pen and paper survey.

CODING AND EDIT INSTRUCTIONS

General notes:

- * Partial productives (outcome code 210) are those questionnaires where the CAPI questions have been answered but not the CASI. Please check that serial numbers with outcome code 210 fit this.
 - Outcome code 110: productive interview with CASI, should be coded as such if variable <Sexualit2> is completed
 - Outcome code 210: partial productive with no CASI, should be coded as such if variable <Soctrust> is completed
- * Partials should be filled out with refusals (Control and R) to the end of the questionnaire. An 'unproductive' partial (outcome code 440) is one where less than this but at least some attitude questions are completed.
- * Please check whether any 'Other (WRITE IN)' answers can be backcoded to existing response options.
- * Where an 'Other (WRITE IN)' question contains 'Don't Know' or 'Refusal' the original question should be recoded 'Don't Know' or 'Refusal' instead of 'Other'.
- * All NotePad notes, whether attached to an open-ended question or not must be read and any 'obvious' recoding done. Please TAB any that you are uncertain about.
- * The NotePad files must be kept and handed over to the research team with the edited qre data file.

About Scottish Social Attitudes 2015

Scottish Social Attitudes (SSA) is one of ScotCen's best known surveys. Like its sister series, British Social Attitudes, results are widely publicised and used by journalists, academics, politicians, students and charities. Its core aim is to provide reliable information about the changing attitudes and values of the Scottish public. It has tracked the views of people in Scotland since 1999. Every year, around 1,200 - 1,500 people are interviewed on a range of topics.

As with previous years, SSA 2015 features a CAPI questionnaire with a CASI self-completion section at the end.

Here is the basic structure of the interview (NB some of these sections are quite short and some don't have any questions that need to be checked in the edit programme)

- Household grid (repeated from last year and same as BSA)
- Newspaper readership (repeated from last year and same as BSA)
- Religion
- Party identification (repeated from last year and same as BSA)
- Constitutional change
- Core module (language questions)
- Discrimination
- Core module
- Discrimination part 2
- Core module - social capital
- Self-completion (CASI)
- Classification and background section (repeated from last year and same as BSA)

In terms of coding, the vast majority of questions that need checked simply involve identifying whether 'other – write in' responses can be back coded to standard response categories.

'The Metro' now has its own separate category – code 17.

Add a code 96 for '**More than one paper read with equal frequency**' and use wherever there are two or more daily morning papers mentioned (exclude 'free sheets' other than The Metro).

Code 94 should be used for **British, Scottish or Irish regional daily morning** papers (DO NOT include any 'free sheets'). Check whether any can be recoded into the main code frame or code 96. This is a list of examples of such daily morning regional papers, which **should** be coded 94:

Birmingham Post
Daily Post (Liverpool)
Daily Post (Wales)
Eastern Daily Press
East Anglia Daily Times
Irish News
Jang
(Newcastle) Journal
Newsletter (Ulster)
Northern Echo
Western Daily Press
Western Mail
Western Morning News
Yorkshire Post

Note that the following Scottish morning papers should be recoded into the main code frame:

- Scottish Daily Express: code 1
- Scottish Daily Mail: code 2
- Scottish Mirror: code 3
- Daily Record: code 6
- The Scotsman: code 13
- The (Glasgow) Herald: code 14
- The (Aberdeen) Press and Journal (sometimes called the P&J) : code 15
- The (Dundee) Courier: code 16

Any other papers mentioned should be checked for whether they are **daily morning** papers, typing their name into an internet search engine such as www.google.co.uk will probably help.

Please note that the following are **evening or weekly papers** and should therefore be **recoded 'no' at [SReadPap]** if they are the sole paper coded at WhPaper:

(Aberdeen) Evening Express
 (Edinburgh) Evening News
 (Glasgow) Evening Times
 (Dundee) Evening Telegraph
 Greenock Telegraph
 Paisley Daily Express
 Shetland Times
 Stirling Observer
 West Highland Free Press

See http://en.wikipedia.org/wiki/Scottish_newspapers for longer lists of Scottish local papers.

Code 95 should be used for **other daily morning papers** (e.g. foreign daily morning papers) - do not include free papers. Please check whether any can be recoded as 94.

Code 94 (Aggregator news service (e.g. Google/MSN/Virgin/BT/Yahoo/AOL/Orange)) – This code is for search engine sites that are not primarily about providing news but do offer a news service e.g. MSN, Google, Yahoo, Virgin, Orange, BT, AOL etc.

NB. As a follow up for code 94, Newsp.othaggr.othspec has been added as a variable for capturing further info. Please check details and if any are incorrect backcode to 1 to 24. Otherwise leave as 94.

Code 95 (Other – UK site) – Check whether any can be recoded.

- Code 95 does **NOT** include search engine sites, or sites that are not primarily about providing news e.g. MSN, Google, Yahoo, Virgin, Orange, BT etc. These should be coded as Code 94 (Aggregator news service (e.g. Google/MSN/Virgin/BT/Yahoo/AOL/Orange)).

If in any doubt please 'TAB'.

- Code 95 does include UK local or regional newspaper websites e.g. Edinburgh Evening News.

Code 96 (Other – Foreign site) - Check whether any should be recoded.

It may help to check if a site is a **foreign** news website by typing the name into an internet search engine

such as www.google.co.uk. However, only recode if you are absolutely sure that they are a **foreign** news website - if in any doubt please TAB.

Code 97 (Other – General) - Check whether any can be recoded.

Code 0 (None) is an additional option for Wnwsite2 (asking about second most read news site). If this has been selected but there are also interviewer notes, check whether can be recoded as 1 to 94.
