UK Data Archive SN 6931 - Understanding Society: Waves 1-13 and harmonised British Household Panel Survey: Waves 1-18: Special Licence Version

Date: 01 November 2023

This document describes the differences between the Special Licence (SN 6931) and the End User Licence (SN 6614) versions.

The following tables show the variables that are unique to the Special Licence (SL) version when compared to the End User Licence (EUL) version on a file by file basis. If a file is not shown there are no differences between the versions.

The variables excluded from the EUL version relate to month of birth (day of birth is not included in either version), full occupation codes, rare country of birth / nationality occurrences, and the full urbanrural classification. Data users should also note that the income variables have been top-coded for the EUL release.
